LOS ANGELES, Cal.—The city engineer has been authorized to prepare and present to the city council an ordinance of intention for the improvement of streets in the Baird Ave. and Valerio St. Improvement District (540.05 ft. center line) involving:

- (1) grading (5817 cu. yds. cut, 643 cu. yds. fill);
- (2) 137,099 sq. ft. 6-in. concrete paving (8401 ft. expansion and construction joints);
- (3) 597 sq. ft. 4-in. concrete driveways;
- (4) 58,592 sq. ft. oiled roadway;
- (5) 2266 ft. unplastered light concrete curb;
- (6) 8253 sq. ft. 1-course conc. walk;
- (7) 6785 sq. ft. 6-in. conc. gutter;
- (8) water system (not inc. services);
- (9) 6 water services;
- (10) lighting conduit.

Remove: 1900 sq. ft. oiled roadway, one 12-in. tree.

Engineer's estimate, \$32,278.03 (revised).

SAN GABRIEL, Los Angeles Co., Cal.—Until 7:30 P. M., July 5 (tentative date) bids will be received by the city council to pave Santa Anita St. bet. Las Tunas Drive and Mission Drive, under cash contract. Grading is being done by R. F. C. forces. C. N. Wright, city engineer, Pacific Electric Railway Bldg., Los Angeles, prepared the plans. The work will involve:

- (1) 37,800 sq. ft. 6-in. asphalt concrete paving;
- (2) 20,330 sq. ft. 2-in. oil macadam.

OREGON STATE.—Until June 28, 9 A. M., bids will be received by State Highway Commission, Multnomah Hotel, Portland, to construct 15.95 miles asphaltic concrete pavement, Aurora-Brooks and Canby Sections, Pacific Highway. Project will be let in two units of approximately equal size. Contractor may bid on either or both units. Specifications obtainable from State Highway Commission, Rm. 322, State Office Bldg., Salem, on deposit of \$5.

UKIAH, Mendocino Co., Cal.—Bids received from Chas. Kupfinger, Lakemport; Pacific Truck Service, Inc., San Jose; E. A. Forde, San Anselmo; and Helwig Const. Co., Sebastopol, for road surfacing, as follows:

- (1) 12,933 sq. ft. asph. road surface (armor coat);
- (2) 7540 sq. yds. asph. road surface (dust oil).

HUMBOLDT COUNTY, Cal.—Until July 5, 2 P. M., bids will be received by C. H. Sweetser, District Engineer, U. S. Bureau of Public Roads, 461 Market St., San Francisco, for 4.587 miles of grading Section A, Route 51, Hoopa National Forest Highway, Trinity National Forest, involving:

- (1) 41 acres clearing;
- (2) 370,300 cu. yds. unclass. excav.;
- (3) 3,850 cu. yds. unclass. excavation structures;
- (4) 171,500 sta. yds. overhaul;
- (5) 4,587 miles finish earth graded road;
- (6) 65 MFEM timber cribbing;
- (7) 57 cu. yds. concrete;
- (8) 3,270 lbs. reinf. steel;
- (9) 3,233 lin. ft. corru. metal pipe;
- (10) 112 cu. yds. hand laid rock embankment;
- (11) 40 right of way monuments;
- (12) 3 spillway inlets.

Specifications obtainable from the above office on deposit of \$10; certified check payable to Regional Fiscal Agent, U. S. Forest Service.

UNIT BID SUMMARY

Compiled from the Daily News Service of Pacific Constructor

HETCH HETCHY AQUEDUCT PIPE LINES — S. F.

SAN FRANCISCO.—Until July 7, 3 P. M., bids will be received by Public Utilities Commission, Felton Taylor, Secretary, under Hetch Hetchy Water Supply Contract 142, to construct pipe lines, Coast Range Division, Hetch Hetchy Aqueduct (Alameda Creek Siphon and Tesla Portal connection) as follows

PROP. A: Steel pipeline and acces-

sories, Section No. 1, Alameda Creek, PROF. A, Section No. 2: Tesla Portal.

PROP. B: Steel Cylinder Reinforced concrete pipe, with short lengths of steel pipe, Section 1, Alameda Creek.

PROP. B: Section No. 2, Tesla Portal.

Quantities and unit prices follow:

	Prop. A1	Prop. A2	Prop. B1	Prop. B2
(1) 72-in. steel pipe 3/8-in. plate per ft.	\$ 3,040	\$ 565	\$ 105	\$ 565
(2) mortar cover do, 3/4-in. thick	2,225	568	90	568
(3) gunitite lining, 2-in. thick, 10' 6" steel pipe	108	137	108	137
(4) manholes	2		2	
(5) saddle nozzles, per lb.	1,400		1,400	
(6) steel plate nozzle, 48" tapered 36"	L. S.		L. S.	
(7) steel plate nozzle, 42"	L. S.		L. S.	
(8) 6-in. gate valves, non-rising stem	2		2	
(9) 8-in. do, rising stem	1		1	
(10) 12-in. gate valve, non-rising stem	1		1	
(11) 16-in. do, non-rising stem	1		1	
(12) 6-in. air valves	2		2	
(13) air release valve	1		1	
(14) steel frames and covers for valve and manhole boxes, lb.	1,400		1,400	
(15) structural steel frames, per lb.	6,200	2,800	6,200	2,800
(16) flanged e.i. pipe & fittings, per lb.	8,000		8,000	
(17) 15-in. reinf. conc. pipe, per ft.	130		130	
(18) 6-in. drain tile, per ft.	200	325	200	325
(19) steel bolts, nuts, washers, per lb.	500	100	500	100
(20) steel manifold sections, per unit	2	1	2	1

BIDS OPENED

IDAHO STATE.—J. W. Brennan & Co., Pocatello, Idaho, at \$4455 submitted low bid to U. S. Bureau of Reclamation, Denver, Colo., to construct lateral structures, Gooding Division, Minidoka project, Idaho, involving:

- (1) 750 cu. yds. excav., struc., Class 1;
- (2) 105 cu. yds. do, Class 2;
- (3) 20 cu. yds. do, Class 3;
- (4) 465 cu. yds. backfill;
- (5) 365 cu. yds. puddling or tamping backfill;
- (6) 165 cu. yds. rubble masonry;
- (7) 85 cu. yds. concrete, checks and culverts;
- (8) 95 cu. yds. concrete, other struc.
- (9) 3550 lbs. place reinf. bars, checks and culverts;
- (10) 4200 lbs. place reinf. bars, other struc.;
- (11) 360 lin. ft. lay 12-in. corr. metal pipe;
- (12) 65 lin. ft. 18-in. do;
- (13) 75 lin. ft. 24-in. do;
- (14) 3 MFBM erect timber in weirs, orifices and checks;
- (15) 4200 lbs. install gates and gate lifts.

Complete bids (a) total for schedule exclusive of item (6); (b) total, exclusive of items (7) and (9).

- (A) J. W. Brennan, Pocatello, (a) \$4,455; (b) \$4523.
- (E) Long & Ramsey, Gooding, (a) \$4,491; (b) \$4505.
- (C) C. J. Gabbey, Boise, (a) \$4536.50; (b) \$4555.00.
- (D) Bell & Morgan, Rupert, (a) \$4,868.75; (b) \$4920.25.
- (E) Kovalsky Bros., New York, (a) \$10,381.10; (b) \$10,076.80.

SAN DIEGO COUNTY, Cal.—Griffith Co., 502 L. A. Railway Bldg., Los Angeles, at \$10,611 submitted low bid June 21 to District Engineer, State Highway Commission, Los Angeles, for highway construction between Sorrento Creek and Del Mar, about 0.25 mi. in length to be graded and paved with portland cement concrete. Complete bids follow:

(A) Griffith Co., Los Angeles, \$10,611.
 (B) Weymouth Crowell Co., Los Angeles, \$11,630.45.
 (C) Matich Bros., Elsinore, \$11,931.50
 (D) L. G. Carroll, San Diego, \$12,123.50.
 (E) V. R. Dennis Co., San Diego, \$12,881.
 (F) Walter Treptke, San Diego, \$12,965.50.

TUOLUMNE COUNTY, Calif.—Until July 5, 3 P. M., bids will be received by R. E. Pierce, District Engineer, State Highway Commission, Room 502 State Office Bldg., Sacramento, to grade and pave with Portland cement concrete 0.6 mile at Sonora, and to widen two bridges, involving:

- (1) 6 trees, remove and dispose of;
- (2) 1700 cu. yds. rdwy. excav., unclassified;
- (3) 7100 sta. yds. struc. excav.;
- (4) 175 cu. yds. struc. excav.;
- (5) 235 cu. yds. Class A Portland cement conc. (pavement widening);
- (6) 35 cu. yds. do (struc.);
- (7) 112 cu. yds. Class C do (struc.);
- (8) 32 lin. ft. 12-in. corrug. metal pipe
- (9) 54 lin. ft. 18-in. do;
- (10) 16 1/2 in. ft. 21-in. do;
- (11) 3 move and reset headwalls;
- (12) 12 cu. yds. conc., remove from existing pave. and struc.;
- (13) 130 lin. ft. solid timber guard rail;
- (14) 32 cu. yds. dry rubble wall;
- (15) 1 lot remove portions of existing bridge;
- (16) 3500 lbs. bar reinf. steel;
- (17) 1 lot place old struc. steel;
- (18) 8100 lbs. new struc. steel;
- (19) 55 lin. ft. reset pipe railing;
- (20) 110 lin. ft. solid timber railing bridge;
- (21) 30 sta. finish roadway.
 Specifications obtainable from above office. Certified check 10% required with bid.

CRYSTAL SPRINGS AQUEDUCT SIPHON—SAN FRANCISCO

SAN FRANCISCO—Chas. L. Harney, 74 New Montgomery St., at \$17,250 submitted low bid June 15 to Public Utilities Commission to construct concrete siphon for Crystal Springs Aqueduct, involving:

- (1) remove existing structures (lump sum);
- (2) 2700 cu. yds. excav.;
- (3) 220 cu. yds. concrete;
- (4) 16,000 lbs. reinf. steel;
- (5) 610 lin. ft. furnish and install 72-inch concrete pipe;
- (6) 100 ft. 36-in. do;

(7) 15,000 lbs. install gates furnished by city;
 (8) 20 ft. install 44-in. steel or wrought iron pipe furnished by city;
 (9) blow-off connection (lump sum);
 (10) furnish and install steel grating (lump sum);
 (11) 1600 lbs. furnish and install misc. steel or iron work;
 (12) 7 M. E. M. redwood in place;
 (13) 3 M. E. M. Douglas Fir in place.
 Complete bids follow:
 (A) Chas. L. Harney, \$17,250.

(B) A. H. Vogt, \$17,660.
 (C) F. C. Amoroso, \$17,979.
 (D) MacDonald & Kahn, \$18,838.50.
 (E) C. A. Bruce & Sons, \$18,888.50.
 (F) Theo. Cohn, \$18,970.50.
 (G) Baldwin & Butler, \$19,674.
 (H) K. E. Parker Co., \$19,926.10.
 (I) P. L. Burr, \$20,001.50.
 (J) W. J. Tobin, \$20,090.
 (K) C. C. W. and H. H. Haun, \$20,535.
 (L) J. S. Heilmann, \$21,035.
 (M) H. C. Vensano, \$27,524.

LOCAL PROJECTS GET TWO-THIRDS OF FEDERAL CASH

**Communities Should Press
Plans For Eligible
Work**

Present indications are that approximately \$2,000,000,000 of the \$3,300,000,000 appropriated through the National Recovery Act are to be available for local public improvements, according to E. J. Harding, managing director of the Associated General Contractors of America.

Provisions of the act making available an outright grant of 30 per cent of the cost of such local work also require that the responsibility for repayment of 70 per cent of the cost must be assumed by the local communities. "In many instances this will require that authorization must be secured from legislative bodies, from taxpayers, or from administrative officials empowered to enter into such financing agreements," Mr. Harding said.

"It means that a consistent program of promotional effort must be drawn up in all local communities throughout the country to select the projects which should go ahead at once, popularize the need for such projects, see that the proper authorizations are made and in general to get the machinery in motion for making the applications to the National Public Works Administration so that funds may be secured quickly and work begun soon."

NAVY ASKS \$1,788,000 FOR MARE ISLAND

Mare Island Navy Yard improvements proposed by the Navy will involve an estimated expenditure of \$1,788,000, according to recommendations to the administrator of public works.

The projects proposed include:

Extension of Dike No. 12, \$250,000; oil tanks at submarine base, \$18,000; causeway, including land, \$980,000; completion of improvement of power plant, \$150,000.

Naval ammunition depot, magazines, \$325,000; black powder ignition filling and quilting house, \$5,000; completion of improvement of buildings, \$50,000.

THE WEEK'S NEWS Highlights

STATE ADMINISTRATOR.

Timothy Reardon, director of the State Department of Industrial Relations, heads a list of eight names sent to Washington by Governor Rolph, from which he recommends a public works administrator for California be appointed. Others proposed include Walter L. Huber, Col. Thomas M. Robbins, H. H. Cotton, Earl Lee Kelly, Harry A. Hopkins, John Quinn and H. A. Van Norman.

ELECTION. Decisive rejection of the gas tax diversion plan and defeat of \$3,000,000 San Francisco school bond issue were items of principal interest to construction at last Tuesday's election.

FAIR PRACTICE. Definite steps toward organization of the building industry for conduct of their business under fair trade practices approved by the Federal government will be taken from one or more sources in the near future. Directors of the State Builders' Exchange plan two conferences, one in San Francisco and one in Los Angeles, at which trade problems will be discussed by representatives of member exchanges. State Registrar of Contractors Carlos Huntington is awaiting an opinion from the attorney-general as to his authority in assisting the state organization through official or semi-official intervention of the state bureau. Meanwhile various groups within the industry and allied fields are proceeding with organization which is already tending toward stabilization of prices on materials and services.

VOTERS AGAIN REJECT RAID ON ROAD FUND

**City School Bond Proposal
Fails of Two-thirds
Majority**

California voters have again voted decisively to reject any plan for curtailing new highway construction by diverting the gasoline tax revenue. Returns last night from most of the state's precincts indicated that the vote will be nearly 3 to 1 against Propositions 9 and 10 by which the legislature would be authorized to use current revenues for paying old bond obligations. Tuesday's vote showed no change in sentiment from last November's vote on a similar plan.

In San Francisco the vote against diversion was almost 5 to 1.

San Francisco voters, however, failed to authorize a \$3,000,000 bond issue replacement of obsolete school buildings. The proposition received a majority of about 29,000 but failed by a considerable margin to win two-thirds of the vote cast necessary to pass.

Approval of the bill to legalize pari-mutuel betting on horse racing may result in the erection of new racing plants in California. Plans for the San Pablo track on which it is estimated \$250,000 will be spent have been delayed pending a vote to permit betting. It is expected that promoters of this venture will proceed at an early date.

San Mateo county voted to create a harbor district as the enabling act under which interests there expect to proceed with development of the Redwood City harbor. The improvements would be financed in part by local bonds and in part by Federal harbor appropriations.

The State of Washington is ready to spend \$4,000,000 for highway construction as soon as the Federal public works program makes the money available, according to Director of Highways Lacy V. Murray.

Mr. Murray said his department could call bids within 60 days on \$4,000,000 worth of work at points in all parts of the state.

INDUSTRY URGED TO LEADERSHIP IN WORK PROGRAM

Architects and Engineers Co-
operation Asked by Local
A. G. C. Chapter

Cooperation of all local groups identified with the construction industry in formulating the public works program for the State of California under the National Industrial Recovery Act is urged by Floyd O. Booe, secretary-manager of the Associated General Contractors, Northern California Chapter, in a letter addressed to presidents of architectural and engineering societies.

In his communication Mr. Booe said:

"As general contractors we are of the opinion that constructive leadership in respect to the public works feature of the Act will largely rest in the architects, the engineers and those officials who are actively engaged in public works construction activities. By this we mean that the trained construction men in these groups are the ones most capable of aiding and coordinating the public works program rather than to depend too much upon civic groups.

"Public works construction is a specialized business, just as is any other type of business, and those who are engaged therein have the experience and the knowledge to coordinate the program most directly and to secure the maximum results in a minimum of time.

"We believe also that it is the intent of the President's program that this public works feature shall provide a volume of business through normal business channels which will build a firm foundation for other lines of endeavor and that in this sense it is not a relief or charity program. Consequently, the engineers, the architects and others who will be directly affected should use their very best efforts to see that the program is carried out in a normal business way. To be effective this expansion of business must reach not only through the employment on the actual construction project itself, but also to the material and equipment producers, the manufacturers and others, and thus provide the stimulation required in all lines of activity."

Total production of range boilers for two months of the calendar year is reported as 67,033 units, compared with 70,029 units in the corresponding period of 1932. Shipments for the two months totaled 67,401 units.

State Safety Engineer Warns of Hazards in Trench Construction

By A. G. Wagner, Engineer,
Industrial Accident Commission

There are so many different hazards in connection with the digging of trenches that it is difficult to single out any one particular operation and call it the most dangerous. It is, therefore, desirable to deal in this article with those that have been primarily productive of fatal results. It is further desirable to take into consideration the physical characteristics of the ground or soil in which the trenches are to be dug, as these conditions vary a great deal in different localities, and the material to be encountered may change from solid rock to fluid mud or sand. In this connection, it is well to mention that unless the walls of the trenches are known to be of the most unyielding material, they are liable to cave-in, and if the trench is of a depth of four feet or more, the result may be serious. Knowledge of the characteristics of various soils should govern the spacing of all braces. In no case, regardless of the physical characteristics, should the extreme limit of the vertical braces be greater than eight feet.

When a trench is being excavated in fluid mud, or sand, the sheeting must of necessity be continuous and, instead of bracing the various single sheets with cross-braces, stringers or wales of ample size should be placed in a horizontal position along the sheeting with the cross-braces or spreaders bearing against and normal to the stringers. This method allows for greater room in which to prosecute the work, and further provides a more substantial method of preventing the direct collapse of single units of sheeting, with the possible subsequent loss of more extensive sections.

The traveling shield fastened to the boom of the excavator, for use in unstable soil of nearly all classifications, permits the placing of braces immediately behind the boom, and obviates the necessity of setting braces in a short but unprotected zone. It further eliminates the practice of having a workman follow the boom to shovel ahead. The last named custom is a vicious one and should not be practiced under any circumstances.

It can safely be said that the use of the traveling shield, since its almost universal adoption in the southern part of the State, has been responsible for a great measure of protection and the successful

ful and safe construction of many

The use of the mechanical digger should be discontinued in filled or any unstable ground, unless the boom and the workmen are protected by the use of the traveling shield. When the use of such a shield is not available, the trench should be slope cut or sunk by hand. In the latter case the bracing should be kept at all times at no less than one foot above the excavated grade.

Back filling of trenches has in many instances been productive of serious results when the necessary precautions have not been taken before removing any of the cross-braces. All trenches five feet or more in depth should be well filled to the height of the lowest cross-braces before any such cross-braces are removed.

All trench construction should be carried on under the direct supervision of a person having a competent knowledge of the English language.

In nearly all cases of public improvement, ordinances are, as a rule, included in the general specifications by reference only. Because of this, they are usually merely glanced over or entirely neglected.

Public ordinances having such vital concern as the safety laws prescribed to provide an adequate measure of safety, should be just as familiar to the performing contractor as the specifications and regulations governing the type and quality of pipe to be used.

The public work inspectors employed by political subdivisions to inspect for 100 per cent performance by the contractor, should also be as familiar with ordinances and safety orders of the Industrial Accident Commission as they are with the specifications governing the material and construction of the job.

To the use of poor judgment and the lack of good judgment can be ascribed the greatest number of accidents.

To neglect ordinary precautions because in the opinion of the foreman or employer "the ground looks good," is to "fly in the face of Providence." Opinions of this nature are worthless. We should know what precautions should be taken to avoid disaster. The forces of gravitation are constantly seeking to reduce all structures to the horizontal plane.

A method to insure security against collapse or cave-in can certainly be provided at a much cheaper price than the cost of a human life, which can not be measured in dollars and cents.

BUILDING TRADES EMPLOYMENT GAIN REPORTED BY ASSN.

12% More Men Working In San Francisco Than Year Ago, Survey Shows

Employment in the San Francisco building trades has shown a definite upturn according to the periodic check just completed by the Industrial Association of San Francisco.

The census taken as of June 20, 1933, shows 2567 building trades mechanics actually working on construction work in the city of San Francisco as of that date.

This compares with 2360 building trades mechanics working on November 8, 1932, and 2,289 mechanics working May 5, 1932.

The present survey shows an increase of 12% over the survey of one year ago.

The above census does not include municipal or civil service employees.

METAL ASSOCIATION COMMITTEE CHOSEN

California Metal Trades Association has appointed a special committee to cooperate with the Federal government in application of the National Industrial Recovery Act. This association represents bay district firms engaged in the metal industry and was organized in 1907.

The following have been named by the executive committee to study the Industrial Recovery Act on behalf of the organization:

President, Howard G. Tallyday, Western Pipe & Steel Co., San Francisco; vice-president, Frank B. Drake, Johnson Gear and Mfg. Co., Berkeley; P. A. Coxon, Moore Drydock Co., Oakland; W. H. Oliver, Oliver United Filters, Inc., Oakland; Jos. S. Thompson, Pacific Mfg. Co., San Francisco; F. H. Kilberry, Atlas Imperial Diesel Engine Co., Oakland; Geo. H. Raitt Steel Tank and Pipe Co. of California, Berkeley; B. A. Gayman, Link-Belt Co., Pacific division, San Francisco, and Fred C. Metcalf, commissioner, California Metal Trades Association.

CITY WAGE SCALE TO BE MAINTAINED

San Francisco public works wage scales will remain unchanged with only one exception during the six months commencing July 1. The board of supervisors voted to amend the prevailing wage scale by reducing Housemiths, reinforced concrete division, to \$8 a day from a former scale of \$9.

The only other changes are modification of the classification Stonesetters to include granite curb labor at \$11 a day; and the addition of the provision that wherever welding processes are involved the rate paid for such shall be that fixed for the craft performing the work.

CHAMBER TO AID CONTROL GROUPS

McBean Heads S. F. Recovery Board; Warns of Racketeers

Business men are urged to look only to their trade associations or to the chambers of commerce for information about the National Industrial Recovery Act as a protection against promoters who will attempt to "muscle in" on organization plans.

The San Francisco Chamber of Commerce is collecting information for the aid of local groups and a district committee to be known as the San Francisco Industrial Recovery Board will be formed. Atholl McBean is chairman of the board.

"We must make the industrial recovery bill work," Geo. J. Presley, vice-president and general manager of the chamber said, "and we can only do so by keeping out the racketeer, and by organizing industrial patriotism as we organized patriotic enthusiasm during the war."

GAS INSTALLATION CODE FOR FITTERS ADOPTED BY ASSN.

Detailed Safety Regulations Are Incorporated in Manual

A comprehensive code covering the installation, maintenance, and use in buildings of piping and fittings for city gas has been approved by the American Standards Association as American recommended practice, following its submittal by the National Fire Protection Association.

The code embraces practically every point of gas installations in buildings, from the entry of the lines into buildings to the connections to appliances. It states the precautions to be observed by gas fitters installing or repairing piping, and provides standard methods of inspection and test to assure the safety of the installation. This includes provisions to make certain that gas-burning appliances shall be installed only where there are proper ventilating facilities.

The code was submitted for approval as an existing standard after 12 years of experience with earlier editions. The promulgation of the original code followed several years of work on the subject by a committee of the National Fire Protection Association.

Preliminary to the approval of the code by the American Standards Association, a critical comparative study was made of its provisions with the extensive series of requirements for various types of gas-burning appliances which have been developed by a technical committee under the sponsorship of the American Gas Association. In this way these standards have been brought into complete harmony.

The National Fire Protection Association has been designated sponsor for the project under the procedure of the American Standards Association and future revisions of the code will be handled by a technical committee.

STATE BUR. ASKS AUTHORITY TO AID INDUSTRY C'TROL

Attorney-General Will Rule on Registrar's Authority To Map Code

Carlos W. Huntington, registrar of contractors, asked the attorney general for an opinion on the power of a regulatory state agency to aid the California building and construction industry under the National Industrial Recovery act, providing for the organization of each industry and formulation of a code of ethics to guarantee fair play and eliminate unfair competition.

This action follows receipt of requests from leading groups in the building industry for cooperation in formulating a code of ethics and fair play for California contractors under the program of President Roosevelt. Col. Huntington reported today to Gov. Jas. Rolph, Jr.

"We are anxious to cooperate with the industry in every way possible in any movement which has for its objective the return of normal business conditions, which is the goal of the National Industrial Recovery Act," said Huntington.

Huntington indicated that a program of cooperation with the construction industry would soon be formulated. "We will welcome any suggestions from the industry," he said, "as to the manner in which we can best cooperate, providing, of course, that Attorney General Webb holds that this is within our power."

"California's contractors' act, adopted by the 1929 legislature, has as its objective many of the purposes provided in the program of President Roosevelt. The state law also gives the public ample opportunity for redress against any fraudulent contractor. The national program, in some respects, is more stringent," he said.

Under the Roosevelt national program, all industries are expected to, and may be compelled to, organize themselves and agree upon a uniform code of ethics which will provide for fair play, protection of labor and the elimination of unfair competition.

This code must be drafted and agreed upon by a majority group in each major industry, and, upon approval by the President, will be binding upon all persons engaged in that industry. Failure of any industry to comply voluntarily with provisions of the act empowers the national administration to promulgate a code covering that industry and provide severe penalties for violators.

"The California building and construction industry has evidenced a sincere desire to join in the national recovery program," said Huntington, who is also director of the department of professional and vocational standards in Gov. Rolph's cabinet.

Requests for Federal Aid on 500 State Construction Projects Listed by Chamber

Preliminary tabulation to date of California public works projects by cities and counties as submitted to the California State Chamber of Commerce following a series of regional meetings to stimulate quick action to relieve unemployment under the National Industrial Recovery Act, shows approximately 500 separate projects, aggregating \$127,461,687. The estimates are on only 340 of the projects as 160 were submitted without cost figures yet available.

"Classification according to type of work involved," reports the State Chamber, "shows road or street construction and repair first in number with 211 separate projects; drainage, sewer and water conservation projects are second; and building construction third in number recommended. County supervisors have been active in the promulgation of county projects. Cities are undertaking to initiate 135 of the 500 projects reported to date, while special districts account for 17.

"Nature of the projects proposed varies from cooperative packing plants to Federal office buildings. Sewage disposal systems are among the most frequently mentioned works in Northern California, while the southern part of state proposes many flood control plans and public buildings. In several cases a large part of the proposed expenditure is already on hand, having been budgeted during past years, and only a portion of the total cost is sought from the Federal Government.

"Incomplete estimates relative to many of these projects makes impossible, at present, any estimate of the total number of workers to be employed. Such plans and specifications that do include employment estimates show projected work for many thousands of wage earners, notwithstanding the fact that estimated labor requirements have not been completed for a majority of the proposed projects.

"A wide variety of public works projects are listed by the cities and counties of Southern California. The \$61,708,783 to be expended on 198 public works projects reported from this region is made up of items varying from \$600 to \$12,000,000. The estimated expenditure for the proposed new Los Angeles County court house is the largest item.

"Los Angeles County leads the list in both number and value of projects requested during the first week, with 124 separate proposals

aggregating \$47,188,230. Thirty-two new buildings are desired; drainage sewer and water projects total 29 in number; 40 road and street improvements are listed; while four bridges are among the items being considered.

"Gibraltar Dam in Santa Barbara County, estimated to cost \$2,000,000, is one of the largest water projects being considered in Southern California. Water conservation projects being proposed by the Santa Barbara region aggregate \$3,925,000 and include as the leading item the conservation of Sisquoc and Cuyama Rivers.

"The City of Ventura lists nine street and highway improvements which will provide employment for over 3000 men and show an aggregate cost of \$228,323.

"A large part of the \$43,352,979 cost of reported public works projects of the San Francisco Bay area is made up of highway construction and related work. Bridge approaches, which account for \$22,000,000, are the largest single items, while the Broadway Tunnel between Alameda and Contra Costa Counties adds \$3,752,000. Among the building construction projects, the proposed Alameda County court house and the exposition buildings of the San Francisco-San Mateo District Agricultural Association are leading items. The City of Oakland lists a number of sewer system projects, including among others the Western Water Front sewer improvement at an estimated cost of \$2,470,000. It is estimated that this project alone will require two years to complete and will provide employment for about 350 men. Construction of an industrial fresh water canal is one of the principal objectives of Contra Costa County under the National Industrial Recovery Act, while highway construction, beach projects, and sewer systems are requested by cities of the Monterey Peninsula."

The following table shows the type and number of projects submitted by various regions:

Region	No. of Projects Reported	Building Construction	Sewer, Sanitation, Water Proj., Etc.	Road, Street and Highway	Bridge Construction	Total Cost Reported
North Coast	47	10	17	19	2	\$2,495,000
Sacramento Valley	71	18	10	40	2	14,151,000
Central Valley	40	5	5	27	2	
San Joaquin Valley	84	15		45	23	4,253,925

State Builders' Exchange to Call Industry Conference on Trade Code

Preparing to call two general conferences of the California building industry, probably at San Francisco and Los Angeles, in an effort to bolster construction and to participate in the National Recovery program, the California State Builders' Exchange yesterday communicated with Hugh S. Johnson, national administrator, proffering assistance and seeking information as to general lines of policy to be followed by California builders. The telegram was sent from the office of the State Exchange at Los Angeles, Secretary Frederic Sanford said.

Ralph E. Homann of Los Angeles, president of the State Exchange and H. L. Sweeney of Santa Barbara, chairman of the exchange industrial survey committee, will direct the cooperative activity, the secretary reported. President Homann, through Chairman Sweeney, is now making preliminary plans for the general conferences in the north and south.

A telegram was sent also to Earl R. Stokes, secretary of the National Association of Builders' Exchanges at Washington, D. C., volunteering cooperative effort with Administrator Johnson.

Immediate action grew out of the meeting of the Board of Directors of the California Builders' Exchange held at Santa Maria, June 17. The directors adopted a resolution calling upon the construction industry of the state to cooperate for an upswing in building. News of the action is now being conveyed to 20 member exchanges and to all state organizations embracing construction activities, Sanford said.

Bulletins from Washington mention development of basic action in the lumber industry. The California Exchange desires prompt action as to basic control in the industry which largely consumes the lumber output.

The text of the resolution follows:

WHEREAS, Congress passed the Industrial Recovery Act on June 13, 1933, and President Roosevelt urges that industry throughout the United States promptly avail itself of the provisions of this act in order to increase employment, restore a living

rate of wage, and control destructive competition, and

WHEREAS, It is anticipated that the California Legislature will enact similar legislation as to intra-state commerce when it reconvenes in July and

WHEREAS, The California State Builders' Exchange is the coordinating body of the construction industry in California, its membership being composed of twenty local builders' exchanges situated in as many centers of the state, and the membership of each local exchange consisting of the manufacturers, dealers, general and specialty contractors of the construction industry in the respective communities;

NOW THEREFORE, BE IT RESOLVED, That the California State Builders' Exchange take immediate steps to formulate plans whereby the construction industry of the State of California may act promptly and in unison in adopting a "Code of Fair Competition" for the regulation of the many groups and crafts of which this industry is composed, and

BE IT FURTHER RESOLVED, That our Secretary address every known California state organization in the construction industry advising them to confer with the California State Builders' Exchange in formulation of such code or codes; and that our Secretary address every member Exchange requesting them to contact all craft groups in their respective areas, and to call a series of meetings to work out codes of fair competition; stressing to all such state organizations, local exchanges, and local craft groups, the desirability of having all such craft or local codes merge harmoniously in a general code applicable to all groups and all crafts throughout the construction industry of the State; and,

BE IT FURTHER RESOLVED, That it be recommended that such codes be formulated to regulate the following matters:

1. Maximum weekly hours of labor in any branch of the industry;
2. Minimum wages per hour for the industry as a whole;
3. Price agreements between members of an association, and between the several associations;
4. Agreement as to trade practices, including: Sales below cost, credit rules, secret rebates, fraudulent practices, price cutting, delivery points, defamation of competitors and other unethical practices.

Passed by the Board of Directors of the California State Builders' Exchange at its meeting at Santa Ma-

LUMBERMEN SEE EARLY REVIVAL OF HOME MARKET

National Recovery Act Will Stimulate Low-Cost Residence Building

An opportunity to revive a billion-dollar national market—home modernizing—is seen by officials of the West Coast Lumbermen's Association, Seattle, in Section 202 (d) of the public works portion of the National Industry Recovery Act.

Section 202 states: "The Administrator, under the direction of the President shall prepare a comprehensive program of public works shall include among other things the following

"Construction, reconstruction, alterations, or repairs under public regulation or control of low-cost housing and slum-clearance projects."

This wording is interpreted by officials of the West Coast Lumbermen's Association as offering an opportunity in every city and county throughout the United States for local control laws—enacted for example by a city council or a board of country commissioners—to be set up under which low cost homes could be built, rebuilt, altered or repaired.

"The altering and repairing of homes is today the largest potential market in the United States for the use of building materials and for the employment of building labor." "One billion dollars worth of this kind of business, of which at least fifty per cent would go directly to labor on the job and another thirty to forty per cent to labor in transportation, mining and manufacturing, is available and could be finished during 1933, the association estimates. The total probable home modernizing market is estimated to be at least three billion dollars but a large portion of the older houses probably could not be brought immediately under the provision of the Act

"It is not known what interpretation the government will place on the words, under public regulation, but from the trend of amendments in the bill during the House and Senate sessions, it is evident that "under public regulations" was added to care for situations in states lacking public housing control acts. As all housing control acts—New York, California, Ohio, Arkansas and New Jersey are examples of such legislation—contain provisions for limiting the profit of corporations operating under public control in housing, it is assumed the government in the administration of loans is likely to exact a similar provision in local administration of publicly regulated corporations as a necessary consideration in the use of public funds.

EX-GOVERNOR HEADS RENOVIZING CAMPAIGN

Former Governor C. C. Young of Burlingame, yesterday announced appointment of Frank McVeigh, former manager of the Burlingame Chamber of Commerce and director of the county charter campaign, as director of the San Mateo county renovize campaign.

The renovize campaign will have as its object improvement of their property by owners to the extent of \$1,125,000. Young heads the campaign committee.

APPROVE \$1,250,000 RECLAMATION WORK

A construction program involving \$1,250,000 for 1934-35 has been approved by the California state reclamation board.

Sixteen projects in Yolo, Colusa, Yuba, Sutter and other river counties reported by Maj. A. M. Barton, state reclamation engineer, were approved. The flood control work will be financed on a cooperative basis by the state, the federal government and the land-owners.

19—MISC. CONSTRUCTION

SALT LAKE CITY Utah.—Veterans Administration rejected all bids in connection with the lawn sprinkling system at the Veterans' Administration Hospital at Salt Lake City, Utah. On bid opening, May 19, lowest bid was submitted by the Hadden Company, Alhambra, at \$5317. Bids will be re-advertised at a later date.

Contract Awarded.
RACE TRACK Cost, \$125,000
SEATTLE, Wash. Tacoma Highway.
 Horse racing track (300 ft. grandstand to seat 4000; two-story club house with dining room, kitchen, lounge, jockey clubhouse, stalls to accommodate 500 horses, public address system, plumbing, wiring)
 Owner—Washington Jockey Club (Jos. Gottstein, Exchange Bldg., Seattle).
 Architect—B. M. Priteca, Pantages Bldg., Seattle.
 Contractor—I. Ives, 903 23rd Avenue South, Seattle, Washington.

Contract Awarded.
REPAIRS Cost, \$15,000
SAN FRANCISCO. Golden Gate Park
 Repairs to conservatory (repair floors, etc.)
 Owner—City and County of San Francisco (Park Commission), Golden Gate Park.
 Architect—Fred H. Meyer, 525 Market St., San Francisco.
 Contractor—Geo. Wagner, 181 South Park, San Francisco.

Contract Awarded.
MAUSOLEUM Cost, \$4500
COLMA, San Mateo Co., Cal. Cypress Lawn Cemetery.
 Concrete mausoleum (marble exterior and interior).
 Owner—James M. McDonald.
 Architect—S. Heiman, 605 Market St., San Francisco.
 Contractor—Georgia Marble Co., 605 Market St., San Francisco.

Contract Awarded.
MAUSOLEUM Cost, \$9500
PETALUMA, Sonoma Co., Cal.
 Concrete mausoleum (marble interior and exterior, bronze doors, art glass, etc.)

Owner—Mr. Maggetti.
 Architect—S. Heiman, 605 Market St., San Francisco.
 Contractor—Georgio Marble Co., 605 Market St., San Francisco.

Contracts Awarded.
DOG TRACK Cost, \$100,000
SEATTLE, Wash. Playland.
 Dog racing track (quarter mile track) grandstand, kennels, etc.
 Owner—Arcadia Corp. (G. W. Lewis, president).
 Architect—J. A. Madieros, Exeter Apartment Hotel, Seattle.
Lumber—Abel, Inc., 2700 Westlake N. Seattle.

Hardware—Seattle Hdwe. Co., Seattle
 Grading and embankment work is now under way.

Plans Being Prepared.
RACE TRACK Cost, \$150,000
SEATTLE, Wash. Tacoma Highway.
 Horse racing track (300-ft. grandstand to seat 4,000; two-story club house with dining rooms, kitchen, lounge, jockey clubhouse, stalls to accommodate 500 horses, public address system, plumbing, wiring)
 Owner—Washington Jockey Club (Jos. Gottstein, Exchange Bldg., Seattle).

Architect—B. M. Priteca, Pantages Bldg., Seattle.

It is not determined whether bids will be asked or a contractor named to supervise the construction. Track to be ready by August 1.

SAN FRANCISCO.—D. C. McCabe, Call Bldg., at \$149,50 awarded contract by Department of Public Works for concrete stairs on the north side of 22nd Street between Kansas and Rhode Island.

Contract Awarded.
ENCLOSURES Cost, \$1000
SAN FRANCISCO, 1250 Jones St.
 Enclose porch, apartments, etc.
 Owner—M. V. Klinker, 1250 Jones St.
 Architect—Not Given.
 Contractor—Mehel & Pfeiffer Iron Works, 1415 Harrison St.

Planned.
RACE TRACK Cost, \$150,000
SEATTLE, Wash. Tacoma Highway
 Mile race track (clubhouse, stables, etc.)
 Owner—Washington Jockey Club.
 Architect—Not Given.

Organizers of the club are Edwin J. Brown, Allen Drumbeller and Dr. A. R. Galbraith.

SAN FRANCISCO.—Alta Roofing Co., 976 Indiana St., at \$458 submitted low bid to Public Utilities, for repairs to roof of the Superintendent's House of the San Francisco Water Department at Millbrae, San Mateo County. Following bids received:

Alta Roofing Co.	\$458
J. L. Montgomery	475
Malott & Peterson	498
Chas. Izmbrian Roofing & Sheet Metal Co., San Mateo	530
*Jack Johnson Co.	484

*Bid not considered as it was submitted as an alternate proposal.

SAN FRANCISCO.—Until July 5th, 1:45 P. M., informal bids will be received by S. J. Hester, Chief Deputy coived by S. J. Hester, Chief Deputy Director, Department of Public W'ks, for Silocel Nat. Brick, Asbestos insulating cement, mesh wire, etc., at the Juvenile Detention Home.

SAN FRANCISCO.—Until July 5th, 1:45 P. M., informal bids will be received by S. J. Hester, Chief Deputy Director, Department of Public W'ks, for repair work to the wet rock and sand elevating chute at the Municipal Asphalt Plant. Estimated cost \$135.

SUNNYVALE, Santa Clara Co., Cal.—Fred. W. Snook, 596 Clay St., San Francisco, at \$33,520 for item (1), \$33,429 for item (2), \$32,490 for item (3) and \$38,399 for item (4) submitted low bid to Bureau of Yards and Docks, Navy Dept., Washington, D. C., June 28, for irrigation system, grading and concealed lawn sprinkling system at the Naval Air Station, Sunnyvale, under Spec. No. 7034.

Peninsula Paving Co., San Francisco, second low bid (1) \$47,400; (2) \$39,716.

Complete bids will be published shortly.

20—MISC. SUPPLIES AND MATERIALS

BOULDER CANYON, Nev.—General Electric Co., Schenectady, N. Y., at \$3575 for item (1) and \$1650 for item (2) awarded contract by U. S. Bureau of Reclamation, Denver, under Bid No. A-3239-B to furnish:

(1) 50,000 3-conductor No. 18 AWG stranded copper rubber insulated and rubber sheathing electrical cable.

(2) 20,000 ft. 4-conductor do.
 Identical bids were submitted by Anaconda Wire & Cable Co., Hazard Insulated Wire Works, Division of the Okonite Co., Simplex Wire & Cable Co., Hazard Insulated Wire Works, General Electric Supply Corp., American Steel & Wire Co. and Hendrie & Bolthoff M. & S. Co.

OAKLAND, Calif.—Following contracts awarded by city council:

Mixed Concrete and High Early Concrete—Transit Concrete Co., 2500 Peralta St., Oakland, and Melrose Bldg. Materials Co., 4501 Tidewater Ave., Oakland.

High Early Cement—Makin & Kennedy, Inc., 101 4th St., Oakland.

Dry Concrete Mix—Transit Concrete Co., 2500 Peralta St., Oakland, and Melrose Bldg. Materials Co., 4501 Tidewater Ave., Oakland.

Emulsified Asphalt—American Bitumuls Co., 200 Bush St., San Francisco.

Paint—W. P. Fuller & Co., 301 Mission St., San Francisco.

Ethyl Gasoline—Union Oil Co., Mills Bldg., San Francisco.

Bids on lubricating oil were rejected. Will be purchased in the open market.

LOS ANGELES, Cal.—Contracts for furnishing Portland cement for six months period beginning June 7, under Spec. No. 3098, awarded by A. J. Holm, City Purchasing Agent June 22 as follows: Item (1) to Monolith Portland Cement Co., estimated total \$20,000; Item (2) to Consolidated Rock Products Co., estimated total \$18,000; Item (3) to San Pedro Bldg. Supply Co., estimated total \$5000.

CARMEL, Monterey Co., Cal.—City council discussed plans for erection of retaining wall on west side of Scenic Drive.

OAKLAND, Cal.—Until July 14, 8 P. M., bids will be received by John H. Kimball, secretary, East Bay Municipal Utility District, 512 16th St., Oakland, to furnish lumber as follows:

(1) 102,000 ft. b.m. redwood;
 (2) 73,000 ft. b.m. crec. Douglas fir.

Specifications LS-111 are obtainable from above office.

OAKLAND, Cal.—Linde Air Products Co., 40th and Watts, Oakland, at \$3075 awarded contract by the East Bay Municipal Utility District to furnish oxygen gas and dissolved acetylene. Complete bids published June 19.

LOS ANGELES, Cal.—Apache Powder Co., Benson, Ariz., awarded contract by the Metropolitan Water District June 23 at \$399,700 for furnishing 4,100,000 lbs. 40% strength, Class A, explosives under items 1, 3 and 4, Schedule No. 1. The bids were opened June 22. The items are:

(1) 900,000 lbs. for delivery bet. July 1, 1933 and Jan. 1, 1934, at \$85,500;

(3) 2,600,000 lbs. for delivery during the year 1935 at \$254,800;

(4) 600,000 lbs. for delivery during the year 1936 at \$59,400.

The District reserves the privilege of buying a different grade of powder in accordance with alternative figures included in bid.

LOS ANGELES, Cal.—Giant Powder Co., 805 Title Guarantee Bldg., Los Angeles, was awarded the contract by the Metropolitan Water District June 23 at \$326,400 for furnishing 3,400,000 lbs. 40% strength Class A explosives during the calendar year 1934. The district reserves the privilege of buying different grades at alternative prices submitted in bid.

LOS ANGELES, Cal.—Concrete Engineering Co., 1450 Mirasol St., was awarded contract by county supervisors June 26 at \$8960.55 to furnish reinforcing steel for the construction of a conduit on Ballona Creek (Venice Blvd., south roadway) from Rimpau Blvd. to La Brea Ave.

BOULDER CANYON, Nev.—Until 2 P. M., July 5, bids will be received by the Purchasing Agent, U. S. Bureau of Reclamation, Custom House, Denver, Colo., for furnishing structural steel trash rack sections complete in accordance with specifications which may be obtained from the Purchasing Agent, A. McD. Brooks, Bid No. A-3226-E. Bids will be taken f.o.b. cars at shipping point and/or f.o.b. cars at destination, Boulder, City. Early delivery is important.

21—BRIDGES

TUOLUMNE COUNTY, Cal.—Until July 5, 2 P. M., bids will be received by R. E. Pierce, District Engineer, State Highway Commission, Room 502, State Office Bldg., Sacramento, to construct a bridge across the Middle Fork of the Stanislaus River, about 52 mi. each of Sonora, consisting of one 71-ft. steel pony truss span and one 27 ft. steel stringer span, involving:

- (1) existing bridge to be removed;
- (2) 95 cu. yds. struc. excav.;
- (3) 77 cu. yds. class A Portland cement concrete;
- (4) 3000 lbs. bar reinf. steel;
- (5) 3200 lbs. new struc. steel;
- (6) 29 M.F.B.M. redwood timber, dense select all-heart structural grade.

Specifications obtainable from above office. Certified check 10% required with bid.

LOS ANGELES COUNTY, Cal.—Oswald Bros., 366 E 58th St., Los Angeles, at \$19,431 awarded contract by State Highway Commission, Sacramento, to grade and pave with Portland cement concrete 0.3 mile of San Gabriel River bridge approaches.

22—DREDGING, HARBOR WORKS, EXCAVATION

SACRAMENTO, Cal.—Until July 6, 3 P. M., under Circular Proposal No. 33-347, bids will be received by U. S. Engineer Office, California Fruit Bldg. Sacramento, to dredge 242,000 cu. yds. material from the San Joaquin River 26-ft. Channel in two reaches totaling about 4550 ft. in length near Turner Cut. Specifications obtainable from above office.

PEND OREILLE CO., Wash.—Interstate Engineering & Construction Co., Newport, Wash., at \$50,997.25 awarded contract by U. S. Bureau of Public Roads to construct bridge over Slate Creek together with approach connections to existing road on Pend Oreille Highway, N.F.R. Pro. E-22-10, Kaniksu National Forest.

PORTLAND, Ore.—U. S. Engineer Office, 321 Customhouse, Portland, will ask bids to restore North and South jetties, entrance to Coos Bay, Oregon, involving furnishing and placing 270,000 tons of stone.

NYSSA, Oregon—J. A. Terteling & Son 511 Sound St., Spokane, Wash., at \$113,404.50 submitted low bid to U. S. Bureau of Reclamation, Denver, Colo., to construct earthwork and

structures, North Canal, Sta. 260 (Owyhee River Siphon) to Sta. 513, Mitchell Butte Division, Owyhee Project, Oregon-Idaho, work located near Nyssa and Adrian, Ore., on the Oregon Short Line Railroad.

Morrison-Knudsen Co., Boise, Idaho, second low at \$122,675.

23—IRRIGATION PROJ.

EL CENTRO, Imperial Co., Calif.—M. J. Dowd, chief engineer of the Imperial Irrigation District, is preparing plans for drainage canals and appurtenant work to be constructed under a \$1,000,000 loan, for which the district will make application under the Federal public works program. The engineer estimates that the proposed work will involve:

337 miles of drains, 6 to 7 ft. deep;
89 miles of deepening existing ditches;
46 miles of deep drainage to balance existing works.

The total cost is estimated at \$1,600,000.

25—MACHINERY AND EQUIPMENT

DELANO, Kern Co., Cal.—Until July 18, bids will be received by Frank Panero, clerk, Delano Joint Union High School, to furnish one bus chassis, 1½-ton capacity, 35-passenger body; also one bus body for above chassis, total price not to exceed \$2400. Specifications obtainable from high school garage.

SANTA MARIA, San Bernardino Co., Cal.—Until 8 P. M., July 12, bids will be received by Union High School District to furnish school bus equipment in accordance with specification requirements on file in the office of the district, Santa Maria, Gladys E. Forbes, clerk.

30—RESERVOIRS & DAMS

LOS ANGELES, Calif.—Until 2 P. M., July 10, bids will be received by county supervisors to construct Eaton Wash Debris Dam.

Plans have been amended to include the 30-hour a week provision as contained in Section 653c-1, Penal Code, as amended by the 1933 legislature.

The plans, as prepared by E. C. Eaton, County Flood Control Engineer, 202 N Broadway, call for a rolled earth fill dam, 1545 feet in length, 37 ft. in height, 40.5 ft from foundation to spillway crest. The upstream side will be faced with concrete.

The cost is estimated at \$441,376. Bids will be taken on three proposals, viz: (1) all work complete,

(2) earth work, and (3) concrete and miscellaneous work.

The quantities follow:

PROPOSAL NO. 1.
All Work Complete

- (1) 10.5 acres clear and grub dam-site;
- (2) 40,000 cu. yds. strip damsite;
- (3) 9.0 acres prepare foundation for dam;
- (4) 164,000 cu. yds. excav. (struc.);
- (5) 3100 cu. yds. excavation (cut-off trenches);
- (6) 167,000 cu. yds. excav. borrow pit No. 1;
- (7) 196,000 cu. yds. excav. borrow pit No. 2;
- (8) 147,000 cu. yds. embankment, impressions (Class A);
- (9) 265,000 cu. yds. embankment, impressions (Class B);
- (10) 1450 cu. yds. backfill, tamped (Class A);
- (11) 8850 cu. yds. backfill, untamped (Class B);
- (12) 930 cu. yds. conc. cut-off walls (Class A);
- (13) 3540 cu. yds. concrete floor slabs (Class B);
- (14) 250,000 sq. ft. gunite facing slab Alt. to 14 (14-A) 3980 cu. yds. conc. facing slab;
- (15) 2640 cu. yds. concrete retaining wall (Class D);
- (16) 2125 cu. yds. conc. outlet conduit (Class E);
- (17) 1450 cu. yds. conc. spillway ogee (Class E);
- (18) 1,250,000 lbs. place reinf. steel;
- (19) 200,000 lbs. place gates, hoists, stems, etc.;
- (20) 44,000 lbs. place trash racks;
- (21) 8,000 lbs. place misc. metal;
- (22) 1,000 lbs. place metal handrail;
- (23) 200 lin. ft. place tile drains;
- (24) 100 lin. ft. drill dowel holes.

PROPOSAL NO. 2.

Earthwork Only.

- (1) 10.5 acres clear and grub dam-site;
- (2) 40,000 cu. yds. strip damsite;
- (3) 9.0 acres prepare foundation for dam;
- (4) 156,000 cu. yds. excav. for struc. (Class A);
- (5) 3100 cu. yds. excavation (cut-off trenches) Class B;
- (6) 167,000 cu. yds. excav. borrow pit No. 1 (Class C);
- (7) 196,000 cu. yds. excav. borrow pit No. 2 (Class D);
- (8) 147,000 cu. yds. embankment, impervious (Class A);
- (9) 265,000 cu. yds. embankment, impervious (Class B);
- (10) 1450 cu. yds. backfill, tamped (Class A);
- (11) 8850 cu. yds. backfill, untamped (Class B);

PROPOSAL NO. 3.

Concrete and Miscellaneous Work

- (4) 8000 cu. yds. excav. for struc. (Class A);
- (4a) 5000 cu. yds. excav. final trim upstream (Class E);
- (12) 930 cu. yds. conc. cut-off walls (Class A);
- (13) 3540 cu. yds. concrete floor slabs (Class B);
- (14) 250,000 sq. ft. gunite facing slab Alt. to 14 (14-A) 3980 cu. yds. conc. facing slab (Class C);
- (15) 2640 cu. yds. concrete retaining wall (Class D);
- (16) 2125 cu. yds. conc. outlet conduit (Class E);
- (17) 1450 cu. yds. conc. spillway ogee (Class F);
- (18) 1,250,000 lbs. place reinf. steel;
- (19) 200,000 lbs. place gates, hoists, stems, etc.;
- (20) 44,000 lbs. place trash racks;
- (21) 8,000 lbs. place misc. metal;

CAPITAL CITY TITLE COMPANY

J. C. PALEN,
Manager

914 Seventh Street
Sacramento :: California

- (22) 1,000 lbs. placing handrail;
- (23) 200 lin. ft. place tile drains;
- (24) 100 lin. ft. drill dowel holes.

30

LOS ANGELES, Cal.—Alhambra Foundry Co., 1147 Meridian Ave., Alhambra, awarded contract by county supervisors, June 26, at \$3521.56 for furnishing trash racks, ladders, steel coors and miscellaneous metal for San Gabriel Dam No. 2.

31—PIPE LINES & WELLS

SAN FRANCISCO.—Robert Garcia, Palo Alto, at \$4212.66 submitted low bid to Public Utilities Commission to drill four inspection wells, Calaveras Dam, involving:

- (1) drill 10-in. dia. well and furnish and install 10-in. dia. casing, 250 lin. ft.;
- (2) 200 ft. do, 8-in. well, 8-in. steel casing;
- (3) 50 ft. do, 6-in. well, 6-in. casing;
- (4) 50 ft. do, 4-in. well, 4-in. casing;
- (5) 250 ft. furnish and install 8-in. steel casing inside larger casing
- (6) 180 ft. 6-in. do, inside larger casing;
- (7) 60 ft. 4-in. do, inside larger casing;
- (8) 160 ft. furnish and install 5 3/4-in. screw and socket joint wrought casing inside larger casing;
- (9) 200 ft. perforate steel casing in place;
- (10) 350 sq. ft. machine perforation before installing;
- (11) 150 sq. ft. perforations in screw and socket casing before installing;
- (12) drill through concrete culvert wall and install brass pipe and fittings;
- (8a) (Alt. for 8) 160 ft. furnish and install 7 1/2-in. screw and socket joint wrought casing inside larger casing;
- (8b) (Alt. for 8) 160 ft. furnish and install 4 1/2-in. screw and socket joint wrought casing inside larger casing.

Bidders follow:

- (A) Robert Garcia, Palo Alto, \$4,212.60.
- (B) Western Well Drilling, San Jose \$4910.30.

32—SEWERS & SEWAGE DISPOSAL PLANTS

LOS ANGELES, Cal.—Board of public works rescinded contract awarded to Mike Miller, 877 N Bunker Hill on May 12, at \$13,800 and instructed the city engineer to prepare modified plans for the construction of the Fish Harbor intercepting sewer in the right of way westerly from Ways St. bet. the alley south from Terminal Way and in a portion of Terminal Way, cash contract, involving: 1742.73 ft. 21-in. standard strength vitrified clay pipe sewer (exclusive of curves);

21.47 ft. 21-in. standard strength vitrified clay pipe sewer (including curves).

Resurfacing and concrete reinforcement as shown on plans.

CAPITOLA, Santa Cruz Co., Cal.—County supervisors continue action on outfall sewer system for Capitola, bids for which were opened May 29, until July 7, 2:30 P. M.

SAN FRANCISCO.—Pioneer Const. Co., 2016 San Jose Ave., at \$388 submitted low bid to Public Utilities Commission to construct septic tank and sewer system for employee's house, Millbrae. Complete bids:

Pioneer Const. Co.	\$388.00
E. J. Treacy	432.95
J. Marengo	470.00
C. L. Harney	537.00
M. J. Lynch	550.00
Clinton-Stephenson Const. Co.	586.00
Daniel Ryan	590.00
H. E. Connor, Redwood City.....	625.00
Martin Murphy, Berkeley.....	695.00
Merritt Concrete Prod. Co.....	728.00
P. E. Brand	775.00
Claud S. Sorensen	797.50

LOS ANGELES, Cal.—Merritt-Clapman & Scott Corp, 720 Wilmington-San Pedro Rd., San Pedro, submitted lowest combined bid to the board of public works June 21 at \$33,171 for constructing the sewage pumping plant to be built in the vicinity of Terminal Way and Dock St., Terminal Island.

Gene B. Foster, Inc., submitted the low bid on item (1) at \$21,199.

Merritt-Clapman & Scott Corp. submitted the low bid on item 2 at \$9550.

Bids were received as follows:

(1) construct a reinforced concrete pumping structure and a reinforced concrete gate chamber structure, including furnishing and installing all equipment and appurtenances, grading, paving all walks, curbs; furnish and apply sulphur-silica compound, metalizing and paint;

(2) furnish and install two duplicate sewage pumping units with all piping, also a sump pump and its connections and floor covering;

(3) lump sum for items (1) and (2).

The buildings will be of reinforced concrete construction, waterproofing, steel floors, galvanized iron hand railings, steel and wood ladders, steel gratings and plates, redwood gate, skylights, wire glass, copper flashings and gutters, fan ventilator, 60-ft. flagpole to serve as a ventilation pipe, portable work, Mastipave floor covering, cast iron gates, centrifugal cast iron pipe, galvanized can container and plumbing.

The two pumps will be vertical, centrifugal, single stage, 3150 gpm., 50-ft. head, and by change of impellers have required capacity to pump 4275 g.p.m., 60-ft. head. Also includes shaft guard, valves, floats, flow meter, instrument board, surge tank, electrical equipment, etc.

F. L. Weisenheimer, assistant chief engineer of sanitary sewer design.

The bids follow:

ITEM 1

- Gene B. Foster, Inc., \$21,199.
- Atlas Const. Co., \$21,400.
- Kemper Const. Co., \$23,445.
- Merritt-Clapman & Scott, \$23,621.
- John T. Bibb, \$23,775.
- R. A. Wattson, \$24,942.76.
- Dimmitt & Taylor, \$26,200.
- Engstrum Const. Co., \$26,411.06.
- Contracting Engineers, Inc., \$26,600
- R. R. Bishop, \$26,756.
- Oscar Oberg, \$27,843.
- Artukovich Bros., \$31,376.
- Lynch-Cannon Engr. Co., \$23,700.

ITEM 11

- Merritt-Clapman & Scott, \$9550.
- Smith, Booth, Usher, \$10,600.
- Fairbanks, Morse Co., \$12,467.25.

ITEM III

- Merritt-Clapman & Scott, \$33,171.
- Gene B. Foster, Inc., \$33,721.
- R. A. Wattson, \$33,921.

Contracting Engr., Inc., \$36,500.
Artukovich Bros., \$41,117.

LOS ANGELES, Cal.—Herbert M. Haruch Corp., and Robinson-Roberts Co., 625 S. Olive St., awarded contract by county supervisors, June 26, at \$33,877.50, for constructing a reinforced concrete conduit in Ballona Creek (Venice Blvd. South Roadway), between Rimpau Blvd. and La Brea Avenue.

LOS ANGELES, Cal.—Until July 19, 10 A. M., bids will be received by Board of Public Works to construct a reinforced concrete clarifier and a reinforced concrete digester at the Terminal Island Sewage Treatment Plant, specifications obtainable from Col. H. G. Smith, Chief Engineer of Sanitary Sewer Design, 705 City Hall.

LOS ANGELES, Cal.—J. J. Jessup, city engineer, has completed a preliminary estimate for constructing the sewers in the Wilton Place and Second St. Sewer District, involving: 32,581 ft. concrete conduit (Class F); 16,552 barrels cement;

7,283 tons sand;
10,821 tons rock;
593 tons reinforcing steel;
558,000 sq. ft. forms;
234,500 sq. ft. tile lining;
1,248 brick for two-ring conduit;
78,542 cu. yds. structure, lump sum for concrete conduit only;

78,542 cu. yds. excavation;
12,737 cu. yds. haul;
65,805 cu. yds. backfill;
8,100 ft. tunnel;

19,300 lin. ft. sheeting for trench, average depth 18 ft., remodel hose connections;

29,048 ft. 8-in. to 27-in. vit. clay pipe;
2,160 cu. yds. concrete reinf. and concrete supports;

2,352 barrels cement;
1,553 tons sand;
2,564 tons rock;

structures, lump sum for vit. pipe only
23,727 cu. yds. excavation (24- and 27-in.);

4,000 cu. yds. haul;
19,727 cu. yds. backfill;
25,530 cu. yds. excav. for 21-in. vit. clay pipe and under;

5,654 lin. ft. tunnel;
23,400 lin. ft. sheeting for trench, average depth 18 ft.;

135,000 sq. ft. resurfacing, Class AA;
50,677 sq. ft. do, Class A;

74,674 sq. ft. do, Class C;
17,053 sq. ft. do, Class D.

The cost is estimated at \$700,000. The quantities were prepared for a force account job.

33—WATER WORKS

SALEM, Ore.—The validity of the \$2-500,000 water bond issue, voted a year ago, has been upheld by the Oregon Supreme Court. The city may purchase the existing water system or construct a separate system at its discretion.

LYNWOOD, Los Angeles Co., Cal.—Chicago Bridge & Iron Works, 608 S Hill St., Los Angeles, awarded the contract by city council June 20 at \$5440 to construct an elevated steel tank with hemispherical bottom, 115 ft. in height of 100,000 gallons capacity, using 12-in. cast iron riser. A. J. Bateman, city engineer.

LOS ANGELES, Cal.—Foxboro Co. awarded contract by Saul A. Joseph, Purchasing Agent of the Metropolitan Water District, June 21 at \$2,231.32 for furnishing water flow meters under Bid No. 11172. American Meter Co., Inc. (Pacific Meter Works) submitted the only other bid at \$1,855.46.

OXNARD, Ventura Co., Cal.—Carl Fischer, Oxnard (bidding on U. S. Motors) awarded contract by city council June 20 at \$1006.20 to furnish one 100-hp. and one 125-hp. 3-phase, 50-cycle, 440-volt, 1500-rpm. motors for municipal water plant. Above figure shows deduction for allowance on two compensators, \$16.
Cerrin L. Isham, water superintendent.

SAN FRANCISCO.—Following bids received by T. A. Brooks, City Purchasing Agent, under Bid No. 1032 to furnish:
(1) one 72-in. slide gate;
(2) one 36-in. do;
(3) one 72-in. drainage gate.
Bidders follow:
(A) Calif. Corrugated Culvert Co., Berkeley, (3) \$246.55; Alt. \$301.85.
(B) J. Hendy Iron Works, S. F., (1) \$825; (2) \$350.
(C) Chapman Valve Mfg. Co., S. F., (1) \$930; Alt. \$959; (2) \$387.
Bids held under advisement.

RIO VISTA, Solano Co., Cal.—The following bids received by U. S. Engineer Office, Sacramento, under Order No. 5576 for the rental of two fuel tanks for 90 days:
Bundesen & Lauritzen, Pittsburgh, \$2 each per day for two tanks, total \$360; alternate of \$1.25 per day, total \$225.

Olympian Dredging Co., S. F., \$2.90 per day for one tank, total \$180.
Boiler Tank & Pipe Co., Oakland, at \$5.50 per day; \$11 per day for two tanks.
P. B. Hackley, S. F., bids for a unit of tanks, \$20 per day.
Bide held under advisement.

SAN FRANCISCO.—Following bids received by T. A. Brooks, City Purchasing Agent, under Bid No. 1032 to furnish:
(1) 50,000 ft. 6-in. b&s cast iron pipe;
(2) 50,000 ft. 8-in. do;
Bidders follow:
(A) Pacific States C. I. Pipe Co.;
(B) U. S. Pipe & Foundry.
(C) American C. I. Pipe Co.
(D) National C. I. Pipe Co.
(E) Central Foundry.
Unit bids follow:
(A) (B) (C) (D) (E)
(1)..... \$.5766 \$.52 \$.554 \$.56 \$.436
(2)..... \$.638 .78 .833 .83 .659
Bids held under advisement.

TORRANCE, Los Angeles Co., Cal.—Salisbury, Bradshaw & Taylor, consulting engineers, 714 W. 10th St., Los Angeles, retained by city council to supervise the construction of the new municipal water supply system to be built under the \$400,000 bond issue. They will also make an appraisal of the properties of the Torrance Land & Water Co. to determine its probable value, design and adaptability to the new system, if purchased.

HAYWARD, Alameda Co., Cal.—Rolph Mills & Co., 525 Market St., San Francisco, at \$2744 submitted low bid to city council to construct a 25,000-gal. elevated steel tank, 60 ft. to bottom capacity, for the municipal water system. Complete bids follow:
Rolph Mills & Co.....\$2744
Pittsburgh-Des Moines Steel Co. 3125
California Steel Products Co..... 3243
Chicago Bridge & Iron Co..... 3460
Bids held under advisement until June 30.

MANHATTAN BEACH, Los Angeles Co., Cal.—Until July 20, 8 P. M., (time extended from July 6 and note changes in bold face type below), bids will be received by City Council for sand-blasting the water tank and standpipe at the Water Plant on Se-

pulveda Blvd., welding all seams and all rivets in said water tank and standpipe, making all necessary replacements, painting tank and standpipe with two coats of paint and also for the erection of a screen ladder on the leg of the water tank, ladder side-piece 1½-in. channel, 1.12 lbs. per foot, ladder rungs of ½-inch. Upset Pipe, width 1 ft., U-Type Safety Screens, width 2 ft. 3 in., depth 2 ft. 6 in., ladder and screen erected with clips electric welded or bolted and to comply with State Safety Laws.

Contractor must furnish all materials except paint. City will furnish sufficient paint for two coats. Contractor must furnish all necessary labor and materials and all tools and equipment for work complete.
Certified check, 10%. Merritt J. Crandall, City Clerk; L. C. Lull, City Engineer, 1127 W. Washington Blvd., Los Angeles.

OLYMPIA, Wash.—Puget Sound Machinery Depot, 322 1st St., Seattle, at \$5684, awarded contract by State Board of Control to furnish 350 h.p. four-drum boiler for Western State Hospital at Steilacoom. Wickes Boiler Company of Saginaw, Mich., submitted the lower bid of \$5294.

LOS ANGELES, Calif.—Fairbanks, Morse Co. awarded contract by Saul A. Joseph, Purchasing Agent of the Metropolitan Water District at \$1269 to furnish a power pump under Bid No. 11,656. The bids were:
Fairbanks, Morse & Co.....\$1769.00
Gardner-Denver Co..... 1214.14
The Worthington Co., Inc..... 1223.00
R. M. Hartwell Co..... 1771.15

PALO ALTO, Santa Clara Co., Cal.—L. Skillman, Los Gatos Road, Santa Clara, at \$350 awarded contract by the Veterans' Administration for wrecking water tank at tower at the Veterans' Administration Hospital at Palo Alto.

MIDWAY CITY, Los Angeles Co., Cal.—The Midway Mutual Water Co. will be in the market in the near future for 2½-in. steel pipe for replacements. The company will probably ask figures on 8200 ft. furnished 400 ft. at time depending on the money available. H. M. Harrison, Supt. A. J. Houlihan, secretary, Midway City.

35—TUNNELS

VENTURA COUNTY, Cal.—Angus MacDonald, 7150 Melrose Ave., Los Angeles, at \$16,951.86 under Prop. A. submitted low bid June 27 to U. S. Bureau of Public Roads, San Francisco, to line three tunnels on Section A, Route 76, Maricopa-Ventura National Forest Highway, Santa Barbara National Forest, as follows:

- (A) Steel plate and concrete tunnel lining 369 lin. ft.;
- (B) Reinforced concrete tunnel lining, 369 lin. ft.

Bidders follow:
Angus MacDonald, Los Angeles, (A) \$45.94; \$16,951.86.

P. L. Burr, San Francisco, (A) \$50; \$18,450.00.

Contract. Eng., Inc., Los Angeles (A) \$51.45; \$18,985.05; (B) \$55; \$20,295.

Dimmitt & Taylor, Los Angeles (A) \$55.50; \$20,379.50.

Kemper Constr. Co., Los Angeles, (A) \$56.90; \$20,996.10; (B) \$71; \$26,199.

Sharp & Fellows, Los Angeles (A) \$62; \$22,878, (B) \$84; \$30,896.

Engineer's Estimate (A) \$47; \$17,343, (B) \$69.20; \$25,534.

Bids held under advisement.

29—STREETS AND HIGHWAYS

SEATTLE, Wash.—King County Commissioners cancel call for bids to have been opened July 10 to pave 1.41 ml. Renton Ave. from Renton north toward a connection with Empire Way. Estimated cost, \$24,080. Commissioners plan to call bids on extended project at a later date.

BELLINGHAM, Wash.—Until July 12, 10 A. M., bids will be received by Whatcom County Commissioners to pave Gulde Meridian highway, 1.75 mi. from the Lynden cemetery corner north to the border, estimated cost, \$40,000.

Until July 12, 10 A. M., bids will be received by Whatcom County Commissioners to extend Glen Slater Road, 1 mi. clearing, grubbing and grading west toward the gulf, estimated cost \$6000.

Specifications obtainable from above

SEATTLE, Wash.—No bids received by city council June 22 for the improvement of Railroad Ave., including sea wall, sewers, sidewalks, etc., and paving work between Madison and Bay Sts. Estimated cost, \$1,200,000.

VENTURA, Ventura Co., Cal.—Until 10 A. M., July 7, bids will be received by county supervisors to furnish materials under Spec. No. 531, as follows:

- 10,000 tons crushed rock;
- 10,000 tons gravel.

Specifications prepared by C. W. Petit, County Surveyor and obtainable from clerk of the board, L. E. Hollowell. Certified check or deposit, \$100.

WHITE PINE CO., Nev.—As previously reported, until 3:00 P. M., July 6, bids will be received by S. C. Durkee, State Highway Engineer, Heroes Memorial Bldg., Carson City, Nev., for oiling bet. the west county line and west foot of Antelope Summit, 22.81 miles, Route 2, Sections A and B, involving:

- (1) 202,192 gals. asph. road material, Type SC-2;
- (2) 336,459 gals. asph. road material, Type MC-2;
- (3) 22.81 miles road mix;
- (4) 22.81 miles finish roadway.

Plans obtainable from the above on deposit of \$5 of which \$2.50 is returnable. Certified check 5%.

WHITE PINE CO., Nev.—As previously reported, until 2:30 P. M., July 6, bids will be received by S. C. Durkee, State Highway Engineer, Heroes Memorial Bldg., Carson City, Nev., for oiling bet. Illipah and Robinson Summit, 14.40 miles, Route 2, Section C-2, involving:

- (1) 216,860 gals. asph. road material, Ty SC-2;
- (2) 23,236 gals. asph. road material, Type MC-2;
- (3) 14.40 miles road mix;
- (4) 14.40 miles finish roadway.

Plans obtainable from the above on deposit of \$5 of which \$2.50 is returnable. Certified check 5%.

UKIAH, Mendocino Co., Cal.—Hewig Construction Co., Sebastopol, at \$1478.11 awarded contract by city council for road surfacing as follows
(1) 12,933 sq. ft. asph. road surface (armor coat).
(2) 7540 sq. yds. asph road surface (road oil).

FREMONT COUNTY, Wyo.—Central States Contracting Co., Oakland, Cal., submitted low bid to the U. S. Bureau of Public Roads, 237 Custom House, Denver, Colo., J. A. Elliott,

acting district engineer, June 20, at \$53,780 for Section A. Wind River or Shoshone Indian Reservation Highway; 27,566 miles.

SAN JOSE, Santa Clara Co., Cal.—
A. J. Ralsch, 350 Burrell Bldg., San Jose, at \$6949 awarded contract by county supervisors to improve San Salvador St. from Meridian Road to the east line of Hannah St., Supervisor District No. 4, involving 65,240 sq. ft. oil macadam. Complete bids follow:
A. J. Ralsch, San Jose.....\$6949
Union Paving Co., San Francisco 7480
Surveyor's Estimate 7375

CALAVERAS COUNTY, Cal.—Until July 19, 2 P. M., bids will be received by State Highway Commission, Sacramento, to surface with untreated gravel or stone 6.5 mi. between western boundary and Burson, involving:
(1) 12,600 tons untr. cru. gravel or stone surfacing;
(2) 1,200 M. gals. water applied to base and surfacing.

SAN JOSE, Santa Clara Co., Cal.—
A. J. Ralsch, 350 Burrell Bldg., San Jose, at \$11,660 awarded contract by county supervisors to improve Kooser Road from San Jose to Almaden Road to the Los Gatos and Almaden Road. Supervisor District No. 4, involving:
(1) 223,600 sq. ft. asph. concrete;
(2) 4,460 sq. ft. additional 16-ft. pavement.
Complete bids follow:
A. J. Ralsch, San Jose.....\$11,660
Piazza & Green, San Jose..... 12,980
O. G. Ritchie, San Jose..... 14,110
Granite Con. Co., Watsonville 14,747
Surveyor's Estimate 13,250

LANDER COUNTY, Nev.—As previously reported, until 3:30 P. M., July 6, bids will be received by S. C. Durkee, State Highway Engineer, Heroes Memorial Bldg., Carson City, Nev., for oiling between Railroad Pass and Austin, 21.4 miles, Route 2, Sections B and C, involving:
(1) 470,344 gals. asph. road material, type SC-2;
(2) 34,492 gals. asph. road material, type MC-2;
(3) 21.38 mi. roadmix;
(4) 21.40 mi. finish roadway;
(5) 308 sq. yds. asphalt mat. surface.
Plans obtainable from above on deposit of \$5. \$2.50 returnable. Certified check, 5%.

CALAVERAS and Alpine Cos., Cal.—
C. F. Frederickson & Sons, Lower Lake, at \$7834.50 awarded contract by State Highway Commission to treat with fuel oil and asphaltic road oil as a dust palliative 23.8 miles of existing roadbed bet. Dorrington and Lake Alpine.

WASHINGTON, D. C.—The following is a list of the amounts finally allocated to the West Coast States under the \$100,000,000 fund for highway construction provided under the public works bill:

Arizona	\$ 5,211,960
California	15,607,354
Colorado	6,874,430
Idaho	4,486,249
Montana	7,429,748
Nevada	4,545,917
New Mexico	5,792,935
Oregon	6,106,896
Utah	4,194,708
Washington	6,115,867
Wyoming	4,501,327
Hawaii	1,871,062

ARIZONA STATE.—Until 2 P. M., July 11, bids will be received by the State Highway Commission, Phoenix, to construct Holbrook-Winslow Highway (E-40) from west city limits, consisting of the construction of one concrete and two C.M.P. culverts, the placing of subgrade stabilizer and oil processing by the plant mix method, and is to be completed on or before Nov. 30, 1933, involving:
5,400 cu. yds. subgrade stabilizer;
22,000 cu. yd. mi. subgrade stabilizer,
71 cu. yds. concrete;
haul;
246,800 sq. yds. prepare subgrade;
500 M. gals. water;
31,300 tons plant mix;
217,300 ton miles plant mix, haul;
1,520 tons cutback asphalt;
21.2 miles spread, compact and finish;
1,800 cu. yds. screenings;
4,900 cu. yds. shoulder material;
18,800 cu. yd. mi. shoulder material,
haul.
Proposal guarantee in cash or certified check of not less than 5%. T. S. O'Connell, State Highway Engineer.

CLARK COUNTY, Nevada—As previously reported, until 2 P. M., July 6, bids will be received by S. C. Durkee, State Highway Engineer, Heroes Memorial Bldg., Carson City, Nev., for oiling over the Muddy River bridge and from the Lower Virgin River bridge to Mesquite, 11.93 miles, Route 6, Sections F, H2, H1 and H4, involving:
(1) 252,580 gals. asph. rd. mat., Type SC-2;
(2) 18,602 gals. asph. rd. mat., Type MC-2;
(3) 11.56 mi. road mix;
(4) 4462 sq. yds. asphalt mat surface;
(5) 11.93 mi. finish roadway.
Plans obtainable from above on deposit of \$5. \$2.50 returnable. Certified check, 5%.

NEVADA STATE—Bids will be called to close July 12, by S. C. Durkee, State Highway Engineer, Heroes Memorial Bldg., Carson City, for highway construction as follows:
Concrete paving on highway in city of Elko.
New construction on ten miles of Contact-Idaho state line road and eight miles of surfacing on same road north of Contact, thus completing Wells-Idaho road.
Gravel surfacing Lincoln highway between Antelope summit and Illapah, fourteen miles.
Oiling Tonopah to Millers road, ten miles.
Oiling Yerington road from Yerington to point 9½ miles east.
Oiling of 5½ miles of highway near Holbrook and Douglas county line.

SOUTHERN CALIFORNIA—E. E. East, Chief Engineer of the Automobile Club of Southern California, has estimated the amounts which the thirteen southern counties may expect to receive from the \$16,300,000 appropriation which Congress has granted to California for highway construction. On the basis of population, Southern California will receive \$8,987,820, and the individual counties as follows:

Los Angeles County	\$6,340,997
San Diego County	602,004
San Bernardino County	384,409
Orange County	340,728
Kern County	237,099
Riverside County	232,605
Tulare County	222,359
Santa Barbara County	187,126
Imperial County	174,903
Ventura County	157,826
San Luis Obispo County	85,025
Inyo County	18,784
Mono County	3,955

ARIZONA STATE.—Until 2 P. M., July 11, bids will be received by the State Highway Commission, Phoenix, to construct Holbrook-St. Johns Highway (E-78-B and E-78-F). Work extends from the end of the pavement in Holbrook to a point about 5.9 mi. east of Holbrook, and consists of the placing of stabilizer and oil processing by the plant mix method and is to be completed on or before Oct. 15, 1933, involving:
69,300 sq. yds. preparation subgrade;
136 M. gals. water;
4,700 cu. yds. subgrade stabilizer;
12,800 cu. yd. mi. subgrade stabilizer,
haul;
16,650 tons plant mix;
22,500 ton mi. plant mix haul;
500 tons cutback asphalt;
1,150 cu. yds. shoulder material;
2,350 cu. yd. mi. shoulder material,
haul;
500 cu. yds. screenings;
5.9 miles spread, compact and finish;
and other incidental items.
Proposal guarantee in cash or certified check of not less than 5%. T. S. O'Connell, State Highway Engineer.

ARIZONA STATE.—Until 2 P. M., July 12, bids will be received by the State Highway Commission, Phoenix, to construct St. Johns - Springerville Highway (E-60 and E-68A). The work begins at a point about 11½ miles south of St. Johns and extends south-easterly approx. 8¾ miles toward Springerville, consists of grading and draining about ½ of a mile of roadway, the placing of subgrade stabilizer and the oil processing of the entire length by the road mix method and is to be completed on or before November 30, 1933, involving:
29,300 cu. yds. rdwy. excav.;
40 cu. yds. borrow excav.;
20,000 sta. yds. earthwork overhaul;
300 hours rolling;
26,200 cu. yds. subgrade stabilizer,
haul;
74,300 cu. yd. mi. subgrade stabilizer,
haul;
290 M. gals. water;
9,900 cu. yds. mineral aggregate;
25,400 cu. yd. mi. mineral aggregate,
haul;
178,500 gals. asph. road oil;
8.7 miles mix, lay and finish;
104 tons cutback asph. for seal coat;
740 cu. yds. screenings;
770 cu. yds. shoulder material;
2,180 cu. yd. mi. shoulder material,
haul;
and other incidental items.
Proposal guarantee in cash or certified check of not less than 5%. T. S. O'Connell, State Highway Engineer.

LYON COUNTY, Nev.—Until July 6 4 P. M., bids will be received by S. C. Durkee, State Highway Engineer, Heroes Memorial Bldg., Carson City, for 9.91 miles grade and gravel surface from A miles NE of Dayton to 12 miles west of Lahontan, involving:
(1) 41,600 cu. yds. rdwy. excav.;
(2) 60 acres clearing;
(3) 35,815 sta. yds. overhaul;
(4) 10,485 cu. yds. select borrow;
(5) 800 cu. yds. struc. excav.;
(6) 9.91 miles subgrade;
(7) 21,300 cu. yds. crushed gravel or stone;
(8) 59 cu. yds. Class B concrete;
(9) 1,400 lbs. reinf. steel;
(10) 1,464 lin. ft. 18-in. corr. metal pipe;
(11) 320 lin. ft. 24-in. do;
(12) 138 lin. ft. 36-in. do;
(13) 38 monuments;
(14) 9.91 miles finish roadway.
Specifications obtainable from above office on deposit of \$15, of which \$10 is returnable. Certified check 5% required with bid.

S. F. NATIONAL CEMETERY IMPROVEMENTS—GOVERNMENT

SAN FRANCISCO. — Pacific States Const. Co., Call Bldg., at \$15,813 submitted low bid June 22 to Constructing Quartermaster, Fort Mason, to grade, construct roads, relay water line, construct concrete wall, etc., at San Francisco National Cemetery, Presidio of San Francisco, involving:

- (1) entire work as specified;
- (2) deduct if concrete boundary wall is omitted;
- (3) deduct if new fence omitted;
- (4) add or deduct if natural rock asphalt surfacing used in place of asphaltic concrete;
- (5) additional fill, including hauling from borrow pit, cu. yd.;
- (6) concrete, inc. forms, cu. yd.;

- (7) reinf. steel, per 100 lbs.;
- (8) asphalt concrete road, inc. 10-in. sub-base per sq. ft.;
- (9) natural asph. rock surf., including 10-in. sub-base, per sq. ft.;
- (10) concrete curb, straight, lin. ft.;
- (11) concrete curb, curved 1 in. ft.;
- (12) 6-in. cast iron water pipe, linear foot;
- (13) 3-in. galv. steel screwed pipe, lin. ft.;
- (14) 2½-in. do;
- (15) 1¼-in. do;
- (16) 1¼-in. brass gate valves, each;
- (17) ¾-in. hose bibbs with risers, each;
- (18) wire fence, complete, lin. ft.;

- (19) concrete catchbasins, with grating, each;
- (20) 6-in. T. C. sewer pipe, laid and backfilled;
- (21) 8-in. do, lin. ft.;
- (22) concrete wall, complete, lin. ft.

Bidders follow:

- (A) Pacific States Const. Co.
- (B) Eaton & Smith.
- (C) J. S. Heilmann.
- (D) A. G. Raisch.
- (E) Fay Imp. Co.
- (F) Pacific Pavements.
- (G) Theo. Cohn.
- (H) P. L. Burr.

BIDS OPENED

BALLONA CREEK CONC. CONDUIT—L. A. COUNTY

LOS ANGELES, Cal. — Herbert M. Baruch Corp. and Robinson-Roberts Co., 625 S. Olive St., submitted low bid to county supervisors, June 19, at \$33,877.50, for constructing a reinforced concrete conduit in Ballona Creek (Venice Blvd. South Roadway), between Rimpau Blvd. and La Brea Ave. The work involves:

- (1) 6700 cu. yds. excavating;
- (2) 6700 cu. yds. backfill;
- (3) 3200 cu. yds. reinforced concrete class A;
- (4) 2400 cu. yds. reinforced concrete, class B;
- (5) 100 lin. ft. drilling dowel holes;
- (6) 1300 lbs. placing corrugated iron pipe;
- (7) 50 lin. ft. placing tile drains.

The county will furnish materials as follows:

Cement and admixture, reinforcing steel and miscellaneous metal ware, except tie wire for reinf. steel, bur-lap for curing filler, expansion joints, corr. metal pipe and drainage tile. E. C. Eaton, County Flood Control

Engineer, 202 N. Broadway. Mame B. Beatty, Clerk of the Board, 501 Hall of Records.

The bids follow:

- (A) H. M. Baruch Corp., et al, \$33,877.50.
- (B) Johnson Constr. Co., \$34,213.
- (C) J. L. McClain, \$34,801.
- (D) Wm. T. Loesch, \$35,586.
- (E) James H. Taylor, \$35,616.
- (F) R. A. Wattson, \$35,792.
- (G) Merritt-Chapman & Scott Corp., \$38,511.50.
- (H) Neil G. Gibbons, \$38,813.
- (I) Andy Sordal, \$40,892.
- (J) John Oberg, \$40,995.
- (K) Oscar Oberg, \$42,945.50.
- (L) Artukovich Bros., \$44,380.
- (M) Lynch-Cannon Engr. Co., \$45,210.
- (N) Kemper Constr. Co., Ltd., \$45,236.90.
- (O) Weymouth Crowell Co., \$45,859.
- (P) United Concrete Pipe Co., \$51,075.
- (Q) Chas. U. Heuser and W. E. Hall, \$51,175.

SAN FRANCISCO. — Pacific Pavements Co., 85 Barstow St., at \$50,214 submitted low bid to Public Utilities Commission to repave street or sidewalk openings where pavement has been removed for S. F. Water Dept. for fiscal year ending June 30, 1934.

The quantities are:

- (1) 60,000 sq. ft. light traffic conc. pavement;
- (2) 100 sq. ft. heavy concrete with binder;
- (3) 27,000 sq. ft. 6-in. Class E conc. pavement;
- (4) 500 sq. ft. brick pave. on conc. base, incl. brick gutter;
- (5) 100 sq. ft. asph. conc. 3¼-in. base and 1½-in. wearing surface;
- (6) 400 basalt blocks on conc. base;
- (7) 5000 do on sand;
- (8) 47,000 sq. ft. sidewalk, all types;
- (9) 100 sq. ft. 2-in. sheet asphalt wearing surface;
- (10) 100 sq. ft. 6-in. Class F concrete base;
- (11) 120,000 sq. ft. asph. conc., 6-in. base and 2-in. wearing surf.;
- (12) 100 sq. ft. do, 8-in. base, 1½-in. binder course and 1¼-in. wearing surface;
- (13a) 100 sq. ft. oiled macadam, 4-in. base;
- (13b) 2500 sq. ft. do, 8-in. base.

Complete bids follow:

CIVIC LEADERS WILL SUPPORT BOND CAMPAIGN

Mayor To Name Committee for Issue Covering City Construction

A group of downtown business men meeting yesterday with Mayor Rossi and the Board of Supervisors told the mayor that they believe support could be found for a new bond issue in August, for the raising of San Francisco's seventy percent payment on projects for which federal aid is expected.

The proposed bond issue would be submitted to voters with specific projects listed on the ballot.

Self-liquidating projects would be definitely favored in preparing the ballot, with a view to securing the largest possible share of federal funds under the National Industrial Recovery Act.

The group, which included merchants, builders, and chamber of commerce representatives, passed a resolution suggesting that the mayor appoint a committee of 25 citizens to cooperate with the Board of Supervisors in selecting the projects to be included on the ballot.

This step, they believe, will foster public confidence in the bond issue.

The mayor announced that he will appoint the committee not later than next week. The committee and the board will immediately go over the list of possible construction jobs submitted by city department heads.

EICHLER PRESIDENT OF CREDIT GROUP

Frank H. Eichler, credit manager of the American Smelting and Refining Company, and the Federated Metals Corporation, has been elected president of the Credit Managers Association of Northern and Central California. Mr. Eichler has been chairman of the Construction Industries Credit Bureau for the past three years.

THE WEEK'S NEWS Highlights

CONSTRUCTION LEAGUE. Concerted action by principal groups engaged in construction to unify the state's industry for assistance to the Federal government in administering the National Recovery Act program was announced with formation of the Construction League of California, Northern Section. The league will take the place of the State Building Congress. Charles F. B. Roeth, chairman of the congress, has been elected temporary chairman of the league. (Story Page 6.)

BUILDING GAIN. General improvement in the building industry is shown again in permit totals from principal municipalities for the month of June. In San Francisco the total of private work was \$1,069,118, virtually twice that of May. Ten leading cities reported a total of \$4,507,000 for June compared with \$3,359,000 in June last year.

MATERIALS. Another boost in lumber prices brings the cost of Douglas Fir, No. 1, common, to \$29 per M in San Francisco, a gain of 30 percent from \$22 at which it was selling a month ago. Prices were raised \$1 during the past week. Linseed oil is up 5 cents a gallon from previous week's prices. Other principal materials showed no change.

QUIT MERGER. Withdrawal of Calaveras Cement Company from merger plans that would have created a single cement producing and marketing unit from four principal California companies leaves the status of the consolidation uncertain. William W. Mein, president of Calaveras, authorized a statement that his firm had definitely rejected the merger proposal and was preparing a new production and sales schedule to start in August.

MONTH'S BUILDING PERMITS IN S. F. TOTAL \$1,069,118

Revival of Private Work Shown by Comparative Figures

San Francisco building permits for June exceeded both in number and in value those of June a year ago.

The total for the month, is \$1,069,118 compared with \$810,226 in June, 1932. A gain is shown also over May in all classes of private work. The comparable figure for last month (excluding bay bridge awards) is \$568,312.

The largest permit of the month is that for the Bohemian Club building, estimated at \$450,000. Alteration work accounted for 475 permits with an aggregate value of \$273,919. Sixty-five permits were issued for residences to cost \$236,205. Municipal, state and Federal work amounted to about \$100,000.

Following are the classified totals:

Class	June, 1933		June, 1932	
	No. P'mts	Est. Cost	No. P'mts	Est. Cost
A	1	\$ 450,000	\$
C	3	8,150	7	149,215
Frames	65	236,205	64	200,509
Alterations	475	273,919	329	232,167
Public	6	30,844	11	208,534
U. S. Govt.	1	3,000	13	18,506
State	3	67,000	1	1,195
Total	554	\$1,069,118	448	\$810,226

TULARE COUNTY PLANS \$661,500 PUBLIC WORKS

Plans for a \$661,500 program of public improvements in Tulare county to be financed partially by Federal funds have been announced by the board of supervisors. The program calls for erection of a hall of records at a cost of \$114,000; detention home in Visalia, \$15,000; isolation ward, \$14,000, and nurses' home, \$10,000 at the county hospital in Tulare.

Highway work includes expenditure of \$250,000 in repair of 500 miles of secondary roads, construction of five bridges, \$33,500 and other repairs and extensions to cost \$225,000.

31 STANDARDS ADDED TO U. S. ASSN. CATALOG

Important Progress Recorded During Year by Coopera- tive Organization

The establishment during the past 12 months of 31 new national industrial standards affecting the construction, electrical, mining, oil, steel, radio, and almost every other major American industry is recorded in the American Standards Year Book published today by the American Standards Association. The year book is issued as a record of the co-operative achievement of nearly 3000 scientists and engineers representing more than 500 national technical and trade organizations in the development of a unified system of basic technical standards for industry. The year book states that this work, which was started in 1918, has gone on without abatement during the past few years despite the depression.

Daniel C. Roper, United States Secretary of Commerce, in a foreword to the Year Book points out the importance of industrial standards in commerce. "National recognition of such standards," Mr. Roper says, "will remove misunderstandings and expedite commercial transactions. Especially is this important in interstate and international trade when the buyer is unable to inspect personally and select the commodities offered by the seller."

The new national standards listed in the Year Book are:

Safety Code for Floor and Wall Openings, Railings, and Toe Boards (A12-1932).

Steel Reinforcing Bars (A47-1932)

Forms for Concrete Joist Construction Floors (A48-1932).

Rotating Air Cylinders and Adapters (B5.5-1932).

Foundry Patterns of Wood (B45.1-1932).

Plain and Thread Plug and Ring Gage Blanks (B47-1932).

Inch-Millimeter Conversion for Industrial Use (B48.1-1933).

Shaft Copulings, Integrally Forged Flange Type for Hydro-Electric Units (B49-1932).

Specifications for Impregnated Paper Insulation for Lead-Covered Power Cables (C8.10-1933).

Manufacturing Standards Applying to Broadcast Receivers (C16d-1932).

Specifications for Lake Copper Wire Bars, Cakes, Slabs, Billets, Ingots, and Ingot Bars (H17.1-1932).

Specifications for Electrolytic Copper Wire Bars, Cakes, Slabs,

NEW YORK ALLOCATION OF ROAD FUND OKEHD

A proposal for the assignment of the apportionment to the state of New York of the \$400,000,000 appropriated for highways of certain classes by the National Industrial Recovery Act, submitted to the secretary of agriculture by the state department of public works, has been approved by Acting Secretary of Agriculture R. G. Tugwell, and Secretary of the Interior Harold L. Ickes, chairman of the Special Board for Public Works.

The approved proposal of the state, signed by F. S. Greene, Superintendent of Public Works, and A. W. Brandt, Commissioner of Highways, provides for the expenditure of approximately \$12,294,000 on roads included in the approved Federal-aid highway system, \$5,570,000 on extensions of the Federal-aid system into or through municipalities, and \$4,466,000 on secondary or feeder roads. The total apportionment to the State is \$22,330,101.

Billets, Ingots, and Ingot Bars (H 17.2-1932).

Methods for Screen Testing of Ores (Hand Method) (M5-1932).

Safety Rules for Installing and Using Electrical Equipment in Metal Mines (M24-1932).

Abbreviations for Scientific and Engineering Terms (Z101-1932).

Method of Test for Carbon Residue of Petroleum Products (Z11.25-1932).

Method of Testing Gas Oils (Z 11.26-1932).

Method of Test for Expressible Oil and Moisture in Paraffin Waxes (Z11.27-32)

Definitions of Terms Relating to Petroleum (Z11.28-1932)

Methods of Test for Dilution of Crankcase Oils (Z11.29-1932)

Methods of Test for Precipitation Number of Lubricating Oils (Z11.30-1932)

Engineering and Scientific Charts for Lantern Slides (Z15.1-1932)

Approval Requirements for Flexible Gas Tubing (Z21.2-1932); for Hotel and Restaurant Ranges (Z21.3-1932); for Private Garage Heaters (Z21.4-1932); for Clothes Dryers (Z21.5-1932); for Incinerators (Z21.6-1932); for Gas-Heated Ironers (Z21.7-1932); for Conversion Burners in House-Heating and Water-Heating Appliances (Z21.8-1933)

American Recommended Practice and Use of Piping and Fittings for Installation, Maintenance, for City Gas (Z27-1933).

CITY BUREAU TO CERTIFY LABOR MAY BE CREATED

Local Groups Sponsor Ordinance Limiting Employment to Residents

A plan whereby contractors on city jobs would be required to employ only bona fide residents of San Francisco was referred by the Board of Supervisors to its Public Welfare Committee yesterday.

The proposed ordinance, introduced by Supervisor Carl W. Miles would set up a Municipal Employment Registration Bureau, with offices at the city hall, to register applicants and give them cards to certify that they have been residents of the city for one year.

A committee of eleven citizens would be appointed to urge employers to follow the plan on private as well as public works.

"More than 150 outsiders are arriving in San Francisco every day to seek employment," Miles said, "and finding it at the expense of San Franciscans."

The ordinance, which met with no opposition when placed before the Board, is sponsored by representatives of labor and employer groups, including Archie Nooney of the Building Trades Council, E. H. Vandeleur, president of the Labor Council, and Albert Boynton of the Industrial Association.

CALAVERAS PRESIDENT INJURED IN ACCIDENT

William W. Mein, president of the Calaveras Cement Company, is confined to the Hospital at Palo Alto with severe injuries received in an accident at his home in Woodside last Monday. Mr. Mein fell while pruning a tree and suffered a dislocation of the left shoulder and fracture of the left arm. Officials of the company here said it probably would be several weeks before he will be able to return to his office.

RECOMMEND FEDERAL AID FOR WATER PLAN

Contribution of \$7,370,000 in Federal money toward the initial cost of the Kennett reservoir, a unit of the state water conservation plan, is recommended by Major General Lytle Brown, chief of army engineers. General Brown recommended the inclusion of the water conservation plan in the Federal public works program. Acceptance of the recommendation would allow the state 30 percent of the \$160,000,000 estimated cost as a Federal gift.

BURNER MAKERS ADOPT CODE FOR U. S. APPROVAL

Regulations For Industry Framed at Conference In Chicago

With a substantial majority of the industry represented, an oil burner manufacturers' conference in Chicago unanimously approved an all-industry recovery code and empowered the directorate of the American Oil Burner Association to present the recommended code to President Roosevelt under the terms of the administration's National Industrial Recovery Act, according to an announcement made by Morgan J. Hammers, president of the A.O.B.A.

While the all-industry code is the official answer of the A.O.B.A. directorate to the government mandate, Mr. Hammers explained, it represents the consensus of all the leading forces in the industry, for the code as approved by the association's board was first submitted to a round-table conference of manufacturers not as yet members of the association. The dealer division of the American Oil Burner Association, comprising a membership of 2,000, also acted and approved the measure unanimously, it was announced by R. S. Bohn, chairman of that division. The all-industry code will be submitted to the government immediately, Mr. Hammers said. "This code," Mr. Hammers said, "is set up for the purpose of increasing employment, establishing fair and adequate wages, effecting necessary reduction of hours, improving standards of labor and eliminating unfair trade practices, to the end of rehabilitating the oil burner industry and enabling it to do its part toward establishing that balance of industries which is necessary to the restoration and maintenance of the highest practical degree of public welfare."

While Mr. Hammers refused to divulge the entire content of the code since he first desires to present it to Administrator Hugh S. Johnson, he disclosed that the regulatory powers were sweeping and

EXTRA EXCAVATION ORDERED FOR BRIDGE

Directors of the Golden Gate Bridge District have authorized expenditure of \$41,717 for additional excavation for the pylons on the north side of Fort Winfield Scott. The necessity for the additional excavation was explained by Professor Charles Derleth, Jr., of the conducting board of engineers, who pointed out that these pylons will be constantly subject to tidal and wave action and that by going deeper for their foundations the possibility of erosion will be eliminated.

General Manager James Reed also has been authorized to negotiate with the Federal Government to the end of securing a portion of the \$3,300,000,000 federal construction fund for the Golden Gate Bridge. Approximately \$750,000 will be required and this amount will be secured by the District's bonds.

The federal funds, if obtained, will be used in construction of the Sausalito lateral approach road, the Francisco approach span and other important parts of the structure.

Authorization was given the general manager to appoint an illuminating engineer at a salary of \$300 a month, and a submarine engineer inspector at a salary of \$250 a month, as well as submarine divers, when needed, at the usual rates paid such workers.

that it would affect the manufacture and installation of the following units: domestic oil burners, commercial oil burners, boiler-burner units, and distillate oil burners.

In connection with the standards of business ethics and price control set up by the code, he said that no provision in it could be construed to promote monopolies, permit or encourage unfair competition, eliminate or oppress small enterprise or discriminate against small enterprises. The primary purpose of the writers of the code, he added, was to bring "the rates of wages paid within the oil burner industry to such levels as are necessary for the creation and maintenance of the highest practicable standard of living and to restore the income of enterprises within the industry to levels which will make possible the payment of such

CONTRACTORS ASK STATE INQUIRY ON MONTEREY WAGES

Protest Relief Council Campaign To Sell Labor for Low Pay

In a letter to Col. Carlos Huntington, state registrar of contractors, forty-eight contractors of Monterey, Pacific Grove and Carmel have protested against the activities of the Unemployment Relief Council of 211 Hoffman St., Monterey, which they charge is offering unfair competition to licensed contractors by doing carpentry, painting, brick and plaster work at unfair low wages.

The contractors state that the organization has been securing work on a large scale for unemployed laborers, both skilled and unskilled, the client to pay as much as he thinks fit for the work, and the payment to go directly to the council, the worker being paid in food and clothing allotments. These allotments, the contractors say, are not in proportion to the work done. Workers, it is charged, receive "demerits" from the organization if they engage in work for any outside contractor.

The council, the letter declares, has conducted an advertising campaign urging property owners not to pay more than two dollars per day to any workman.

The complainants, though they made no formal charges, pointed out that such activity has seriously damaged the business of legitimate contractors in the district who try to cooperate with President Roosevelt's policy of fair wages.

Orman Lutz, Huntington's supervisor in this district, will attend a meeting in Monterey tonight to determine if there is any ground for Huntington's office to take action.

He will be accompanied by Arthur J. Johnson, attorney for the State Labor Commission, who will ascertain if any state wage laws are being violated.

wages and avoid the further depletion and destruction of capital assets."

STATE LEAGUE FORMED TO AID FEDERAL PLAN

Construction Groups To Be Affiliated in Council Super-seding Building Congress

The Construction League of California to act as a coordinating agency for all groups in the state construction industry and to be identified with the Construction League of the United States was announced Saturday to be tentatively endorsed by principal professional associations of Northern California.

Similar action by corresponding groups in Southern California will be announced shortly, it is expected. The State Chamber of Commerce, through Charles F. B. Roeth chairman of the Northern Section of the California Building Congress initiated the conference in San Francisco at which the new organization was launched.

The Construction League of California, if finally endorsed by prospective member associations will supersede the California Building Congress. It will become the central organization of the construction industry, affiliated with State Chamber of Commerce, thru which the federal public works program in this state will be planned.

Mr. Roeth was elected temporary president and Floyd O. Booe, secretary-manager of the Northern California Chapter, Associated General Contractors, temporary secretary. In attendance at the conference were the following: John J. Donovan, G. F. Ashley and Rolland I. Stringham, representing Northern California Chapter, American Institute of Architects; E. L. Norberg, Dodge A. Riedy, and Chas. F. B. Roeth, Northern Section, State Association of California Architects; H. H. Hall, Walter L. Huber and Nathan A. Bowers, San Francisco section, American Society of Civil Engineers; Erle L. Cope L. H. Nishkian and J. B. Leonard, Structural Engineers Association of Northern California; George G. Pollock, J. P. Knapp and Floyd O. Booe, Associated General Contractors, Northern California Chapter, W. E. Lyons, Associated General Contractors, Alameda Co. Chapter; Jos. B. Keenan and E. H. Peterson, San Francisco Builders' Exchange; Charles S. Knight, manager, industrial development section, State Chamber of Commerce.

Telegrams offering the cooperation of the Construction League to General Hugh S. Johnson, National Industrial Administrator, and to Colonel Donald H. Sawyer, Federal Public Works Administrator, were dispatched by the organization. The president was authorized also to appoint a special committee to formulate and support state legislation conforming to the national industrial recovery act.

Following is the text of the resolution adopted by the group creating the Construction League of California, Northern Section; delegates

VOTE WAGE SCALE FOR COAST MILLS

A minimum wage scale for the lumber industry of the West of 42½ cents an hour for common labor, as part of the industry code to be presented to the Federal Government for approval has been adopted by the board of directors of the Loyal Legion of Loggers and Lumbermen.

A board, composed of 12 employes and 12 employers, reached a complete agreement at its conference in Portland, it was announced. A second wage scale, to become effective throughout the industry July 1, and to remain in effect until the industrial code is adopted, provides a minimum wage of 32½ cents an hour for common labor.

from the San Francisco Builders' Exchange being excused from voting because they had not been authorized to act for the Exchange:

WHEREAS, the National Industrial Recovery Act carrying into effect the President's program of national industrial recovery provides not only for a comprehensive plan of industrial control but also in Title II for the expansion of a great program of public works throughout the United States; and

WHEREAS, it is the President's plan that this program of public works be immediately started throughout the country as a means of providing immediate relief for unemployment; and

WHEREAS, this program of public works construction represents a national emergency during which it is desirable that the full resources of the construction industry of the United States should be made available to those who will be in charge of the administration of such a program; and

WHEREAS, every group and organization in the construction industry in the State of California is willing and anxious to cooperate in every way in connection with the rapid planning and advancement to actual construction of all phases of such public works program as it affects the State of California,

NOW, THEREFORE BE IT RESOLVED, that the services and cooperation of the organized trade associations and technical groups of Northern California are hereby offered to the President and his administration in connection with the entire program under the National Industrial Recovery Act.

BE IT FURTHER RESOLVED, that there is hereby created a Central Committee of representatives of all of said groups, parties to this resolution, to be known as the Construction League of California, Northern Section.

BE IT FURTHER RESOLVED, that representation in said Construction League shall consist of three representatives of each trade association or technical group affiliated therewith, selected by such group or association.

REARDON HEADS CANDIDATES FOR WORKS DIRECTOR

Governor Dispatches Names Of Eight Recommended to Administer State Program

Timothy A. Reardon, director of the state department of industrial relations, heads the list of eight men recommended by Governor Rolph from whom a California state public works administrator may be chosen. The list has been forwarded to Secretary of the Interior Harold Ickes, chairman of the federal public works committee.

Mr. Reardon is a member of the State Highway Commission as well as director of industrial relations and was for 18 years president of the San Francisco board of public works.

Other names on the governor's list of candidates for the position are:

Walter L. Huber, San Francisco civil engineer.

Col. Thomas M. Robbins, San Francisco, attached to the U. S. army engineer corps, Pacific division.

H. H. Cotton, San Clemente ranch manager.

Earl Lee Kelly, Redding, director of the state department of public works.

Harry A. Hopkins, Taft, chairman of the state highway commission.

John Quinn, chairman of the Los Angeles county board of supervisors.

H. A. Van Norman, chief engineer, department of water, city of Los Angeles.

WATSON IS NAMED COUNTY INSPECTOR

William Watson, Jr., of Burlingame, has been appointed San Mateo county building inspector, the first appointee to fill the office under the new charter. The appointment was made by County Manager Walter P. Kellogg.

Mr. Watson has been with the San Francisco firm of Weeks and Day. In his new position he will have charge of the organization of the county building department.

Appointment of James S. James, heretofore county surveyor, as county engineer also became effective July 1. He will have control of all road work in the county which is withdrawn from management of the supervisors under provisions of the new charter.

RENO PAY INCREASED

Reno city council has ordered a 10 per cent increase in pay for city employes to restore a portion of previous salary cuts.

Safe Construction of Los Angeles Schools Will Cost \$22,500,000, Board Estimates

To rebuild and repair Los Angeles city schools damaged in the earthquake of March 10 and to make all standing structures reasonably safe will cost \$22,500,000, it is estimated by the Los Angeles school department.

Preliminary estimates by the architectural department of the school district indicate expenditures for necessary work will amount to \$20,000,000 for labor and material and \$2,500,000 for fees to architects and engineers and advisory experts. In addition temporary housing during the period of reconstruction will cost \$3,000,000.

The physical work of reconstruction cannot be completed in less than 3 years, the report says, therefore it would not be necessary to provide all these funds immediately. About \$9,000,000 is now available to carry the work through the next year, comprising \$2,000,000 cash in building funds and \$7,000,000 unsold bonds of the last authorized issue. If these bonds cannot be disposed of in the open market, they may be sold through one of the Federal agencies.

"Ultimately, and at no distant date," the report continues, "it will be necessary to submit a bond issue to cover the additional costs. The board feels that no other course is open to it, either legally or morally, for the reason that the safety of children's lives is at stake and that in addition, the general welfare of the community, both financially and otherwise, is involved."

Technical Advisory Board

It is proposed in the report that "because of the absence of a precedent in the redesign of buildings to make them earthquake resistant and the obvious desirability of obtaining uniformity of procedure in this," that a board of technical advisors be appointed in addition to the regular architectural and constructional supervising staff now maintained in the school department. This board will be composed of an architect of broad ex-

perience in the field of architecture who is interested primarily in the general features of the assignment; a structural engineer of the highest technical skill and an engineer with a broad background of experience in actual construction.

The report discloses that there are 2491 buildings in the district, of which 253 were damaged by the earthquake. These are classified as follows: 670 masonry buildings, of which 194 or 29 percent were damaged; 127 frame buildings, of which 49 or 38.6 percent were damaged; 894 bungalows, of which 10 or 1.1 percent were damaged, and 800 miscellaneous type buildings, of which none were damaged. Of the masonry buildings, 146 or 21.8 percent "sustained major structural damage," according to the report. All other damages in the tabulation comprised broken chimneys, firewalls, gable ends, etc., but not plaster cracks.

None of the buildings had been designed with special consideration for horizontal thrust which occurs in an earthquake. However, specifications for school construction have always equaled or exceeded any code requirements in effect at time of construction. Many buildings were erected in territory since annexed to the city. Soil tests on all school sites preliminary to building have been made since 1922. Of 167 structures erected since Jan. 23, 1927, under the Los Angeles code, none sustained serious damage except to chimneys and firewalls, which were cracked in 14 instances.

A preliminary geologic report was submitted by Harry R. Johnson and H. K. Armstrong, geologists who made an intensive ten weeks' study of school sites and their relation to earth faults. It is estimated that 70 sites, or 18 percent of the total number in the Los Angeles city school district are upon or adjacent to known faults. A study and report on geologic conditions at each site will be prepared later.

COURT UPHOLDS NEW BREAKWATER PLAN

A friendly suit in the Los Angeles county superior court has affirmed modification of a contract between the City of Santa Monica and Puget Sound Bridge & Dredging Company for construction of a crib type breakwater.

Work was suspended on the crib type structure when it was found to be unsatisfactory. Thereafter the city authorized the contractor to proceed with a mound type breakwater to cost \$561,035. The court found that the city was proceeding within its authority in changing the type of work and continuing with the contract without calling for new bids. A credit of \$87,660 was allowed for work already done.

RAIL CONSTRUCTION LOAN IS REQUESTED

California and Oregon Coast Railroad Company has filed an application with the Interstate Commerce Commission and the Reconstruction Finance Corporation for a loan of \$5,718,565 to finance a proposed railroad line between Waters Creek Oregon, and Crescent City, California.

First construction on the railroad was undertaken in 1914 but was halted because of the war after only 15 miles of road had been completed. The loan application was filed jointly by Twohy Bros., contractors, who hold the railroad bonds, and C. H. Demaray, receiver.

PRODUCTION OF LUMBER HIGHER TO MEET SALES

Association Reports Industry Operations Equal 1931 Volume

New business received at the lumber mills during the week ended June 17, 1933, though 3 per cent below that shown in revised reports for the preceding week, was otherwise largest in volume since December, 1930, and lumber production was heaviest since October 1931, according to telegraphic reports to the National Lumber Manufacturers' Association, from regional associations, covering the reports of 647 leading hardwood and softwood mills. Shipments except for the preceding week were the largest since September, 1931. Hardwood orders in each of the last three weeks have exceeded those reported for any week since September, 1930.

Total orders during the week ended June 17 were 252,482,000 ft.; shipments were 208,842,000 feet; production, 174,707,000 feet. All regions showed excess of orders over output, softwood orders being 39 per cent and hardwood orders 96 per cent above production. For the 24 weeks of 1933 to date, orders were 41 per cent above production and shipments were 27 per cent above. Orders at Western Pine mills exceeded 60,000,000 ft., which was appreciably above those of any previous week since the re-organization of that association.

Compared with corresponding week of 1932, production was 47 per cent greater; shipments 44 per cent and orders 94 per cent more. All reporting regions showed orders and production in excess of last year. For the year to date, production was less than one per cent below that of similar period of 1932; shipments were 3 per cent below; orders 14 per cent above.

Unfilled orders at the mills were the equivalent of 25 days' average production. They were 85 per cent heavier than on corresponding date of last year. Gross stocks at softwood mills were 26 percent lighter.

Forest products carloadings continued to advance, totaling 24,352 cars during the week ended June 10. This was 7,278 cars above the same week in 1932 and 6,194 cars below the corresponding week of 1931.

Manufacturers of range boilers report new orders for the first five months of the year totaling 253,771 units compared with 218,141 units in the same period of 1932 and 254,632 in 1931. New orders in May were reported for 98,850 units compared with 43,422 in April and 48,813 in May, 1932. Orders on hand at the end of the month for delivery within 30 days totaled 35,160 units.

12—POWER PLANTS

HAYWARD, Alameda Co., Cal.—City Council considers report on proposed municipal light and power distributing system, estimated cost \$240,000. Edward K. Hussey, Syndicate Bldg., Oakland, engineer.

HANFORD, Kings Co., Cal.—City council considers proposed plan to survey gas, electric and water systems with a view to determining feasibility of municipal ownership.

LOS ANGELES, Cal.—The Board of water and power commissioners are reported to be completing negotiations for the purchase of properties of the Southern Sierras Power Co. in the Mono Basin, Owens Gorge and Owens Valley. The settlement, however, depends upon the arrangements that can be made with the city council as to payment of interest and sinking fund charge on the bonds to be issued to finance the projects. The cost of the Mono Basin project is estimated at \$13,350,000 and this cost was included in the \$38,000,000 bond issue voted several years ago. The cost of the storage dam, Mono tunnel, conduits, etc., is estimated at \$7,760,000. With the properties to be acquired, the total cost is fixed at \$13,350,000.

CLOVIS, Fresno Co., Cal.—The city council plans survey for municipal electric distribution system, and appoints Edward K. Hussey, Syndicate Bldg., Oakland, engineer on the project. Finances will be obtained through the National Industrial Recovery Act.

13—PUBLIC BUILDINGS FIRE HOUSES & JAILS

BAKERSFIELD, Kern Co., Cal.—Proposed construction of a Bakersfield civic auditorium at a cost ranging between \$250,000 and \$500,000, depending on financial assistance available under the National Industrial Recovery Act, will be given consideration at a special meeting of directors of Bakersfield Chamber of Commerce. Estimates on the probable cost of such a building will be presented by local architects, plans contemplating an auditorium capable of seating approximately 3500 persons.
2001)

SAN FRANCISCO—Pacific Electric Mfg. Co., 5815 Third St., at \$16,890 (swinging doors) and \$19,490 (sliding doors) submitted low bid to Department of Public Works for locking device for cell door at the Jail at Sneath Ranch for the City and County of San Francisco. Only other bid was submitted by the Judson Pacific Co., at \$38,727. Bids held under advisement.

SANTA MONICA, Los Angeles Co., Cal.—Santa Monica will request federal aid for financing the following building projects: Incinerator, \$75,000; city pound, \$5000; Clover Field airport improvements, \$50,000; industrial workshop, \$20,000; police department substation, \$5000; lifeguard station, \$5000; glass covering for Ocean Park plaza, \$30,000; automobile parking pier \$25,000; additional toilets along the beach, \$20,000. Most of these proj-

ects, according to city officials, may be termed self-liquidating.

SANTA CLARA COUNTY, Calif.—Santa Clara county supervisors will request a \$350,000 loan from the Reconstruction Finance Corp. to finance construction of a new county jail and additions at the almshouse.

Sub-Contracts Awarded.

BRENTWOOD, Contra Costa Co., Cal.—Until July 10, 1:30 P. M., bids will be received by Robt. Wallace, Jr., clerk of the Board of the Liberty Union High School District, Brentwood, for repairs and painting to the high school building. Work involves carpentry work, painting and plastering. Plans and specifications prepared by B. O. Wilson, Supt. of Schools, and may be obtained from the clerk of the board upon deposit of \$10.00.

LOS ANGELES, Cal.—Los Angeles Board of Education, at a meeting held on June 26, approved a report of its committee of the whole outlining a program of reconstruction of all school buildings in the Los Angeles city school district damaged by the March 10 earthquake and strengthening of other buildings which escaped damage, requiring an expenditure of about \$25,500,000. The survey of damages caused by the earthquake takes as its basis for minimum safety requirements those set forth in the recent report of the joint technical committee on earthquake protection, headed by Dr. Robert A. Milliken. Inspection has disclosed that 253 of the 1691 school buildings in the district suffered appreciable damage. The report suggests that the school board secure the services of a board of technical advisers to be composed of two structural engineers and an architect. In arriving at the estimate of \$25,500,000 for rehabilitation, the report places the cost of materials and labor at \$20,000,000, adds \$3,000,000 for temporary housing, and \$2,500,000 for indirect costs, such as engineers' and architects' fees, etc. On hand at present there is approximately \$2,000,000 in building funds, and of the last building bond issue \$7,000,000 have not been sold. Assuming that these bonds can be sold this year, either in the open market or through one of the agencies of the government, the total of \$9,000,000 made available would more than cover the work which could be done in the current fiscal year. Ultimately it will be necessary to submit a bond issue to cover the additional costs.

Preparing Working Drawings.
SCHOOL Cost, \$100,000
WHITTIER, Los Angeles Co., Cal.
Two-story Class A reinforced concrete school (concrete walls and floors, roof slabs, composition floors, roof slabs, composition roofing, stucco exterior, steel sash, steam heat, etc.)

LOS ANGELES, Cal.—Bids for furnishing and delivering to Water and Power Department f.o.b. Construction Equipment Section, 410 Ducommun St. three gasoline driven No. 10-S, non-tilting drum type cement mixers under Spec. No. 3126, were opened by A. J. Holm, City Purchasing Agent, June 29. The bids were asked on a basis of the bidder granting to the department options to purchase one or more but not to exceed three additional mixers as described above, at same prices, terms, etc., within 90-day period after award of contract. The bids were:

Harry C. Collins Machinery Co., \$1-022.75. Terms, 3% 30 days. Leach model 10-S. Add \$55 per unit for skip shaker. Option granted.

Smith, Booth, Usher, \$1195. Terms net. Jaeger 10-S. Option granted.

W. A. Bremer, \$1220. Terms, 2%, 30 days. Bremer 10-S. Option granted.

N. K. Davis, Inc., \$1225. Terms, 2% 20 days. Davis model. Option granted.

Brown-Bevis Co., \$1255. Terms, 2% 30 days. Master 10-S, 1933. Option granted.

Concrete Machinery & Supply Co., \$1275. Terms, 2% 30 days. Rex 10-S. Option granted.

Garlinghouse Bros., \$1450. Terms, net. Sansome 10-S, model "S." Option granted.

Harron, Rickard & McCone, one at \$1495; two at \$2840; three for \$4037. Terms, 3% 10 days, 10-S, N. E. C. Dandy Mixer.

30—RESERVOIRS & DAMS

PASADENA, Calif.—Consolidated Steel Corp., 5701 E. Slauson Ave., Los Angeles, awarded contract by the city directors June 28 at \$6690 to furnish pier plates and appurtenances for spillway gates for the Pine Canyon Dam. Spec. S.G-10.

GLASGOW, Mont.—U. S. War Department, Washington, D. C., has under consideration the construction of a dam at Fort Peck, 20 miles southeast of Glasgow. It will be of earth fill type with concrete facing, tunnels and spillways. The dam will be 231 ft. in height and have a capacity of 17,000,000 ac. ft. The estimated cost is \$65,000,000.

CAPITAL CITY TITLE COMPANY

▼

J. C. PALEN,
Manager

▼

914 Seventh Street
Sacramento :: California

CUCAMONGA. San Bernardino Co., Cal.—Royal V. Ward, 1515 West Arrow Highway, Upland, engineer and manager, has completed plans for an earth fill dam and de-silting basin to be built on Cucamonga Creek, a tributary of the Santa Ana River, for the Cucamonga Basin Protective Assn. of Cucamonga. The proposed dam will be of the earth type, 5600 ft. long at the crest, 22 ft. in height streambed to spillway crest, 10 ft. thick at the top and 120 ft. at the bottom. The dam will involve a total of 110,000 cu. yds. material. The slope downstream will be 2 to 1, and the upstream slope (with earth facing) will be 3 to 1. There will be two spillways with two 36-in. and two 48-in. rubble concrete conduits. The capacity of the reservoir will be 250 ac. ft. The other officials of the company are: A. C. Reynolds, 2019 Euclid Ave., Upland, president, and J. F. Grass, Jr., 1571 N Hellman Ave., Alta Loma.

31—PIPE LINES & WELLS

SAN FRANCISCO—Robert Garcia, Palo Alto, at \$4212.60 awarded contract by Public Utilities Commission to drill four inspection wells, Calaveras Dam.

LOS ANGELES, Cal.—Saunders Bros., Whittier, awarded contract by the county supervisors June 26 at \$1600 for drilling and developing a well 200 feet deep and lining it with No. 10 new red steel 18-in. double casing at Rancho Los Amigos (County Farm). William Davidson, chief mechanical engineer, 1006 Hall of Records.

WALLA WALLA, Wash.—A. A. Durand, Walla Walla, at \$1998 awarded contract by U. S. Veterans Administration for developing and testing deep well for Veterans Administration Facility, Walla Walla.

32—SEWERS & SEWAGE DISPOSAL PLANTS

LOS ANGELES, Cal.—J. E. Rockhold, county surveyor, instructed by county supervisors to prepare plans and specifications for a drainage system to serve the watershed of East Compton Creek, including portions of Bell, Maywood, Huntington Park, South Gate, Lynwood and Compton. Jurisdiction has been granted by the city councils of the cities named. Portions of the proposed system, including the Hooper Ave. storm drain and the Glen Ave. storm drain, have been the subject of detailed preliminary study, the laying of the utility lines having been regulated by a scheme devised by C. E. Arnold, storm drain engineer. If possible, the county plans to construct this system from federal public works funds.

LOS ANGELES, Calif.—Artukovich Bros., 912 Atlantic Blvd., Hynes, were awarded contract by board of public works June 30, at \$10,112.60 (type 2) for constructing sewers in Colfax Ave. bet. Magnolia Ave. and 1320 ft. south of Moorpark Ave. under the 1911 act.

LONG BEACH, Cal.—Pacific Clay Products Co., 650 Chamber of Commerce Bldg., Los Angeles, submitted low bid to E. S. Dobbins, city manager June 28 at \$6485 to furnish vitrified clay sewer pipe under Spec. No. R-747.

LOS ANGELES, Calif.—Bebek and Brkich, 421 N Record St., submitted low bid to board of public works, June 28 at \$1342.58 for the construction of sewers in the Chicago Street

and alley south of Marengo St. Sewer District.

TO PREPARE PLANS

EL CERRITO, Alameda Co., Cal.—City council orders assessment district formed and plans prepared by City Engineer H. D. Chapman for Fairmont Ave. storm sewer; estimated cost, \$40,000. 32

LOS ANGELES, Calif.—Bebek and Brkich, 42 N Record St., awarded the contract by board of public works June 30 at \$1342.58 for the construction of sewers in the Chicago St. and alley south of Marengo St. Sewer District.

PORTLAND, Oregon—Until July 12, 9:30 A. M., bids will be received by Geo. R. Funk, city auditor, to construct sewer in SE Main St. and SE 73rd Ave. Specifications obtainable from city engineer. Certified check for 10% required with bid.

33—WATER WORKS

SOQUEL, Santa Cruz Co., Cal.—Soquel Public Utilities district defeats proposal to form water district and install water system at election June 27. Estimated cost, \$65,000.

SAN FRANCISCO—Chas. L. Harney, 74 New Montgomery St., at \$17,250 awarded contract by Public Utilities Commission to construct concrete siphon for Crystal Springs Aqueduct.

SAN FRANCISCO—Lowrie Paving Co., 1540 16th St., at \$13,716.95 awarded contract by Public Utilities Commission to lay 16-in. and 12-in. cast iron feeder mains for Lakeview Hill, Daly City and Crocker-Amazon tract.

BOULDER CANYON, Nevada—Southwest Foundry & Machine Co., Ltd., 1481 Water St., Long Beach, awarded contract by A. McD. Brooks, Purchasing Agent, U. S. Bureau of Reclamation, Denver, Colo., at \$1489.12 f.o.b. Long Beach, for furnishing trash rack castings and anchor bolts complete, Schedule Nos. 1 and 4, Bid No. A-3226-A. Boulder Canyon. The bids were opened June 12.

POMONA, Los Angeles Co., Cal.—The American Cast Iron Pipe Co., Los Angeles, awarded contract by city water department at 38.5c ft. for 7000 ft. 4-in. class 150 bell and spigot cast iron pipe. The other bids (informal) were:

Pacific States Cast Iron Pipe Co., 39c (precaulked, 43c).
U. S. Pipe & Foundry Co., 39.5c.
Grinnell Co., 39.9c.
National Cast Iron Pipe Co., 39.9c.
Utilities Supply Co., 42.4c.

MIDWAY, Wasatch Co., Utah.—Midway Waterworks Co. granted \$6,000 loan by Reconstruction Finance Corp. for replacement of wood stave water main by cast iron pipe, materials to cost \$5000.

RIVERSIDE, Riverside Co., Calif.—Valley of Enchantment Mutual Water Co. granted \$2700 loan by Reconstruction Finance Corp. for extension and improvement of existing water supply system, involving a 55,000 gal. concrete reservoir and 4000 ft. 4-in. pipe.

SANTAQUIN CITY, Utah.—Santaquin City Corp. granted \$22,000 loan by Reconstruction Finance Corp. to replace five mile wood stave pipe in water supply system by cast iron pipe.

SAN BERNARDINO, Calif.—Pacific Pump Works, Ltd., 5716 Bickett St., Huntington Park, awarded contract by

city board of water commissioners on June 27 at \$969 to furnish a booster pump with direct connected low speed motor for installation at the Hanford Pumping Plant on D St.

LOS ANGELES, Calif.—Johnson Pump Co. awarded contract by Saul A. Joseph, Purchasing Agent of the Metropolitan Water District June 28 (item 1) at \$1595. to furnish pumps under Bid No. 11789.

LOS ANGELES, Cal.—Herbert's Machinery Co. awarded contract by Saul A. Joseph, Purchasing Agent of the Metropolitan Water District, June 30 at \$3080.63, lowest bid meeting specifications, for furnishing pump under Spec. No. 11,704.

LOS ANGELES, Cal.—Santa Fe Pipe & Supply Co. awarded contract by A. J. Holm, City Purchasing Agent, at \$1600 to furnish and deliver f.o.b. Construction Service Yard, Griffith Park, 10,000 ft. 2-in. wrought steel, galvanized pipe, T&C under Bid No. 6204.

LOS ANGELES, Cal.—Santa Fe Pipe & Supply Co. awarded contract by A. J. Holm, City Purchasing Agent, at \$1060 to furnish and deliver f.o.b. Construction Service Yard, Griffith Park, 20,000 ft. ¾-in. wrought steel galvanized pipe, T&C, under Bid No. 6205.

HAYWARD, Alameda Co., Calif.—Pittsburgh-Des Moines Steel Co., Rialto Bldg., San Francisco, at \$3125, awarded contract by city council to construct a 25,000-gal. elevated steel tank, 60-ft. to bottom capacity, for municipal water system.

Low bid submitted by Rolph Mills & Co., 525 Market St., San Francisco, at \$2744.

NEVADA CITY, Nevada Co., Cal.—Sacramento Pipe Works at \$77 per ft. awarded contract by city council to furnish 2900 ft. 15-in. wrapped wrought iron pipe to replace wooden pipe from the Canada Hill reservoir to connect with city water mains.

Bids were also called for trenching and laying pipe, but none were received. Work will probably be done by day labor.

SACRAMENTO, Cal.—Republic Mining and Manufacturing Co. submitted low bid to city council at \$16.90 per ton to furnish 200 tons Bauxite for city filtration plant. Bid referred to the city manager.

BOULDER CANYON, Nev.—Until 2 P. M., July 20, bids will be received by the U. S. Bureau of Reclamation, Denver, Colo., for furnishing high-pressure gates for upstream plugs in Tunnels Nos. 2 and 3, Boulder Dam, Boulder Canyon Project, under Specifications No. 542. The items are:

- (1) 6x7.5-ft. high-pressure gates with 27-in. hydraulic holsts, and semi-automatic gate hangar, each gate to include:
 - (a) 6x7.5 ft. high pressure gates, complete;
 - (b) semi-automatic gate hangers.
- (2) 6x7.5-ft. conduit linings with bolts, copper gaskets, and felt washers:
 - (a) 6x7.5-ft. conduit lining sections;
 - (b) 6x7.5-ft. conduit lining traction joints (each joint made in two sections);
 - (c) 1¼-in. x 7½-in. steel machine bolts;
 - (d) copper gaskets;
 - (e) 2x3½x¼-in. felt washers.

HEBER, Imperial Co., Cal.—A \$15,000 loan for the construction of a water works system for the town of Heber, 6 miles southeast of El Cen-

tro, has been granted to the Heber Public Utility District, by the Reconstruction Finance Corp. Bonds were voted Jan. 31, 1931. Plans for the project were prepared by Phillip W. Knights, engineer, who is also city engineer, of El Centro. The work involves:

Pumping plant, housed in a corrugated iron pump house, 20x24 ft., with corrugated iron roof and concrete floor, with equipment as follows-

Two 3-in. centrifugal pumps of 300 G. P. M. each, one driven by electric motor the other by gasoline motor as an auxiliary unit.

Tank and tower: one 16,000-gallon corrugated iron or sheet metal tank, with wood tower, 80 ft. to overflow.

Settling basin: involving 4500 cu. yds. excavation.

Distribution system involving:

1460 ft. 6-in. cast iron pipe;

2340 ft. 4-in. cast iron pipe;

1540 ft. 3-in. cast iron pipe;

5455 ft. 2-in. cast iron pipe.

with fittings, etc.

LOS ANGELES, Cal.—Bids for furnishing and delivering to Water and Power Department, f. o. b. Bouquet Canyon reservoir construction site, 16 miles northeast of Saugus, Sluice gates under Specifications No. 3129, opened by A. J. Holm, City Purchasing Agent, June 28, follow:

(1) 3 42x60-in. sluice gates with rectangular opening flat frame with spigot extension to fit into rectangular concrete opening and guaranteed to operate under a working hydrostatic unseating head of 111 feet;

(2) one 42x60-in. do, head of 79 ft.;

(3) one 42x60-in. do, head of 47 ft.;

(Alt. 1) 3 42x60-in. do, except equipped with adjustable side, top and bottom bronze mounted wedges;

(Alt. 2) one 42x60-in. do, except equipped with adjustable side, top and bottom bronze mounted wedges;

(Alt. 3) one 42x60-in. do, except equipped with adjustable side, top and bottom bronze mounted wedges;

The bidderse were:

Hacker Pipe & Supply Co. Terms net. Delivery 5 weeks: (1) \$725; (2) \$725; (3) \$725; (Alt. 1), \$911.65 (Alt. 2), \$911.65; (Alt. 3), \$911.65.

Joshua Hendy Iron Works. Terms net, (1) \$459.50; (2) \$459.50; (3) \$459.50.

Vernon Tool Co. Terms net. (1) \$467.95; (2) \$467.95; (3) \$467.95.

Baash-Ross Tool Co. Terms net. \$512; (2) \$512; (3) \$512.

Crane Co. Terms net. (1) \$742.50; (2) \$742.50; (3) \$665.

SAN FRANCISCO—Enterprise Fdry. Co., 2302 19th St., at \$.0375 per pound awarded contract under Bid No. 1003 by T. A. Brooks, City Purchasing Agent, to furnish cast iron fittings for San Francisco Water Dept. for term from July 1, 1933, to June 30, 1934.

35—TUNNELS

SAN FRANCISCO.—Yoddall Const. Co., 215 Market St., at \$22,990 was awarded contract by Public Utilities Commission (previously reported as being awarded to Barrett and Hilp, which was in error) to construct Lakeview Hill Tunnel.

LOS ANGELES, Calif.—H. W. McKinley, 1326 Central Ave., Glendale, awarded subcontract by Floyd Shofner and J. N. Gordon, general contractors, for excavating bet. 12,000 and 15,000 cu. yds. for tunnel access at Hayfield No. 2 tunnel of the Colorado River Aqueduct. McKinley is moving

in with his equipment this week.

35

LOS ANGELES, Cal.—Blue Diamond Corp. awarded contract by the Morrison Knudson Co. for reinforcing steel in the diversion tunnel at San Gabriel Dam No. 1. Morrison Knudson Co. is building the diversion tunnels for the West Slope Construction Co., general contractor on the dam.

35

LOS ANGELES, Calif.—Commercial Shearing & Stamping Co. awarded the contract by Saul A. Joseph, Purchasing Agent of the Metropolitan Water District, June 30 at \$4029.59 to furnish tunnel liner equipment under Spec. No. 11,551.

29—STREETS AND HIGHWAYS

NEVADA STATE—As previously reported, until July 12, bids will be received by S. C. Durkee, State Highway Engineer, Heroes Memorial Bldg., Carson City, for highway construction as follows:

ESMERALDA AND NYE COUNTIES, at 2 P. M., 9.77 mi. oiling between Miller's Cut-Off Road and Tonopah.

DOUGLAS AND LYON COUNTIES, at 2:30 P. M., 15.15-mi. oiling from 5 mi. east of Holbrook to East County Line, and from Yerington to 9½ mi. east.

WHITE PINE COUNTY, at 3 P. M., 12.62 mi. graveling from West foot of Antelope Summit to Illipah.

ELKO COUNTY, at 3:30 P. M., 18.02 mi. grade and gravel surface from Little Salmon River to State Line.

Specifications obtainable from office on deposit of \$5. \$2.50 of which is returnable, except the Elko County job, for which a deposit of \$15, \$10 returnable, is required. Certified check 5% required with bid.

SAN FRANCISCO—Pacific Pavements Co., 85 Barstow St., at \$50,214 awarded contract by Public Utilities Commission to repave street or sidewalk openings where pavement has been removed for S. F. Water Department for fiscal year ending June 30, 1934.

LOS ANGELES, Cal.—Associated Constructors, Inc., 1226 S. La Brea Ave., awarded contract by Board of Public Works, June 26, at \$101,004.30, for the improvement of Venice Blvd. (south roadway), between La Cienega Blvd. and Overland Ave. Cash Contract.

LOS ANGELES, Cal.—A. E. Pearson, 2225 Glencoe Ave., Venice, submitted low bid to the board of public works June 28 at \$1096.65 to improve first alley south of Pico Blvd. bet. Wooster St. and Robertson Blvd., under 1911 Act.

MADERA and Fresno Cos., Calif.—Tiffany, McReynolds & Tiffany Co., 535 N 7th St., San Jose, at \$15,824 awarded contract by U. S. Bureau of Public Roads for approximately thirty miles asphalt surface treatment on Sections A, B and C, Route 74, Northfork National Forest Highway, Sierra National Forest.

MONTEREY COUNTY, Cal.—Santa Maria Const. Co., 101 N Broadway, Santa Maria, at \$13,510.20 submitted low bid to District Engineer, State Highway Commission, San Luis Obispo, to treat with cutback asphaltic road oil 7.8 miles existing roadbed between Molera's Ranch and Rocky Creek, involving 690 tons cut-back asphaltic road oil. Complete bids follow:

Santa Maria Const. Co., Santa Maria, \$19.58; total \$13,510.20.

J. A. Briscoe, Arroyo Grande, \$20.20 total \$13,938.

Granite Const. Co., Watsonville, \$24.88; \$17,167.20.

Western Motor Transfer, Inc., Santa Barbara, \$26; \$17,940.

Tiffany, McReynolds, Tiffany, San Jose, \$26.47; \$18,264.30.

Bids held under advisement.

SAN DIEGO COUNTY, Cal.—Griffith Co., 502 Los Angeles Railway Bldg., Los Angeles, at \$10,611 awarded contract by State Highway Commission for highway construction between Sorrento Creek and Del Mark, 0.25 mile to be graded and paved with portland cement concrete.

OREGON STATE.—All bids rejected and new bids will be called shortly by State Highway Commission to construct 15.95 miles asphaltic concrete pavement, Aurora-Brooks and Canby Sections, Pacific Highway, contracts to have been let in two units of approximately equal size. West Contracting Co. submitted low bid at \$176,100 for North Unit, with an alternate of \$175,560; Parker Schram Co. submitted low bid at \$163,797 for the South Unit, with an alternate of \$162,967.

LOS ANGELES, Calif.—Until 10 A. M., July 12, bids will be received by board of public works for improving Lincoln Blvd. from Venice Blvd. to Washington Blvd., under cash contract, involving:

- (1) lump sum for all grading, inc. removals;
- (2) 117,933 sq. ft. 5-in. asph. concrete base;
- (3) 116,338 sq. ft. 2-in. (gran-type Warrenite-Bit.) wearing surf.;
- (4) 4004 sq. ft. various thickness (average 2-in.) Warrenite-Bitulithic wearing surface;
- (5) 4535 sq. ft. 4-in. asph. concrete wearing surface;
- (6) 4336 sq. ft. 7-in. conc. pave.;
- (7) 3959 ft. unplastered heavy curb;
- (8) 79 ft. curb armor;
- (9) 730 sq. ft. 6-in. conc. sidewalk (driveways);
- (10) 32 693 sq. ft. 1-course sidewalk;
- (11) 4909 sq. ft. 7-in. conc. gutter;
- (12) sanitary sewer complete, not including house connections;
- (13) 75 ft. 6-in. V.C. pipe house connection sewers;
- (14) orna. lighting conduit complete;
- (15) reset 7 manholes;
- (16) 1595 sq. ft. white concrete traffic lines;

The sewer and conduit involve detailed quantities as follows:

SANITARY SEWER

75 ft. 6-in. vit. clay house connection sewers;
3 10x6-in. sables;
2 manholes "B";
2 manhole frame and cover sets;
reset 7 manholes.

CONDUIT

140 ft. 2-in.;

5642 ft. 1½-in.

LONG BEACH, Calif.—Sully-Miller Contracting Co., 1500 W 7th St., Long Beach, submitted the low bid to E. S. Dobbin, city manager, June 29 at \$3,-926.80 for paving Pico St. from Ocean Blvd. to Seaside Blvd., under cash contract.

LONG BEACH, Calif.—Sully-Miller Contracting Co., 1500 W 7th St., Long Beach, awarded contract by E. S. Dobbin, city manager, June 30 at \$3,-926.80 for paving Pico St. from Ocean Blvd. to Seaside Blvd.

EVERETT, Wash.—Snohomish Co. Commissioners plan to improve 3¼ miles of Darrington-Bennett's store road by light grading.

UNIT BID SUMMARY

Compiled from the Daily News Service of Pacific Constructor

ANAHEIM BAY BRIDGE—ORANGE COUNTY

ORANGE COUNTY, Calif.—R. R. Bishop, 5017 E Broadway, Long Beach submitted low bid to District Engineer, State Highway Commission, Los Angeles, June 21 at \$12,581.50 for bridge construction at Anaheim Bay bridge, near Seal Beach, constructing approach spans and repairing existing bridge, involving:

- (1) 1950 cu. yds. excavation;
- (2) 1760 lin. ft. furnish creos. Douglas fir piles;
- (3) 44 drive do;
- (4) 65 cu. yds. Class A portland cement concrete;
- (5) 6 cu. yds. Class E do;
- (6) 8000 lbs. bar reinf. steel;
- (7) 39,000 lbs. struc. steel;
- (8) 7 F.M.B.M. creos. Douglas fir timber, sel. struc. grade;
- (9) 150 hours rent compressor, including operator;

- (10) 150 hours rent chipping hammer, including operator;
- (11) 150 hours rent gunite outfit, including crew;
- (12) 50 hours rent sandblast outfit, including crew;
- (13) 20 hours rent tank truck, including driver;
- (14) 350 sacks portland cement for gunite;
- (15) 90 tons sand for gunite;
- (16) 10 tons sand for sandblasting;
- (17) 1 lot staging complete;
- (18) move equipment to and from job
- (19) repair removable span.

The total bids were:

- (A) R. R. Bishop, \$12,581.50.
- (B) Weymouth Crowell Co., \$14,441.00.
- (C) John Strona, \$17,831.55.
- (D) Oscar Oberg, \$19,116.00.
- (E) Byerts & Dunn, \$23,443.50.

SHIPMENTS OF LUMBER EQUAL 1931 JULY PACE

**Production Exceeds Any
Week in Two Years;
Orders Steady**

Lumber production during the week ended June 24, 1933, overtopped all records since September, 1931, and lumber shipments since July, 1931; new business though a trifle under that of the week ended June 10, 1933, was otherwise largest in volume since December, 1930 according to telegraphic reports to the National Lumber Manufacturers' Association from regional associations covering the operations of 648 leading softwood and hardwood mills. Production totalled 186,116,000 feet; shipments, \$225,087,000 feet; orders, 253,091,000 ft.

All reporting regions showed excess of new business over production except Northern Pine where production is seasonally heavy. Softwood orders were 32 per cent above production and hardwood orders 75 per cent above hardwood output. Although all regions showed heavy order reports, those of Western Pine mills made a new record at 65,885,000 feet. For the 25 weeks of 1933 to date, orders were 41 per cent above production and shipments were 26 per cent above.

Compared with last year, production was 53 per cent greater than in the corresponding week of 1932; shipments were 68 percent heavier; orders 90 per cent greater. All regions showed gain over last year in all items. For the 25 weeks of the year to date production was 2 per cent above that of similar period of last year; shipments were 1.5 per cent heavier; orders 18 per cent larger.

Unfilled orders at the mills were the equivalent of 25 days' average production. They were 85 per cent heavier than on corresponding date of 1932. Stocks at softwood mills were 30 per cent lighter.

Forest products carloadings at 25,520 cars during the week ended June 17, were the heaviest since October, 1931. They were 8,380 cars above the same week in 1932 but 5,035 cars below the corresponding week of 1931.

THE WEEK'S NEWS Highlights

INDUSTRY CODE. After two preliminary conferences with construction industry leaders in San Francisco and Los Angeles, Colonel Carlos Huntington, registrar of contractors, announced he would hold a series of regional meetings to prepare a state code of fair competition for contractors. Col. Huntington said his department had ample authority under state law to regulate the contracting industry to the same extent that the Federal government is empowered under the National Recovery Act. Representatives of trade groups have asked his office to undertake preparation of a state code, meeting demands of all divisions, Co. Hunting said.

FEDERAL MONEY. The Supervising Architect, Treasury Department, has allocated \$20,759,500 to date for Federal buildings in California to be financed by Federal public works funds, it was announced in Washington. While the appropriation has not yet been approved by the public works committee, the Treasury Department recommendation is considered sufficient to assure adoption. Included in state work proposed is the Los Angeles court house and post office to cost \$9,050,000.

BRIDGE GROUND BREAKING. San Francisco-Oakland bay bridge construction was launched formally with ceremonies on Yerba Buena Island at noon Sunday. Work has been underway on the six major contracts already awarded (\$36,000,000 approx.) for sixty days.

EMPLOYMENT BUREAU. Contractors on San Francisco public works in the future must draw labor from the certified list of the municipal registration bureau. Supervisors voted to establish the bureau on plea of local labor that many applicants for jobs were presenting false residence addresses. Duty of bureau will be to ascertain bona fide residents and issue identification cards.

CALAVERAS CO. WILL NOT JOIN CEMENT MERGER

**Mein Says Firm Has With-
drawn From Negotiations
For Combine**

Calaveras Cement Company will not join the proposed merger of four California companies as a single producing and marketing unit, William W. Mein, its president, declared yesterday.

Mr. Mein did not enlarge on this statement or express an opinion as to the effect that his firm's withdrawal might have on negotiations that were announced six months ago.

"All we want is good, clean competition and a fair chance at our share of the business, and the President's National Recovery Act will give us that opportunity," said Mr. Mein.

"We are solidly behind President Roosevelt in his effort to lift industry and labor out of the chaotic condition of the past three years. The Calaveras plan is ready and will be the first in the United States to submit to the new code of ethics for the industry."

At the same time Mr. Mein announced that his company will commence production next month of pure white cement, the first commercial production of this material on the Pacific coast. The company also will start production of allied cement products, such as waterproofing materials and cement paints.

"Owing to the extremely high freight rates from the east, white cement has not been used extensively on the west coast," Mr. Mein said, "but with the Calaveras plant manufacturing the high-grade product we expect to develop an extensive market on the Pacific coast."

"Unless the railroads equalize freight rates for the Calaveras company we will develop our own transportation system, using trucks from San Andreas to Stockton and barges on Stockton's deep water channel to San Francisco."

The company is having a new road constructed to Calaveritas where a large deposit of lime was purchased recently.

10% OF U. S. LABOR ENGAGED IN CONSTRUCTION

League Chairman Cites Figures Proving Dependence On Industry

Every tenth person gainfully employed in the United States in 1929 depended for his livelihood on construction; of the total of \$11,000,000,000 of construction in that year, the greater part went eventually to wages. Further, just as much employment was furnished indirectly in dependent industries as was created by actual construction work.

This information was presented by Robert D. Kohn, past president of the American Institute of Architects, at a meeting of the Construction League of the United States of which he is general chairman.

"That the railroads, mines, and other contributing industries lean heavily on construction is clear from the facts that one out of every five carloads of freight moved in 1929 carried construction materials in raw or finished form," Mr. Kohn said. "Five per cent of all coal mined with burned to make these materials, and eight per cent of the wholesalers of the country were busy with their distribution. This multiple division of the construction dollar proves it to be a tremendous factor in the complicated and interlocking economic life of today.

"The fact that the jobs of a tenth of America's workers depend on construction brings home the importance of the public works program under the National Recovery Act. Construction paid \$7,000,000,000 to 4,500,000 persons in 1929 out of the total of 48,800,000 gainfully employed. Over half of these workers were engaged in direct construction.

"Engaged in wholesale distribution of the construction materials were 125,000 persons, reporting net sales to the Census Bureau of \$3,129,000,000, part of which was redistributed by 310,000 workers in retail establishments. This distribution group furnishes 10 percent of all construction employment and is one of the most widely dispersed divisions. The design of buildings, structures and projects of all kinds occupied 145,000 architects, draftsmen, engineers and designers in 1929, representing 3 per cent of the construction employees.

"Of the \$11,000,000,000 of construction, contractors built a little more than half, the remainder being done by railroads, public utility

EXTENSION CLASSES PLANNED FOR FALL

The University of California Extension Division which last year provided evening and day classes in a wide variety of subjects for more than 30,000 people has announced that more than 250 new classes of instruction will be started in the bay region during the months of August and September.

"There is no requirement for admission to a class other than the ability to pursue the work with profit," states Professor Leon J. Richardson, Director of Extension.

A new schedule of classes will be available for distribution in August and may be obtained by communicating with one of the offices: in San Francisco, 540 Powell St.; Oakland, 1730 Franklin St.; Berkeley, 301 California Hall.

Among the new classes starting at 540 Powell Street, San Francisco are the following:

Advertising, H. Hilscher, Sept. 12th.

Salesmanship, H. M. Crawford, Sept. 18.

Real Estate Law and Practice, J. A. Grennan, Jr., Sept. 13.

Legal Aspects of Fire Insurance, R. P. Wisecarver, Sept. 14.

Current Events in Finance, M. H. Epstein, Sept. 14.

Current Events, Dr P. W. Buck, Sept. 19.

Interior Decoration, H. J. Powers, Sept. 14.

Modern Interior Decoration, E. A. Hunt, Sept. 22.

Engineering - Strength of materials, N. B. Green, Sept. 12.

Reinforced Concrete Design, V. E. Johnson, Sept. 6.

Reinforced Concrete Theory and Design of Continuous Beams, V. E. Johnson, Sept. 6.

ties companies, municipal governments and the like. Direct employment was 2,500,000 men. New York, Pennsylvania and Illinois led in number of employees on contract construction work.

"In 1929 the raw materials production for construction engaged over 60,000 persons, mostly in the mines and quarries. The value of their products was a half-million dollars. These unfinished stone, ore and mineral products went to the manufacturing industries, which converted them, together with forest products, to finished materials, valued at three and three-quarters billions of dollars. In this manufacturing process 1,100,000 people were engaged, or one out of every ten occupied in all manufacturing industries; the materials were being made in one-fourth of the mills and factories of the country.

FIVE CONTRACTS ARE ADVERTISED BY COMMISSION

Bids August 2 on Highway Work in Alameda, L. A. And San Diego

SACRAMENTO, July 11.—Five contracts on which bids will be received August 2 were ordered advertised today by the State Highway Commission.

The only Northern California work included is for bituminous surface treatment of 1.9 miles between Mission San Jose and Warm Springs.

The other contracts are in Los Angeles and San Diego counties. Los Angeles county contracts are for excavation of slopes 6.8 miles between Palomas Creek and Whit-takes bridge; asphaltic road oil treatment of 18.6 miles roadbed and 2 miles earth shoulders between Neenach School and Del Sur road; asphaltic road oil treatment and bituminous seal coat to be applied on 5.1 miles of roadbed between Wet Canyon and Colby Creek.

San Diego contracts are for grading and paving with portland cement concrete 1.8 miles between Broadway and Harasthy street; asphaltic concrete paving of 4.4 miles between Barnett avenue and Balboa avenue.

NEVADA OUTLINES HIGHWAY PROGRAM

A tentative construction program for Nevada has been prepared by the state highway department providing for expenditure of \$3,524,000. The program calls for work totalling \$2,404,000 on the federal aid system outside corporate limits and \$235,000 within the cities of Elko, Carson City and towns on the Reno-Sparks highway. Feeder roads would receive \$850,000.

HEMSTREET - BELL BUY NEW PLANE

Hemstreet and Bell, Marysville road contractors, have purchased a new airplane, a four-place Waco cabin job to replace the ship they have flown for the past two years. The firm is well-known throughout the state and company officials have made extensive use of their privately-owned plane in supervising contracts in progress at different points.

CITY BUREAU TO REGISTER LOCAL LABOR

Contractors Must Draw Em- ployees From Authorized List

A registration bureau to insure the carrying out of charter provisions requiring employes on municipal projects to be bona fide residents of San Francisco is to be established under the terms of an ordinance unanimously approved by the Board of Supervisors Monday and scheduled for final passage on July 20.

The bureau will issue registration cards to all applicants for work on city jobs who have been residents of the City and County for a year or more. False declaration of residence or transfer of the card to another person will constitute a misdemeanor.

Under the terms of the ordinance no one will be hired on city construction jobs, either directly or through contractors, without a certificate issued by the bureau.

The ordinance, however, will not apply to workmen on projects paid for wholly or in part by federal funds under the National Industrial Recovery Act. Employment on such work will be governed by the terms of the federal act and rules laid down by federal authorities.

The registration bureau, with offices in the City Hall, will be under the direction of Arthur Curtis, Director of Finance and Records. The staff will consist of clerks at present working in the unemployment relief office.

The measure, introduced by Supervisor Carl Miles of the Public Welfare Committee and sponsored by labor and industrial organizations, is expected to stop effectively the flood of outside labor that is making it difficult for San Francisco workmen to secure jobs.

Representatives of the bureau will contact private employers and urge them to employ workmen bearing cards issued by the bureau.

BARUCH LOW ON ELY POST OFFICE

WASHINGTON, D. C., July 11 —Herbert M. Baruch, Los Angeles, at \$66,690 submitted the low bid to the treasury department on the general contract for erection of the Ely, Nevada, post office. K. E. Parker, San Francisco, was second low at \$68,180, and Wm. MacDonald Const. Co., St. Louis, third low at \$74,428. Plans were prepared by treasury department supervisory architects.

A. P. DAVIS ON BOULDER BOARD

East Bay Engineer Consultant For Colorado River Development

Arthur P. Davis, former director of the United States Reclamation Service and engineer for the East Bay Municipal Utility District, has been appointed to the board of consulting engineers on the Boulder dam project, it was announced yesterday.

Mr. Davis was one of the first engineers to investigate and to recommend the construction of Boulder Dam. His report on the site and type of dam to be constructed was submitted to congress in 1922 and was the basis for further studies.

Starting with the government service in 1894 as topographer for the geological survey in Arizona and New Mexico, he was successively in charge of hydrographical examination for the Panama canal, consulting engineer on the canal, director of the Reclamation Service, consultant to the Czar of Russia on irrigation projects, chief engineer for the Mokelumne water supply development for the East Bay, and consultant for the Soviet government on an irrigation project in Turkestan.

Mr. Davis has been convalescing at his home in Oakland from an operation which he underwent several months ago. He will leave for Boulder City as soon as his health

FINAL DRAFT OF A.G.C. CODE IS PRESENTED

Competitive Practice Recom- mendation Submitted at Washington Meeting

Presentation of the final draft of a code of fair competition for general contractors, in conformity with the requirements of the National Industrial Recovery Act, was made Monday to the entire construction industry at a special open meeting at the Willard Hotel, Washington, by the recently set up National Industrial Control Committee for General Contractors, headed by A. C. Tozzer of New York, president of the Associated General Contractors of America, and composed of representative member and non-member contractors.

Basic principles of the code were approved at an open meeting of general contractors, held under the sponsorship of the Associated General Contractors on June 26 and 27 at Chicago, at which the control committee was authorized to perfect the proposed code for presentation.

"To a large extent," Tozzer said, "the general contractors' code, when approved by the President, will govern the \$3,300,000,000 construction expenditures contemplated by the Recovery Act, as well as the billions of dollars in private construction which can be anticipated during the next two years. The entire construction industry, therefore, should be fully advised as to what we intend to submit to the Administration," he said.

Representatives from all of the constituent member organizations of the Construction League of the United States, composed of national associations of architects, engineers, subcontractors, material producers and others were in attendance.

U.S. AUTHORIZES \$20,759,500 FOR CALIFORNIA WORK

Nine - Million - Dollar L. A. Courts Building is Largest Allocation

Allocation of \$26,735,500 for federal buildings under the new National Industrial Recovery program in five western states and the territories of Alaska and Hawaii has been announced by the Supervising Architect, Treasury Department.

The list is not yet complete, but includes those buildings for which appropriations were approved prior to July 1, some of which are under contract and others that are being advertised.

Of the total authorization to date California will receive \$20,759,500. The largest single item in the state's appropriation is that for the Los Angeles court house and post office to cost \$9,050,000. Austin & Ashley, Los Angeles, have been commissioned to prepare plans for this building.

The San Francisco federal building on which were opened last February does not appear in the new list. The original bids are still in the hands of the treasury department, with the exception of that of N. P. Severin Company, low bidder, which was withdrawn.

Only one appropriation is included for San Francisco, that of \$150,000 for an Appraisers' Stores building. The largest appropriation in northern California is that for the Fresno federal building, \$650,000.

The complete list for the states of California, Arizona, Oregon, Washington, Alaska and Hawaii as issued by the treasury department July 1, follows: (All are post-office buildings, except as otherwise noted):

CALIFORNIA

STATE BOARD WILL PREPARE WORKS PROGRAM

Governor Names Five Officials To Review Local Proposals

Five state officials have been named by Governor Rolph to constitute a clearing house for state public works projects seeking financing under the federal aid program.

The members of the board are State Director of Public Works Earl Lee Kelly, State Relief Administrator R. C. Branion, Director of Industrial Relations T. A. Reardon, Finance Director Rolland Vandegrift and Major A. M. Barton, reclamation board engineer.

Their task will be to review all local proposals and fit them into a state-wide program.

The governor said he had not been advised as to details of the federal administration in California but wanted the state to be prepared with a satisfactory list of essential improvements when it is requested.

The State Highway Commission, meanwhile is preparing a road improvement program allocating the state's share of the \$400,000,000 highway money.

The governor announced also that the Bureau of Reclamation had added its approval to that of the army engineers for the central valley water conservation plan, involving \$160,000,000 in construction.

The bureau's statement said:

"The great central valley project, designed primarily for the relief of highly developed, settled and producing lands suffering from shortage of water supplies, is meritorious and worthy of financial assistance from the federal government through the loaning of non-interest bearing reimbursable funds in accord with the federal reclamation policies and precedents.

"With federal financing of the project through the employment of non-interest hearing funds for irrigation features, interest bearing funds for the power features and justified direct contributions from the state and federal governments in the interest of flood control, navigation and other purposes and with fair and reasonable revenues from

LICENSE LOSS IS STATE PENALTY FOR SUBSTITUTION

Amendment Effective Compelling Contractor to Complete Job on Bid Price

Warning that California contractors will be compelled to complete construction projects for the price specified in the contract was issued yesterday by Col. Carlos W. Huntington, state registrar of contractors.

A new law aimed to compel contractors to keep within the contract price without the substitution of cheaper materials or inferior workmanship is now effective, the registrar said. Rigid enforcement of the measure, an amendment to the contractors' act, was pledged by Huntington.

The registrar also warned contractors to exercise extreme care in computing bids, in order to protect themselves against a possible loss in the event of an advance in material costs, between the time estimates are obtained for computation purposes and the contract is awarded and materials ordered.

This amendment to the contractors' license act was sponsored by Assemblyman Lawrence Cobb, Los Angeles, upon the recommendation of the California State Builders' Exchange, and Governor James Rolph Jr. recently approved the bill.

Suspension or revocation of the license of a contractor found guilty of violating this new provision of the law is provided in the bill.

"This amendment," declared Col. Huntington, who is also director of the department of professional and vocational standards and a member of Governor Rolph's cabinet, "adds considerable teeth to the contractors' act, which should react to the benefit of the industry."

"It is aimed to curb a practice common among the unethical contractors in years past of accepting a contract at a figure below cost, and then attempting to secure enough additional money in his charges for changes or extras to give him a profit. The substitution of cheaper material or workmanship usually is found on such jobs also."

"The measure, as amended in 1931, fails to provide adequate power to curb fly-by-night contractors and jerry-builders from 'skinning the job,' except where fraud could be shown, and contained nothing relative to the price of the job. The amendment makes the act more workable in both respects."

"As a result of the new law, together with increased building activity and a possible rise in material prices, it behooves each and every contractor to exercise the utmost care and diligence in computing prices for the purpose of filing a bid."

"Unless due diligence is used, a contractor may find himself caught in a rising market. He should, for his own protection, do everything

BIDS RECEIVED ON EATON DAM

LOS ANGELES, July 10—Mistry Brothers, Los Angeles, at \$229,737 on first alternate and \$224,382 on second alternate, were low among seven bids received by Los Angeles County Flood Control District today for construction of Eaton Canyon dam. The first alternate is for gunite facing, the second for concrete. Both bids were lower than a combination of low bids on separate proposals for the earthwork and concrete work alone. Other bids for the dam complete include Basich Brothers, \$241,263 and \$234,173; Geo. Pollock, \$268,285 and \$256,195.

NATIONAL LUMBER COMMITTEE NAMED

The Emergency National Committee of the lumber industry, a liaison body between the lumber and forest products industries and the industrial control administration in Washington, includes the following:

Hardwood, C. A. Bruce, Bruce Lumber, Inc., Memphis, Tennessee; Fred Bringardner, Bringardner Lbr. Co., Lexington, Ky.; E. B. Ford, Mengel Co., New Orleans; C. A. Goodban, Sawyer-Goodman Co., Marinette, Wis.

Northern Hemlock, Ralph Hines, Edw. Hines Lbr. Co., Chicago.

Northern Pine, S. L. Coy, North-west Paper Co., Cloquet, Minn.

Northeastern Softwood, R. S. Brownell, Central Pacific Co., Williamsport, Pa.

Redwood, C. R. Johnson, Union Lumber Co., San Francisco.

Southern Pine, Charles Green, Eastman, Gardiner Co., Laurel, Miss.; A. J. Peavy, Peavy Wilson Co., Shreveport, La.; C. C. Sheppard, Louisiana Central Co., Clarks, Louisiana.

West Coast Logging and Lumber Industries, E. W. Demarest, Pacific National Lbr. Co., Tacoma, Wash.; M. E. Reed, Reed Lbr. Co, Shelton, Wash.; J. D. Tennant, Chairman, Long-Bell Co., Longview, Wash.

Western Pine, B. W. Lakin, McCloud River Lbr. Co., McCloud, Cal. Ralph Macartney, Weyerhaeuser Timber Co., Klamath Falls, Ore.

At Large, J. W. Blodgett, Grand Rapids, Mich.; W. M. Ritter, W. M. Ritter Lbr. Co., Columbus, Ohio; F. E. Weyerhaeuser, St. Paul, Minn.

Temporary Retail Rep., A. J. Hager, Hager Cove Co. Lansing, Mich.

Temporary Wholesale Rep., Max Myers, Nicola, Stone & Myers Co., Cleveland; Temporary Woodwork Rep., E. J. Curtis, Curtis Companies, Clinton, Ia.

possible to keep within the contract price and protect himself from increased prices. This is particularly true in the case of the small contractor with modest resources, who cannot absorb a possible loss," Registrar Huntington said.

TOWER DESIGN FOR BAY SPAN IS MODIFIED

Architectural Board Recommending Changes to Beautify Structure

Architects for the San Francisco-Oakland bridge have proposed a new plan for the tower of the suspension bridge sector which has been approved by the bridge engineers, the department of public works announced yesterday. The changes in the tower materially alter its appearance and were effected by reducing the angle of bracing.

Studies are being made now of the concrete masses, including the center anchorage, midway between San Francisco and Yerba Buena island which will stand 298 ft. above the water surface. Design of the island tunnel portals also is receiving consideration of the consulting architectural commission.

The architects appointed by State Director of Public Works Earl Lee Kelly are Timothy L. Pfeuger, Arthur Brown, Jr., and John J. Donovan.

They are commissioned to work with the engineers in creating a design for the crossing that will harmonize the several units into a single structure of graceful proportions.

SUPERVISORS ENDORSE U. S. AID PROJECTS

As city officials waited word from Sacramento on the fate of San Francisco's application for federal aid funds for six highway projects, two other public jobs of pressing necessity were approved by the Board of Supervisors for sharing in the federal funds.

The board passed resolutions allocating \$1,865,000 of the city's anticipated share in Industrial Recovery Act money for extension of the fire department's high pressure system, and \$1,700,000 for the completion of Yacht Harbor and Aquatic Park.

The high pressure main system was urged by Fire Chief Brennan, who pointed out that action to extend the system was begun after the fire of 1906, but dropped because of lack of funds.

Extensions to the system in the order of their importance, were listed as follows:

Potrero	\$550,000
Mission	100,000
South of Market	50,000
Clay Hill	50,000
North Beach	65,000
Marina	350,000
Hayes Valley	250,000
Park - Presidio	275,000
Sunset	175,000

The Yacht Harbor work was urged as one of the city's most important projects, and on that would attract yachtsmen of other cities to San Francisco, benefiting local trade.

New Process for Producing Thin Sheet Copper Will Extend Industrial Uses

Many new applications for sheet copper may result from a process recently developed, after years of research by metallurgists of the industry, for electrodepositing copper in thin wide sheets, reports the Industrial Bulletin issued by A. D. Little, Inc. "Such sheets are now commercially available as light as one ounce per square foot, as wide as 30 inches, and in rolls of indefinite length and uniform thickness. Advantages of the electrodeposition process over mechanical rolling include a much lower manufacturing cost, production in a few hours instead of as high as three weeks, much less loss to scrap, use of cheaper raw material (copper not yet electrolytically refined) and production of sheets upwards of three times the maximum width heretofore attainable.

"In the new process, copper is deposited from solution upon a revolving large-diameter lead-faced drum by an electric current many times higher than is normally used for copper plating. As the lead drum slowly revolves, the copper sheet which has been deposited upon it to a thickness of one ounce per square foot passes continuously from the plating bath through a cleansing operation. If a heavier weight is desired the 1-ounce sheet is passed over a series of rolls up and down through a long tank in which are suspended copper electrodes. During its passage through this tank copper is deposited upon one face of the one-ounce sheet, in a manner analogous to the electrolytic refining of copper, until sheets of any desired weight up to sixteen ounces are secured.

"The new copper sheeting possesses especially interesting possibilities when bonded to other materials, such as textiles, felt, paper fibre and composition boards, and to other metals. Specially embossed and bonded to fabric by a flexible binder, 1½-ounce sheet is being used experimentally by automotive engineers as a topping material for closed cars. The fireproof copper top, which may be finished by the same type of lacquers or varnishes used on the body of the car, is reported to be more durable and more resistant to the abrasion of tree branches than are customary topping materials. A similar composite sheet, with a somewhat heavier copper facing, is manufactured for use as roll roofing.

"The copper sheet alone is being introduced for sheathing and for use in built-up felt-asphalt-gravel roofing. Test roofs indicate that the copper affords almost perfect protection to the underlying asphalt, a fact which probably will permit elimination of one or more plies of felt. The extra cost entailed by use of the protecting layer of copper may thus be largely reduced by economies in other materials and in labor.

"Hundreds of tons of thin copper have been used to cover under-

ground pipe lines to protect them from the friction of settling soil and from corrosion. After welding or joining preparatory to burial, the pipe line is covered on its exterior surface with a plastic coating suitable for forming a dielectric bond between iron pipe and copper covering. When this has set to the desired consistency, continuous 8-inch bands of copper are wound spirally over the line from long rolls, covering pipe and joints. During winding, enough of the plastic coating squeezes out between the one-inch laps to form a water-proof joint.

"Thin sheet copper is also finding application as a paper substitute. Used on a recording meter in place of ordinary recorder paper, the dimensions of which changed with the humidity of the air, copper sheeting corrected for a petroleum company an error equivalent to \$5,000 worth of oil a month. Sheet copper has been used for novelty greeting cards, and has been found to be useful, when composited to fiber-board, as covers for books subject to severe usage in public libraries. The surface of the copper may be chemically treated to permit its taking ink satisfactorily, and the copper sheets may be attractively embossed.

"Electrodeposited copper has a somewhat lower tensile strength across the sheet than the rolled copper, a somewhat less dense structure, and a greater tendency toward the development of patina, the green film formed on the surface of copper during weathering. However, the manufacturers have found no reason to believe that electrodeposited copper is less weather-resistant than other dissipate heat so readily as to make per. The thin sheets of copper disallowance for expansion and contraction unnecessary. The speed, simplicity and low cost with which they may be produced, and the greater widths and continuous lengths available, indicate a considerable field for the new electrodeposited copper sheets."

SAN MATEO RENOVIZE DRIVE AUGUST 1

San Mateo county renovize campaign committee is to start its canvass about August 1.

The campaign will have as its object pledges for \$1,000,000 in building improvements to be completed within six months. County-wide endorsement has been given by organizations and individuals. C. C. Young, former governor, is chairman of the committee.

NEVADA AWARDS SIX CONTRACTS

CARSON CITY, Nev., July 6. Six contracts aggregating \$265,000 were let today by the State Highway Department, the first work to be undertaken under the new Federal allotment program. The awards were as follows: U. B. Lee, San Leandro, oiling 11.93 miles, Clark county, \$29,543; Basalt Rock Co., Napa, Calif., and J. C. Compton, McMinnville, Ore., oiling between Illipah and Robinson summit, 14.4 miles, White Pine county, \$35,091; Geo. French, Jr., Stockton, Calif., oiling 22.81 miles, White Pine county \$75,417; Jack Casson, Oakland, oiling 21.4 miles, Lander county, \$72,208; Nevada Rock and Sand Company, Reno, 9.91 miles grade and gravel, Lyon county, \$54,728.

COUNTY SURVEYOR SETS NEW BUDGET

County Surveyor James S. James of San Mateo County, will ask \$31,200 for the conduct of his office during the fiscal year 1933-34, according to a budget prepared for County Manager Walter T. Kellogg. James will receive \$3500 a year for his services as county surveyor and \$1300 as county engineer.

In the engineering department, Surveyor James will have the following assistants:

Deputy engineer, \$225 per month.
Designer-draftsman, \$210.
Heads transitman, \$200.
Superintendent of roads, \$225.
Assistant superintendent, \$210.
Cost accountant, \$125.
Two foremen, \$175.

The engineer shall, as authorized by the county executive, employ persons in special work as follows:

Inspectors on construction, \$6 to \$8; draftsmen, \$6 to \$8; transitmen, \$7 to \$8; chainmen, \$5 to \$6; axemen-flagmen, \$4 to \$5; right-of-way agent, \$7 to \$8; common labor, \$4.50; compressor operator, \$5; quarrymen, \$5 to \$6; powdermen, drillers, \$5 to \$6; sub-foremen, \$5 to \$7; truck drivers, \$5 to \$7; tractor-men, \$5 to \$7; gradermen, \$5 to \$7; mechanics, \$5 to \$7; carpenters \$7.20.

SAN LEANDRO POLICE ENFORCE CITY CODE

San Leandro policemen are charged now with the duty of enforcing building ordinances in the city, according to Chief of Police J. F. Peralta.

Each officer has been instructed to visit all construction work on his beat to determine whether contractors have the proper city licenses and permits. Building Inspector Pelton asked the police department for assistance in enforcing the municipal building code.

11—ICE AND COLD STORAGE PLANTS

PULLMAN, Wash.—Until July 21, 1 P. M., bids will be received by E. O. Holland, Secretary, Board of Regents, State College, Pullman, for refrigeration machinery to be placed in Troy Hall, State College of Washington. Plans and specifications may be obtained from Stanley A. Smith, college architect, Mechanical Arts Bldg., State College, Pullman.

BREWLEY, Imperial Co., Calif.—Brawley city council is making inquiries as to the advisability of constructing a municipal ice plant in Brawley. Plans for a plant, to cost \$238,000, have been submitted to the council by the York Ice Machine Co. of Los Angeles.

12—POWER PLANTS

BOULDER CANYON, Nev.—Until August 18, 10 A. M., under Specifications No. 543, bids will be received by U. S. Bureau of Reclamation, Denver, Colo., to furnish and install two or four 82,500 kv-a. and one 40,000 kv-a. vertical shaft, alternating-current generators, each complete with main exciter, pilot exciter, thrust and guide bearings and surface coolers, for the Boulder power plant, Boulder Canyon Project, Arizona-California-Nevada; plant located at Boulder Dam. Specifications obtainable from above office, no charge to prospective bidders, \$1.50 to others, not returnable. Proposal guarantee, 10%.

ESCONDIDO, San Diego Co., Cal.—The bid of the Newbery Electric Corp. 1038 Venice Blvd., Los Angeles, at \$79,461 to construct a complete distributing power system, the only bid received, rejected by city council July 5th.

The committee of 15 citizens, headed by Dean Howell, mayor, and B. A.

Sweet, councilman, will meet July 6 to consider a call for a special election to vote on an \$80,000 bond issue to finance the project.

If satisfactory arrangements for the purchase of power from the existing utilities cannot be made, the city will entertain proposals from private companies to install a municipal power plant. Plans prepared by John H. Chase, consulting engineer, Security Title Insurance Bldg., Riverside. The system will consist of between 30 and 40 miles of bare wire system, including a 2300-volt primary system.

LOS ANGELES, Cal.—Osborn Co., 150 California Terrace, Pasadena, and Fritz Ziebarth, Security Bldg., Long Beach, awarded contract by the Metropolitan Water District July 7 at \$10,900 for constructing an electric power transmission line in accordance with Spec. No. 38. The work consists of the construction of approx. 16.7 miles of 33,000-volt transmission line located bet. Cabazon and Substation, about five miles west of Banning, and a point in Big Morongo Canyon, about six miles north of Garnet siding on the S. P. Ry., in Riverside county. Complete bids published June 15.

TURLOCK, Stanislaus Co., Cal.—City council authorizes City Engineer H. C. Hall to make survey and estimate of cost of municipal power plant.

NEW MEXICO, Etc.—Secretary of the Interior Ickes has recommended the expenditure of \$2,440,350 for school building construction on Indian reservations of New Mexico and northern Arizona. The program provides \$2,037,950 for Navajo reservation, including the Hopi Indians and \$402,400 for New Mexico pueblos. Building of day schools and other education plants account for \$1,754,650, of which the pueblos will receive \$252,400. Eastern and southern Navajo jurisdictions each are slated to get \$300,000 for day school plants; northern Navajos, \$200,000, and Hopi, \$150,000. In addition to the day school allotment the Hopi will receive \$125,000 for the erection of a central high school building; southern Navajo, \$110,000 for a school auditorium at Fort Defiance, Ariz., and eastern Navajo, \$150,000 for a hospital at Crown Point.

- (2) 28 cu. yds. class E concrete;
- (3) 248 cu. yds. class A concrete;
- (4) 29,600 lbs. reinf. steel;
- (5) 146,600 lbs. structural steel.

The bid is to be on a lump sum basis.

The cost is estimated at \$12,500. L. W. Briggs, Secretary.

22—DREDGING, HARBOR WORKS, EXCAVATION

PORTLAND, Ore.—U. S. Engineer Office, 321 Customhouse, Portland, will call bids shortly for harbor improvement projects as follows:

Remove 8800 cu. yds. subaqueous rock in upper Columbia River between Celio Falls and Arlington, Ore.

Construct rubble mound and south jetty at entrance to Tillamook Bay, Ore., involving in the main 200,000 tons stone, 60,000 lin. ft. piling, 575,000 ft. lumber, 20,000 lbs. drift bolts,

130 tons rail, 15,000 lbs. spikes, 14,000 lbs. machine bolts and 20,000 ft. wire cable.

Dredge 5,730,000 cu. yds. from Columbia River opposite Harrington Pt., 90 miles below Portland.

Dredge 3,103,000 cu. yds. from two locations in Willamette river.

Beach, 2130.
San Francisco Bridge Co., 160.
Sparks adm McClellan, Newport
er bids were:
cannot be made for 10 days. The other bids will be awarded as above but by the charter the official award Agent's recommendation, the contract will be awarded to the Purchasing agent with the Purchasing In accordance with the Purchasing agent's recommendation, the contract handling 600,000 cu. yds. material. Shoals in San Diego Harbor, involving \$83,340, for dredging at Alexander July 10 at 13.89¢ cu. yd., or a total purchasing agent, A. R. Sauer, Jr., Diego, submitted low bid to the City of San Diego, Municipal Pier No. 1, San Diego, Cal.—Standard Dredge-

SACRAMENTO, Cal.—Franks Contracting Co., 260 California St., San Francisco, at \$135 submitted low bid to U. S. Engineer Office, Sacramento, to dredge 242,000 cu. yds. material from the San Joaquin River 26 ft. Channel in two reaches totalling about 4550 ft. in length near Turner Cut. Only other bid submitted by Hydraulic Dredging Co., Ltd., Oakland, at \$145. Engineer's estimate, \$13. Bids held under advisement.

PORTLAND, Ore.—Parker - Schram Co., Couch Bldg., Portland, awarded contract by Army Engineer Corps at \$69,706, for rock excavation and removal, reconstruction of miter sill and thrust walls, lock gate and timber.

LOS ANGELES, Calif.—Until Aug. 11, 3 P. M., bids will be received by U. S. Engineer Office, 751 S. Figueroa St., Los Angeles, Maj. W. H. Lanagan, District Engineer, to repair encroachment at Reservation Point, Los Angeles Outer Harbor, involving furnishing and placing 4000 tons stone.

The project will provide nearly half of the proposed extension, may be either of the clay core rock surface type, as is the initial segment, or all rock. Present construction costs would permit the latter type under the original \$7,000,000 appropriation. The cost of constructing the 4000 feet with clay base would approximate \$1,400,000, the all-rock would be \$2,000,000, according to estimates of the engineer.

The clay core type, requiring but 940,000 tons of rock, will entail use of 445,000 cu. yds. of clay. The clay would be dredged from the outer harbor shoal directly south of Reservation Point, enabling the straightening of the harbor fairway approach to the main channel. If the all-rock type is used, approximately 1,500,000 tons of rock will be required.

ber fenders, construction of emergency dam and riprap for dike, all in Willamette river, in and between Lock No. 1 (lowest lock of locks at Willamette Falls, near Oregon City), and a point about one mile downstream from Willamette Falls.

OAKLAND, Cal.—Lee J. Immel, 1031 Evelyn Ave., Berkeley, at \$32 per cu. yd. awarded contract by City Port Commission for the removal of approximately 2000 cu. yds. of material in rear of the 329-ft. extension to Outer Harbor Terminal, estimated cost \$900.

CAPITAL CITY TITLE COMPANY

J. C. PALEN,
Manager

914 Seventh Street

Sacramento :: California

SACRAMENTO, Cal.—Franks Contracting Co., 260 California St., San Francisco, at \$135 awarded contract by U. S. Engineer Office, Sacramento, to dredge 242,000 cu. yds. material from the San Joaquin River 26 ft. Channel in two reaches totalling about 4550 ft. in length near Turner Cut. Complete bids published July 7.

NYSSA, Ore.—As previous reported J. A. Terteling & Son, 511 Sound, Spokane, Wash., at \$118,404.50 submitted low bid to U. S. Bureau of Reclamation, Denver, Col., to construct earth-work and structures, North Canal, Sta. 260 (Owyhee River Siphon) to Sta. 513, Mitchell Butte Division, Owyhee Project, Oregon-Idaho, work located near Nyssa and Adrian, Ore., on the Oregon Short Line Railroad. Complete bids follow:

J. A. Terteling & Sons, Spokane	\$118,404.00
Morrison-Kundsen Co. Boise	122,675.00
F. H. Slate, Portland	125,357.00
General Const. Co., Seattle	132,937.00
Guthrie-McDougal Co., Portland	163,199.00
Winston Bros., Minneapolis	166,566.00
Bernard-Curtis Co., "	168,349.00

23—IRRIGATION PROJ.

IDAHO STATE—J. W. Brennan & Co., Pocatello, Idaho, awarded contract by the U. S. Bureau of Reclamation, Denver, Colo., at \$4455 to construct structures on laterals, Gooding Division, Minindoka project, Idaho.

24—ST. LIGHT. SYSTEMS

SAN FRANCISCO.—Until July 26, 2:30 P. M., bids will be received by S. J. Hester, Chief Deputy Director, Department of Public Works, to erect lighting system in Alenmany Blvd., Section B and C, Mission to San Jose, involving:

- (1) 96 ornamental iron standards and appurtenances, to be erected, assembled and hauled (furnished by the city) lump sum bid.
- Estimated cost, \$16,000. Specifications obtainable from John J. Casey, city engineer, 3rd floor, City Hall.

25—MACHINERY AND EQUIPMENT

SANTA CRUZ, Cal.—High School District will open bids July 17, 8 P. M., to furnish three school buses, 2 48-passenger and one 60-passenger capacity, one for the San Lorenzo Valley, one for service along the Coast to Swanton, and the 60-passenger bus through the Live Oak Dist.

DURHAM, Butte Co., Cal.—Until July 21, 8 P. M., bids will be received by Wm. Bollerud, Clerk, Grammar School Board, to furnish two truck chassis to fit school bus bodies now in storage in Durham Garage. Certified check 10% required with bid.

SALEM, Ore.—Until July 25, 11 A. M., bids will be received by the State Board of Control, Salem, to furnish:

- (1) five snow plows, moldboard push type, 8-ft. for 1½-ton International;
- (2) five do, for 1½-ton Chevrolet.

Specifications obtainable from above office.

PORTERVILLE, Tulare Co., Cal.—Until July 21, 6 P. M., bids will be received by Lucien V. Schmitton, clerk, Porterville Union High School Dist., to furnish one school bus. Specifications obtainable from Secretary, 420 Main St., Porterville. Certified check 10% required with bid.

PANAMA CANAL ZONE—Until July 27, 10:30 A. M., under Schedule No. 2836, bids will be received by the General Purchasing Officer, Panama Canal Zone, Washington, D. C., to furnish:

- Pump equipment;
- Oil-purifying equipment and motor-driven blower for Craneship;
- Lifeboats;
- Galley Range;
- Fire Extinguisher System;
- Portable Fire Extinguishers;
- Steel Reinforcing Bars;
- Creosote Oil.

WASCO, Kern Co., Cal.—Waseo Mill & Mfg. Co. awarded contract by high school district to furnish an all-metal school bus body. Marvin Braham, Bakersfield, was awarded contract to furnish the chassis and motor. Complete cost of the bus is \$3725.

26—RAILROADS

LOS ANGELES, Cal.—E. C. Eaton, 202 N Broadway, county flood control engineer, has completed specifications for the sale and removal of 12,000 lin. ft. of railroad track and accessories in San Gabriel Canyon, upstream from Pine Canyon Dam. The specifications have been submitted to the county supervisors for their approval and advertisement of bids.

30—RESERVOIRS & DAMS

OAKLAND, Cal.—East Bay Municipal Utility District, Oakland, preparing plan for construction of Middle Bar Dam, 10 miles upstream from the Pardee Dam, Mokelumne River, which will develop 9000 k.w. of electric energy. Dam will be 156 ft. from foundation to spillway crest; will have runway on top of dam; siphon spillways; curved gravity type dam. A power house will be constructed downstream. Dam will be 23 ft. thick at top; 119 ft. thick at base; length 535 ft. at crest; will involve about 90,000 cu. yds. of concrete. Capacity of reservoir will be about 30,850 acre feet. R. C. Kennedy, Engineer; John H. Kimball, Secretary of the District. Estimated cost, \$800,000. Project may be financed by federal funds under the National Industrial Recovery Act.

LOS ANGELES, Cal.—Mittry Bros. Const. Co., 5531 Downey Road, Los Angeles, at \$224,332 for concrete, and \$229,737 for granite (Proposal No. 1) submitted low bid July 10 to county supervisors to construct Eaton Wash Debris Dam. Other bids follow:

- Basich Bros., Torrance, \$234,173.25 and \$241,263.25.
 - Geo. Pollock, Sacramento, \$256,195. and \$268,285.
 - A. Teichert & Son, Sacto., \$288,-698.50 and \$292,377.50.
 - Von der Hellen & Pierson, Castiac, \$333,855.25 and \$332,314.50.
 - J. E. Haddock, Ltd., Pasadena, \$333,-855.25 and \$342,791.25.
 - Guy F. Atkinson, San Francisco, \$336,233 and \$344,480.
- Complete bids under Proposal No. 2 follow:
- Hall Johnson Co. and M. S. Ross, Alhambra, \$143,782.50.
 - Geo. Pollock Co., Sacramento, \$149,-435.
 - C. G. Payne Const. Co., Los Angeles \$179,852.55.
- Complete bids under Proposal No. 3 follow:
- Case Const. Co., 1927 Thayer Ave., Los Angeles, \$125,951.
 - George Hess, Los Angeles, \$143,392.

SEATTLE, Wash.—Columbia Basin Commission and Federal Government sign contract for preparation of plans and estimates of cost for construction of power dam at the Grand Coulee site, Columbia River.

31—PIPE LINES & WELLS

LAKEPORT, Lake Co., Cal.—City Council will seek \$15,000 federal funds through the National Industrial Recovery Act to construct 200-yard redwood causeway across Rumsey Bay, north end of Main St.

HANFORD, Kings Co., Cal.—North & Cole, Corcoran, awarded contract by Gas Fuel Service Company for welding 2200 lengths of pipe 45 ft. long, in connection with their gas line now being built, estimated cost \$680,000.

MT. VIEW, Santa Clara Co., Cal.—Until July 19, 8 P. M., bids will be received by E. L. Hays, City Clerk, to drill 10-in. well, 400-ft. deep and furnish and install a casing. Specifications obtainable from above. Certified check 10% required with bid.

SAN FRANCISCO.—American Concrete & Steel Pipe Co., 19th Avenue and Estuary, Oakland, at \$90,444.70 for Alameda Creek, and \$25,294.55 for Tesla Portal, total \$115,739.25 under Prop. B, steel cylinder reinforced concrete pipe, awarded contract by the Public Utilities Commission, under Hetch Hetchy Water Supply Contract 142, to construct pipe lines, Coast Range Division, Hetch Hetchy Aqueduct (Alameda Creek Siphon and Tesla Portal connection).

32—SEWERS & SEWAGE DISPOSAL PLANTS

SAN BRUNO, San Mateo Co., Cal.—Fairbanks Morse & Co., Spear and Harrison Streets, San Francisco, at \$2358.87 awarded contract by city council to furnish four sewage pumps for the San Bruno-Lomita Park outfall sewer.

CAPITOLA, Santa Cruz Co., Calif.—County supervisors continue action on outfall sewer system for Capitola, bids for which were opened May 29, until July 24, 2:30 P. M.

CLOVERDALE, Sonoma Co., Cal.—City council plans to improve sewage system by construction of Imhoff tank.

PALO ALTO, Santa Clara Co., Cal.—Until July 24, 4 P. M., bids will be received by Board of Public Works to furnish vitrified salt-glazed sewer pipe as follows in connection with new sewage disposal system:

- (1) 2300 ft. 27-in.;
 - (2) 850 ft. 20-in.;
 - (3) 3850 ft. 15-in.;
 - (4) 780 ft. 14-in.;
 - (5) 1500 ft. 12-in.;
 - (6) 490 ft. 10-in.;
 - (7) "Y" ranches for above;
 - (8) 4600 ft. 22-in. wood stave pipe.
- Specifications obtainable from J. F. Byxbee, Jr., city engineer.

SONOMA, Sonoma Co., Calif.—City council considers plan to construct outfall sewer to tide water; proposed by C. G. Gillespie, State Bureau of Sanitary Engineering.

PALO ALTO, Santa Clara Co., Cal.—Bids had under further advisement until July 24, 4 P. M., by Board of Public Works, to furnish sedimentation tank and sludge pump in connection with the new sewage disposal system.

PALO ALTO, Santa Clara Co., Cal.—De Laval Steam Turbine Co., Rialto Bldg., San Francisco, at \$2062 awarded contract by Board of Public Works to furnish 2 sewage pumps 1000 to 1100 G.P.M. against an average 18½ ft. head, maximum 21½ to minimum 16½.

CAPITOLA, Santa Cruz Co., Cal.—Santa Cruz County may purchase bonds of Capitola Sanitation District in order to proceed with construction of \$21,500 outfall sewer, for which \$12,000 bonds have already been sold.

33—WATER WORKS

ALDERWOOD MANOR, Wash.—Until July 5, bids will be received by Alderwood Water District, Peter H. Tutmark, President, to construct water distribution system, involving:

- 60 miles pipe line;
- 241,000 ft. 4-in. pipe;
- 45,000 ft. 6-in. pipe;
- 5000 ft. 8-in. pipe;
- 24,000 ft. 12-in. pipe;
- 5000 ft. 18-in. pipe.

Henry R. Stevens, Thompson Bldg., Seattle, Wash., is consulting engineer on the project. Bonds not to exceed \$75,000 have been voted to finance project.

BOULDER CANYON, Nev.—Following awards made by U. S. Bureau of Reclamation, Denver, to furnish stop plates, bronze guides, bulkhead gates, gate hangars, anchors for intake towers, under Spec. 593-D:

- (1) J. W. Beam, \$30,845, Denver.
- (2) Riverside Bridge & Steel Co., Milwaukee, Wis., 1550.
- (3) Pacific Car & Foundry Co., Los Angeles, \$13,910.
- (4) Consolidated Steel Co., Los Angeles, \$900.

OAKLAND, Cal.—Following awards made by East Bay Municipal Utility District, Oakland, to furnish cast iron b&s water pipe fittings:

Schedule 1: Grinnel Co. of the Pacific, 5th and Brannan Sts., San Francisco, elbows, \$636.00.

Schedules 2 and 3: Santa Fe Foundry, Richmond, cast iron tees, \$1260.40 and cast iron crosses, \$524.90.

Schedules 4, 5 and 6: American C. I. Pipe Co., Balboa Bldg., San Francisco sleeves, \$612.60, nipples and plugs, \$405.00 and reducers and risers, \$1,168.25.

Complete bids published July 1.

EUREKA, Humboldt Co., Cal.—City council plans construction of new water system, involving construction of seven tunnels in the 27 miles of pipe lines. C. C. Kennedy, 74 New Montgomery St., San Francisco, engineer on the project.

ALHAMBRA, Los Angeles Co., Cal.—Until 9 A. M., July 18, bids will be received by city commission to furnish between 2000 and 4000 ft. of 18-in. cast iron pipe, Class B or equal. Alternate bids will be taken on centrifugally cast pipe. T. B. Downer, water superintendent, R. E. Wallace, city clerk. This pipe will be laid in Pine St. from Atlantic Blvd. to Bushnell Ave., and on Bushnell Ave. from Huntington Drive to the Marengo Avenue Reservoir. The work will be done by force account. Estimated cost is \$24,000.

SIGNAL HILL, Los Angeles Co., Cal.—Bids will be called by city council within the next two weeks to furnish 10,000 ft. of 6-in., 8-in. and 16-in. cast iron pipe for the city water department. The pipe shall be Class 150, bell and spigot, delivered f.o.b. city yards. Specifications are being

prepared by W. V. Thompson, water superintendent, City Hall, 2120 Cherry Avenue.

SIGNAL HILL, Los Angeles Co., Cal.—Bids will be called by city council within the next two weeks to construct reinforced concrete water tank or standpipe for the city water department in accordance with plans which are being prepared by W. V. Thompson, water superintendent, City Hall, 2120 Cherry Ave. The proposed tank will be 18 ft. in diameter, 40 ft. in height with a capacity of approximately 80,000 gallons.

SEBASTOPOL, Sonoma Co., Cal.—Until August 7, bids will be received by City Clerk McFarlane to drill 14-in. well, furnish deep-well pump and pipe to connect; and to construct pump house. Bids may be offered for plant as a whole or separately.

HAYWARD, Alameda Co., Calif.—As previously reported, until July 19, 8 P. M., bids will be received by M. B. Templeton, city clerk, to furnish 2000 lin. ft. 6-in. b&s centrifugal cast iron pipe, Class 150, 16- to 18-foot lengths. Specifications obtainable from above. John A. Mancini, city engineer.

BEVERLY HILLS, Los Angeles Co., Cal.—Until 8 P. M., August 1, bids will be received by City to furnish and install one deep well turbine pump at the Melrose well. Plans and specifications obtainable from Salisbury, Bradshaw & Taylor, engineers, 714 W. 10th St., Los Angeles.

BEVERLY HILLS, Los Angeles Co., Cal.—Until 8 P. M., August 1, bids will be received by City to furnish and install feed vacuum chlorinator and one Venturi tube and recording water meter. Plans and specifications obtainable from Salisbury, Bradbury & Taylor, engineers, 714 W. 10th St., Los Angeles.

LOS ANGELES, Cal.—Vernon Tool Co. awarded contract by A. J. Holm, City Purchasing Agent, July 11, at \$2339.75 to furnish Department of Water & Power with sluice gates under Specifications No 3129.

NORTH SACRAMENTO, Cal.—City council will apply for \$100,000 federal funds under the National Industrial Recovery Act to finance construction of municipal water plant. Water will be purchased from the City of Sacramento. 33

PASO ROBLES, San Luis Obispo Co., Cal.—City council will purchase 10,000 ft. second-hand cast iron pipe from City of Los Angeles in connection with municipal water system.

DUNSMUIR, Siskiyou Co., Cal.—City council plans to apply for \$225,000 federal funds through the N. I. R. A., for municipal water and electrical distribution systems. Council members state that the existing system will not be purchased.

35—TUNNELS

LOS ANGELES, Calif.—H. W. McKinley, 1326 N Central Ave., Glendale awarded sub-contract by C. V. Cummings, Elitmore Hotel, vice-president of the West Const. Co., contractor for the Whitewater Tunnels Nos. 1 and 2, for excavating the approach cut, involving about 40,000 cu. yds. H. E. Carleton, Elitmore Hotel, is the contractor's general superintendent.

LOS ANGELES, Cal.—A. Teichert & Son, 409 Le Roy St., Los Angeles, awarded the contract by the Walsh Construction Co. for grading and oiling 5.5 miles roadway in connection with the construction of the adit for the Whipple Mountain Tunnel.

LOS ANGELES, Cal.—H. W. McKinley, 1326 N. Central Ave., Glendale, awarded sub-contract by L. E. Dixon Co. and Bent Bros. for about 5000 cu. yds. excavation in the approach cut in connection with the contract for the west portion of the West Eagle Mountain Tunnel.

29—STREETS AND HIGHWAYS

LOS ANGELES, Cal.—Southern California Roads Co., 2145 E 25th Street, Los Angeles, at \$30,070 submitted low bid July 12 to board of public works to improve Lincoln Blvd. from Venice Blvd. to Washington Blvd.

TUOLUMNE COUNTY, Cal.—M. A. Jenkins and J. W. Hoopes, 3560 Y St and 5140 14th Ave., Sacramento, at \$7429.90 awarded contract by State Highway Commission to grade and pave with Portland cement concrete 0.6 mile at Sonora and to widen two bridges.

WILLOWS, Glenn Co., Cal.—Glenn county supervisors plan to ask federal funds under the National Industrial Recovery Act, as follows:

Willows-Elk Creek Road.....	\$ 3,500
Orland-Newville Road.....	66,000
Newville-Stonyford Road	108,000

NEVADA STATE.—Following low bids received by S. C. Durkee, State Highway Engineer, Carson City, for highway construction as follows, bids being taken under advisement:

Esmeralda and Nye Counties: C. F. Frederickson and Sons, Lower Lake, Calif., at \$28,370.49 for 9.77 miles oiling between Miller's Cutoff Road and Tonopah, Route 3, Sections C1 and A1.

Douglas and Lyon Counties: Basalt Rock Co., 900 8th St., Napa, and J. C. Compton, McMinnville, Ore., at \$27,153.87 for oiling from 5 miles east of Holbrook to the east county line, and from Yerington to 9.5 miles east, a length of approximately 15.15 miles, Route 3, Sections A1 and A2.

White Pine County: Wheelwright Const. Co., Ogden, Utah, at \$36,752 to construct state highway system between west foot of Antelope Summit and Illipah, 12.62 miles, Route 2, Section B.

Elko County: Utah Const. Co., Ogden, Utah, at \$153,160.71 to construct state highway system between Little Salmon River and Idaho State line, 18.02 miles, Route 13, Sections C4, 5 and 6.

LOS ANGELES, Cal.—Hearing on the improvement of Beverly Blvd., between Hilgard Ave. and Paseo Miramar, continued by city council to Sept. 12. The proposed work involves:

- 18,000 cu. yds grading;
- 358,410 sq. ft. pavement;
- Gutter; storm drain, etc.

Engineer's estimate, \$140,397.77.

FREMONT COUNTY, Wyo.—Central States Contracting Co., Oakland, Calif., at \$53,780 awarded contract by U. S. Bureau of Public Roads, for oiling Section A, Wind River or Shoshone Indian Reservation Highway.

THIAMA COUNTY, Cal.—Basalt Rock Co., 900 8th St., Napa, at \$1440 submitted lone bid to and recommended for award of contract by U. S. Bureau of Public Roads, San Francisco, for 3.715 mi. road oil dust pal-

native on Section A, Route 79, the Morgan Summit-Morgan Springs National Forest Highway, Lassen National Forest, involving 18,000 gals. furnishing and applying road oil. Unit bid was \$.08 per gal. Engineer's estimate, \$1440.

COCONINO COUNTY, Ariz.—All bids rejected and new bids will probably be advertised at a later date by U. S. Bureau of Public Roads, for 3.556 mi. placing subgrade reinforcement, Grand Canyon Route No. 10, Grand Canyon National Park.

O. F. Fisher, 516 S. 7th St., Phoenix, submitted low bid at \$6445.

WASHINGTON STATE—Following contracts awarded by L. V. Murrow, State Director of Highways, for highway construction as follows:

J. F. Kernan, Paloma, Ore., at \$36,060—**SKAMANIA COUNTY**—construct 12 miles bituminous macadam surface on State Road No. 8, Stevenson to Cooks.

Deisel Oil Sales Co., 115 Belmont N., Seattle, at \$36,614.60 (combined bid) for:

KITSAP COUNTY—3.9 mi. bituminous macadam surface on State Road No. 14, end of pavement south of Bremerton to beginning of pavement in Port Orchard.

MASON COUNTY—4.8 mi. bituminous macadam surface on State Road No. 9, end of pavement north of Shelton to junction State Road No. 14.

CALLAM COUNTY—3.2 mi. State Road No. 9, Blyn Ease.

WALLOWA CO., Ore.—The Colonial Building Co., Hutton Bldg., Spokane, at \$82,992 (metal pipe) and \$87,489 (concrete pipe), submitted low bid to U. S. Bureau of Public Roads, Portland, to improve Enterprise-Imnaha Grading Project E-39-A, N. F. R. Proj. Wallowa National Forest, 8.634 mi. Complete bids follow:

	(a)	(b)
The Colonial Building Co., Spokane	\$82,992	\$87,489
Fred H. Slate, Portland	\$9,049	94,276
Siems-Spokane Co., Spokane	107,947	112,452
General Construction Co., Seattle	107,976	109,014
S. H. Newell & Co., Portland	115,169	118,764
Clifton & Applegate, Spokane	121,122	123,642
E. C. Peck & Co., Portland	122,719	125,026
P. L. Crooks, Portland	123,515	124,645
Morrison-Knudson, Spokane	128,630	131,736

MARIN and SONOMA COUNTIES, Cal.—Until July 26, 2 P. M., bids will be received by State Highway Commission, Sacramento, for ten miles of bituminous surface treatment between Ignacio and Fairville, involving:

- (1) 2000 tons crushed gravel or stone, bit. treat. surf.;
- (2) 100 tons cut-back asph. bit. treat. surface;
- (3) 20,000 sq. yds. asph. paint binder;
- (4) 2000 tons rock screenings;
- (5) 80 tons emulsified asph. road oil;
- (6) 2400 cu. yds. imp. borrow.

SAN LUIS OBISPO AND MONTREY COS., Cal.—Until July 21, 2 P. M., bids will be received by L. H. Gibson, District Engineer, State Highway Commission, to treat with fuel oil as a dust palliative 14.7 mi. existing roadbed between San Carpojo Creek and Willow Creek. Specifications obtainable from above office. Certified check 10% required with bid.

PLUMAS COUNTY, Cal.—C. F. Fredericksen & Sons, Lower Lake, at \$6381 submitted low bid to and recommended for award of contract by U. S. Bureau of Public Roads, San Francisco, for 16,394 mi. road oil dust palliative on Sections E and F, Route 23, the Quincy-Beckwith National Forest Highway, Plumas National Forest, involving 96,000 gallons furnishing and applying road oil. Complete bids follow:

C. F. Fredericksen & Sons, Lower Lake, \$.0665, total \$6384.

Basalt Rock Co., Napa, \$.07, \$6730.
E. A. Forde, San Anselmo, \$.071, \$6816.

Engineer's Estimate, \$.07, \$6720.

SONOMA COUNTY, Cal.—Until July 20, 2 P. M., bids will be received by John H. Skeggs, District Engineer, State Highway Commission, Room 211, State Bldg., San Francisco, for 4.2 mi. existing asphalt concrete pavement to be placed between Willow Brook and Haystack, involving 331,000 sq. ft. planing. Specifications obtainable from above office.

LAKE COUNTY, Cal.—Until July 20, 2 P. M., bids will be received by John H. Skeggs, District Engineer, State Highway Commission, Room 211 State Bldg., San Francisco, for 6 mi. bituminous surface treatment to be applied between the southerly boundary and Middletown, involving:

- (1) 100 tons emulsified asphalt;
- (2) 1150 tons cru. gravel or stone screenings.

Specifications obtainable from above office. Certified check 10% required with bid.

MENDOCINO COUNTY, Cal.—Until July 20, 2 P. M., bids will be received by John H. Skeggs, District Engineer, State Highway Commission, Room 211, State Bldg., San Francisco, for 7.7 mi. bituminous surface treatment to be applied between Ukiah and Forsythe the Creek, involving:

- (1) 125 tons emulsified asphalt;
- (2) 1250 tons crushed gravel or stone screenings.

Specifications obtainable from above office. Certified check 10% required with bid.

RIVERSIDE, Riverside Co., Calif.—Plans and specifications for the oiling of 17 miles of the Pines-toPalms road east from the Idyllwild Forest road approved by the county supervisors. The oil will be furnished by the Bureau of Public Roads and bids will probably be called in one week when specifications are completed. Work will be done by the county by force account under the direction of R. L. McKenzie, Road Superintendent. The county work will start at Keen's Camp and will extend in the direction of Pinon Flats, 17 miles, the lower portion, 16 miles, terminating at Indian Wells on the state highway, will be surfaced by the state highway department under its secondary highway program. The proposed road will be 20-ft. in width, of desert mix type, with oil laid 1½-gal. to the square yard, or approximately 20,000 gals. per mile, requiring about 340,000 gals., 60-70 road oil.

TULARE COUNTY, Cal.—All bids rejected and new bids will probably be advertised at a later date by U. S. Bureau of Public Roads for 3.37 miles grading Section B of the Gen. Grant-Sequoia Park Road.
Yglesias Bros., Box 25, San Diego, submitted low bid at \$164,874.

NEWPORT, Wash.—D. A. Sullivan & Co., Inc., at \$25,608 awarded contract by Pend Oreille County Com-

missioners to clear, grub, grade, drain and surface with crushed gravel five miles of lateral highway No. 4, Camden Road.

HEMET, Riverside Co., Calif.—Bids for furnishing and spreading oil on 2.5 miles of city streets opened by city council July 3, follow:

Gilmore Oil Co.: 35,000 gals. road oil delivered in lots of not more than two carloads at a time, including spreading on streets with contractor's equipment, 3.5c gal.

Union Oil Co.: Furnish, deliver and spray, \$1.80 per bbl.

Bids taken under advisement.

LOS ANGELES, Cal.—Graham Bros. awarded contract by A. J. Holm, City Purchasing Agent, July 5 at \$90,000 (estimated total) to furnish Bureau of Engineering with Nos. 2, 3 and 4 crushed rock from July 1, 1933, to Dec. 31, 1933. Spec. No. 3131. Bids opened June 22.

SAN FRANCISCO.—A. G. Raisch, 1 De Haro St., at \$49,283.90 awarded contract by Department of Public Works to improve Alemany Blvd., Section C, from Naglee to San Jose.

SAN FRANCISCO.—A. G. Raisch, 1 De Haro St., at \$35,559.10 awarded the contract by Department of Public Works to improve Alemany Blvd., Section C, Ocean Ave. to Seneca Ave.

MODOC COUNTY, Cal.—Until Aug. 1, 2 P. M., bids will be received by U. S. Bureau of Public Roads, C. H. Sweetser, District Engineer, 461 Market St., San Francisco, for 28.077 mi. of road oil dust palliative on Beds and Howard Gulch National Forest Highways, Modoc National Forest, involving 148,000 gals. furnish and apply road oil. Specifications are obtainable from above office on deposit of \$10, certified check payable to the Regional Fiscal Agent, U. S. Forest Service.

KERN COUNTY, Cal.—Until July 24, 2 P. M., bids will be received by E. E. Wallace, District Engineer, Highway Bldg., Fresno, for bituminous surface treatment between Wasco and Famoosa, 8.7 mi. earth State Highway Commission, State shoulders to be oil treated; between Bakersfield and Kern Canyon, and between Monolith and Cameron, 14.3 mi. existing surfacing to be bituminous surface treated. Specifications obtainable from above office. Certified check 10% required with bid.

MERCED AND MARIPOSA COS., Cal.—Until July 24, 2 P. M., bids will be received by E. E. Wallace, District Engineer, State Highway Commission, State Highway Bldg., Fresno, for bituminous surface treatment between Merced and Orange Hill School, 14.9 mi. existing shoulders and 6.3 mi. existing roadbed. Specifications obtainable from above office. Certified check 10% required with bid.

LOS ANGELES, Cal.—G. W. Jones, county road commissioner, preparing plans for grading and improving La Tijera Blvd., 10 ft. wide, from Slau-son Ave. to Arizona Ave., about 2.94 miles, involving 150,000 cu. yds. excavation and placing of small culverts. Work to be started this week by un-employment forces. The county supervisors authorized the appropriation of \$55,500 July 10 for this project.

RED BLUFF, Tehama Co., Calif.—Hemstreet & Bell, 501 11th St., Marysville, at \$7,170 (one bid) submitted low bid to Joint Highway District No. 18 for additional highway construction on the district road between Proberta and Los Molinos. The proposed work calls for surfacing with armor

type oil that part of the highway between north line of Gerber and the north line of Las Flores; surfacing with crushed rock base and penetration surface approximately 1000 feet south of Gerber; and re-building the curves at various points between Gerber and Tehama, involving:

- (1) 900 tons screenings.....\$ 5.00
- (2) 47 tons asphaltic oil..... 22.00
- (3) 84 bbls. fuel oil..... 4.00
- (4) 520 cu. yds. gravel..... 2.50

SAN DIEGO COUNTY, Calif.—Until August 2, 2 P. M., bids will be received by State Highway Commission, Sacramento, to pave with asphaltic concrete 4.4 miles between Barnett Ave. and Balboa Ave., involving:

- (1) 350 cu. yds. struc. excav.;
- (2) 78,000 sq. yds. subgrade for pave.
- (3) 100 cu. yds. cushion course;
- (4) 33,800 tons asph. concrete;
- (5) 60 cu. yds. Class A Port. cement concrete curbs and gutters;
- (6) 8 cu. yds. Class A do (struc.);
- (7) 700 lbs. bar reinf. steel (struc.);
- (8) 1100 lbs. misc. iron and steel (struc.);
- (9) 168 lin. ft. 12-in. reinf. concrete pipe;
- (10) 136 lin. ft. 14-in. do;
- (11) 2600 sq. yds. asph. paint binder;
- (12) 50 cu. yds. conc. remove from existing pave. and curb;
- (13) 2500 bbls. fuel oil;
- (14) 660 guide posts;
- (15) 233 sta. finish roadway.

State will furnish reinforced concrete pipe.

ALAMEDA COUNTY, Cal. — Until August 2, 2 P. M., bids will be received by State Highway Commission Sacramento, to apply bituminous surface treatment over 1.9 mi. between Mission San Jose and Warm Springs, involving:

- (1) 4300 cu. yds. selected material;
- (2) 1300 tons broken stone (Bit. mac. base);
- (3) 2100 tons screenings (bit. surf. treat.);
- (4) 230 tons emulsified asphalt, base and surface treatment;
- (5) 101 sta. finish roadway.

TRINITY COUNTY, Cal.—Granfield, Farrar and Carlin, 67 Hoff Street, San Francisco, at \$98,131.10 submitted low bid to, and recommended for award of contract by U. S. Bureau of Public Roads, San Francisco, to grade 4.265 miles of Section B, Route 5, the Douglas City-Peanut National Forest Highway, Trinity National Forest.

LOS ANGELES COUNTY, Cal.—Until August 2, 2 P. M., bids will be received by State Highway Commission, Sacramento, to excavate slopes between Palomas Creek and Whitaker Bridge, 6.8 miles, involving:

- (1) 180,000 cu. yds. slope excavation, unclass.;
- (2) 310,000 mi. yds. overhaul;
- (3) 3000 cu. yds. struc. excav.;
- (4) 8 lin. ft. 18-in. corr. metal pipe;
- (5) 34 lin. ft. 24-in. do;
- (6) 50 lin. ft. 36-in. do;
- (7) 3 culvert headwalls to be moved and reset.

State will furnish corrugated metal pipe.

LOS ANGELES COUNTY, Cal.—Until August 2, 2 P. M., bids will be received by State Highway Commission, Sacramento, to treat with asphaltic road oil 18.6 miles of roadbed and two miles of earth shoulders between Neenach School and Del Sur Road; and between Wet Canyon and Colby Creek, 5.1 miles of roadbed to be treated with asphaltic road oil and bituminous seal coat applied, involving:

- (1) 3450 bbls. 70-80 asph. road oil (Route 59);
- (2) 1810 bbls. 70-80 do (Route 61);
- (3) 101 tons 90-95 asph. road oil (Rt. 61);
- (4) 900 tons rock screenings (Rt. 61).

SAN DIEGO COUNTY, Calif.—Until August 2, 2 P. M., bids will be received by State Highway Commission, Sacramento, to grade and pave with portland cement concrete on 1.8 miles between Broadway and Harashty St., involving:

- (1) 7200 cu. yds. rdwy. embankment;
- (2) 850 cu. yds. struc. excav.;
- (3) 39,500 sq. yds. subgrade for pave.;
- (4) 8350 cu. yds. Class A Port. cem. conc. pave.;
- (5) 2 cu. yds. do, curbs;
- (6) 45 cu. yds. Class A do, struc.;
- (7) 188,000 lbs. bar reinf. steel pave. and struc.;
- (8) 2500 lbs. misc. iron and steel (struc.);
- (9) 234 lin. ft. 18-in. reinf. concrete pipe;
- (10) 12 lin. ft. 24-in. do;
- (11) 176 lin. ft. 54-in. do;
- (12) 285 cu. yds. Portland cem. conc. remove from existing pave. and curb and dispose of;
- (13) 420 M. gals. water;
- (14) 1020 bbls. heavy fuel oil;
- (15) 97 sta. finish roadway.

JUNEAU, Alaska—Until July 19, 9 A. M., bids will be received by U. S. Bureau of Public Roads, M. D. Williams, District Engineer, 419 Federal & Territorial Bldg., Juneau, to surface 3.788 mi. Glacier Highway, Lemon Creek-Duck Creek Section, Tongass National Forest, 1st Judicial Division involving 6500 cu. yds. crushed rock or gravel top course. Specifications obtainable from above office on deposit of \$5, returnable, checks payable to Bureau of Public Roads, Juneau.

LOS ANGELES, Cal.—Consolidated Rock Products Co., awarded contract by A. J. Holm, City Purchasing Agent July 5, at \$14,950 (estimated total), to furnish Bureau of Engineering with sand from July 1, 1933 to Dec. 31, 1933. Spec. No. 3118. Bids opened June 20.

LOS ANGELES, Cal.—Consolidated Rock Products Co., awarded contract by A. J. Holm, City Purchasing Agent July 5, at \$52,800 (estimated total), to furnish Bureau of Engineering with Nos. 2, 3 and 4 crushed rock from July 1, 1933, to Dec. 31, 1933. Spec. No. 3132. Bids opened June 22.

SAN FRANCISCO.—Department of Public Works, S. J. Hester, Chief Deputy Director, plans to improve Fitzgerald, Jennings to 3rd, (Expendiency), estimated cost, \$2500, involving:

- (1) 4500 cu. yds. excavation;
- (2) 110 cu. yds. fill;
- (3) 632 ft. 12-in. V.C.P. sewer;
- (4) 46 V.C.P. Y branches;
- (5) 1 brick catchbasin;
- (6) 35 ft. 10-in. V.C.P. culvert;
- (7) 2 brick manholes.

MONTEREY COUNTY, Cal.—Santa Maria Const. Co., 101 N Broadway, Santa Maria, awarded contract by the State Highway Commission at \$13,510.20, to treat with cutback asphaltic road oil 7.8 miles existing roadbed between Molera's Ranch and Rocky Creek, involving 690 tons cut-back asphaltic road oil.

SAN JOSE, Santa Clara Co., Calif.—W. A. Dontanville, Box 544, Salinas, at \$4001 awarded contract by County Supervisors to grade and surface Withey Road in Supervisor District No. 5, involving:

- (1) 9,000 cu. yds. excavation;

(2) 59 000 sq. ft. surfacing.

Complete bids follow:

W. A. Dontanville.....	\$4001
O. G. Ritchie.....	5660
Piazza & Greene.....	5388

SAN JOSE, Santa Clara Co., Calif.—Piazza & Greene, 296 N 6th St., San Jose, at \$6484 awarded contract by County Supervisors to improve Ccx Road in Supervisor District No. 5, involving 156,481 sq. ft. oil macadam pavement Complete bids follow:

Piazza & Greene.....	\$6484
A. J. Raisch.....	6750
O. G. Ritchie.....	6985
Surveyor's Estimate.....	8225

LOS ANGELES, Cal.—G. W. Jones, county road commissioner, has completed plans for straightening, realigning and eliminating creek crossings on the Big Tujunga Canyon Road between Los Angeles city limits and Wildwood Lodge, about four miles, in olving 24,000 cu. yds. excavation.

ARIZONA STATE—Arizona Sand & Rock Co., Box 1522, Phoenix, submitted low bid to State Highway Commission, Phoenix, July 11, at \$43,761.90 for construction on the Hilbrook-St. Johns Highway. The work on E-78-B and E-73-F, which extends from the end of the pavement in Holbrook to a point about 5.9 miles east of Holbrook, consists of the placing of subgrade stabilizer and oil processing by the plant mix method, and is to be completed on or before October 15, 1933.

OAKLAND, Alameda Co., Cal.—Architects Kent & Hass, 525 Market St., San Francisco, will take bids on painting and electrical work about July 18 in connection with the construction of the new boat and train courcses for the Key Terminal Railway, Ltd. at the Key Pier, Oakland.

SAN FRANCISCO—H. H. Larsen, 64 South Park desires sub-bids on all portions of the work in connection with the construction of the repairs to the Fremont School for which bids will be opened July 19.

ARIZONA STATE—Packard & Tanner, 905 W. Latham St., Phoenix, submitted low bid to State Highway Commission, Phoenix, July 11, at \$121,698.75, for highway construction on the Holbrook-Winslow Highway (E-40). The work on E-40, which extends from west city limits of Holbrook weseterly about 21.2 miles, consists of the construction of one concrete and two C.M.P. culverts, the placing of subgrade stabilizer and oil processing by the plant mix method, and is to be completed on or before November 30, 1933.

ARIZONA STATE—Heafey - Moore Co., 344 High St., Oakland, submitted low bid to State Highway Commission, Phoenix, July 12, at \$108,162.94, for construction on the St. Johns-Springerville Highway (E-60 and E-63-A). The work, which begins at a point about 11½ miles south of St. Johns and extends southeasterly approximately 8¾ miles toward Springerville, consists of grading and draining about ¼ of a mile or roadway, the placing of subgrade stabilizer, and the oil processing of the entire length by the road mix method, and is to be completed on or before November 30, 1933.

UNIT BID SUMMARY

Compiled from the Daily News Service of Pacific Constructor

HOOPA HIGHWAY GRADING — HUMBOLDT COUNTY

HUMBOLDT COUNTY, Cal.—Hemstreet & Bell, 501 11th St., Marysville, at \$115,189.11 submitted low bid to and recommended for award by U. S. Bureau of Public Roads, San Francisco, for 4.587 miles grading Section A, Route 51, Hoopa National Forest Highway, Trinity National Forest, involving:

- (1) 41 acres clearing;
- (2) 370,300 cu. yds. unclass. excav.;
- (3) 3,850 cu. yds. unclass. excavation, struc.;
- (4) 171,500 sta. yds. overhaul;
- (5) 4.587 miles finish earth graded road;
- (6) 65 MFBM timber cribbing;
- (7) 43 cu. yds. Class A concrete;
- (8) 24 cu. yds. Class B do;
- (9) 3,270 lbs. reinf. steel;
- (10) 44 lin. ft. 8-in. 16-gauge asph. dipper, G.M.P.;
- (11) 72 lin. ft. 12-in. do;
- (12) 1614 lin. ft. 18-in. corru. galv. metal pipe;

- (13) 652 lin. ft. 24-in. 14 ga. do;
 - (14) 416 lin. ft. 24-in. 12-ga. do;
 - (15) 280 lin. ft. 30-in. do;
 - (16) 160 lin. ft. 36-in. 10-ga. do;
 - (17) 112 cu. yds. hand laid rock embankment;
 - (18) 40 right of way monuments;
 - (19) 1 type A spillway inlet;
 - (20) 2 type B do;
- Extra work, move and repair telephone line, \$150.
Extra work, maintenance detour, \$1500
Complete bids follow:
- (A) Hemstreet & Bell, Marysville, \$115,189.11.
 - (B) Mitty Bros. Const. Co., Los Angeles, \$134,936.85.

DOUGLAS CITY—PEANUT NAT'L. FOREST GRADING

TRINITY COUNTY, Cal.—Granfield, Farrar & Carlin, 67 Hoff, San Francisco, at \$98,131.10 submitted low bid to, and recommended for award of contract by U. S. Bureau of Public Roads, San Francisco, to grade 4.265 miles of Section B, Route 5, the Douglas City-Peanut National Forest Highway, Trinity National Forest, involving:

- (1) 37 acres clearing;
- (2) 257,000 cu. yds. unclass. excav.;
- (3) 1950 cu. yds. unclass. excavation, structures;
- (4) 413,000 sta. yds. overhaul;
- (5) 4.265 miles finish earth graded rd.
- (6) 26 MFBM timber crib in place;
- (7) 26 cu. yds. Class A concrete;
- (8) 33 cu. yds. Class B concrete;
- (9) 2100 lbs. reinf. steel;
- (10) 1104 lin. ft. 18-in. 16-ga. corru. metal pipe;
- (11) 1530 lin. ft. 24-in. 14-ga. do;

- (12) 204 lin. ft. 24-in. 12-ga. do;
 - (13) 508 lin. ft. 30-in. 12-ga. do;
 - (14) 464 cu. yds. handlaid rock embankment;
 - (15) 188 monuments.
- Complete bids follow:
- (A) Granfield, Farrar & Carlin, \$98,131.10.
 - (B) Hemstreet and Bell, Marysville, \$100,431.85.
 - (C) Young & Sons, Berkeley, \$112,040.90.
 - (D) Mittry Bros., Los Angeles, \$116,677.10.
 - (E) March & Wunderlich, Jefferson City, Mo., \$124,090.50.
 - (F) Myers & Goulter, Seattle, \$128,012.30.
 - (G) Dunn & Baker, Klamath Falls, Ore., \$152,464.30.
 - (H) Engineer's estimate, \$106,865.85.

IMPROVE GAFFEY STREET—LOS ANGELES

LOS ANGELES, Calif.—J. L. McClain 5850 Brynhurst Ave., submitted low bid to board of public works June 23 at 158,193.10 for improving streets in the Gaffey St. and Fourth St. Imp. Dist., San Pedro, under cash contract. The streets to be improved are: Gaffey St., Channel St. to 9th St.; Channel St., Wilmington-San Pedro Road to Gaffey St.; First St., Grand Ave. to Cabrillo Ave.; Third St., Grand Ave. to Gaffey St.; Marshall Court, and Central Ave., Eberon Ave. to Summerland Ave. The work involves:

- (11) 25,542 sq. ft. asph. conc. base, including fine grading;
- (12) 3759 tons asph. conc. wearing surface;
- (13) 25,246 sq. ft. oiled roadway, including fine grading;
- (14) 8600 sq. ft. combination gutter, 8-in. thick, incl. fine grading;
- (15) 32 sq. ft. conc. gutter, 7-in. thick, including fine grading;
- (16) 1082 lin. ft. of reinf. integral curb and conc. gutter, 6-in. thick, as per Standard Plan No. B-1035, including fine grading;
- (17) 4451 lin. ft. dn. 8-in. thick;
- (18) 10,569 lin. ft. heavy unplastered curb;
- (19) 53,255 sq. ft. conc. sidewalk, 3-in. thick, inc. fine grading between property line and curb line;
- (20) 2567 sq. ft. conc. sidewalk 6-in. thick (driveways) inc. fine grading;
- (21) sanitary sewer, complete, not inc. house connections;
- (22) 3019 lin. ft. 6-in. cement pipe house connection sewers, inc. 85 6-in. 1/2-bends and five 6-in. saddles;
- (23) storm drain and appurtenances, complete, inc. resurf., not inc. local depressions;
- (24) ornamental lighting sys. comp.;
- (25) 53 manholes to be reset;
- (26) 775 type A traffic markers, as per Stand. Plan No. B-1279 or Stand. Plan No. B-1416;
- (27) 520 type B traffic markers, as per Stand. Plan No. B-1279, or Stand. Plan No. B-1416.

(1) grading, 65,000 cu. yds. of excavation, including the placing of material in the required embankment (40,000 cu. yds. of fill) and the removal of exist. improvements. (Note: These quantities are assumed for the purpose of comparing bids; the bid will be per cubic yard);

(2) 162,112 sq. ft. asph. conc. pave., 8-in. base, consisting of 6-in. concrete base and 2-in. asph. conc. wearing surface, including fine grading;

(3) 155,775 sq. ft. asph. conc. pave., 8-in. thick, consisting of 6-in. asphaltic conc. base and 2-in. asph. conc. wearing surf., including fine grading;

(4) 434 sq. ft. asph. conc. pave., 7-in. thick, consisting of 5-in. asph. conc. base and 2-in. asph. conc. wearing surface, including fine grading;

(5) 20,950 sq. ft. asph. conc. pave., 6-in. thick, consisting of 4-in. asph. conc. base and 2-in. asph. conc. wearing surface, including fine grading;

(6) 7178 sq. ft. conc. pave., 8-in. thick, including local depressions and fine grading;

(7) 45,898 sq. ft. conc. pave., 7-in. thick, including fine grading;

(8) 481 sq. ft. conc. pave., 6-in. thick, including fine grading;

(9) 8745 sq. ft. conc. pave., 5-in. thick, including fine grading;

(10) 79,607 sq. ft. conc. base, 6-in. thick, including fine grading;

- (19) 53,255 sq. ft. conc. sidewalk, 3-in. thick, inc. fine grading between property line and curb line;
- (20) 2567 sq. ft. conc. sidewalk 6-in. thick (driveways) inc. fine grading;
- (21) sanitary sewer, complete, not inc. house connections;
- (22) 3019 lin. ft. 6-in. cement pipe house connection sewers, inc. 85 6-in. 1/2-bends and five 6-in. saddles;
- (23) storm drain and appurtenances, complete, inc. resurf., not inc. local depressions;
- (24) ornamental lighting sys. comp.;
- (25) 53 manholes to be reset;
- (26) 775 type A traffic markers, as per Stand. Plan No. B-1279 or Stand. Plan No. B-1416;
- (27) 520 type B traffic markers, as per Stand. Plan No. B-1279, or Stand. Plan No. B-1416.

The total bids were:
 (A) J. L. McClain, \$158,193.20.
 (B) Griffith Co., \$159,689.61.
 (C) Southern Calif. Roads Co., \$164,193.89.

EXCHANGE VOTES ENDORSEMENT OF NATIONAL ACT

**Meetings of Crafts Called;
Invite Participation of
Non-Members**

Endorsement of the Industrial control provisions of the Recovery Act and a pledge of cooperation was voted at the monthly meeting of the Central Council of the San Francisco Builders' Exchange, it was announced yesterday by W. H. George, president.

Mr. George said the Exchange is calling special meetings of its members belonging to the several crafts and inviting non-members to attend, urging them to join the Exchange and to obtain the protection which the industrial control regulations will provide.

The text of the resolution adopted by the central council follows:
WHEREAS, there has been enacted a Federal law known as the National Industrial Recovery Act, and

WHEREAS, it is anticipated that the California State Legislature will adopt a similar act covering those who do intrastate business, and

WHEREAS, the success of such act is dependent largely upon the whole hearted support it receives from all civic, industrial and trade organizations and the public in general, and

WHEREAS, The Builders' Exchange of San Francisco has always favored reasonable wages to the employes of its members, fair competition within the crafts engaged in the construction industry, and has always been against unfair and unethical methods in the building and construction industry,

NOW THEREFORE BE IT RESOLVED, that the Central Council of the Builders' Exchange in meeting duly assembled, does hereby go on record as endorsing said National Industrial Recovery Act and will cooperate and do everything within its power to have its members comply with the requirements of the Act.

THE WEEK'S NEWS

Highlights

ROAD FUNDS. Hope for early release of Federal and state money to build California highways rests with action of the legislature on an emergency bill which will remove legal obstacles. State public works officials were advised that the state laws adopted this spring requiring alternate bids on portland cement and asphaltic concrete specifications and specifying use of domestic materials which become effective August 21 prohibit the highway commission from advertising any contracts prior to that date. Emergency legislation suspending the effective dates of these acts has been submitted at the recessed session and its sponsors are confident of adoption before adjournment. The act will release the \$15,607,354 Federal appropriation as well as ordinary state budget money.

U. S. ROADS. California will receive \$7,798,917 from the \$50,000,000 allocated to construction of roads and trails in the national forests and public lands, according to figures issued by the Bureau of Public Roads.

CONSTRUCTION CODES. Associated General Contractors have sent their proposed code of fair competition to the National Recovery Administration. State Builders Exchange urges its member locals to prepare codes in cooperation with the state organization, which in turn will join with the California Construction League to obtain satisfactory regulation of the state industry. San Francisco Builders' Exchange by vote of the Central Council endorses N.R.A. principles and calls meetings of crafts to prepare codes.

CITY WORK. Construction of necessary self-liquidating additions and improvements to San Francisco water system will cost \$12,010,000, according to the estimate of E. G. Cahill, director of public utilities.

WEBB TO RULE ON BAY SPAN WAGE SCHEDULE

**Purcell Asks Attorney-General
For Opinion on Sub-Contract Obligations**

At the request of State Director of Public Works Earl Lee Kelly for an interpretation of the state contract wage laws as they affect the San Francisco-Oakland Bay Bridge, Chief Engineer C. H. Purcell yesterday asked Attorney-General U. S. Webb for an opinion on wages paid sub-contractors as well as a ruling on what classified a sub-contractor on the bridge.

Complaint was made to Director Kelly and Chief Engineer Purcell by J. F. Cambiano, President of the California State Council of Carpenters, that carpenters were being employed at below union wages in defiance of state contract minimum wage laws in the construction of a plant in the East Bay, which will sell ready mixed concrete to bridge contractors.

A ruling is also requested on the wages paid at the Moore Shipbuilding Company on steel caissons.

Chief Engineer Purcell wants the attorney-general to define a contractor and a sub-contractor, as distinguish from a firm supplying materials to the bridge and the extent of the effect of state wage laws on both classifications.

Specifications given to contractors set forth minimum wage scales as well as hours of labor, the latter being limited to thirty hours a week except for administrative or emergency employment.

Labor unions have been endeavoring to extend this wage scale and hour schedule to plants and shops supplying materials to the bridge as well as on the construction job itself.

From the attorney-general Chief Engineer Purcell hopes to obtain an interpretation of the law which will settle the dispute between contractors, material manufacturers, and union representatives.

PRIVATE FIRMS TO DESIGN NEW U. S. BUILDINGS

Treasury Department will Commission Many Architects and Engineers

Private architects and engineers throughout the country will be engaged by the Treasury Department to prepare the plans and specifications for a large Federal building program which may reach a total of \$200,000,000. L. W. Robert, Jr., assistant secretary of the treasury, has adopted this policy in order that professional men who have not had employment will benefit by the large expenditure for new Federal buildings, the design and construction of which come under the authority of the Supervising Architect's Office of the Treasury.

For the purpose of spreading employment as far as possible among architects and engineers who, preferably, have had some previous experience in public building work, Mr. Robert has requested the co-operation of American Engineering Council and the American Institute of Architects in enrolling qualified individuals and firms. His purpose is to engage on every building architects and engineers resident in the state in which it will be erected.

The Treasury Department, with the co-operation of the American Institute of Architects, is assembling the records of architects throughout the country. Each known architect has or will receive a pre-qualification blank which should be forwarded to reach the Treasury Department promptly.

As the procedure adopted for enrolling architects could not be followed satisfactorily to obtain the same character of information concerning engineers, the American Engineering Council has been requested by Mr. Robert to compile state lists of engineers and engineering firms that customarily engage in construction of buildings of the monumental character usually typifying those built by the Federal Government.

Through its member-organizations and other technical groups, the council inaugurated its canvass several weeks ago. The lists are being prepared so that the council will be in a position to submit to Treasury Department the names of competent engineers in any and all states when there is a call for the services which they are qualified to render.

Any qualified engineer desiring to participate in the Treasury Department's building program is invited to send to L. W. Wallace, Ex-

DIVIDE STATES FOR U. S. FUNDS

Western states will be divided into two districts under the regional plan of administration of public works, it was indicated in dispatches from Washington yesterday. California, Nevada, Utah and Arizona will be known as District 6. Montana, Idaho, Washington and Oregon will comprise District 5. Each district will be in charge of a regional administrator to whom recommendations will be submitted by an advisory board of three members for each state, according to revised administration plans. Cities in which the regional headquarters will be located are to be announced shortly.

STATE PAYROLL GAIN SHOWN BY DIVISION REPORT

Construction Industry Employment Here up 10 Per Cent From May

Employment in the construction industry gained 10.6 per cent in the San Francisco-Alameda section of the state from May to June, according to the monthly survey of the State Division of Labor Statistics.

The average gain for the state was 3.9 per cent.

Payrolls locally increased 14.7 per cent in total and average per capita weekly earnings gained 3.7 per cent.

Compared with June last year there was a decrease of 16.5 per cent in the local area in number of employes and a decrease of 30.3 per cent in payrolls.

The labor division report shows an increase in all industries in number of employes of 3.6 per cent gain over May is 4.2 per cent.

Executive Secretary, American Engineering Council, 744 Jackson Place, N. W., Washington, D. C., a complete statement, in duplicate, of his professional record, with a citation of significant references.

"American Engineering Council's function in enrolling engineers for the building program is to make available lists of competent engineers and firms and not to select and employ men. These are functions of the Treasury Department," says the council statement.

LUMBER CODE SETS NATIONAL WAGE MINIMUM

Eighty-Five Percent of Industry Accepts Regulations, Says Association

The code of the National Lumber Manufacturers Association submitted to the Industrial Control Administration proposes a maximum work week of 48 to 40 hours, depending on the region, and wages from 22½ cents an hour to 42½ cents.

In presenting the code the association said it had been approved by twenty-six divisions, representing 85 percent of the forest industries.

Control of production is proposed by allocation through a voluntary agreement. Fixing of minimum prices to include "reasonable costs" at proposed wages is asked.

Wages prescribed for various divisions include:

West Coast Logging and Lumber—Forty-eight hours in logging, forty in manufacture; factory labor 40 cents, other 42½ cents.

Western Pine—Same as West Coast, except for Arizona and New Mexico, where 22½ cents and forty-eight hours would prevail.

Western Red Cedar Shingles—Same as West Coast Logging, with 40 cents for stained shingle subdivision.

Woodwork Industry—Forty hours average over each half year, with forty-eight hours individual weekly maximum; wages same as sawmill, minimums of various regions, with 25 per cent of each mill's employment in minimums of various regions, with 25 cents as absolute minimum and no more than 25 per cent of each mill's employment in minimum classification.

Veneer Industry—Forty-four hours in Southern Zone, with 25 cents an hour; forty hours in North, with 30 cents generally and 40 cents in metropolitan cities.

Oak Flooring—Forty-eight hours, 22½ cents in towns under 5,000; 25 cents from 5,000 to 50,000 population; 27½ cents above.

Walnut—Forty hours, 25 to 40 cents wages, same as veneer.

Hardwood—Forty-eight hours, 22½ cents, with 25 cents in North Central and Northwestern mills.

Mahogany—Forty cents, 30 cents in Southern zone, 40 cents in Northern, 45 cents in Philippine mahogany industry.

\$7,798,917 U. S. FOREST ROAD FUND FOR STATE

California to Get Nearly Sixth of \$50,000,000 Appropriation

California will receive \$7,798,917 of the \$50,000,000 Federal fund for forest, park and Indian reservation roads, according to advices from Washington yesterday.

The distribution of this fund within the state as recommended by the Federal public works committee is as follows: forest highways, \$2,351,177; forest roads, \$2,927,000; park roads, \$1,947,000; Indian reservation roads, \$53,000; public land highways, \$475,740.

Other western states will receive the following amounts: Arizona, \$4,838,606; Colorado, \$2,492,497; Idaho, \$3,068,415; Montana, \$3,641,103; Nevada, \$1,483,268; New Mexico, \$2,397,476; Oregon, \$4,273,540; Utah, \$1,878,846; Washington, \$3,693,526; Wyoming, \$3,443,263.

Alaska is allotted \$660,000 and Hawaii, \$516,000.

The California and Nevada appropriations will be expended under supervision of District Engineer C. H. Sweetser, Bureau of Public roads, San Francisco.

FIVE ENDORSEMENTS REQUIRED FOR LICENSE

Personal endorsements of contractors applying for state licenses are required on the new application blanks just received by the division offices of the Contractors License Bureau.

The endorsements take the place of some of the queries relating to performance and financial information about the applicant.

The statement signed by the endorser guarantees that the applicant is of good personal reputation and has truthfully answered the questions on the blank. The endorsement requested are those of individuals with whom the party has done business.

If the applicant is an individual five signatures are required, three for each member if a copartnership two for each officer of a corporation.

PARKER LOW ON MARSHFIELD P. O.

WASHINGTON, D. C., July 14. —K. E. Parker, San Francisco, at \$95,107 submitted the low bid to the Treasury Department for construction of the Marshfield, Oregon, post office. George Isackson, Portland, at \$95,700, and L. H. Hoffman Co., Portland, at \$99,767, were second and third low bidders. The building is to be a Class A structure with brick exterior, two stories and basement. Johnson & Wallwork U. S. Bank Building, Portland, are architects.

WORDEN ADVISES CITY SURVEY OF QUAKE HAZARDS

Director of Public Works Wm. H. Worden is to ask the Board of Supervisors this week to appropriate \$5000 for a survey by building inspectors of cornices, parapet walls and signs, to minimize danger from falling building accessories in case of earthquake.

City Attorney John O'Toole has been asked to draw up an ordinance ordering the survey. The measure was approved by City Administrator A. J. Cleary.

The action is the result of a campaign to make the city safe from earthquake hazards.

The survey will be made by four building inspectors and one engineer, working under Jobu B. Leonard, chief of the Bureau of Building Inspection, over a period of four months.

Buildings will be inspected for improperly constructed or weak balconies, parapet walls, hanging signs, cornices and water tanks.

Property owners will be required to remove any hazard disclosed by the survey.

June shipments of electric industrial trucks and tractors, as reported to the Bureau of the Census by ten leading manufacturers, consisted of 52 trucks and tractors as compared with 22 in May, 25 in June, 1932, and 75 in June, 1931.

TREASURY WORK PLAN REVISION ASKED BY BOARD

Quarter Million Appropriation For Northern California Approved

Revision of the Treasury Department building program has been ordered by the public works committee, it was reported in Washington dispatches yesterday. The recommendations of the supervising architect issued last week included expenditure of \$20,759,500 in California, of which \$9,050,000 was for the Los Angeles federal building.

The treasury department was instructed to revise and reduce the building appropriations, which totaled about \$750,000,000 for the entire program.

Specific building projects must be justified on the same basis as other portions of the public works construction program, it was said. This is understood to mean that post offices and federal office buildings must be planned only for those cities where the investment would be justified by savings in rent.

A list of minor appropriations which have been approved included a total of approximately \$250,000 for work in Northern California, according to reports received here yesterday. Principal items are for new construction and remodeling of facilities on Angel Island and reconditioning of various stations of the lighthouse service, including light ships.

CONTRACTOR SUES ALVISO PROMOTERS

G. V. Metzger, electrical contractor, has filed suit in Santa Clara county against the Alviso Greyhound Breeders Association for \$7,799 claimed under his contract for materials and labor in the electrical installation at the Alviso track. Other claims for material and labor totaling more than \$3000 have been filed against the track promoters.

1—APARTMENTS

Electrical Contract Awarded.
REMODEL Cost, \$30,000
SAN FRANCISCO. No. 1164 Market Street.

Remodel four-story concrete loft building for apartments (add one story, 30 2-room apts., 4 stores).
 Owner—A. W. Wilson.

Architect—C. A. Meussdorffer, Humboldt Park Bldg., San Francisco.
Electric—Crown Electric Co., 153 Eddy St., San Francisco.

Plastering and painting bids will be taken in about one week.

As previously reported, heating and plumbing awarded to W. E. Treusdale 422 Turk St., at \$2194; glass to W. P. Fuller & Co. 301 Mission St.; carpentry, etc., to Monson Bros., 475 Sixth St., at \$2100.

Plans Being Completed.
APARTMENTS Cost, \$50,000
SAN FRANCISCO. Hayes Valley District.

Three-story and basement frame and stucco apartments (15 2 and 3-rm. apts.); composition 10-year roof, 18-car garage, gas steam heating plant, elevator, individual electric refrigeration, canvas walls, hardwood floors, tiled baths and showers, electric ranges, etc.

Owner—Withheld.
 Architect—Irvine & Ebbets (R. R. Irvine, Architect), 2048 Market St. San Francisco.

Sub-bids will be taken by the architect in about ten days on all portions of the work with the exception of wrecking and plastering.

2—BONDS

HUNTINGTON PARK, Los Angeles Co., Cal.—Huntington Park will hold another election, probably on August 21, for the purpose of submitting a \$95,000 bond issue, proceeds to be used for the construction of a new city hall. A similar proposition was defeated at the election of June 6. The city council adopted preliminary plans for the structure prepared by L. C. Ownbey & Co. (R. Van Buren Livingston, architect), 7018 Passaic Street, Huntington Park.

4—FACTORIES & WAREHOUSES

M., July 24, bids will be received by the Metropolitan Water District, 306 W Third St., Los Angeles, for constructing approximately 7.5 miles of road for the Colorado River aqueduct in accordance with the District's Spec. No. 44. The road is located in Riverside County and extends from a point on the Mecca-Blythe State Highway approx. 2.9 miles west of Desert Center to a point approx. 7.5 miles north thereof. The work to be contracted for consists of all necessary excavation and grading, and the placing of surfacing materials, culvert pipes, riprap and protection work as shown on the drawings. Specifications may be purchased for \$3. Julian Hinds, acting engineer. The items are:

- (1) 53,400 cu. yds. rdwy., borrow, and channel change excav.;
- (2) 60,000 sta. yds. excav. overhaul;
- (3) 960 cu. yds. structure excav.;
- (4) 245 cu. yds. concrete;
- (5) 5400 lbs. reinf. steel;
- (6) 96 lin. ft. furnish and place 30-in. corru. pipe culvert;
- (7) 264 lin. ft. do 42-in. do;
- (8) 132 lin. ft. do 48-in. do;
- (9) 150 cu. yds. hand-placed riprap;
- (10) 500 cu. yds. dumped riprap;
- (11) 3.7 miles drainage ditches;
- (12) 175 M. gals. watering embank.;
- (13) 525 M. gals. watering subgrade;
- (14) 800 cu. yds. furnish crushed rock;
- (15) 8300 cu. yds. furnish sel. material
- (16) 15,600 cu. yds. miles haul selected material and crushed rock;
- (17) 185,600 gals. road oil, furnishing, hauling and spreading;
- (18) 88,000 sq. yds. prepare surface, mix, spread and finish oil-treated surface;
- (19) 22,000 gals. seal coat oil, furnish and haul;
- (20) 88,000 sq. yds. seal coat—applying
- (21) 400 cu. yds. stockpile oil-treated material.

LOS ANGELES, Calif.—Until 10 A. M., July 26, bids will be received by board of public works for improving Los Angeles St. from Winston St. to 5th St., under cash contract, involving:

- (1) lump sum for grading;
- (2) 35 sq. ft. 8-in. conc. pave.;
- (3) 323 lin. ft. curb bar;
- (4) 58 lin. ft. curb armor;
- (5) 384 lin. ft. cem. curb, heavy, unplastered;
- (6) 94 sq. ft. 6-in. sidewalk (drive);
- (7) 592 sq. ft. cem. sidewalk, 1 course;
- (8) 438 sq. ft. 8-in. conc. gutter;
- (9) storm drain and appurt.;
- (10) reinf. conc. retaining wall;
- (11) two orn. lighting posts, reset.

Quantities on storm drain, concrete wall and removals follow:

STORM DRAIN

- 166 ft. 12-in. pipe;
- 2 catchbasins, No. 29;
- 3 catchbasins, No. 37;
- 1 manhole "E2";
- 1 manhole frame and cover set;
- 1 junction chamber, No. 3;
- 128 ft. conc. reinf. for 12-in. pipe;
- remove one existing F. & G.;
- 3 catchbasins, F. & G. (one grating)
- 3 catchbasins, F. & G. sets;
- remove 2 existing catchbasins.

REINF. CONC. RETAINING WALL,

BEAM AND COLUMNS

- conc. fire hydrant pedestal;
- 1270 cu. ft. conc. (47 cu. yds.);
- 1300 sq. ft. forms;
- 5100 lbs. reinf. steel;
- 16 lin. ft. curb armor;
- 158 lin. ft. curb armor;
- 2 expansion joints;
- 14 sq. ft. conc. gutter, 8-in.;
- 3 lin. ft. mono. curb and gutter;
- 55 sq. ft. 8-in. concrete pave.;
- 1 catchbasin, No. 37;
- 210 sq. ft. sidewalk;
- shorten 25 10-in. I beams.

REMOVALS

- 504 ft. curb;
- 1810 sq. ft. walk;
- 680 sq. ft. gutter;
- 276 cu. ft. top of wall;
- 18 cu. ft. toe of wall;
- 15 cu. ft. ship out;
- 188 cu. ft. wall removal;
- 526 cu. ft. reinf. concrete walk;
- 90 sq. ft. floor;
- 252 cu. ft. cut under floor.

LOS ANGELES, Cal.—The city council will instruct the city engineer to prepare plans for improvement of Venice Blvd. (south roadway) from La Brea Ave. to Cochran Ave. The estimated cost is \$64,000.

FAIRFAX, Marin Co., Cal.—City council will start new proceedings August 12 or Manor Hill Section St. improvement. Project includes paving, curbs and gutters, and involves:

- (1) 15,104 cu. yds. grading;
- (2) 10,330 lin. ft. concrete curb and gutter;
- (3) 63,437 sq. ft. asph. pavement;
- (4) 206 ft. 10-in. metal pipe culvert;
- (5) 356 ft. 12-in. do;
- (6) 192 ft. 18-in. do;
- (7) 46-ft. 48-in. do;
- (8) 22 conc. catchbasins, c. i. grating;
- (9) 33 cu. yds. reinf. conc. retaining wall;
- (10) 250 lin. ft. 6-in. sanitary sewer;
- (11) 1 manhole.

Estimated cost, \$30,000. J. C. Oglesby, city engineer.

YUBA CITY, Sutter Co., Cal.—County supervisors seek \$219,500 Federal funds under the National Industrial Recovery Act, projects as follows:

Relocate Garden Highway from south end of Second St., Yuba City, to Shanghai Bend Road, 2.65 mi., \$53,000;

IMP. LINCOLN BLVD. — LOS ANGELES

LOS ANGELES, Cal.—Southern California Roads Co., 2145 E 25th St., submitted low bid to board of public works July 12 at \$30,070.19, for improving Lincoln Blvd. from Venice Blvd. to Washington Blvd., under cash contract, involving:

- (1) grading, including removals;
- (2) 117,933 sq. ft. 5-in. asph. concrete base;
- (3) 116,338 sq. ft. 2-in. (gran-type Warrenite-Bith.) wearing surf.;
- (4) 4004 sq. ft. various thicknesses (average 2-in.) Warrenite - Bit. wearing surface;
- (5) 4535 sq. ft. 4-in. asph. conc. do;
- (6) 4336 sq. ft. 7-in. conc. pave.;
- (7) 3959 ft. unplas. heavy curb;
- (8) 79 ft. curb armor;
- (9) 730 sq. ft. 6-in. conc. sidewalk;
- (10) 22,693 sq. ft. 1-course sidewalk;
- (11) 4909 sq. ft. 7-in. concrete gutter;
- (12) sanitary sewer complete;
- (13) 75 ft. 6-in. V. C. pipe sewers;
- (14) orn. lighting conduit;

- (15) reset 7 manholes;
- (16) 1595 sq. ft. white concrete traffic lines.

The sewer and conduit involve detail quantities as follows:

- SANITARY SEWER**
- 75 ft. 6-in. vit. clay sewers;
 - 3 10x6-in. saddles;
 - 2 manholes "B";
 - 2 manhole frame and cover sets;
 - reset 7 manholes.

- CONDUIT**
- 140 ft. 2-in.;
 - 3642 ft. 1 1/2-in.

The total bids were:

- (A) Southern California Roads Co., \$30,070.19.
- (B) Griffith Co., \$30,820.76.
- (C) Geo. H. Oswald, \$31,441.48.

EATON WASH DEBRIS DAM—L. A. COUNTY

LOS ANGELES, Cal.—Mittry Bros. Const. Co., 5531 Downey Road, Los Angeles, submitted low bid to the County Supervisors July 10 at \$224,382 (Proposal No. 1, using concrete poured facing) for constructing Eaton Wash Debris Dam. Mittry Bros. were also low on gunite facing at \$229,727.

The plans, as prepared by E. C. Eaton, County Flood Control Engineer, 202 N Broadway, call for a rolled earth fill dam, 1545 ft. in length, 37 ft. in height, 40.5 ft. from foundations to spillway crest. The upstream side will be faced with concrete.

Bids were taken on three proposals, viz.: (1) all work complete, (2) earth work, and (3) concrete and miscellaneous work.

The total bids, according to the various proposals, follow:

Proposal No. 1—All Work Complete

(A) Mittry Bros. Const. Co., Los Angeles: Total for gunite facing, \$229,737; total for concrete facing, \$224,382.	
---	--

- (B) Basich Bros., Torrance: Gunite \$241,263.25; concrete, \$234,173.25.

- (C) Geo. Pollock Co., Sacramento: Gunite, \$263,255; concrete, \$256,195.

- (D) A. Teichert & Son, 409 LeRoy St., Los Angeles: Gunite, \$292,377.50; concrete, \$288,698.50.

- (E) Von der Hellen & Pierson, Castaic: Gunite, \$332,314.50; concrete, \$232,209.50.

- (F) J. E. Haddock, Ltd., Pasadena: Gunite, \$342,791.25; concrete, \$333,855.25.

- (G) Guy F. Atkinson Co., Los Angeles: Gunite, \$344,480; concrete, \$336,233.

- (H) Engineer's estimate: Gunite, \$259,560; concrete, \$260,685.

Proposal No. 2—Earthwork Only

(A) Hall-Johnson Co. & M. S. Ross, 4011 Goodwin Ave., Los Angeles, \$143,872.50.	
--	--

- (B) Geo. Pollock Co., Sacramento, \$149,435.

- (C) C. G. Payne Const. Co., 1835 E 58th St., Los Angeles, \$179,852.55.

(4D) Engineer's estimate: \$152,357.50.
Proposal No. 3—Conc. and Misc. Work
 (A) Case Const. Co., 1927 Thayer
 Ave., Los Angeles; Gunite, \$128,141;
 concrete, \$125,951.

(B) Geo. Hess, 434 S Westmoreland
 Ave., Los Angeles; Gunite, \$143,392;
 concrete, \$130,857.

(C) Engineer's estimate: Gunite,
 \$107,202.50; concrete, \$108,327.50.

Quantities and unit prices follow:

PROPOSAL NO. 1

All Work Complete

- (1) 10.5 acres clear and grub dam-
site;
- (2) 40,000 cu. yds. strip damsite;
- (3) 9.0 acres prepare foundation for
dam;
- (4) 164,000 cu. yds. excav. (struc.);
- (5) 3100 cu. yds. excavation (cut-off
trenches);
- (6) 167,000 cu. yds. excav. borrow
pit No. 1;
- (7) 196,000 cu. yds. excav. borrow
pit No. 2;
- (8) 147,000 cu. yds. embankment,
impressions (Class A);
- (9) 265,000 cu. yds. embankment,
impressions (Class B);
- (10) 1450 cu. yds. backfill, tamped
(Class A);
- (11) 8850 cu. yds. backfill, untamped
(Class B);
- (12) 930 cu. yds. conc. cut-off walls
(Class A);
- (13) 3540 cu. yds. concrete floor slabs
(Class B);
- (14) 250,000 sq. ft. gunite facing slab
Alt. to 14 (14-A) 3980 cu. yds. conc.
facing slab;
- (15) 2640 cu. yds. concrete retaining
wall (Class D);
- (16) 2125 cu. yds. conc. outlet con-
duit (Class E);
- (17) 1450 cu. yds. conc. spillway ogee
(Class E);
- (18) 1,250,000 lbs. place reinf. steel;
- (19) 200,000 lbs. place gates, hoists,
stems, etc.;
- (20) 44,000 lbs. place trash racks;
- (21) 8,000 lbs. place misc. metal;
- (22) 1,000 lbs. place metal handrail;

- (23) 200 lin. ft. place tile drains;
- (24) 100 lin. ft. drill dowel holes.

PROPOSAL NO. 2

Earthwork Only.

- (1) 10.5 acres clear and grub dam-
site;
- (2) 40,000 cu. yds. strip damsite;
- (3) 9.0 acres prepare foundation for
dam;
- (4) 156,000 cu. yds. excav. for struc.
(Class A);
- (5) 3100 cu. yds. excavation (cut-off
trenches) Class B;
- (6) 167,000 cu. yds. excav. borrow
pit No. 1 (Class C);
- (7) 196,000 cu. yds. excav. borrow
pit No. 2 (Class D);
- (8) 147,000 cu. yds. embankment,
impervious (Class A);
- (9) 265,000 cu. yds. embankment,
impervious (Class B);
- (10) 1450 cu. yds. backfill, tamped
(Class A);
- (11) 8850 cu. yds. backfill, untamped
(Class B);

PROPOSAL NO. 3

Concrete and Miscellaneous Work

- (4) 8000 cu. yds. excav. for struc.
(Class A);
- (4a) 5000 cu. yds. excav. final trim
upstream (Class E);
- (12) 930 cu. yds. conc. cut-off walls
(Class A);
- (13) 3540 cu. yds. concrete floor slabs
(Class B);
- (14) 250,000 sq. ft. gunite facing slab
Alt. to 14 (14-A) 3980 cu. yds. conc.
facing slab (Class C);
- (15) 2640 cu. yds. concrete retaining
wall (Class D);
- (16) 2125 cu. yds. conc. outlet con-
duit (Class E);
- (17) 1450 cu. yds. conc. spillway ogee
(Class F);
- (18) 1,250,000 lbs. place reinf. steel;
- (19) 200,000 lbs. place gates, hoists,
stems, etc.;
- (20) 44,000 lbs. place trash racks;
- (21) 8,000 lbs. place misc. metal;
- (22) 1,000 lbs. placing handrail;
- (23) 200 lin. ft. place tile drains;
- (24) 100 lin. ft. drill dowel holes.

BIDS OPENED

CALAVERAS COUNTY, Cal.—R. E.
 McCarty, 603 Eastworth St., Stockton,
 at \$13,240 submitted low bid July 19
 to State Highway Commission, Sacra-
 mento, to surface with untreated
 gravel or stone 6.5 miles between the
 western boundary and Burson, involv-
 ing:

- (1) 12,600 tons untreated crush. grav-
el or stone surfacing;
- (2) 1,200 M. gals. water applied to
base and surfacing.

LYON COUNTY, Nevada. — Nevada
 Rock & Sand Co., Reno, awarded the
 contract by S. C. Durkee, State High-
 way Engineer, Heroes Memorial Bldg.,
 Carson City July 6 at \$54,728.40, for
 constructing a portion of the state
 highway system between nine miles
 northeast of Dayton and 12 miles west
 of Lahontan, 9.91 miles, Route 8A,
 Section C1, involving:

- (1) 41,600 cu. yds. rdwy. excav.;
- (2) 60 acres clearing.
- (3) 35,815 yd. sta. overhaul;
- (4) 10,485 cu. yds. select borrow;
- (5) 800 cu. yds. struc. excavation;
- (6) 9.91 miles subgrade;
- (7) 31,300 cu. yds. crushed gravel or
stone surf.;

- (8) 59 cu. yds. Class B concrete;
- (9) 1400 lbs. reinforcing steel;
- (10) 1464 lin. ft. 18-in. corru. metal
pipe;

- (11) 320 lin. ft. 24-in. do;
- (12) 138 lin. ft. 36-in. do;
- (13) 38 monuments;
- (14) 9.91 miles finish roadway.

The total bids were:

- (A) Nevada Rock & Sand Co., Reno,
\$54,728.40.
- (B) Dodge Const. Co., Inc., Fallon,
\$56,113.35.
- (C) M. J. Bevanda, Stockton, Calif.,
\$64,913.20.
- (D) Engineer's estimate, \$44,949.55.

ABANDON CITY SCHOOL AFTER INSPECTION

**Strength of 16 Buildings is
Advised by Structural
Engineers**

Immediate abandonment of the Lincoln School at Fourth and Harrison streets was ordered by the Board of Education following a report by John B. Leonard, chief of the bureau of building inspection, which characterized the building as unsafe in the event of an earthquake.

Leonard's report was the result of an investigation ordered by the board shortly after the Long Beach earthquake.

The report also covered the Sunnyside School at Hearst avenue and Foerster street and the Adams School at Eddy and Polk streets.

Leonard's engineers recommended that the Adams School be strengthened by the installation of new connections and knee braces. The building was taken as typical of sixteen Class C school buildings erected on the same plan.

The old Sunnyside building was found to be free from earthquake hazard. The new building was not covered by the report.

The Board of Education is expected to rule on the recommendation for strengthening the seventeen buildings at its meetings next Tuesday. Board officials are studying the report and estimating the cost of necessary repair work.

Work of strengthening the schools is expected to proceed immediately, according to D. P. Hardy deputy superintendent of schools.

On the whole, the report was favorable, Hardy said, indicating that the schools would withstand any ordinary quake shock.

Abandonment of the Lincoln School was recommended because engineers found it was built on a filled-in creek, without pile foundations. The creek has shifted and undermined the building, Leonard said.

The board's action in making the schools safe from earthquake hazard comes simultaneously with its campaign for federal aid funds to replace "firetrap" frame structures.

THE WEEK'S NEWS Highlights

CITY PROJECTS. Municipal construction projects proposed by the Public Utilities Commission and other city departments totaling \$23,515,000 are approved by the San Francisco citizens committee to be included in the list presented for Federal aid. Most of the items are classified self-liquidating, providing extension of the city's water mains, additional fire-protection, raising of the O'Shaughnessy dam and construction of Red Mountain Bar power house.

BETTER SCHOOLS. One school was ordered abandoned and it is probable that at least sixteen other Class C structures will be strengthened as a result of the investigation by John B. Leonard, chief of the San Francisco bureau of building inspection. The board of education has Leonard's report before it for consideration. The survey of city school buildings was ordered following the Southern California earthquake.

CODE AID. Assistance of the State Registrar of Contractors has been offered units of the construction industry in formulating competitive codes, later to be made into a state-wide regulatory program. The registrar's office has offered to act as a clearing house for information of groups seeking advice in preparing voluntary agreements.

BRIDGE CAISSON. First caisson for the San Francisco-Oakland bridge was launched at the Moore Dry Dock, Oakland, last Wednesday. The structure is 74 feet 6 inches wide and 127 feet long. Its walls are 17 feet deep now but will be built up to 75 feet before it is towed to a point west of Yerba Buena island to be sunk.

SALES TAX. Contractors already at work on public works jobs are exempt from the state sales tax on materials entering into the contract in progress, under a special amendment to the act. The new state levy would have added as much as half a million dollars to a single contract on the bay bridge, it was estimated.

\$754,276,188 IN FIRST ALLOTMENT ON FEDERAL CASH

**Highway and Ship Building
Funds Compose Bulk of
Allocation**

Over three-quarters of a billion dollars have been allotted from the \$3,300,000,000 Federal fund for job-creating useful public works, the Federal Emergency Administration of Public Works has announced.

Secretary of the Interior Harold L. Ickes, as Federal Public Works Administrator, was informed that since the Public Works Law was enacted a little more than a month ago allotments have been made amounting to \$754,276,188. The money will be spent in every state.

The Secretary-Administrator was told that projects already approved will provide more than 13,070,788 man-weeks of direct labor. Indirectly, jobs will be opened for a much larger number of men. It has been estimated that for every man employed directly on the site of a public works project more than two are beneficially affected elsewhere.

The character of projects already approved by the Public Works Administration are those designed to get men back on the job as quickly as possible. The policy has been to create a large number of jobs before the summer passes to move men from relief rolls to pay rolls.

With this thought in mind the Public Works Administration has made allotments of \$400,000,000 for roads, \$238,000,000 for the Navy and more than \$65,000,000 to be expended by various governmental agencies on purely Federal projects.

Road assignments have been approved for most of the states. This quick distribution of road funds will insure employment for at least 100,000 men directly on the highways within a few weeks. Peak operations are expected to be reached by September.

BOARD APPOINTMENT

Louis J. Gill, San Diego, has been reappointed member of the State Board of Architectural Examiners, Southern District, by Gov. Rolph.

McKEE PLEDGES PROTECTION OF SUB-CONTRACTOR

Los Angeles Firm Urges Policy
Of Guaranteeing Award
On Original Bid

A pledge to protect sub-contractors on all bids has been distributed to the trade by Robert E. McKee, general contractor of Los Angeles, accompanied by a statement of policy endorsing the principles of the National Industrial Recovery Act.

The McKee letter said:

"Believing that the construction industry, due to its lack of organization and coordinated efforts, has suffered greatly in the past two or three years from many mal-practices in the profession, wish to state that we have decided to inaugurate an entirely new policy in connection with any construction which we might have or expect to get in the future.

"We believe it to the best interests of contractors, sub-contractors and material men involved, that each material man and sub-contractor submit his best, his lowest and only figure to the general contractor before the letting and after that date there should be no changes for any reason whatsoever in said prices. The general contractor should depend upon his figured profit for his profit. If we can secure the proper cooperation from the sub-contractors and material men in the district where we are contracting, we expect to follow a policy of awarding all sub-contracts and orders for materials to the lowest original bidder where possible, bearing in mind the responsibility of the sub-contractor and the material man to fulfill his agreement.

"Regardless of any practices that the contractors have been compelled to resort to in the past, the time has now come when same should be discarded. Each man in the profession is, and should be entitled to a fair profit. Such a policy can only be held to by myself, provided that our competitors, as well as people we are dealing with, are in accord. We are going to try out this policy and trust it will be successful, because I am sure it will be to the mutual interest of all concerned.

"I also believe it advantageous for all general contractors, should it be necessary, to secure even a less volume of work than they have been doing in the past, in order that all other responsible

WARDELL NAMED REGIONAL CHIEF

Appointment of Justus Wardell of San Francisco as regional administrator of the Federal public works program for the Sixth District, with headquarters here was reported in news dispatches from Washington yesterday. Mr. Wardell will administer expenditures in the states of California, Arizona, Nevada and Utah. The regional administrators are responsible directly to Secretary of the Interior Harold Ickes, Federal works administrator.

EARLY CHAIRMAN OF CREDIT BUREAU

The appointment of J. H. Early, Northern California credit manager of Truscon Steel Co., as chairman of the Construction Industries Credit Bureau, a department of the Credit Managers' Association of Northern and Central California, has been announced by Frank H. Eichler president.

Early has been active in credit affairs for the past twenty years. He has been identified with the Construction Industries Credit Bureau since its inception. He was chairman of the Building Material Chapter during 1930 and 1931, and was recently re-elected to the board of directors of the Credit Managers' Association of Northern and Central California.

Early will be assisted in carrying out his policies by A. J. McGarry, who has been manager of the Construction Industries Credit Bureau since its inception, together with a representative group of committeemen of the many crafts of the industry, including finance, bonding, manufacturers and material suppliers.

REDWOOD CITY SETS CONTRACTORS' FEE

Redwood City council has approved an ordinance requiring a \$25 annual license fee for plumbers with established businesses in the municipality. Non-resident contractors will be required to pay \$50 annually.

contractors may have work, but such work should be on a basis of a reasonably sure profit.

"Also, we are in sympathy with the prevailing wage act, provided that the prevailing wages are set before the contract is let. This applies of course to all sub-contractors as well as to the general contractor."

NATIONAL GAIN IN RESIDENTIAL BUILDING 8.7%

Increase From May to June
Contrary to Usual Seasonal
Trend

Building permit reports received by the Bureau of Labor Statistics of the United States Department of Labor from 762 identical cities having a population of 10,000 or over show a decrease of 36.5 per cent in indicated expenditures for total building operations comparing June with May. The total number of building operations decreased 6.3 per cent. The decrease in indicated expenditures is caused by the inclusion in the May figures of the permit for the San Francisco-Oakland bridge. If the bridge figures were excluded from the May total a substantial increase would have been shown by the June figures.

New residential buildings increased 15.3 per cent in number and 8.7 per cent in indicated expenditures. The trend, comparing June expenditures with May expenditures, in the past has usually been downward for this class of structure.

Comparing June 1933, with May 1933, there was a decrease of 11.2 per cent in the number and a decrease of 66.1 per cent in indicated expenditures for new non-residential buildings.

Additions, alterations, and repairs decreased 7.1 per cent in number but increased 11.9 per cent in estimated cost.

During June 1933, 4,017 family-dwelling units were provided in new buildings. This is an increase of 3.6 per cent as compared with May.

The various agencies of the United States Government awarded contracts during June for buildings to cost \$1,039,304. This is the smallest award for Federal buildings for any month during 1932 or 1933.

Comparing permits issued in 345 identical cities having a population of 25,000 or over in June 1933, and June 1932, there was an increase of 21.8 per cent in the number of new residential buildings an increase of 17.6 per cent in the indicated expenditures of this class of building.

New nonresidential buildings decreased 15.2 per cent in number and 57.1 per cent in estimated value.

There was an increase of 15.7 per cent in the number and an increase of 28.7 per cent in indicated expenditures for additions, alterations, and repairs.

Total building operations increased 8.9 per cent in number but indicated expenditures decreased 25.1 per cent.

LOAN TO BUILD L. A. SCHOOLS IS RULED LEGAL

Attorney General Holds Emergency May be Met by Borrowing

In reply to a query from Alfred E. Lents, Acting Secretary of the Board of Public Building Reconstruction of the State Department of Education, Attorney General U. S. Webb yesterday ruled that the state may legally accept a loan from the Reconstruction Finance Corporation for rebuilding of school structures destroyed in the Southern California earthquake last March.

Webb favored the plan of the state retaining title to the new school buildings and renting them to the school districts until they are fully paid for, in approximately twenty years.

Commenting on the apparent conflict of recent emergency legislation at Sacramento establishing a Unified Rehabilitation Corporation to seek money from the government to rebuild the schools at a cost of nearly \$22,000,000 with provision of the state constitution that the state may not incur a total indebtedness of more than \$300,000,000 without submitting a bond issue to voters, Webb pointed out that the purpose of the state law was to prevent extravagance and save the state from financial distress, while in the case of the schools there is no question of extravagance—the federal government is anxious of loan money to states for such projects.

Webb held that the plan of the state retaining the title to the schools would eliminate difficulties arising from school district provisions limiting the amount of indebtedness the districts may incur.

He pointed out that minor legal and technical obstacles may be overlooked, in view of the broad discretion allowed the Reconstruction Finance Corporation by Congress, and since "it is inconceivable" that the state or school districts should seek to free themselves from obligations to the government by any legal technicalities.

CLYDE WOOD LOW ON L. A. ROADS

SPECIAL TO DAILY PACIFIC BUILDER
LOS ANGELES, July 24—Clyde W. Wood, Stockton, submitted the low bid of \$45,034 for construction of approximately 7.5 miles of road in Riverside county for the Los Angeles Metropolitan Water District. Other bids were as follows: Basich Bros., Torrance, \$49,614; Yglesais Bros., San Diego, \$51,830; A. Teichert & Sons, Sacramento, \$57,701.

The bids were taken under advisement.

The contract includes excavation and grading, surfacing and placing culverts.

\$4 MINIMUM WAGE APPROVED IN L. A.

While 700 Southern California building contractors crowded Los Angeles Metropolitan High School auditorium a mass meeting called by the Associated General Contractors adopted minimum wage scales of \$4.00 per day for unskilled labor and \$6.00 per day for skilled mechanics. A working week of forty hours was also adopted.

According to F. J. Connolly, manager of the Associated General Contractors, this action automatically increases and stabilizes the wages and working conditions in the building industry, and eliminates the deplorable conditions caused by unscrupulous operators contracting their labor for a "lump sum" or on a "piece work" basis, which frequently results in wages as low as \$2.00 per day. He further stated that these regulations will prevent some men from working 10 or 12 hours a day six or seven days a week, while others are wholly unemployed.

The building contractors also approved the basic code of fair competition for general contractors which was submitted to General Hugh S. Johnson, Federal Administrator, by the national officers of the Associated General Contractors.

COMMITTEE OKEH ON \$23,515,000 CITY PROJECTS

School Rebuilding and Water System Improvements Are Listed

Construction projects totaling \$11,505,000 were approved yesterday by Mayor Rossi's citizens' committee for recommendation to the Board of Supervisors for possible share in the \$3,300,000,000 National Industrial Recovery Act funds.

The principal items passed by the committee were power projects submitted by E. G. Cahill, director of public utilities.

Urged for federal approval as "self-liquidating" were the raising of the O'Shaughnessy Dam at the head of the Hetch Hetchy Water System, at a cost of \$3,500,000, and the construction of the Red Mountain Bar power house at \$1,000,000.

Also approved were: extension of the fire department's high pressure system, \$1,865,000; Cisterns for the fire department water system, \$140,000; Rebuilding of "fire-trap" schools, \$2,500,000; Sewer replacements, \$2,500,000.

The committee last week recommended to the supervisors \$12,010,000 worth of city water projects, with today's action bringing the total to \$23,515,000.

Action on Cahill's proposal to construct a municipal power line from Newark to San Francisco was deferred on Mayor Rossi's motion. The project was held not immediately necessary and hence unlikely to receive a share of federal funds.

If the projects are approved by federal administrators, the Board of Supervisors will submit a bond issue to voters to pay for San Francisco 70 per cent share in the cost.

PLAN BUILDING CODE FOR N. SACRAMENTO

City Clerk W. O. Irwin of North Sacramento has been instructed to obtain copies of municipal building codes of cities of similar class to be studied by the city council in preparation of a new ordinance for that city.

Text of Construction Code Submitted By Associated General Contractors

Following is the text of the proposed competitive code for general contractors submitted to the National Recovery Administration by the Associated General Contractors of America:

The Associated General Contractors of America, a national trade association representative of general contractors throughout the United States for more than fourteen years last past, pursuant to the purpose of the general contractors of the construction industry to cooperate with the President of the United States in effectuating the policy declared in Title I of the National Industrial Recovery Act, does hereby recommend and submit for approval pursuant to Section 3 of said title the following Code of Fair Competition and plan for its administration for all construction work insofar as it pertains to general contractors.

ARTICLE I (a). This national trade association of general contractors affirms that it imposes no inequitable restrictions on admission to membership therein, and is truly representative as a national trade association of the general contracting industry.

(b). This Code will not promote monopolies or eliminate or oppress small enterprises and will not operate to discriminate against them and will tend to effectuate the policy of said Title I. It is expressly recognized that the President of the United States may, as a condition of his approval of this Code, impose such conditions (including requirements for the making of reports and the keeping of accounts) as may be expedient in the furtherance of the public interest for the protection of consumers, competitors, employees and others, and may provide such exceptions to and exemptions from the provisions of this Code as the President of the United States in his discretion deems necessary to effectuate the policy herein declared.

ARTICLE II. Declaration of Policy—In order to induce and maintain the united action of labor and management under adequate governmental or private sanctions and supervision, to eliminate unfair competitive practices and to advance the public interest, to reduce and relieve unemployment, to improve standards of labor and living and otherwise to rehabilitate the general contracting industry and effectuate the policies set forth in the National Industrial Recovery Act, this Code of Fair Competition governing the furnishing of construction services by the general contracting industry is adopted.

ARTICLE III. Definition and Functions of a "General Contractor"—When used in this Code the term "general contractor" is any person, partnership, company, association, corporation or agency which contracts to supervise, coordinate and/or execute the work of constructing an improvement substantially in its entirety, as is embraced in plans and/or specifica-

tions. Any person, firm, partnership, agency, company, association or corporation undertaking to direct, supervise, coordinate and/or execute construction work whether by formal contract or otherwise in excess of one thousand dollars (\$1,000) in the aggregate shall be subject to compliance with these Articles and Code as fully and completely as shall any person, firm, partnership, agency, company, association or corporation known or designated as a "general contractor" in the construction industry.

ARTICLE IV. Regulations Governing Relations With Labor:

Section 1. Labor Conditions—In accordance with the requirements of the National Industrial Recovery Act,

(a). Employees shall have the right to organize and bargain collectively through representatives of their own choosing, and shall be free from the interference, restraint, or coercion of employers of labor, or their agents, in the designation of such representatives or in self-organization or in other concerted activities for the purpose of collective bargaining or other mutual aid or protection.

(b). No employee and no one seeking employment shall be required as a condition of employment to join any company union or to refrain from joining, organizing, or assisting a labor organization of his own choosing.

(c). Employers shall comply with the maximum hours of labor, minimum rate of pay and other conditions of employment, approved or prescribed by the President.

Section 2. Minimum Wages—(a) A general contractor shall pay wages not less than the minimum rates which are established regionally or locally by mutual agreements between truly representative groups of employers and employees, and approved by the President, as provided by Section 7 (b) of the National Industrial Recovery Act. Where such rates are not so established the minimum rate of wages determined in each of the several states under authority of Section 204 (c) of Title II of the National Industrial Recovery Act shall be used as the minimum rates for all kinds of construction work.

(b). A general contractor shall require sub-contractors and other agencies requiring the services of laborers or mechanics on the site of the work to pay not less than the established minimum rates of wage.

(c). A general contractor shall not resort to the use of what is known to the trade as "piece work" or similar contractual relationship in his employment of labor, when tending to defeat the spirit and purpose of Section 7a-3 of Title I

of the National Industrial Recovery Act.

Section 3. Maximum Hours—(a) A general contractor shall not permit nor require any individual directly employed on any construction project to work more than 150 hours in any one month, so far as practicable and feasible, EXCEPT, those in executive, administrative and supervisory positions, and EXCEPT, as a lesser number of hours is required by Title II of the National Industrial Recovery Act relating to Public Works and Construction Projects thereunder.

(b). A general contractor shall require all subcontractors and other agencies requiring the services of laborers or mechanics on the site of the work to observe strictly the maximum hours provisions established herein. Nothing herein shall be construed as preventing voluntary agreements establishing a lesser maximum number of hours as provided in the National Industrial Recovery Act.

Section 4. Labor Welfare—A general contractor shall at all times have the welfare and safety of his workmen at heart. He shall comply except as superseded by the State laws, with the provisions of the Safety Manual adopted by the Associated General Contractors of America, or the Safety Platform of the Construction League of the United States, or the rules set forth by the National Safety Council and local ordinances referring to safety measures, insofar as the same may apply to his class of work.

Section 5. Payment of Wages—A general contractor shall make payment of all wages as due in lawful currency of the United States, or its equivalent in the form of a bankable check. The contractor or his agents shall accept no rebates directly or indirectly on such wages, nor give anything of value or extend favors to any person for the purpose of influencing rates of wages or the working conditions of his employees.

ARTICLE V. Regulations Governing Relations with Subcontractors, Material Vendors and Others.

Section 1. Payments—A general contractor shall pay all subcontractors, material vendors and others not less than their proportionate amount of partial payments made by the owner to the general contractor during the progress of the work and they shall receive final payment of the unpaid balance not later than ten days after the general contractor has received final payment from the owner, except where earlier payments and/or in greater amounts are mutually agreed upon.

Section 2. Prohibited Rebates, Etc.—A general contractor shall not give or accept rebates, refunds, allowances, unearned discounts or special services to or from subcontractors, material vendors or others which are not extended under like terms and conditions to other purchasers of materials or services of equal credit rating.

Section 3. Financing—A general contractor shall not permit subcon-

tractors or material vendors on a specific contract to finance or guarantee his accounts.

Section 4. Bids Confidential—A general contractor shall not convey to any subcontractor or material vendor any substantial information prior to the award of the particular sub-contract relating to the bid of any other subcontractor or material vendor who has made a bid to him or to any other general contractor, nor shall he mislead or deceive any subcontractor or material vendor as to the amounts and conditions of other bids for the purpose of obtaining a lower bid.

Section 5. General Requirements—A general contractor, in his relations with subcontractors, material vendors and others shall require such parties to adhere to the principles enunciated by this Code of Fair Competition.

Section 6. Waiver of Legal Rights—A general contractor, in his contractual relations with other parties, shall not waive any rights affecting another party of interests without first fully informing such other party as to such action and receiving his consent in writing.

Section 7. Plans and Specifications—A general contractor shall not be held responsible or penalized for deficiencies in or omissions from the plans and/or specifications prepared by others and upon which the contract is based.

ARTICLE VI. Regulations Governing General Contractors.

Section 1. Qualification—A general contractor shall be properly qualified by capital, organization, experience and equipment to bid upon and properly execute the construction contract which he undertakes.

Section 2. Performance Records—A general contractor submitting a proposal for public works construction shall, as an essential precedent condition of qualification for public works construction, file his performance record with the Bureau of Contract Information, Washington, D. C., or any other agency authorized and designated by the Public Works Administrator provided by Title II of the Act. Such records shall be available only to those entitled to information by reason of their responsibility for the award of contracts, the writing of contract bonds or the extension of credit. A general contractor shall keep such records current by submitting supplemental data at such periods as the agency shall prescribe.

Section 3. Credit Information—A general contractor shall make available upon request to those responsible for the award of construction contracts, pertinent information as to his current financial position, using the Standard Questionnaire Forms developed and approved by and available through the Joint Conference on Construction Practices, Washington, D. C.

Section 4. Reports and Accounts—(a). A general contractor shall maintain a system of making reports and shall keep adequate accounts as provided in Title I, Section 3A, paragraph 2 of the National Industrial Recovery Act. All

moneys received and expenditures made shall clearly show the allocation, to each improvement of real property or a public improvement, of the funds received and disbursed on account thereof.

(b). Funds received by a general contractor for construction work shall be accepted and applied first for the purpose of paying proper costs of making such improvement, including amounts due to employees, materialmen, subcontractors and others. This shall not be construed to require a general contractor to keep in separate bank accounts or deposits the funds received under separate contracts, provided that books of account shall clearly show the allocation to each and every contract of the funds deposited in his general or special bank account or accounts.

Section 5. Contractual Agreements—The following bases of contractual agreements are recognized as fair trade practices: guaranteed price; cost of the work plus a fee; unit price; lump sum; and other contractual methods not inimical to the public interest; providing that the regulations proposed by this Code of Fair Competition are met.

Section 6. Submitting Bids—A general contractor, in submitting bids for the construction or improvement of either public or private works, shall be governed by the following regulations necessary to insure fair competition, since it is essential that whenever contracts are to be let by competitive bidding, the terms of the competition shall be such as to insure parity of standing to all bidders.

(a). All bids shall be in writing signed by the bidder.

(b). A general contractor shall not take advantage in his bid of any special privileges, favors or understandings had with him by persons in control of the award. This, however, shall not prevent any competitor, even though not the lowest bidder, from taking such contract, providing the award is made at his original competitive bid price, nor shall it prevent any contractor from accepting the award of such contract at any price where no competitive bids are taken.

(c). A general contractor shall not revise his bids after bids have been opened in order to improve his position with the owner, except he be the low bidder. Bona fide errors discovered after the opening of bids may be grounds for withdrawal of bid.

He shall not encourage or induce the owner or his agent to reject bids and re-advertise in order that he may revise his original offer, nor shall any general contractor bid upon a construction project upon which bids have previously been invited, received and opened at any time within 90 days from the date of the previous opening of bids next thereafter, except there be substantial changes of the plans and specifications.

(d). A general contractor shall not knowingly submit a bid nor accept a contract which does not include all direct and indirect costs and include a reasonable amount

for profit and he shall maintain and keep on file his original estimates supporting his bid or contract.

(e). A general contractor shall not be required to accept the award of a contract after fifteen (15) days after the date of opening of bids.

(f). To establish parity in bidding as to wages, prior to the establishment of wage rates according to Sec. 7 (b) of the Act there should be established by competent authority rates on which all bidders shall base their bids, (but not less than those set under Sec. 201 (c) of Title II of the Act and set forth in Article IV Sec. 2 herein) and which shall be effective under the contract until other rates have been established as provided by Sec. 7 (b) of the Act, when they shall become effective after which a proper adjustment of the contract price as to wages shall be made between the owner and contractor.

Section 7. Payment—A general contractor shall demand and insist upon receiving the contract payments as they become due in lawful money of the United States or its equivalent, as provided by the contract, and he shall not waive his right to receive any part of such contract payments, nor shall he return to the owner or his agent any part of such contract payments, nor shall he return to the owner or his agent any money or render him any service or give him anything of value not required by the contract.

Section 8. Unfair Practices—A general contractor shall not engage in the unfair practice known to the industry as "bid peddling," or any similar unfair practice. He shall not knowingly aid, or engage in an unfair trade practice, whether or not specifically described in this Code, and shall refuse to deal with any person or persons who have not complied with the Code of Fair Competition herein defined.

Section 9. Surety—A prequalified general contractor, who has met the necessary qualifications entitling him to the work, but who is unable, due to conditions beyond his control, to obtain the proper surety required by the contract, may agree with the owner and the National Industrial Control Committee for General Contractors upon a suretyship of some other nature.

Section 10. Disputes—A general contractor shall be ready and willing to settle disputed matters promptly. Where arbitration as a method of settling disputed matters is agreed upon, the rules of procedure as established by the American Arbitration Association shall govern, except as otherwise required by law. Payment shall not be withheld from the parties affected exceeding that sufficient to cover the amounts in dispute.

ARTICLE VII. Regulations Correlating All Construction Works Interests:

To effectuate the purpose and the policy of the National Industrial Recovery Act and this Code of Fair Competition for General Contractors, it is essential and requisite that, in a construction work contract, all interested parties and participants, or their agents, be obli-

gated to adhere and conform to the basic principles regulating it. Therefore, all such persons shall have correlative responsibility to adhere and conform to the basic principles of the National Industrial Recovery Act and this Code of Fair Competition for General Contractors.

ARTICLE VIII. Administration

Section 1. Amendments—(a) It is recognized, in accordance with Section 9, paragraph B of Title I of the National Industrial Recovery Act, that the President of the United States may, from time to time, cancel or modify any rule or regulation in this Code of Fair Competition prescribed for the general contracting industry.

(b). Amendments or revisions may be proposed by general contractors, acting through their national trade association designated as the Associated General Contractors of America.

(c). The provisions of this Code may be further supplemented by groups of general contractors operating in the same class of construction work or in the same geographical region or locality, which supplements shall be proposed to the Administrator of the National Industrial Recovery Act by the national trade association, when consistent with this basic Code and other rules or regulations promulgated by the President, and the spirit and purpose of the National Industrial Recovery Act.

Section 2. Administration Committee

(a) To effectuate the purposes of the Code and provide for administrative control within the industry, there is established a "National Industrial Control Committee for General Contractors," which shall be the members and alternates of the Executive Committee which is appointed by and from the Board of Governors duly elected by the general contractors composing the national trade association, herein designated. That committee shall appoint five additional members representative of and responsible to non-members of the national trade association.

(b). The National Industrial Control Committee for General Contractors shall have full authority to make all needful rules and regulations for the administration and enforcement of the provisions of this Code, and, upon the complaint of a local or regional committee or interested parties or upon its own initiative shall make such inquiry and investigation and take such other action as may be necessary under the operation of this Code. This Committee shall have full authority to establish subordinate State, local and regional committees and prescribe such duties, rules and regulations as are deemed necessary to carry out the purposes of this Code and the National Industrial Recovery Act.

Section 3. Administration Expenses—All general contractors as defined in this Code shall bear their proportionate share of the expense incident to securing the approval of and administration of this Code of Fair Competition under such rules and regulations as may be ap-

REGISTRAR WILL AID IN DRAFT OF LOCAL CODES

State Dept. to Work With Construction Industry Groups

SACRAMENTO, July 22. — Decision to formulate a series of codes of ethics and fair competition to regulate the construction and allied industries in every California city under the National Industrial Recovery Act, was reached today following a conference of state officials and construction industry leaders.

The codes are aimed to improve economic conditions in the various units of the construction industry, eliminate bid-peddling and other unfair practices, as well as regulate wage levels and hours of labor, and provide for the ethical conduct of the industry. The industry must take the lead and draw up a code of self regulation.

Although national codes for various units of the construction industry are now pending before President Roosevelt's recovery board, it is announced that statewide, as well as regional, codes should be drafted by each branch of the industry. These subordinate codes will be patterned after the national code finally approved by the government, and will vary only insofar as local conditions require.

These regional codes will be drafted by the industrial groups in their respective localities, and it was urged at the conference that organization meetings be held in crafts and groups immediately. The crafts and group meetings will be held Monday at Tahoe City and Tuesday at Grass Valley.

Colonel Carlos W. Huntington, state registrar of contractors, who sponsored the meeting, today pledged the cooperation of his department in aiding the industry to formulate a code. He said a skeleton code form would be drafted for the "sole purpose of aiding the various groups in the industry in this important undertaking."

The registrar's office also offered to act as a clearing house for all groups or individuals under its jurisdiction seeking assistance or information concerning a code. Staff inspectors of the registrar will aid local groups, pending the appointment of a regional national recovery administrator for California. Codes may be filed with the regis-

proved by the President under Section 10 (a) of Title I of the National Industrial Recovery Act.

Section 4. Effective Date—This Code shall be effective when approved by the President of the United States and shall be applicable only to all construction work undertaken pursuant to contracts entered into or otherwise commenced after such approval date.

EASTBAY PLAN STIMULANT TO HOME BUILDING

Business Leaders Join Campaign to Promote Residential Development

Requests for complete details of the Eastbay Recovery Committee's "Plan for Home Financing" have averaged 31 a day since the preliminary public announcement last Tuesday, according to a statement issued by the committee yesterday from their headquarters at 1212 Broadway, Oakland.

These requests have come from individuals who are interested in building their own homes under the new plan, from business leaders who appreciate how much any revival of the building industry will mean to general business improvement and from industrial and civic organizations who wish to cooperate with the entire program, according to Thos. G. McGuire, chairman of the executive committee.

The chief features of the committee's program, first announced at a luncheon meeting held this week and attended by business and civic leaders, is the new type of financing it makes available for home construction. Individuals financing a home under this plan will be able to secure construction loans of as high as 70 and 80 per cent of the total value of the home and lot. Interest rates will be as low as 6 per cent. The customary brokerage and carrying charges and the need for re-financing after a short time have all been eliminated. Loans will be amortized at the rate of 1 per cent per month.

The details of the plan were worked out by a group of business men who recognized the importance of normal residential building volume to general business recovery, McGuire said. He added:

"Since 45 per cent of the nation's payroll is represented by wages paid in the building industry, the value of any plan that will stimulate building is apparent. The percentage of building trades' wages in Pacific Coast payrolls is close to 75 per cent, because the Pacific Coast is not, comparatively speaking, an industrial section.

"Every phase of the actual building of homes will be subject to competitive bidding. The executive committee will supervise preliminary contacts between the prospective home-owner and those whom he chooses to carry on the work of building. Close supervision of the various details will be furnished through the means of a Technical Advisory Committee, acting without remuneration, consisting of Wm. E. Schirmer, president of the Eastbay Architects' Association, S. G. Johnson, president of the Association of General Contractors, and H. K. Schultze, Alameda County representative, State Department of Vocational and Professional Standards."

Tunnel Construction Work—T. E. Connolly, 461 Market St., S. F.

SAN FRANCISCO—Pacific Coast Steel Co., 20th and Illinois, awarded sub-contract by Bridge Builders, Inc., 155 Sansome St., and Parr Terminal Wharf, Oakland, to furnish reinforcing steel in connection with substructure, East Bay Crossing, San Francisco-Oakland Bay Bridge.

SAN FRANCISCO—Pacific Coast Steel Co., 20th and Illinois, awarded sub-contract by Transbay Const. Co., Pier 24, to furnish reinforcing steel in connection with substructure, West Bay Crossing, San Francisco-Oakland Bay Bridge.

SAN FRANCISCO—Columbia Steel Co., Russ Bldg., awarded sub-contract by Healy-Tibblitts Const. Co., 64 Pine St., to furnish I-bars and anchorage steel in connection with contract for San Francisco Anchorage, San Francisco-Oakland Bay Bridge.

SAN FRANCISCO—Columbia Steel Co., Russ Bldg., awarded sub-contract by Clinton Const. Co., 923 Folsom St., in connection with their contract for tunnel, Yerba Buena Island, for the San Francisco-Oakland Bay Bridge, to furnish I-bars and anchorage steel.

SAN FRANCISCO—Diamond Drilling Co., 1035 Harrison St., awarded sub-contract for diamond drilling by Healy-Tibblitts Construction Co., 64 Pine St., in connection with San Francisco anchorage, San Francisco-Oakland Bay Bridge.

SAN JOSE, Santa Clara Co., Cal.—Until Aug. 7, 11 A. M., bids will be received by Henry A. Pfister, County Clerk, to widen reinforced concrete culvert on Montague Road at San Jose-Alviso Road, Supervisor's District No. 3. Specifications obtainable from county surveyor, Robert Chandler, on payments of \$1.

SAN JOSE, Santa Clara Co., Cal.—Until Aug. 7, 11 A. M., bids will be received by Henry A. Pfister, County Clerk, to construct three reinforced concrete culverts on Columbet Ave., between Church and Masten Aves., Supervisor's District No. 1. Lump sum bids will be received. Specifications obtainable from county surveyor Robert Chandler, on payment of \$1.

SAN FRANCISCO—Concrete Products Sales Co., 1522 Latham Square Bldg., Oakland, have received purchase order from Clinton Construction Co., 293 Folsom St., to furnish manufactured concrete in connection with their contract for Yerba Buena Tunnel and construction, San Francisco-Oakland Bay Bridge.

LOS ANGELES, Calif.—Until 2 P. M., August 14, bids will be received by county board of supervisors for constructing a reinforced concrete bridge on Alameda St. over Compton Creek. The proposed bridge will consist of two spans, 30 ft. each, with a 50 ft. roadway and with creosoted piling foundation. The work will probably be done by contract. The engineer's estimate of quantities follows: 435 cu. yds. Class B concrete; 199 cu. yds. Class A concrete; 3,100 lin. ft. wood pile; 3,514 lbs. rocker and bearing plates; 39,446 lbs. reinforcing steel; 40 pieces tile; 131 lin. ft. hand rail, 2,213 cu. yds. excavation; 8 4x8x18-in., 16 gauge galv. drain; 14,996 sq. ft. form area; 392 sq. ft. expansion material.

W. D. Armstrong, county bridge engineer. Mame B. Beatty, 501 Hall of Records, clerk of the board.

SANTA CRUZ, Santa Cruz Co., Cal.—County supervisors list following projects for federal aid under the National Industrial Recovery Act: Bridge across mouth of Soquel creek at Capitola; Bridge at Felton; Valencia Bridge; Bear Creek Bridge; Thompson Gulch Bridge; Felton Depot Bridge; Laurel Glen Canyon Bridge; Ocean View Bridge.

Estimated cost for the first two projects is \$90,000; no cost given on other projects.

MONROVIA, Los Angeles Co., Cal.—Garth H. Duell, city engineer, has prepared preliminary plans to construct a pedestrian subway at Foothill Blvd. and Myrtle Ave. It will be of reinforced concrete construction 75 feet long, 6 feet wide, pump and

galvanized iron hand rail. Estimated cost, \$10,000.

MONROVIA, Los Angeles Co., Cal.—Garth H. Duell, city engineer, has prepared preliminary plans to construct a pedestrian subway at Huntington Blvd. and Myrtle Ave. Will be of reinforced concrete construction 80 feet long and 6 feet wide, pump and galvanized iron hand rail. Estimated cost, \$12,000.

22—DREDGING, HARBOR WORKS, EXCAVATION

SACRAMENTO, Calif.—U. S. Engineer Office, California Fruit Bldg., Sacramento, will call bids shortly to dredge 2780,000 cu. yds. from Sacramento River at Horseshoe Cut.

LOS ANGELES, Cal.—Los Angeles Harbor Commission this week recommended to Mayor Frank I. Shaw that funds be provided for a general port development program involving an expenditure of approximately \$18,900,000. According to the recommendations the projects would be financed by requesting a loan under provisions of the Industrial Recovery Act, by proceeds from a bond issue, or by a combination of a Federal loan and city bond issue. In addition to the city improvement program, the harbor commission recommended Federal port works to cost \$8,000,000 and suggested additional Federal work to cost \$7,000,000. The projects in detail follow:

Tentative Port Works Development Program

New marine passenger and cargo terminal, \$1,500,000.

Dredging of slips for deep draft vessels, \$196,000.

Extension of municipal terminal trackage facilities, \$250,000.

Extension of general cargo marine terminal at Berth 180, \$550,000.

Construction of general and naval landing facilities at Fifth St., \$125,000.

Acquisition of waterfront main channel properties on San Pedro side of channel, \$1,500,000.

Extension of rail facilities to proposed naval base, \$145,000.

Construction of Fish Harbor rock jetty entrance protection works, \$170,000.

Construction of fishermen's wharves, Fish Harbor extension project, \$127,000.

Miscellaneous facilities for betterment of commerce, \$437,000.

In addition to the foregoing port works, the report states, it is imperative that the Southern Pacific bridge and trestle across the entrance to West Basin be removed and that, in place thereof, provision be made for handling rail traffic as proposed hereunder; Item A (preferably) or Item B.

(A) Construction of single tube under entrance to West Basin for rail traffic, \$7,900,000.

(B) Acquisition of a right-of-way and construction of double track loop around West Basin, crossing southwest arm, \$1,650,000.

(Alternate A) Construction of twin tube under entrance to West Basin for both vehicular and rail traffic, \$10,700,000.

Other public works of importance to the port include:

(C) Construction of a vehicular tube between San Pedro and Terminal Island, \$6,000,000.

Recommended Federal Port Works

CAPITAL CITY TITLE COMPANY

J. C. PALEN,
Manager

914 Seventh Street
Sacramento :: California

(1) Completion of Los Angeles Harbor breakwater extension, \$6,000,000.

(2) Dredging of miscellaneous fairways and general anchorage sites, \$2,000,000.

Additional Federal Work to which Board may wish to give consideration

Development of naval base in Los Angeles, \$7,000,000.

PORT ALLEN, T. H.—Bids will be called shortly by U. S. Engineer Office, Honolulu, to dredge 743,500 cu. yds. from Port Allen, T. H.

SAN FRANCISCO—Until Aug. 23, 3 P. M., under Circular Proposal No. 34-3, bids will be received by U. S. Engineer Office, 401 Custom House, San Francisco, to dredge 6750 cu. yds. material in the channel at the mouth of Noyo River, near Fort Bragg, Calif. Specifications obtainable from above office.

SACRAMENTO, Cal.—Until Aug. 3, 3 P. M., under Circular Proposal No. 34-4, Specifications No. 5651, bids will be received by U. S. Engineer Office, California Fruit Bldg., Sacramento, to furnish 1000 tons rip-rap stone for wing dams. Specifications obtainable from above office.

REDWOOD CITY, San Mateo Co., Calif.—Tentative sketches are being prepared by James S. James, county surveyor, in connection with the Redwood Harbor District. An estimate of cost has not yet been made.

SAN MARINO, Los Angeles Co., Cal.—James R. Mathews, 920 S Broadway, Pasadena, awarded subcontract for grading and excavating the site of a residence to be built at 1420 Park Place, San Marino, for Mr. Maxwell. Eric Barclay is the general contractor.

24—ST. LIGHT. SYSTEMS

SAN FRANCISCO—Severin Electric Co., 172 Clara St., at \$13,959 submitted low bid to Department of Public Works July 26 to erect lighting system in Alemany Blvd., Section B and C, Mission to San Jose, involving 96 ornamental iron standards and appurtenances to be erected, assembled and hauled (furnished by the city). Complete bids follow:

Severin Electric Co.....	\$13,989
H. S. Tittle.....	14,186
Victor Lemoge.....	14,311
H. C. Reid.....	14,337
Dowd-Seid Electric Co.....	14,412
Lynn & Heffernan.....	14,492
Radelfinger Bros.....	14,692
Alta Elec. & Mech. Co.....	14,700
R. Flatland.....	14,843
City Imp. Co., Berkeley.....	14,958
Eureka Electric Radio Co.....	15,800
Weidental-Gosliner Co.....	16,075

Bids held under advisement.

25—MACHINERY AND EQUIPMENT

OAKLAND, Calif.—Howard Automobile Co., 2735 Broadway, Oakland, at \$1200 awarded contract by city council to furnish one 2-passenger coupe for the Fire Department.

SAN FRANCISCO—Farnsworth El. Co., 549 Mission St., at \$53.40 awarded contract by the Department of Public Works for repairs to motor at Islais Creek. Following bids received:

Farnsworth Electric Co.....	\$53.40
Weidental-Gosliner Co.....	53.40
Enterprise Electric Works.....	55.40
Alta Electric Company.....	90.00

LOS ANGELES, Cal.—Until 11 A. M., August 2, bids will be received by A. J. Horn, City Purchasing Agent, 107 City Hall, for furnishing and delivering to Water & Power Dept., f.o. b. warehouse, 1630 N. Main St., meters and current transformers under Specifications No 3174. The estimated requirements are as follows:

- (1) 34 current transformers, ratio 5 amps., primary to 0.1 amps., secondary;
- (2) 3 A. C. ammeters, scale 0 to 5 amps;
- (3) 39 A. C. ammeters, scale 0 to 200 amps;
- (4) 3 A. C. ammeters, scale 0 to 500 amps;
- (5) 3 A. C. ammeters, scale 0 to 300 amps;
- (6) 30 A. C. voltmeters, scale 0 to 150 volts;
- (7) 4 A. C. voltmeters, scale 0 to 45,000 volts;
- (8) 6 A. C. ground detector voltmeters, 0-150 volts with blank scales;
- (9) 1 A. C. polyphase wattmeter, scale 0 to 40 K.W.;
- (10) 12 A. C. polyphase wattmeters, scale 0 to 1600 K. W.;
- (11) 1 A. C. polyphase wattmeter, scale 0 to 4000 K. W.;
- (12) 1 A. C. polyphase wattmeter, scale 0 to 2400 K. W.;
- (13) 1 A. C. polyphase reactive volt-ampere meter, scale 0 to 4000 kva.;
- (14) 1 A. C. polyphase reactive volt-ampere meter, scale 0 to 2400 kva.;
- (15) 1 D. C. ammeter with shunt, scale 0 to 15 amps.;
- (16) 1 D. C., ammeter with shunt scale 15-0-200 amps.;
- (17) 2 D. C. voltmeters, with scale 0 to 150 volts.

ALTERNATE REQUIREMENTS

Same as above items except for items 6, 24 of the voltmeters under this item will have a suppressed scale of 90 to 140 volts and the remaining 6 voltmeters will have a scale of 5 to 150 volts.

The bids will be taken as follows:

- (1) Furnishing items 1 to 17 inclusive, above, lump sum. (Alt. 1) for furnishing items 1 to 17 inclusive, above, with alternative equipment furnished under item 6 as noted, lump sum.

MADERA, Cal.—Until 8 P. M., Aug. 7, bids will be received by the Madera Union High School District for a new three-ton chassis and a 48-passenger school bus body. Separate bids shall be submitted on the chassis and on the body. C. M. Petty, Clerk.

OAKLAND, Alameda Co., Cal.—Following bids received by City Council for furnishing one 2-passenger coupe for the Fire Department and three coupes for the Electrical Department.

Fire Department

Pacific Nash Motor Co., 3063 E-14th St., Oakland, \$1200.
Howard Automobile Co., 2735 Broadway, Oakland, \$1200.

Electrical Department

Chevrolet Motor Co., Foothill Blvd., and 69th St., Oakland, \$498.95.
Ford Motor Co., \$537.21.
J. E. French Co., \$574.

Bids held under advisement.

EUREKA, Humboldt Co., Cal.—F. H. Lundblade, Eureka, received order for \$12,000 worth of trucking equipment from Humboldt Malt & Brewing Co., including two 6-cylinder tractor-type G. M. trucks and six semi-trailers, dual pneumatic tire equipped.

LOS ANGELES, Cal.—H. L. Smith, representing the American Liquid Gas Co., 322 Transamerica Bldg., Los Angeles, awarded contract by Metropoli-

tan Water District, July 21 at (1a) \$1170; time 15 days and (1b) 6.75c gal., for constructing liquid gas plant and for furnishing liquefied petroleum gas for Division No. 3, headquarters, in accordance with Spec. No. 48

DALY CITY, San Mateo Co., Cal.—Scott Machinery Co., 960 Folsom St., San Francisco, at \$591 (less allowance for old machinery) awarded contract by Jefferson Union High School, Daly City, to furnish one pump and motor. Complete bids follow:

Scott Machinery Co., S. F.....	\$591
Simonds Machinery Co., S. F.....	445
Kimball-Krogh Pump Co., S. F.....	585
Baldwin & Butler, Berkeley.....	597
Woodin & Little, S. F.....	648
DeLaval Steam Eng. Co., S. F.....	763

26—RAILROADS

ALASKA—The Secretary of the Interior has approved an allocation of \$210,008 for reconditioning the Alaska railroad system.

28—FIRE EQUIPMENT

SANTA BARBARA, Calif.—County forestry department has been authorized by the county supervisors to purchase a new fire truck, equipped with water tanks, pumps, hose lines, etc., at cost of \$1100.

30—RESERVOIRS & DAMS

LOS ANGELES, Cal.—E. C. Eaton, County Flood Control Engineer, advised by the county counsel that the right of way for the Eaton Canyon Dam cannot be obtained with amount of money available for this project at the present time. The price of the easement was reported to be \$291,000, according to the offer submitted prior to the opening of the bids. Adding the cost of valves, superintendence, and contingencies to the cost as shown by the bids there would be left less than \$100,000 with which to effect the purchase. The project will probably be abandoned. Mitty Bros. Construction Co. was the lowest bidder July 10 at \$224,382.

PASADENA, Cal.—Ted Ducey, 687 S Broadway, Pasadena, awarded contract by the Alta San Rafael Co. for the excavation and pouring of concrete in connection with the construction of a straight gravity dam across the Arroyo between Holly St. and the Colorado St. bridges. The dam will be 11 ft. high and 165 ft. in length along the crest. The work involves about 2200 cu. yds. excavation and 1,200 cu. yds. concrete. Work has started. Allin Bros., Kendall Bldg., Pasadena, engineers. Other contracts awarded are: Form lumber to Hayward Lbr. & Inv. Co.; sand, rock and cement to Blue Diamond Corp. Ltd.; and pumping equipment to Fairbanks, Morse & Co. 30

SEATTLE, Wash.—U. S. Government Engineers (War Dept.) select Bonneville, Cre., as site for first of a series of power dams on the lower Columbia river. Dam will have 430,000-kw. capacity, 550,000-hp.; estimated cost, including navigation locks \$43,900,000.

31—PIPE LINES & WELLS

PASADENA, Los Angeles Co., Cal.—Until 11 A. M., August 15, bids will be received by city directors to construct 18.5 mi. conduit, consisting of 36-in. I. D. gravity pipe line of 24.7 cu. ft. per second or 16,000,000 gals. per diem, from the Pine Canyon Dam, in San Gabriel Canyon to the Sunset

Reservoir in Pasadena. Plans and specifications obtainable from Water Department, City Hall, for \$5 per copy. Samuel B. Morris, Chief Engineer.

MOUNTAIN VIEW, Cal.—Leitch Pump & Supply Co., 575 W. San Carlos St., San Jose, at \$988 awarded contract by city council to drill 10-in. well, 400 ft. deep and furnish and install a casing. Complete bids follow:

Leitch Pump & Supply Co.....\$ 988.00
Cleve Grainger, San Jose..... 997.50
San Jose Well & Pump Co..... 1200.00
E. J. Matlocks, San Jose..... 1254.00
Robt. P. Garcia, Palo Alto..... 1700.00

HANFORD, Kings Co., Calif.—The Gas Fuel Service Co. has been granted a certificate by the railroad commission to install a natural gas service for agricultural districts in Fresno and Kings counties. The company plans to expend \$680,861 in building transmission and distribution lines from wells of the Kettleman Lake-view Gas and Oil Co. in the Dudley Ridge Area of Kings county throughout the territory to be served. Gas engines on time payments are to be provided by the National Supply Co.

SEATTLE Wash.—Angelo Scarsella, 947 26th Ave., at \$90,822 (centrifugal pipe) and \$92,460 (Hi-tensile pipe) submitted low bid to Board of Public Works to construct Denny Way Pipe line. Complete bids follow:

(A) sand cast;
(B) centrifugal cast;
(C) Hi-tensile.
Angelo Scarsella (h) \$90,822; (c) \$92,460.
Queen City Constr. Co. (a) \$99,582; (h) \$95,872; (c) \$94,560.
L. Coluccio & Co. (b) \$103,753.
Maeri & Steffenson (b) \$106,223; (c) \$104,642.

Mocerri Bros. (a) \$109,585; (b) \$106,829; (c) \$102,586.

Bids held under advisement.

32—SEWERS & SEWAGE DISPOSAL PLANTS

CAPITOLA, Santa Cruz Co., Cal.—Geo. C. DeGolyer, Federal Telegraph Bldg., Oakland, at \$19,628.25 awarded contract by county supervisors to construct outfall sewer system.

Complete bids published June 1.

PALO ALTO, Santa Clara Co., Cal.—Bids held under further advisement until August 7, 4 P. M., by Board of Public Works, to furnish sedimentation tank and sludge pump in connection with the new sewage disposal system.

LOS ANGELES, Calif.—J. E. Rockbold, County Surveyor, has completed plans for sanitary sewers to be constructed in Lennox Units Nos. 2 and 3. Application has been made for federal funds with which to construct these sewers. The quantities follow:

LENNOX UNIT NO. 2

22,900 ft. 8-in. cement pipe main sewer line;
1,950 ft. 10-in. do;
1,050 ft. 12-in. do;
870 ft. 12-in. cement pipe main sewer line with stand. conc. cradle;
13,150 ft. 6-in. cement pipe house connections;
18 flushing manholes equipped with gesner tank valves;
3 double flushing manholes do;
47 manholes;
19 junction chambers;
750 galv. iron pipe extension to water main.

LENNOX UNIT NO. 3

57,560 ft. 8-in. vit. clay pipe main line sewer;
335 ft. 8-in. do with stand. concrete cradle;
10 ft. 8-in. vit. clay pipe main line sewer encased;
37 ft. 8-in. vit. clay pipe lateral sewer
23,130 ft. 6-in. vit. clay pipe house connections;
27 flushing manholes equipped with gesner tank valves;
11 double do;
127 manholes;
4 drop manholes;
8 junction chambers;
226 ft. ¾-in. red brass pipe extensions to water mains;
8 break into existing struc. and form new channels in base.

HALFMOON BAY, Cal.—Half Moon Bay vote's approved formation of sanitary district, to be approved by county supervisors July 24. Plans being prepared to install a \$20,000 sewer system, financed by a bond issue and with aid from the National Industrial Recovery Act. Geo. Knesse, Redwood City, Engineer on the project.

BURBANK, Los Angeles Co., Cal.—H. I. Stites, city engineer, is preparing plans for the Valley Interceptor Sewer System for which the city has asked \$110,000 from the Federal government under the Federal Public Works program. The projects still in a preliminary state, much field work being yet to be done. The approximate quantities of pipe are:

15,500 ft. 10-in. vitrified clay;	
17,500 ft. 12-in. do;	
3,700 ft. 14-in. do;	
9,800 ft. 15-in. do;	
6,000 ft. 18-in. do;	
4,900 ft. 20-in. do;	
3,000 ft. 24-in. do.	

The city engineering department is also working on preliminary plans for a sewer to be built in San Fernando Blvd., to be connected with the Los Angeles city outfall, under an agreement to be signed with the City of Los Angeles. This line will involve: 8500 ft. 12-in. pipe.

Plans are also under way for the Providencia Ave. storm drain, involving: 3000 ft. 60-in. concrete pipe.

PALO ALTO, Santa Clara Co., Cal.—Bids to have been opened July 24 at 4 P. M., by the Board of Public Works, have been held over until July 26 or 27, 4 P. M., and will be opened at that time. Bids are to furnish vitrified salt-glazed sewer pipe as follows in connection with new sewage disposal system:

- (1) 2300 ft. 27-in.;
- (2) 850 ft. 20-in.;
- (3) 3880 ft. 15-in.;
- (4) 780 ft. 14-in.;
- (5) 1500 ft. 12-in.;
- (6) 490 ft. 10-in.;
- (7) "Y" branches for above.
- (8) 4600 ft. 22-in. wood stave pipe.

Specifications obtainable from J. F. Bixbee Jr., City Engineer.

July 26, 1933

PORTLAND, Ore.—City Council receives consulting engineer's report on proposed sewage disposal plant, estimated cost \$7,800,000.

GLENDALE, Los Angeles Co., Cal.—J. C. Albers, city engineer, preparing plans to construct a storm drain in Glendale Ave. from Doran to Sycamore Canyon, involving:

16,110 cu. yds. excavation;	
10,604 ft. reinf. concrete pipe (standard and heavy wall);	
catchbasins, paving, walk.	

Estimated cost \$75,048.44.

GLENDALE, Los Angeles Co., Cal.—J. C. Albers, city engineer, preparing plans to construct a storm drain in Flower St. from Allen Avenue to Paula Ave., involving:

1770 sq. ft. 39-in. reinf. conc. pipe;	
1545 sq. ft. 54-in. do;	
1159 sq. ft. 60-in. do;	

Estimated cost, \$50,000.

LOS ANGELES, Cal.—Shamahan Bros., inc., 6181 Eastern Ave., submitted low bid to Board of Public Works, July 19 at \$53,965 for the construction of a reinforced concrete clarifier and a reinforced concrete digester at the Terminal Island Sewage Treatment Plant, in accordance with plans of the Dorr Co., Inc. Col. H. G. Smith, Chief Engineer of Sanitary Sewer Design, 705 City Hall. The proposed work will involve the construction of a reinforced concrete clarifier 85 ft. in diameter, and a reinforced concrete digester 75 ft. in diameter, and the installation of clarifier and sludge pump, with iron railing, etc. The work includes the construction of the structures and the furnishing and installing all machinery as furnished by The Dorr Co. The cost of the machinery and equipment to contractor will be \$21,197.

GLENDALE, Los Angeles Co., Cal.—J. C. Albers, city engineer, preparing plans for extension of South St. storm drain from Pacific to Campbell, involving:

6,400 cu. yds. excavation;	
256 lin. ft. reinf. conc. boxed section 2x4-ft. 3½-in.;	
4,654 ft. reinf. concrete pipe;	
49 catchbasins;	
8 manholes;	
1 junction chamber;	
14,200 sq. ft. 6-in. resurfacing;	
1,723 ft. 8-in. vit. clay sewer pipe;	
8 manholes, house connections;	
26 house connections;	
800 cu. yds. excavation;	
2,600 sq. ft. resurfacing.	

Estimated cost, \$50,000.

VENTURA, Ventura Co., Calif.—D. C. McMillan, city engineer, preparing preliminary plans for a vitrified pipe lateral sewer system to be built in the Ventura Beach Tract, estimated to cost \$100,000. Application for federal funds will be made but the project will have to be financed to 30% by a cash city appropriation.

33—WATER WORKS

SIGNAL HILL, Los Angeles Co., Cal.—Until 3 P. M., Aug. 14 (tentative date) bids will be received by the city council to furnish 10,000 ft. of 6-in. 8-in. and 16-in. cast iron pipe for the city water department. The pipe shall be Class 150, bell and spigot, delivered f.o.b. city yards. Specifications are being completed by W. V. Thompson, water superintendent, City Hall, 2120 Cherry Ave., Signal Hill.

SIGNAL HILL, Los Angeles Co., Cal.—Until 3 P. M., Aug. 14 (tentative date) bids will be received by the city council to clean and paint two 10,000 gallon steel water tanks.

NOGALES, Ariz.—A tentative proposal has been submitted to the city water committee by the Public Utilities Consolidated Corp. in which the power company proposes to energize the city's water pumping plant and deliver water to the city at a stipulated cost per thousand gallons. The power company proposed to build a power line to the water pumping plant at its own expense and to install a new \$5000 electrically driven pump. The city according to the power company's proposal, is to advance \$2,000 to apply on the new electric pump.

which is returnable to the city during the three-year period. The company is to retain title to all equipment which is installed. The power company proposes to operate the city water pumping plant in its entirety, delivering the water to a master meter.

SIGNAL HILL, Los Angeles Co., Cal.—W. V. Thompson, Water Superintendent, has announced that the call for bids for constructing a reinforced concrete tank on Signal Hill (previously set for Aug. 14) has been withdrawn. The right of way has not been fully acquired. The new call for bids may be issued in about 2 weeks.

HAYWARD, Alameda Co., Calif.—American Cast Iron Pipe Co., Balboa Bldg., San Francisco, at \$2240 awarded contract by city council to furnish 4000 lin. ft. 6-in. b&s centrifugal cast iron pipe, Class 150, 16- to 18-foot lengths. Complete bids follow:
 American C. I. Pipe Co. \$56
 Pacific States C. I. Pipe Co. .57
 U. S. Pipe & Foundry Co. .5725
 Utilities Supply Co. .626

SOUTH GATE, Los Angeles Co., Cal.—Purchase of the Magnolia Park Water Co. by the city of South Gate is being urged by a group of Magnolia Park residents. Petitions will be circulated after Aug. 23. Guy Nevill, city engineer, recently estimated the cost of acquisition of this system and laying of new water mains at \$97,000.

NEVADA CITY, Nevada Co., Cal.—C. S. Arbogast, Nevada City, awarded contract by city council to dig 2900 ft. trench for new steel pipe, Canada Hill Reservoir Line.

MANHATTAN BEACH, Los Angeles Co., Cal.—Southwest Welding and Mfg. Co., 3201 W Mission St., Alhambra, submitted lowest regular bid to city council July 20 at \$248 for sand blasting, welding seams, and painting of city water tank located on Sepulveda Blvd. The bid of Jess and Woodward at \$2320 was not signed. The bids were taken under advisement until August 3.

COLTON, San Bernardino Co., Cal.—The city council and the chamber of commerce are formulating plans for improvements to the city water distribution system to be financed under the National Industrial Recovery Act. The cost is estimated at \$100,000. The proposed work involves:

- Drilling of two new wells.
 - Constructing a 3,000,000-gal. reservoir.
 - Laying of new transmission mains.
- C. A. Hutchinson, city engineer. C. H. Maxwell, water superintendent.

HUNTINGTON BEACH, Los Angeles Co., Cal.—Bids for furnishing and installing a deep well pressure system for the Huntington Beach Union High School District were opened by the board of trustees July 24. The bids were taken under advisement until July 27. The items bid on were:

- (1) removal of equipment;
 - (2) 20-hp. pump;
 - (3) capacity test;
 - (4) 25-hp. pump.
- The bids were:
 Kimball-Krogh Pump Co., (1) \$380
 (2) \$1348 (3) \$195 (4) \$1382.
 Submersible Pump Co., (1) \$361 (2) \$1368 (3) \$195 (4) no bid.
 Fairbanks-Morse & Co., (1) \$380 (2) \$1348 (3) \$195 (4) no bid.
 Byron-Jackson Co., (1) \$380 (2) \$1,348 (3) \$195 (4) \$1381.
 Pacific Pump Co., (1) \$380 (2) \$1,-

- 381 (3) \$195 (4) no bid.
- Wintroath Pumps, Ltd., (1) \$380 (2) \$1349 (3) \$195 (4) add \$33.
- Peerless Pump Co., (1) \$380 (2) \$1,381 (3) \$195 (4) no bid.
- Layne & Bowler Corp., (1) 380 (2) \$1348 (3) \$195 (4) no bid.
- Pomona Pump Co., (1) \$380 (2) \$1,348 (3) \$195 (4) no bid.
- Johnson Pump Co., (1) \$380 (2) \$1,348 (3) \$195 (4) no bid.

The Submersible Pump Co. submitted a bid on the tanks as follows: furnishing and installing: 5000-gal., \$1,897, 7500-gal., \$2087, 10,000-gal. \$2260.

State Steel Products Co. submitted a bid for furnishing tanks without installation.

SIGNAL HILL, Los Angeles Co., Cal.—Until 3 P. M., August 14, bids will be received by city council to furnish Class 150 cast iron pipe and Class D fittings, as follows:
 10,875 ft. 6-in. C. I. pipe;
 4,700 ft. 12-in. C. I. pipe;
 825 ft. 16-in. C. I. pipe;
 gate valves;
 15 fire hydrants;
 plugs, tees, crosses, reducers, bends.
 W. V. Thompson, water superintendent. Geo. H. Cooper, city clerk.

SIGNAL HILL, Los Angeles Co., Cal.—Until 3 P. M., August 14, bids will be received by city council to construct reinforced concrete water tank on the top of Signal Hill in accordance with plans and specifications No. W-20, obtainable from W. V. Vernon, water superintendent, City Hall, 2120 Cherry Ave., on and after July 27, upon payment of \$2 per set. Copies may also be obtained from the office of the city clerk. The proposed tank will be 20 ft. in diameter, 40 ft. high and will have a capacity of 94,000 gals. The quantities are:
 190 cu. yds. concrete;
 89 cu. yds. earth to be removed;
 5245 lbs. reinf. steel;
 330 sq. yds. plaster;
 60 manhole steps;
 1 sidewalk cover;
 15 ft. 1 1/4-in. pipe hand rail;
 55 ft. 1/2-in. conduit.

Bids will be taken on a lump sum basis. Certified check or bank draft or corporate surety bond, 10%. Geo. H. Cooper, city clerk.

35—TUNNELS

LOS ANGELES, Cal.—Until 11 A. M., Aug. 28, bids will be received by the Metropolitan Water District, 206 W Third St., Los Angeles, for constructing the East Eagle Mountain Tunnel and appurtenant works of the Colorado River Aqueduct. This tunnel is located in the Eagle Mountains about 43 miles easterly from Indio, in Riverside County. The work consists of the excavating and lining of a 16-ft. diameter water supply tunnel, approximately 1.79 miles in length. Certified or cashier's check, \$50,000. Plans and specifications may be obtained from the district office, Room 1007, 306 W Third St., Los Angeles, upon payment of \$5 per set, not returnable. Julian Hinds, acting chief engineer. J. L. Burkholder, assistant general manager. The bidding schedule follows:

- Construction of East Eagle Mountain tunnel and appurtenant works, between Sta. 5879 plus 31 and Sta. 5973 plus 91. Tunnel length, 9460 feet.
- (1) tunnel access works (lump sum);
- (2) no item 2 in these specifications;
- (3) 103,900 cu. yds. excav. in tunnel;
- (4) 50 cu. yds. excav. for tunnel enlargement;
- (5) no item 5 in these specifications;
- (6) 27,000 cu. yds. conc. in tunnel;
- (7) 200 M. ft. b.m. furnish and place permanent timbers in tunnel;

- (8) 10 tons erect steel support in tunnel;
- (9) 100 cu. yds. granite coating of rock in tunnel;
- (10) 40 conn. for grouting;
- (11) 50 cu. yds. mix and place grout;
- (12) 50,000 lbs. place reinf. steel;
- (13) 10,000 cu. yd. ml. overhaul of concrete aggregates;
- (14) 160 ton miles hauling steel.
- (15) 305,000 ton miles hauling cement.

LOS ANGELES, Cal.—Until 2 P. M., August 7, bids will be received by County Board of Supervisors for constructing a water system involving 4-in., 6-in., 8-in. and 10-in. C. I. pipe in the Pomona Fair Grounds. The proposed line will hook up the city of Pomona main water line and to the present well supplying the fair grounds. Bids will be received as follows:

- (A) Main distributing system connected to well recently acquired and to the Pomona main line, not including sprinkler systems;
 - (B) sprinkling system at the south-east end of the fair grounds;
 - (C) sprinkling system at easterly end of fair grounds.
- Total estimate, \$24,045.

29—STREETS AND HIGHWAYS

JUNEAU, Alaska.—Alfred Dishaw, Juneau, at \$14,495 submitted low bid to and recommended for award of contract by U. S. Bureau of Public Roads, Juneau, to surface 3.788 miles of Glacier Highway, Lemon Creek-Duck Creek Section, Tongass National Forest, First Judicial Division, involving:

- (1) 6500 cu. yds. crushed rock top course.
- Complete bids follow:
 Alfred Dishaw, Juneau, \$2.23; \$14,495
 Siems Spokane Co., \$2.43; \$15,795.
 Wright and Stock, Inc., Aberdeen, \$2.44; \$15,860.
 R. J. Sommers Const. Co., Juneau, \$2.45; \$15,925.
 Ed Christensen & Co., Juneau, \$2.70 \$17,550.
 Engineer's estimate, \$2.25; \$14,625.

GLENDALE, Los Angeles Co., Cal.—J. C. Albers, city engineer, preparing plans for resurfacing a portion of Canada Blvd. The work will involve 501,522 sq. ft. of 2-in. pavement and is estimated to cost \$44,133.94.

GLENDALE, Los Angeles Co., Cal. J. C. Albers, city engineer, preparing plans to improve Verdugo Road from south city limits to Glendale Avenue with paving, curbs, etc., involving: 29,460 sq. ft. 2-in. resurfacing; 95,550 sq. ft. 6-in. pavement; curb, level courses.
 Estimated cost, \$53,795.98.

VENTURA, Cal.—D. C. McMillan, City Engineer, preparing preliminary plans to widen Meta St. improvement for a length of about 8340 ft. The improvement consists of widening the pavement 8 ft. on each side of Meta St. and Gardner St., and 16 ft. on each side on Main St. The work involves: 187,000 sq. ft. 6-in. cement concrete. Ornamental lighting system (2-light standards, 131 ft. apart, type not selected).

Application for federal funds to finance this job has been filed.

VENTURA, Cal.—D. C. McMillan, City Engineer, preparing plans for street improvements to be financed from California share of the \$400,000,000 federal highway fund. Applications have been filed. The projects are:
 East Main St., between Coronado St. and east city limits, 3500 lin. ft.,

widening 5 ft. on each side and paving widened portion with probably cement concrete, some curb and walk, and ornamental (2-light) lighting system. Cost estimated at \$33,350.

East Main St., between Hemlock and Santa Clara Sts., 1800 lin. ft. involving widening and lowering grade, widening varying from 0 to 10 ft. Involves Warrenite (not definitely selected), new curb and gutter and (2-light) ornamental lighting system. Cost estimated at \$23,850.

Thompson Blvd., between Coronado St. and easterly city limits, 5000 lin. ft., involving widening from 40 ft. to 60 ft. with 6-in. cement concrete, concrete gutter and walk, 2-light ornamental lighting system (type not selected). Cost estimated at \$30,810.

SAN FRANCISCO. — Department of Public Works, S. J. Hester, Chief Deputy Director, plans to improve Tucker Ave. (where not) between Alpha and Rutland, involving:

- (1) 125 ft. armored concrete curb;
- (2) 105 ft. 6-in. V.C.P. side sewer;
- (3) 752 sq. ft. Class E conc. pave.;
- (4) 2595 sq. ft. asph. conc. pave.

Estimated cost, \$1000. J. J. Casey, city engineer.

CALAVERAS CO., Cal.—R. E. McCarty, 603 Eastworth St., Stockton, at \$13,240 awarded contract by State Highway Commission, Sacramento, to surface with untreated gravel or stone 6.5 mi. between the western boundary and Burson.

Complete bids published July 20.

GLENDALE, Los Angeles Co., Cal.—J. C. Albers, city engineer, preparing plans to improve a portion of Victory Blvd. with paving, curbs, etc., involving:

114,000 sq. ft. 4-in. asph. conc. base;

181,800 sq. ft. 2-in. asph. conc. wearing surface;

5,500 sq. ft. wearing surface, variable thickness;

concrete gutter, curb.

Estimated cost, \$34,775.40.

GLENDALE, Los Angeles Co., Cal. J. C. Albers, city engineer, preparing plans to improve Verdugo Road from La Crescenta Ave. to north city limits with paving, curbs, etc., involving:

117,000 sq. ft. 6-in. pavement;

123,135 sq. ft. resurfacing, 2-in. average thickness;

curb, level courses.

MONROVIA, Los Angeles Co., Cal.—Garth H. Duell, city engineer, preparing plans to improve Mayflower Ave. from Huntington Drive to Duarte Road (3400 lin. ft.) with concrete and asphaltic concrete wearing surface, curbs, gutter and storm drain facilities. Estimated cost, \$30,000.

MONROVIA, Los Angeles Co., Cal.—Garth H. Duell, city engineer, preparing plans to improve Fifth Avenue from Huntington Drive to Foothill Blvd. (4000 lin. ft.) with concrete and asphaltic concrete wearing surface, curbs, gutter and storm drain facilities. Estimated cost, \$40,000.

MONROVIA, Los Angeles Co., Cal.—Garth H. Duell, city engineer, preparing plans to improve Foothill Blvd. from Canyon Blvd. to Mountain Ave. 0.6 mile, with concrete and asphaltic concrete wearing surface, curbs, gutter and storm drain facilities. Estimated cost, \$27,000.

COLTON, San Bernardino Co., Cal.—C. A. Hutchinson, City Engineer, is preparing preliminary plans for the widening and improving of I Street through Colton, about 6700 ft. The project will include widening from 80 to 100 ft. and paving 48 ft. between

curbs. The work will involve: 175,000 sq. ft. cem. conc. pavement; Curb, walk, etc.; move street lighting standards; construct small conc. bridge across wash.

LOS ANGELES, Cal.—L. O. Turner, District Engineer, Van Nuys, preparing preliminary plans to pave East roadway of San Fernando road bet. Newhall highway and Foothill Blvd. The proposed improvement will involve three miles. The project will include:

196,000 cu. yds. excavation;

158,400 sq. ft. pave. (type not selected);

drainage structures (\$2000);

structure over spur track (\$10,000).

This project has been included in the city's program presented to the state highway commission for consideration under the federal highway allotments.

CROVILLE, Butte Co., Cal.—Until Aug. 8, 2 P. M., bids will be received by C. F. Belding, county clerk, for maintenance of A and B roads. Specifications obtainable from County Engineer J. A. Baumgarner.

SPECIAL TO DAILY PACIFIC BUILDER
SAN LUIS OBISPO and Monterey Counties, Cal.—L. A. Briscoe, Arroyo Grande, at \$3,382.30 submitted low bid to State Highway Commission, District Engineer, San Luis Obispo, to treat with fuel oil as a dust palliative 14.7 miles existing roadbed between San Carpojo Creek and Willow Creek, involving 2270 barrels of heavy fuel oil.

Complete bids follow:

L. A. Briscoe, Arroyo Grande, \$1.49;

\$3382.30.

Granite Const. Co., Watsonville, \$1.54;

\$3495.80.

Gilmore Oil Co., \$1.79; \$4063.30.

Tiffany Const. Co., San Jose, \$2.14;

\$4857.80.

Western Motors Transfer, Inc., Santa Barbara, \$2.19; \$4971.30.

Bids held under advisement.

SAN MATEO, San Mateo Co., Cal.—Until August 7, 8 P. M., bids will be received by E. W. Foster, city clerk, to repave sewer trench on Poplar Ave. from Delaware St. to San Mateo Dr. Specifications obtainable from above office. Certified check 10% required with bid.

SONOMA COUNTY, Calif.—Asphalt Pavement Planning Co., 1737 Webster St., Oakland, at \$2052.20 (\$.0062 per sq. ft.) submitted low bid to District Engineer, State Highway Commission, San Francisco, for 4.2 miles existing asphalt concrete pavement to be planned between Willow Brook and Haystack, involving 331,000 sq. ft. planning. Only other bid submitted by Standard Road Planning Co., San Luis Obispo, at \$2118.40; \$.0064.

ARIZONA STATE.—Until 2 P. M., Aug. 1, new bids will be received by State Highway Commission, Phoenix, for highway construction on the St. Johns-Springerville Highway, E-60 & E-68-A. The work, which begins at a point about 1½ miles south of St. Johns and extends southeasterly approximately 8½ miles toward Springerville, consists of grading and draining about one-third of a mile of roadway, the placing of subgrade stabilizer and the oil processing of the entire length by the road mix method and is to be completed on or before December 31, 1933. The principal items are:

29,300 cu. yd. rdwy. excav.;

40 cu. yd. borrow excavation;

20,000 sta. yd. earthwork overhaul;

300 hours rolling;

15,000 cu. yd. stripping pits;

26,200 cu. yds. subgrade stabilizer;

74,300 cu. yds. ml. subgrade stabilizer,

haul;

290 M. gals. water;

9,900 cu. yds. mineral aggregate;

25,400 cu. yd. ml. mineral agg., haul;

178,500 gals. asph. road oil (C.I.P.);

8.7 miles mix, lay and finish;

104 tons outback asph. for seal coat

(C.I.P.);

740 cu. yds. screenings (C.I.P.);

770 cu. yds. shoulder material;

2,180 cu. yd. ml. shoulder materials,

haul, and other incidental items.

Cash or certified check 5%. T. S. O'Connell, State Highway Engineer.

The bid of Heafey-Moore Co., at \$108-

162.94 (received July 12) was rejected

as too high.

LOS ANGELES, Cal.—J. J. Jessup, City Engineer, has been authorized to prepare plans for grading Coldwater Canyon, Mulbolland Highway to Eden Court. The grading will involve:

62,000 cu. yds. excavation;

37,000 cu. yds. fill;

7 lines corrugated pipe 15-in. to

24-in. culverts;

770 truck days hire;

The cost is estimated at \$12,450.

RIVERSIDE COUNTY, Calif.—Until August 3, 10 A. M., bids will be received by the U. S. Bureau of Public Roads, 461 Market St., San Francisco to furnish and apply approximately 780,000 gallons liquid asphaltic road material on 33 miles of Sections A, B and C, Route 70, Idyllwild-Desert National Forest Highway, San Bernardino National Forest. Proposal guarantee 5%. Specifications obtainable from above office.

LOS ANGELES, Cal.—J. J. Jessup, City Engineer, has completed plans for improving Exposition Blvd. from Vermont Ave. to Western Ave. under Cash Contract, involving:

Grading;

5171.36 sq. ft. 2-in. wearing surface;

3987 sq. ft. 1½-in. do;

820 sq. ft. 1-in. do;

2395 sq. ft. rock and oil roadway;

Driveways; curb; sidewalk;

Gutter; storm drain, etc.;

Ornamental lighting system.

County supervisors allocated \$47-

401.10 toward the cost of this project.

COCONINO COUNTY, Ariz.—Until August 10, 10 A. M., bids will be received by U. S. Bureau of Public Roads, 802 Title & Trust Bldg., Phoenix, C. H. Sweetser, District Engineer to grade 9.688 miles Section G, Route 7, the Oak Creek National Forest Highway, Coconino National Forest, involving:

(1) 50 acres clearing;

(2) 88,000 cu. yds. unclass. excav.;

(3) 2027 cu. yds. unclass. excavation,

structure;

(4) 26,000 cu. yds. unclass. excav.,

borrow;

(5) 50,000 sta. yds. overhaul;

(6) 9,677 miles finish earth graded rd.

(7) 8,700 cu. yds. ml. haul borrow;

(8) 1,063 cu. yds. concrete;

(9) \$2,500 lbs. reinf. steel;

(10) 2,082 lin. ft. corr. metal pipe;

(11) 25 cu. yds. hand laid rip-rap;

(12) 72 right of way monuments;

(13) 18,200 lin. ft. fence;

(14) 4 cattle guards;

(15) 29,500 lin. ft. protection ditch;

(16) 6,424 lin. ft. wood guard rail.

Specifications obtainable from above office on deposit of \$10, checks certified and made payable to Regional Fiscal Agent, U. S. Forest Service.

UNIT BID SUMMARY

Compiled from the Daily News Service of Pacific Constructor

15.15 MI. OIL ROAD—DOUGLAS & LYON COS., NEV.

DOUGLAS AND LYON COS., Nev.—Basalt Rock Co., 900 8th St., Napa, Calif., and J. C. Compton, McMinnville, Ore., bidding jointly at \$27,153.87 awarded contract by S. C. Durkee, state highway engineer, Heroes Memorial Bldg., Carson City, for oiling from 5 miles east of Holbrook to east county line, and from Yerington to 9½ miles east, a length of approx. 15.15 miles, Route 3, Sections A1 and A2, involving:

- (1) 123,634 gals. asph. road ma't., type SC-2, Douglas Co.;
- (2) 9,070 gals. asph. road ma't., type MC-2, Douglas Co.;
- (3) 209,684 gals. asph. road ma't., type SC-2, Lyon Co.;

- (4) 15,377 gals. asph. road ma't., type MC-2, Lyon Co.;
 - (5) 15.15 miles roadmix;
 - (6) 15.15 miles finish roadway;
- Complete bids follow:
- (A) Basalt Rock Co. and C. J. Compton, \$27,153.87.
 - (B) C. F. Frederickson & Son, Lower Lake, Calif., \$30,307.56.
 - (C) Tiffany, McReynolds, Tiffany, San Jose, \$34,731.04.
 - (D) Dodge Bros. Const. Co., Fallon, \$39,670.76.
 - (E) J. A. Casson, Oakland, Cal., \$40,616.44.
 - (F) M. J. Bevanda, Stockton, Calif., \$41,103.93.
 - (G) Engineer's estimate, \$30,831.88.

29

ELKO COUNTY, Nev.—Utah Const. Co., Ogden, at \$153,160.71 awarded contract by State Highway Engineer, Carson City, to construct state highway system between Little Salmon River and Idaho State line, 18.02 mi., Route 13, Sections C4, 5 and 6, involving:

- (1) 125,200 cu. yds. rdwy. excav.;
- (2) 65 acres clearing;
- (3) 167,250 yd. sta. overhaul;
- (4) 53,193 cu. yds. select borrow;
- (5) 1300 cu. yds. struc. excav.;
- (6) 17.98 miles subgrade;
- (7) 167 lin. ft. concrete railing;
- (8) 56,800 cu. yds. crushed gravel or stone surface;
- (9) 274 cu. yds. class A concrete;
- (10) 105 cu. yds. class B concrete;
- (11) 130 cu. yds. class D concrete;
- (12) 62,900 lbs. reinforcing steel;
- (13) 0.88 mile reconstruct telephone line;
- (14) 920 lin. ft. 18-in. C.M.P.;
- (15) 1250 lin. ft. 24-in. C.M.P.;
- (16) 386 lin. ft. 30-in. C.M.P.;
- (17) 354 lin. ft. 36-in. C.M.P.;
- (18) 60 lin. ft. 48-in. C.M.P.;
- (19) 9029 lin. ft. remove fence;
- (20) 16,517 lin. ft. construct fence;
- (21) 30 lin. ft. remove pipe culvert;
- (22) 80 cu. yds. riprap;
- (23) 91 monuments;
- (24) 30 M. ft. B.M. redwood;
- (25) 1080 lin. ft. treated piling;
- (26) 30 drive piles;
- (27) 18.02 miles finish roadway;
- (28) 2300 lbs. structural steel;
- (29) 381 sq. yds. asphalt mat surface.

Complete bids follow:

- (A) Utah Const. Co., \$153,160.71.
- (B) Olof Nelson, Logan, \$153,689.72.
- (C) Wm. Hoops, Twin Falls, Idaho, \$161,922.10.

- (D) Gibbons & Reed, Salt Lake City, \$172,602.00.

(E) Engineer's estimate, \$138,260.53.

LOS ANGELES, Calif. — Clyde W. Wood, P. O. Box 49, Stockton, (temporary P. O. address: Rice, Calif.), submitted the low bid to the Metropolitan Water District, Los Angeles, July 24, at \$45,034.50 for constructing approximately 7.5 miles of road for the Colorado River aqueduct in accordance with the District's specifications No. 44. The road is located in Riverside County and extends from a point on Mecca-Blythe State Highway approx. 2.9 miles west of Desert Center to a point approx. 7.5 miles north thereof. The work to be contracted for consists of all necessary excavation and grading, and the placing of surfacing materials, culvert pipes, riprap, and protection work as shown on the drawings. Julian Hinds, acting chief engineer. The items are:

- (1) 53,400 cu. yds. rdwy., borrow, and channel change excav.
- (2) 60,000 sta. yds. excav. overhaul;
- (3) 960 cu. yds. structure excav.;
- (4) 245 cu. yds. concrete;
- (5) 5400 lbs. reinf. steel;
- (6) 96 lin. ft. furnish and place 30-in. corr. pipe culvert;
- (7) 264 lin. ft. do 42-in. do;
- (8) 132 lin. ft. do 48-in. do;
- (9) 150 cu. yds. hand-placed rip-rap;
- (10) 500 cu. yds. dumped rip-rap;
- (11) 3.7 miles drainage ditches;
- (12) 175 M. gals. watering embank.
- (13) 525 M. gals. watering subgrade;
- (14) 800 cu. yds. furnish crushed rock
- (15) 8300 cu. yds. furnish sel. matl.;
- (16) 15,600 cu. yds. miles haul selected material and crushed rock;
- (17) 136,500 gals. road oil, furnishing, hauling and spreading;
- (18) 88,000 sq. yds. prepare surface, mix, spread and finish oil-treated surface;
- (19) 22,000 gals. seal coat oil, furnish and haul;
- (20) 88,000 sq. yds. seal coat, apply;
- (21) 400 cu. yds. stockpile oil treated material.

The bids were:

- (A) Clyde W. Wood, Stockton, \$45,034.50.
- (B) Basch Bros., Torrance, \$49,614.16.
- (C) Yglesias Bros., San Diego, \$51,830.50.
- (D) A. Teichert & Sons, Sacramento, \$57,701.05.

ARIZONA STATE — Heafey-Moore Co., 344 High St., Oakland, submitted low bid to State Highway Commission, Phoenix, July 12, at \$108,162.94, for construction on the St. Johns-Springerville Highway (E-60 and E-68-A). The work, which begins at a point about 1 1/2 miles south of St. Johns and extends southeasterly approximately 8 1/2 miles toward Springerville, consists of grading and draining about 1/2 of a mile of roadway, the placing of subgrade stabilizer, and the oil processing of the entire length of the road mix method, and is to be completed on or before November 30, 1933.

The items are:

PROJECT NO. E-60

- (1) 21 571 C. Y. Rdwy Excav. (unclass);
- (2) 40 C. Y. Struc. Excav. (unclass);
- (3) 521 C. Y. Drainage Excav. (unclass);
- (4) 41 C. Y. Borrow Excav. (unclass)
- (5) 20,071 Sta. Yd. Earthwork Overhaul;
- (6) 300 Hr Rolling (exc. Oil Cake, Sl. Ct. and Shoulders);
- (7) 7 C. Y. Cl. "B" conc. (incl cem.)
- (8) 10 lbs. Rein. Steel (Bars C.I.P.);
- (9) 44 Lin. Ft. 36-in. C.M.P. (C.I.P. incl. Bands but exc. Excav.);
- (10) 800 Lin. Ft. Cable Road Guard (C.I.P.);
- (11) 50 M. Gal. Water applied to Rdwy (C.I.P.);
- (12) 522 C. Y. Subgr. Etab.;
- (13) 3317 Cy. Mi. Subgr. Stab. Haul;
- (14) 199 C. Y. Mineral Agg.;
- (15) 54 Cy. Mi. Mineral Agg. Haul;
- (16) 3576 Gal. Asp. Road Oil (C.I.P. on Etab.);
- (17) 0.174 Mi. Mixing, Laying Down and Finishing;
- (18) 2 Ton Cutback Asp. Cement for Seal Ct. (C.I.P. on Rd.);
- (19) 15 C. Y. Screenings for Seal Coat (C.I.P.);
- (20) 16 C. Y. Shoulder Material;
- (21) 99 Cy. Mi. Shoulder Material Haul;

PROJECT NO. E-68-A

- (22) 7463 C. Y. Rdwy. Excav. (unclass);
- (23) 7 C. Y. Struc. Excav. (unclass);
- (24) 176 C. Y. Drainage Excav. (unclass);
- (25) 10 Hour Rolling (Exc. Oil Cake, Sl. Ct. and Shoulders);
- (26) 3 C. Y. Class "B" Conc. (Incl. Cement);
- (27) 10 Lbs. Rein. Steel Bars (C.I.P.);
- (28) 28 Lin. Ft. 24-inch C.M.P. (C.I. P. Incl. Bands but ex. Excav.);
- (29) 1222 Sq. Yds. Grading Dips;
- (30) 30,618 C. Y. Subgrade Stabilizer;
- (31) 70,933 Cy. Mi. Subgrade Stabilizer Haul;
- (32) 239 M Gal. Water applied to Roadway (C.I.P.);
- (33) 9717 C. Y. Mineral Aggregate;
- (34) 25,331 Cy. Mi. Mineral Aggregate Haul;
- (35) 174,906 Gal. Asp. Road Oil (C.I. P.) on Road);
- (36) 8,501 Mile Mixing, Laying Down and Finishing;
- (37) 102 Ton Cutback Asp. Cement for Seal Coat (C.I.P. on Road);
- (38) 727 C. Y. Screenings for Seal Coat (C.I.P.);
- (39) 749 C. Y. Shoulder Materials;
- (40) 2080 Cy. Mi. Shoulder Material Haul;

NON FEDERAL AID WORK

- (41) 170 C. Y. Special Mineral Aggregate for Stockpile (C.I.P.).
- The total bids were:
- (A) Heafey - Moore Co., Phoenix, \$108,162.94.
 - (B) Phoenix-Tempe Stone Co., Phoenix, \$110,059.88.
 - (C) Pleasant-Hasler Co., Phoenix, \$111,567.48.
 - (D) Pearson & Dickerson, Riverside, \$115,770.93.

BIDS OPENED

SPECIAL TO DAILY PACIFIC BUILDER
MADERA COUNTY, Calif.—Stewart & Nuss, 410 Thorne Ave., Fresno, at \$12,811.86 submitted low bid to State Highway Commission, District Engineer, Fresno, July 26, to apply bituminous surface treatment to existing pavement and shoulders in three sections, as follows: Location A, between 2.9 miles and 2 miles south of Madera, 0.9 mile; Location B, between 2 miles south of Madera and Madera; Location C, bet. Madera and the northern boundary, 18.2 miles. Project involves

- (1) 10 tons emulsified asph. road oil, Location A;
- (2) 192 tons screenings, do;
- (3) 124 tons emulsified asph. road oil, Location B;
- (4) 1850 tons screenings, do;
- (5) 116 tons cut-back asph., Loc. C;
- (6) 710 tons sand, do.

Complete bids follow:

- (A) Stewart & Nuss, Fresno, \$12,811.86
- (B) Granite Const. Co., Watsonville, \$13,477.

- (C) L. A. Briscoe, Arroyo Grande, \$14,176.
 - (D) Tiffany Const. Co., San Jose, \$15,680.40.
- Unit bids follow:
- | | (A) | (B) | (C) | (D) |
|-----|---------|---------|---------|---------|
| (1) | \$23.00 | \$24.00 | \$25.00 | \$22.15 |
| (2) | 4.28 | 4.00 | 4.00 | 4.94 |
| (3) | 21.00 | 25.00 | 24.00 | 24.80 |
| (4) | 3.45 | 3.26 | 3.50 | 3.56 |

MATERIALMEN MUST COLLECT SALES TAXES

State Board Rules Levy To Be Made on Delivery To Contractor

SACRAMENTO, Aug. 1.—An informal ruling issued late this afternoon by the State Board of Equalization indicates that all sales taxes on building materials will be collected through material dealers and that all material delivered to contractors will be taxable.

The regulation is based on the advice of attorneys for the Board of Equalization who held that the change in character of building materials from personal property to real property would occur when they are delivered on the job. The sales tax on them as personal property, therefore, would be chargeable directly to the contractor, although he is erecting the building for another party.

This regulation will place on materialmen all of the responsibility for collecting the two and one-half percent state levy. It will also make all material leaving their yards subject to tax, excepting such as is consigned to public works on which contracts had been awarded prior to August 1.

Many disputed points involving transactions in material and equipment for buildings still remain to be settled by the board and it is expected that a special bulletin will be prepared shortly covering these subjects.

Of paramount interest to many contractors is the status of materials to be used in contracts signed prior to enactment of the sales tax, but not yet completed. Unofficial sources intimated that settlement for tax liability between owner and contractor on projects of this class might have to be tested in court. Or it might be necessary to resort to the courts to determine whether the sales tax is applicable to purchases involved in contracts executed prior to the effective date of the law.

THE WEEK'S NEWS Highlights

SALES TAX. California construction industry awaits formal rulings to establish the status of various branches in collection and payment of the state 2½ percent sales tax. Materialmen will be the principal sources of collection, according to first general interpretation from the State Board of Equalization. Levy will be collected on all materials delivered to contractors except those for public works contracted prior to enactment of tax law.

BUILDING PERMITS. Value of new building commenced in July according to preliminary totals from Pacific Coast cities will be nearly double that of July a year ago and contrary to usual trend the month will show only a minor recession from June, if any. San Francisco permits were \$770,290.

HIGHWAY DEPARTMENT. Division boundaries and other administrative arrangements of the California State Highway Department are due for changes prior to August 21 when the new highway construction program, state and federal aid will be started. State Director of Public Works Earl Lee Kelly contemplates addition of new division with headquarters in San Diego, moving headquarters of two divisions from Sacramento to Marysville and Stockton, respectively. Reorganization of state department is made necessary to supervise maintenance of 6600 miles of county roads voted into state system by the last legislature.

NRA CODES. Building crafts and material dealers are soon to complete new codes of fair practice, covering virtually the entire industry. Local codes later will be fitted together by state and national agencies to produce a master code for construction. Hardwood Floor Contractors' Association of San Francisco is among the first to complete its draft, approve and forward to the President.

WEBB RULING DISQUALIFIES TWO BIDDERS

Failure to Pay License Fee To Submitting Figure Held Illegal

Contractors bidding on public works must be licensed and in good standing not only at the time the contract is signed, but at the time the bid is submitted, Attorney General U. S. Webb ruled yesterday in response to a query from Earl Lee Kelly, state director of public works.

Kelly asked Webb's ruling in the case of bids opened July 12 for construction of a part of the State Highway in San Gabriel Canyon, Los Angeles County.

Low bid was submitted by Geo. Gardner and Sons of Redlands. Second low bidders were Alex D. Chalmers and Max Winter, and third low Matich Bros. of Elsinore.

Subsequent to the opening of bids, Kelly was informed by the Registrar of Contractors that the first and second bidders had applied for state licenses before the date of the bid opening, but had not enclosed the necessary fee with the application. Gardner's fee was not received by the registrar until July 14.

Pointing out that if the contract were awarded to Gardner, the state would make a substantial saving, Kelly asked whether Gardner could be considered a licensed contractor inasmuch as he had made his application, and whether it was necessary that the contractor be licensed at the time of submitting the bid, or only at time of award.

Kelly suggested that if a license were not necessary at the time of submitting bids, contractors would have an unfair advantage in that if a contractor, after the opening, found that he had submitted a losing bid, could forego obtaining a license.

Quoting Sections 3 and 12 of the contractors' license law and the general state law applying to contracts, Webb ruled that the contractor must be licensed and his fee paid at the time of submitting bids.

New York State Rulings Show How Sales Tax Here May Affect Industry

While waiting for the State Board of Equalization to issue regulations for collection of the new sales tax, California contractors may gain some pointers on the probable effect of the law from the interpretation of the New York sales tax, a similar measure, by the New York State Tax Commission.

A copy of the regulations applicable to purchases of building materials has been received by Floyd O. Booe, secretary-manager of the Associated General Contractors, Northern California Chapter, and is published below:

Materials and Supplies sold to Owners, Contractors and Subcontractors for the erection of buildings and the alteration, improvement and repair of real property. Receipts from sales of materials and supplies to owners to be used by them in erecting, altering, improving or repairing buildings or other improvements on land are taxable. Such sales are to final buyers and are not sales for resale.

Frequently materials and supplies are sold to contractors and subcontractors for use by them in fulfilling contracts for erecting buildings on or for otherwise improving, altering or repairing the real property of others. Such contracts are of two kinds: (a) those in which the contractor agrees for a lump sum to furnish the materials and supplies and necessary services, and (b) those in which the contractor agrees to furnish the materials and supplies at a given price or at the regular retail price and to render the services either for an additional agreed price or on the basis of time consumed. When the contractor or subcontractor uses materials and supplies in carrying out such a lump sum contract, he becomes the consumer thereof. The sale to him is to a final buyer and is taxable to his seller. Where the contract calls for the sale of materials and supplies to the owner at an agreed price or at the regular retail price the contractor becomes the retailer and the sale by him to the owner is the taxable sale. The final buyer is the person whose real property is improved, altered or repaired.

It may happen that a contractor or subcontractor engaged in the business of erecting buildings on or otherwise improving, altering and repairing the real property of others, may also be engaged in retail trade or will enter into both kinds of contracts hereinbefore described. In such a case, if the contractor or subcontractor, when purchasing materials and supplies can segregate those which will be con-

sumed by him in fulfilling lump sum contracts from those which he will resell, he may give to his seller a resale certificate for the latter. If, at the time of making purchase of materials and supplies, the contractor or subcontractor is unable to segregate those which he will resell and upon which he will be taxable from those which he will consume in fulfilling lump sum contracts and on which his seller will be taxable, he may purchase according to the general character of his business. That is to say, if his business is principally that of taking contracts on a lump sum basis, he should not give a resale certificate for any of the materials and supplies purchased. If, on the other hand, his business is principally that of selling to owners at a given price or at regular retail price, or of selling materials and supplies at retail, he may sign such a resale certificate. If the buyer gives a resale certificate and thereafter consumes some of the materials and supplies purchased in erecting buildings on or otherwise altering, improving or repairing the real property of another pursuant to a lump sum contract, he must include in his receipts upon which a tax is to be paid not only all receipts from retail sales but in addition, the fair selling price of the materials and supplies consumed in fulfilling lump sum contracts. If the contractor or subcontractor has not given a resale certificate but subsequently sells at retail some of the materials and supplies purchased he must include the receipt therefrom in his receipts from taxable sales.

Materials and supplies sold to contractors or owners and used in constructing, manufacturing or fabricating tangible personal property. A contractor may undertake to furnish necessary materials and supplies and construct, manufacture or fabricate an article of tangible personal property, as for instance, a picture, yacht, rug, awning, etc. The sale of the materials and supplies to such a contractor is not taxable as he does not consume the same. They become a component part of the finished article of tangible personal property which he sells to the person with whom the contract is made.

To illustrate: The ship-builder who contracts to construct a yacht for an agreed price purchases the materials and supplies needed to fulfill his contract. The sale to him is not to a final buyer. When his contract is fulfilled, he delivers to his client a complete yacht which

is tangible personal property. That is the final sale and the contract price is taxable.

This rule applies to all cases where the contract or agreement is for the construction, manufacture or fabrication of an article of tangible personal property, even though the contractor may bill the materials and supplies separately from the labor.

Necessarily, sales of materials and supplies to owners who personally or through their employees construct, manufacture or fabricate tangible personal property for themselves, are taxable to the seller.

Cost plus Contracts. The rules set forth in the two immediately preceding interpretations apply to sales of materials and supplies for use and consumption in the fulfillment of cost plus contracts. Except in the case of a contract to make an article of tangible personal property, if such materials and supplies are sold to the contractor or subcontractor, the sale is to a final buyer and the sale price is taxable to the seller. If, on the other hand, the materials and supplies are sold to the owner of the property to be constructed, altered, improved or repaired, the sale to him is to a final buyer and the sale price is taxable to the seller. In either case, the percentage plus paid to the contractor or subcontractor on the cost of the materials and supplies are receipts for services rendered and are not taxable.

Definition of delivery costs as taxable or nontaxable under the new sales tax law is contained in a regulation issued by President Graves of the State Tax Commission.

The regulation, dealing with all classes of deliveries, whether by freight, express, parcel post, truck or messenger, states that "The determining factor in the consideration of this question is whether the purchaser pays the delivery costs and charges as a separate item or whether they are absorbed by the seller as a service cost or an expense of doing business."

In the first case, the Tax Commission rules, the delivery charge is not subject to the 1% sales tax but in the second case it is. The regulation makes it clear that a store which customarily delivers customers' purchases without extra charge may not deduct any allowance for this service from its sales tax returns but that if a separate delivery charge is made a deduction therefor will be allowed.

The regulation also specifically mentions sales of automobiles from a dealer's stock, the ruling being that the total delivered price is taxable even though the price quoted the buyer is "f.o.b. Detroit" plus delivery charges.

L. A. OFFICE OF PUBLIC WORKS BOARD OPENED

Economy Of Administration To Be Aided By Using State Facilities

Col. Jerome F. Sears, Technical Advisor to the California Advisory Board of the Federal Public Works Administration, has announced that offices have been opened at room 302-F, State Bldg., Los Angeles. H. H. Cotton, Chairman of the Board, will also maintain offices at this address. The personnel of the California Advisory Board, operating under the direction of Justus Wardell, Director of Region No. 6, is as follows:

H. H. Cotton, Chairman.
E. F. Scattergood, Chief Electrical Engineer of the Los Angeles Water and Power Department.
Frank R. Havenner, Chairman of the Board of Supervisors, City and County of San Francisco.
Col. Jerome F. Sears, Technical Advisor.

Jos. F. Freeman, Secretary.
Wardell's headquarters will be in San Francisco, probably in the Federal Reserve Bank Building.

The 145 members of the 48 state advisory boards will be paid \$10 a day, but only when they work. They will be allowed \$5 a day expenses when traveling on official business. The ten regional administrators will get \$6000 a year, the maximum fixed for the public works administration, according to Secretary-Director Harold Ickes.

"The administration feels that men of the caliber appointed will be willing to serve from a sense of public duty at these low rates," Ickes explained.

The interior department secretary wrote all governors asking them to supply quarters for the state advisory boards. He further explained:

"The states and all other public bodies will be asked without hesitation to make any of their facilities desired by the public works administration available without additional expense to the government. The smallest staffs possible will be set up in the states.

"Each state will be provided with

BOARD RESTRICTS STATE INSURANCE TO TREASURY LIST

Only bonding companies approved by the United States Treasury Department will be accepted in the future as surety for workmen's compensation in California, according to a resolution adopted by the State Industrial Accident Commission.

Following is the text of the commission order:

Whereas, several surety companies have met with financial reverses during recent months, and the coverage for self-insurers under the California Workmen's Compensation, Insurance and Safety Act has been imperiled by the experiences of such companies, and

Whereas, it is the primary function of the Industrial Accident Commission to take all steps possible to protect the interests of injured workers and the dependents of those killed, and it is difficult for the commission to ascertain the solvency of surety companies; therefore, be it

Resolved, that on and after July 10, 1933, the Industrial Accident Commission will accept only sureties on bonds for self-insurers from companies listed by the United States Treasury Department as acceptable sureties on Federal bonds, and with the underlying limitations specified by the said department applying to the total accumulation of liability on all surety bonds of any one company, as filed with the Industrial Accident Commission.

APPROVE CAMPS

Inspection of the contractors' labor camps on the Metropolitan Water District project shows them to be in excellent condition, the State Division of Immigration and Housing reports in its monthly bulletin.

an engineer appointed by the federal administrator and responsible to him. This engineer will be the executive officer of the state board and the technical expert. He will organize the board's office, direct its small personnel and receive, record and examine all applications made for projects and report to the board on each."

JULY BUILDING PERMITS IN S. F. TOTAL \$770,290

Residential Work Increase Features Month's Activity Here

July building permits issued in San Francisco totaled \$70,290, comparing with \$616,409 for July last year and \$1,069,118 for June this year.

The month's permits, although below the total of last month, show a substantial increase in residential building with 116 authorized at an aggregate cost of \$497,645, approximately double the June figures both in number and value. Last July only 48 permits valued at \$201,800 were issued for the same class of building.

There were 443 permits issued during the month, comparing with 554 last month and 418 in July of 1932.

The June total included a \$450,000 permit for the new Bohemian club building. Last month there were no large permits for non-residential work.

Following are the classified totals for July and the same month a year ago:

Class	July, 1933		July, 1932	
	No.	Est. Cost	No.	Est. Cost

LOCAL CONTRACTORS GET UTAH LICENSE

Utah now requires a state license for contractors engaging in any work aggregating more than \$200 in cost. Included in the list of out-of-state contractors who have qualified to bid on work in the state since the law was enacted are C. C. Moore & Company, San Francisco; Frederickson & Watson Construction Co., Oakland; N. M. Ball, Berkeley.

OAKLAND, Calif.—Chevrolet Motor Co., Foothill Blvd. and 69th, Oakland, at \$498.95 awarded contract by city council to furnish three coupes for the Electric Department.

PASADENA, Cal.—Until 10:30 A. M. Aug. 22, bids will be received by city directors to furnish and deliver not less than ten units nor more than 32 units metal clad switch gear and appurtenances and certain spare parts, f.o.b. Santa Fe station, Pasadena, for the Lamanda Park substation. The estimated cost is \$20,000. B. F. De Lanty, Superintendent of the Municipal Power Department. Bessie Chamberlain, city clerk.

MARYSVILLE, Yuba Co., Cal.—Until August 11, 5 P. M., bids will be received by Marysville Union High School District to furnish one Model T 33 D GMC chassis, 257 cu. in. valve-in-head motor, 8.25/30 tires, extended frame to 232-in. wheelbase, and one Model 92-220BB P & C all steel double strength school coach body. Specifications obtainable from above.

SACRAMENTO, Cal.—Contracts for tractors, graders, road rollers and trucks awarded by the State Purchasing Agent, Sacramento, follow:

Req. No. 6080, tractor, f.o.b. North Hollywood, to J. I. Case Co., Oakland. Bids were opened July 10.

Req. No. 6078, four tractors, f.o.b. North Hollywood, to Smith, Booth, Usher Co., Los Angeles. Bids were opened June 30.

Req. No. 6071, 22 trucks f.o.b. North Hollywood, to General Motors Truck Co. Bids were opened June 26.

Req. No. 6083, tractor, f.o.b. North Hollywood, to J. I. Case Co., Oakland. Bids opened June 29.

Req. No. 6081, one 5-ton gasoline road roller, f.o.b. North Hollywood to Smith, Booth, Usher Co., Los Angeles. Bids opened June 26.

Req. No. 6077, five graders, f.o.b. North Hollywood, to Smith, Booth, Usher Co., Los Angeles. Bids were opened June 26.

Req. No. 6109, one graded, f.o.b. North Hollywood, to Spears-Wells Machinery Co., Oakland. Bids opened June 26.

Req. No. 886, three tractors, f.o.b. San Bernardino to J. I. Case Co., Oakland. Bids opened July 6.

Req. No. 887, three graders, f.o.b. San Bernardino, to Spears-Wells Machinery Co., Oakland. Bids opened July 6.

Req. No. A-1195, tractor graders, f. o. b. Lone Pine, to Bevis Machinery Co., Los Angeles. Bids were opened July 13.

Req. No. 8401, road rollers, f.o.b. Fresno, to Jenison Machinery Co., San Francisco. Bids were opened July 8.

Req. No. 8396, eight graders, f.o.b. Fresno, to Austin-Western Road Machinery Co., San Francisco. Bids opened July 7.

MERCED, Merced Co., Cal.—Until 12 o'clock noon, August 14, bids will be received by the Fairmead Grammar School District, for one bus chassis with factory standard wheel base of 164 inches, full floating rear axle, six cylinder L-head motor and equipped with a custom built 42 passenger grammar school body. The specifications are on file with the clerk of the board.

SANTA ANA, Orange Co., Calif.—Until 7:30 P. M., August 14, bids will be received by city council for one latest model motor driven street sweeper complete, including electric lighting and starting equipment, pneumatic tires, and puncture proof tubes. Certified check 10%. E. L. Vegely, city clerk. J. L. McBride, city engineer.

REDDING, Shasta Co., Cal.—Until August 15, 10 A. M., to be opened at 2 P. M., under Quotation No. 2288, Requisition No. 14606-½, bids will be received by State Purchasing Agent, Sacramento, to furnish one heavy duty Diesel-engine-driven power shovel for delivery at Redding, as follows:

1¼-yard capacity bucket; enclosed gears; revolving frame rollers; enclosed cab; etc. Specifications obtainable from above office.

MONTEREY, Cal.—Until Aug. 15, 10 A. M., to be opened at 2 P. M., under Quotation No. 2287, Requisition No. 7947½, bids will be received by State Purchasing Agent, Sacramento, to furnish one Diesel-engine-driven power shovel for delivery at Monterey, as follows:

Minimum weight 78,000 lbs.; 1¼ yd. bucket; revolving frame rollers; enclosed gears; enclosed cab, etc. Specifications obtainable from above office.

26—RAILROADS

LOS ANGELES, Cal.—Until 11 A. M., August 21, bids will be received by A. J. Holm, City Purchasing Agent, 107 City Hall, to furnish and deliver to Harbor Department f. o. b. cars or trucks, Santa Fe spur in Weston St. easterly of Blinn Ave., Wilmington, and/or f.o.b. cars or trucks harbor department's supply yard, Berth 161, Wilmington, new or used standard tee rail section, railroad rails and accessories under Specifications No. 3191. The schedule of quantities is as follows:

- (1) 420 tons (when new) rail, new or used, A.R.A.-A. standard tee rail section, weighing when new 90

CAPITAL CITY TITLE COMPANY

J. C. PALEN,
Manager

914 Seventh Street

Sacramento :: California

- lbs. per yd., in 33-ft. lengths;
- (2) 16,650 pcs. tie plates, new or used, for 90-lb. A.R.A.-A. rail as specified under item (1) above, 8x3 3/4-inch;
 - (3) 900 pairs (1800 pcs.) hall joints, new or used, 100% continuous, 4-hole, 27-in. long, for 90-lb. A.R.A.-A. rail as specified under item (1) above;
 - (4) 900 pairs (1800 pcs.) angle bars, new or used, 100% reinforced, 6-hole, for 90-lb. A.R.A.-A. rail as specified under item (1) above. (Note: items Nos. 3 and 4 are alternates and bidders may quote on either or both items, but award will be made for one item only);
 - (5) 30 200-lb. kegs track bolts, new, 7/8 x 4 1/2-in., with nuts, 1 1/2-in. square by 1 1/2-in. thick;
 - (6) 400 lbs. spring steel nutlock s, 3/8-in. by 1-in., new, for 7/8-in. bolts
- The above materials will be used in construction of M.T.R.R.-A.T.&S. F. railway connection.

28—FIRE EQUIPMENT

SANTA BARBARA, Cal.—City council has voted \$1100 for fire equipment, including Foamite extinguishers and other auxiliary equipment for the trucks. F. W. Stronach, Chapala Fire Station, is chief of the department.

BERKELEY, Alameda Co., Cal.—Fire Chief Geo. Haggerty requests new fire equipment including 10,000 ft. hose, fire boxes and construction of new fire house.

30—RESERVOIRS & DAMS

OAKLAND, Cal.—Directors of the East Bay Municipal Utility District, 512 16th St., Oakland, will ask federal funds in the amount of \$5,568,000 through the National Industrial Recovery Act to construct Middle Bar Dam, Mokelumne river, transmission line to Pardee Dam, thence to Oakland, and a stand-by plant for the East Bay District. Dam will be curved gravity type, 156-ft. from foundation to spillway crest; will have runway on top of dam; siphon spillways; will be 28 ft. thick at top, 110 ft. thick at base; length 535 ft. at crest; will involve about 90,000 cu. yds. of concrete. Capacity of reservoir will be about 30,850 acre feet. Estimated cost of dam, \$950,000. A power house will be constructed at Middle Bar, 10 miles up stream from the Pardee Dam, 9000 k.w. installed capacity. The transmission line, total length approx. 90 miles, will be constructed from the Middle Bar Dam to the Pardee Dam power house, thence to stand-by plant to be constructed in Oakland for the East Bay District. The Oakland plant will have an installed capacity of 20,000 kw. R. C. Kennedy is project engineer. John H. Kimball, secretary of

LOS ANGELES, Cal.—Water and power commission will apply for federal public works funds in the sum of \$27,800,000 to finance the Mono Basin and Owens Valley construction projects. The funds will be expended approximately as follows:

Mono Basin aqueduct, including tunnels, \$8,000,000.

Purchase of land in Mono Basin, \$8,000,000.

Long Valley reservoir, including dam, gate towers, diversion tunnel and by-pass, \$1,500,000.

Purchase of land in Owens Valley (amount not available).

Additions and betterments to Los Angeles local water system, \$10,000,000.

Additions and betterments to Los Angeles aqueducts \$750,000.

Additions and betterments to gen-

eral structures (shops, warehouses, garages and offices), \$600,000.

SEATTLE, Wash.—Public Works Control Board approves construction of power dam at the Grand Coulee site, Columbia River, estimated cost \$60,000. Plans will generate 250,000 k.w. primary and secondary power. Dam will be 145 ft. high, with provision for ultimate height of 370 feet. Thirty per cent of the \$60,000 will be an outright Government grant, the balance to be repaid by the Columbia River Commission at 4%.

NYSSA, Ore.—J. A. Terteling & Son, 511 Sound St., Spokane, Wash., awarded contract by the U. S. Bureau of Reclamation, Denver, Colo., at \$118,404.50, for furnishing labor and materials and performing all work for construction of earthwork and structures, North Canal, station 260 (Owyhee River Siphon) to station 513, Mitchell Butte division, Owyhee Project, Oregon-Idaho. The work is located near Nyssa and Adrian, Ore., on the Oregon Short Line Railroad.

LOS ANGELES, Cal.—All bids for the construction of the Eaton Wash Debris Dam in Eaton Canyon were rejected by County Supervisors, July 31. The bids were opened July 10, at which time Mittry Bros. Constr. Co., was the low bidder at \$224,382. The project may be revived if federal public works money is obtained under the N. R. A.

32—SEWERS & SEWAGE DISPOSAL PLANTS

SAN BRUNO, San Mateo Co., Cal.—Fairbanks, Morse & Co., Spear and Harrison Sts., at \$1303.30 awarded contract by city council to furnish two sewage pumps for Lomita Park outfall sewer.

City council at the same time decided to purchase one pump for the Belle Air unit from United Iron Works 142 Sansome St. (no total available).

MONTEREY, Cal.—City Council plans construction of an outfall sewer, estimated cost \$85,000; project in connection with additions to Oak Grove and Mesa sewer system, estimated cost, respectively, \$10,000 and \$7500. Federal funds may be asked for these projects under the National Industrial Recovery Act.

BERKELEY, Cal.—Until August 8, 10 A. M., bids will be received by Florence E. Turner, City Clerk, to construct storm sewer in Indian Rock Ave., involving:

- (1) 1060 lin. ft. 15-in. vit. sewer pipe;
- (2) 310 lin. ft. 10-in. do;
- (3) 10 lin. ft. 8-in. do;
- (4) 7 catchbasins;
- (5) 2 curb inlets;
- (6) 3 manholes.

Specifications obtainable from above office on deposit of \$10. Certified check 10% required with bid. H. Goodridge, city engineer.

PALO ALTO, Santa Clara Co., Cal.—City council plans to seek federal funds under the National Recovery Act in the amount of \$48,000 for the following improvements:
Sewage system extensions, for sludge digestion (not included in the present \$90,000 sewer bond project) \$28,000;

Replace mains, \$15,000;

Power plant, \$5000.

PALO ALTO, Santa Clara Co., Cal.—N. Clark & Sons, 116 Natoma St., San Francisco, at \$11,692.25 awarded contract by city council to furnish vitrified salt glazed sewer pipe in con-

nection with new sewage disposal system.

PALO ALTO, Cal.—Western Pipe & Steel Co., 444 Market St., San Francisco, at \$3050 awarded contract by city council to furnish sedimentation tank and sludge pump in connection with new sewage disposal system.

PALO ALTO, Cal.—Pacific Tank & Pipe Co., 230 California St., San Francisco, at \$8997 awarded contract by city council to furnish wood stave pipe in connection with new sewage disposal system.

LOS ANGELES, Cal.—J. E. Rockhold, county surveyor, has completed his estimate of cost for the construction of sewers in Lennox unit No. 4, Los Angeles county. The cost is estimated at \$125,000, not including incidentals. The items follow:

- 66,200 ft. 8-in. conc. pipe main line sewer;
- 8-in. cast iron pipe main line sewer;
- 1300 ft. 10-in. conc. ppe main line sewer;
- 29,400 ft. 6-in. conc. pipe house connections;
- 100 ft. 6-in. conc. pipe chimney pipe; manholes; junction chambers;
- 1500 ft. red brass pipe.

33—WATER WORKS

MADERA, Madera Co., Cal.—Peerless Pump Service, 1864 21st Street, Fresno, at \$300 awarded contract by city council to rent one test pump, 1800-gpm., 110 ft. total head, 100 ft. setting, 20 ft. suction, 440-volt motor, temporary switchboard, 1 piece measuring orifices. City to furnish power.

Complete bids follow:

Peerless Pump Service, Fresno.....\$300
Johnson Turbine Pump, Madera.... 350
D. Stephenson, Madera..... 350
Byron-Jackson Co., Visalia..... 754

COLTON, San Bernardino Co., Cal.—The Colton Chamber of Commerce and the city council have under consideration plans for a \$70,000 bond issue to finance the city's share of a \$100,000 program for improvements to the municipal water system. Application will be made for federal aid for the \$30,000 balance. The proposed improvements include:

Drilling of two 30-in. wells, 550 ft. deep, housing for same, bowl type pumps of 200 miner's inches capacity each pump, replacing of three old pumps and rebuilding 3 pump houses, \$20,000.

Construction of a reinforced concrete reservoir, 186x250 ft. by 12 ft. deep, with corrugated iron roof, 3,000,000-gal. capacity, \$45,000.

Replacements of pipe lines, \$26,000, involving:

30,000 ft. 6-in. pipe (type not selected)
3,000 ft. 10-in. pipe (type not selected)
3,000 ft. 8-in. pipe (type not selected).

C. H. Maxwell, water superintendent. 33

TORRANCE, Los Angeles Co., Cal.—City council on July 26 adopted a resolution requesting the Torrance Water, Light and Power Co., now serving the city, to give the city an option for a period of sixty days to purchase the company's water system at \$113,441, the valuation placed on the system by the firm of Salisburg, Bradshaw & Taylor, consulting engineers, who were retained to make a survey of the system and recommendations. The company was given ten days in which to reply. The total cost of acquiring the present system, making the necessary extensions, and constructing reservoir, etc., will be \$330,238. The engineers estimate the cost of constructing a complete new sys-

tem at \$363,872. A \$400,000 bond issue has been voted, validated, and ready for issuance in connection with an application to be made to the federal government for National Industrial Recovery Act funds.

The present system obtains its water from the Dominguez wells via a 33-in. steel pipe line owned by the Dominguez Water Co. The new plan proposes wells in the western part of town. Extensions required if the city takes over the old system will amount to \$81,528. This makes the total cost of acquiring the old system \$194,969. A resume of the consultant's report follows:

Replacement value for purposes of acquiring system, \$113,441.

Extensions, \$81,528, involving:
 4,660 ft. 4-in. cast iron pipe;
 26,295 ft. 6-in. cast iron pipe;
 9,430 ft. 8-in. cast iron pipe;
 2,990 ft. 10-in. cast iron pipe;
 7,925 ft. 12-in. cast iron pipe;
 1,850 ft. 10-in. riveted steel irrigation pipe.

Necessary gate valves, fittings, etc. Drilling two wells, 16-in. diameter, 700 ft. deep, one at reservoir site the other about 2000 ft. away, \$19,103.

Deep well turbine pumps, 200-ft. column, 2,000,000-gal. daily capacity, including pump houses and fittings, \$6670.

Reinforced concrete dual type reservoir, 5,000,000-gal. capacity, 91x107 ft., 20 ft. deep, 4-in. Gunitite walls, with wooden roof, \$45,892.

Pipe line from wells to reservoir, 2200 ft., 14-in. reinforced concrete pipe, \$4972.

Booster pumps, 2 1350 GPM turbine pumps, \$5033.

Pipe line from reservoir to main distributing system, involving 930 ft. 16-in. cast iron pipe, \$3468.

Sandtrap or eliminator, \$130.

Aeration equipment, \$4760.

Water purification, chlorinator and ammoniating equipment, \$4181.

Purchase of land, \$13,500.

SAN FRANCISCO — Worthington Pump Co., 543 Howard St., San Francisco, at \$616.52 submitted low bid to U. S. Forest Service, to furnish one centrifugal pump and gas motor.

ALDERWOOD MANOR, Wash.—Joe Coluccio, 1425 Hanford St., Seattle, at \$181,095 awarded contract by Alderwood Water District to construct water distribution system, involving 62 miles pipe laying. 33

OAKLAND, Cal.—Until Aug. 11, 8 P. M., bids will be received by John H. Kimball, Secretary, East Bay Municipal Utility District, 512 16th St., Oakland, to furnish:

- (1) 20,000 lin. ft. Class B or Class 150 4-in. b&s cast iron pipe;
- (2) 80,000 lin. ft. Class B or Class 250 6-in. b&s cast iron pipe;
- (3) 25,000 lin. ft. Class B or Class 250 8-in. b&s cast iron pipe.

Specifications obtainable from above office.

ALHAMBRA, Los Angeles Co., Cal.—All bids for furnishing 3800 ft. 18-in. cement-lined cast iron pipe, opened July 18, were rejected by city commission August 1. T. B. Downer is the water superintendent and chief engineer.

SANTA MONICA, Los Angeles Co., Cal.—Ipamco Pipe Corp., 135 N. Beachwood Drive, Los Angeles, awarded contract by city council July 31 at 60.5c ft. for 10,000 ft. 6-in., class B sand cast iron water pipe, delivered at the city yards, 9th and Colorado Sts., Santa Monica.

SAN FRANCISCO—Until Aug. 11, 3 P. M., under Bid No. 1058, bids will be received by T. A. Brooks, City

Purchasing Agent, 270 City Hall, to furnish pipe and fittings for a term of four months from August 14, 1933. Specifications obtainable from above office.

OAKLAND, Cal.—Directors of the East Bay Municipal Utility District, 512 16th St., Oakland, plans to ask federal funds through the National Industrial Recovery Act in the amount of \$4,565,000 for extension and improvement work on their waterworks system. John H. Kimball is secretary of the District.

PANAMA CANAL ZONE — Until August 15, bids will be received by the General Purchasing Agent, Panama Canal Office, Washington, D. C., for furnishing 100x18-ft. drum gates and control apparatus, 84-in. internal differential needle valves and gate hangers for Madden Dam Project, Panama Canal Zone, Schedule No. 2885

SAN FRANCISCO—Following bids received by U. S. Forest Service, San Francisco, to furnish 12,600 ft. 1¼-in. galvanized iron pipe and fittings: Gilmore Steel & Supply Co., 825 Folsom St., \$1753.35.

P. E. O'Hair, 945 Bryant St., \$1758.13. Standard Supply Co., San Francisco, \$1764.94.

Baker - Hamilton - Pacific Company, San Francisco, \$1765.

Federal Pipe & Supply Co., San Francisco, \$1773.60.

Richmond Sanitary Co., San Francisco, \$1776.43.

Tay Holbrook Co., San Francisco, \$1777.69.

Grinnell Co., San Francisco, \$1779.59.

Stephen H. McCabe, San Francisco, \$1779.95.

United Pipe & Supply Co., San Francisco, \$1306.27 f.o.b. Wheatland, Pa.

Crane Co., San Francisco, \$2986.68.

Thompson-Diggs Co., Sacramento, \$1527.42, partial bid.

Bids held under advisement.

LOS ANGELES, Calif.—Until 11 A. M., August 15, bids will be received by A. J. Holm, City Purchasing Agent 107 City Hall, for furnishing and delivering to Water & Power Department f.o.b. Department's warehouse, 410 Ducommun St., double disc, round bottom, hub end gate valves under Spec. No. 3186, as follows:

- (1) 150 12-inch valves;
- (2) one 24-inch valve with extended grease case;
- (2 alt.) one 24-inch valve identical to item 2 except without extended grease case and with Alemite lubricating fittings.

BURBANK, Los Angeles Co., Cal.—G. G. McCambridge, public service director, has recommended to the city council that the city apply for federal public works funds to finance extensions and improvements to the water system costing \$53,892. This will provide for:

- 37,000 ft. 6-in. cast iron pipe;
- 2,300 ft. 8-in. cast iron pipe;
- gate valves, fittings, fire hydrants, trenching and resurfacing.

35—TUNNELS

ORDWAY, Colo.—Platt Rogers, Inc. P. O. Box 1006, Pueblo, Colo., awarded the contract by the Twin Lakes Reservoir and Canal Co. at \$1,030,000 for constructing two tunnels between Roaring Fork River on western slope and Twin Lake on eastern slope. One of the proposed tunnels will be 3.82 miles in length, 8x2½ ft. horseshoe section, the other 1.75 miles 7x2½ ft., both concrete lined. The existing dam will be raised 11 ft.

29—STREETS AND HIGHWAYS

LOS ANGELES, Cal.—Bids will be called shortly by the board of public works for the improvement of Grape St. bet. 102nd and 103rd Sts., 763 ft. center line, under the 1911 act. The quantities are:

- (1) grading (1240 cu. yds. cut, 39 cu. yds. fill);
- (2) 29,975 sq. ft. 6-in. concrete pave.;
- (3) 678 sq. ft. asph. conc. wear. surf., variable thickness (average 1½-in.);
- (4) 253 sq. ft. Class D resurfacing;
- (5) 94 ft. integral curb (Detail A);
- (6) 1502 ft. unplas. light curb;
- (7) 6239 sq. ft. 1-course walk;
- (8) sanitary sewer complete (estimate \$726);
- (9) 217 ft. house sewers;

Incidentals: 730 ft. const. joint, 640 ft. transverse expan. joint, 1940 ft. contraction joints (long and trans.) 114 sq. ft. 6-in. conc. underpinning.

Remove: 83 sq. ft. wearing surf., 277 ft. curb, 404 sq. ft. walk, 325 sq. ft. gutter, 28 ft. guard rail, 40 ft. 6-in. pipe, 80 ft. board fence.

WESTERN STATES—Federal Public Works allotments for national park improvements announced by the Federal Public Works Administration are:

CALIFORNIA—General Grant, \$13,000; Lassen Volcanic, \$23,000; Sequoia, \$82,600; Yosemite, \$281,550; Muir Woods, \$4000; Plinchaes, \$5500, and Death Valley, \$19,000.

ARIZONA—Grand Canyon, \$56,000; Casa Grande, \$17,500; Montezuma, Castle, \$5300; Petrified Forest, \$15,000; Tumacaori, \$2000.

IDAHO—Craters of the Moon, \$3000.

HAWAII NATIONAL PARK, \$9500.

ALASKA—Mount McKinley, \$9000.

OREGON—Crater Lake, \$37,400.

UTAH—Eryce Canyon, \$33,400; Zion Park, \$46,500.

WASHINGTON—Mt. Ranier, \$48,000

ARIZONA STATE—Heafey - Moore Co., 640 N 1st Ave., Phoenix, submitted low bid to State Highway Commission, Phoenix, Aug. 1, at \$103,716.88, for highway construction on the St. Johns-Springerville Highway, E-60 and E-63-A. The work, which begins at a point about 11½ miles south of St. Johns and extends southeasterly approx. 8½ miles toward Springerville, consists of grading and draining about ½ of a mile of roadway, the placing of subgrade stabilizer, and the oil processing of the entire length by the road mix method, and is to be completed on or before Dec. 31, 1933.

OAKLAND, Calif.—City Port Commission will ask bids shortly to oil surface in the vicinity of the Oakland Municipal Airport.

SANTA BARBARA COUNTY, Cal.—All bids returned unopened by District Engineer, State Highway Commission, San Luis Obispo, to oil treat existing shoulders over 5 mi. between Summerland and Carpinteria. Project is indefinitely postponed.

FRESNO, Cal.—Jean L. Vincenz, city public works commissioner, has reported that the department plans to regrade and oil Weldon Ave., between Echo and Palm Aves.

LOS ANGELES, Cal.—C. D. Wood, P. O. Box 49, Stockton, also P. O. address, Rice, Calif. (temporary address: C. W. Wood, Hilton Hotel, 535 S Grand Ave., Los Angeles) awarded contract by the Metropolitan Water District, Los Angeles, July 28, at \$45,034.50 for constructing approx. 7.5 mi. of road for the Colorado River aqueduct in accordance with the District's Spec. No. 44. The road is located in

Riverside County and extends from a point on the Mecca-Blythe State Highway approx. 2.9 miles west of Desert Center to a point approx. 7.5 miles north thereof. The work to be contracted for consists of all necessary excavation and grading and the placing of surfacing materials, culvert pipes, riprap, and protection work as shown on the drawings. Julian Hinds, acting chief engineer.

LOS ANGELES, Cal.—Bids will be taken next week by board of public works to improve Exposition Blvd. from Vermont Ave. to Western Ave. under cash contract, involving: grading (lump sum); 5171.36 sq. ft. 2-inch Warrenite-bit. wearing surface; 3987 sq. ft. 1½-in. do; 820 sq. ft. 1-in. do; 2395 sq. ft. rock and oil roadway; concrete driveways; curb; sidewalk; gutter; storm drain; ornamental lighting system. The county supervisors allocated the sum of \$47,401.10 towards the cost of this project.

LOS ANGELES, Cal. — Southern California Roads Co., 2145 E. 25th St., awarded contract by Board of Public Works, July 26, at \$30,070.19, for improving Lincoln Blvd., from Venice Blvd. to Washington Blvd., under Cash Contract.

SONOMA COUNTY, Cal. — Asphalt Pavement Planing Co., 1737 Webster St., Oakland, at \$2052.20 awarded contract by State Highway Commission to pave 4.2 mi. existing asphalt concrete pavement between Willow Brook and Haystack.

MENDOCINO COUNTY, Cal.—Helwig Constr. Co., 115 South Main St., Sebastopol, at \$5775 awarded contract by State Highway Commission, for 7.7 mi. bituminous surface treatment to be applied between Ukiah and Forsthe Creek.

SAN LUIS OBISPO AND MONT-REY COS., Cal.—L. A. Briscoe, Arroyo Grande, at \$3352.30 awarded contract by State Highway Commission to

treat with fuel oil as a dust palliative 14.7 mi. existing roadbed between San Carpojo Creek and Willow Creek.

LAKE COUNTY, Cal.—E. A. Forde, 41 Sunnyside Ave., San Anselmo, at \$6362.50 awarded contract by State Highway Commission for 6-mi. bituminous surface treatment to be applied between the southerly boundary and Middletown.

NEVADA STATE—Following sums allotted to State of Nevada in connection with Public Works, road funds: Federal Aid Highways, \$2,909,000. Extensions into municipalities, \$500,000. Secondary & Feeder Roads, \$2,136,000

ARIZONA STATE—Following sums allotted to State of Arizona in connection with Public Works, road funds: Federal Aid Highways, \$3,804,000. Extensions into municipalities, \$782,000. Secondary and Feeder Roads, \$625,000

SALINAS, Monterey Co., Calif.—City council plans \$7000 street improvement program, including improvement of the following streets: State highway through Salinas: Main St. to John, John to Abbott, and Abbott to the southern city limits; Central Avenue; Market Street; East Alisal Street; South Main Street; Monterey Street; Front Street south of Alisal. Donald Davies, city engineer.

MERCED & MARIPOSA CO., Cal.—Granite Constr. Co., Bln 9, Watsonville, at \$6676 awarded contract by State Highway Commission for bituminous surface treatment between Merced and Orange Hill School, 14.9 mi. existing shoulders and 6.3 mi. existing roadbed.

KERN COUNTY, Cal.—John Jurkovich, 3530 Balch Ave., Fresno, at \$6723 awarded contract by State Highway Commission for bituminous surface treatment between Wasco and Famosa, 8.7 mi. earth shoulders to be oil treated; between Bakersfield and

Kern Canyon, and between Monolith and Cameron, 14.3 mi. existing surfacing to be bituminous surface treatment.

FRESNO COUNTY, Cal.—Stewart & Nuss, 410 Thorn Ave., Fresno, at \$4405.80 awarded contract by State Highway Commission to apply bituminous surface treatment, non-skid, over 3.7 mi. between Kingsburg and Selma.

LOS ANGELES, Calif.—J. J. Jessup, city engineer, is preparing plans for improving Manchester Avenue from Central Ave. to Wall St., under cash contract. The county supervisors previously agreed to allocate \$91,574.00 toward this work. The revised quantities as prepared by the engineer follows: 2,950 cu. yds. grading; 3,225 ft. curb; 70,550 sq. ft. sidewalk; 6,000 sq. ft. 2-in. concrete gutter; 35,323 sq. ft. 8-in. conc. pavement; 41,323 sq. ft. 6-in. concrete base; 506 tons 2-in. Warrenite-Bit. pavement (Section A); 110 tons 8-in. do. (Section C); 4,392 tons do. (Section B); sanitary sewer; water system; traffic signals; ornamental lighting system; remove: 16,218 sq. ft. existing concrete pavement.

LOS ANGELES, Calif.—J. J. Jessup, city engineer, has prepared a preliminary estimate for improving Ramona Blvd. 100 ft. east of Soto St. to Aliso St.; Aliso St., Ramona Blvd. to Mission Road, under cash contract, involving: 196,772 cu. yds. excavation; 27,564 cu. yds. fill; 16,346 lin. ft. cement curb; 328,720 sq. ft. 8-in. pavement; 2,230 lin. ft. bulkhead; retaining walls at Macy St. bridge.

Bridges in connection with the above project for which R. W. Stewart, bridge design engineer, is preparing plans, are:

- Marengo St., \$28,000.
 - Cornwell St., \$30,000.
 - Lord St., \$27,400.
 - State St., \$40,000.
- The total cost of the project is estimated at \$320,000.

SAN FRANCISCO.—Department of Public Works, S. J. Hester, Chief Deputy Director, plans to improve Colby from Silver Avenue to Silliman, involving:

- (1) 1800 cu. yds. excavation;
 - (2) 150 ft. 8-in. V.C.P. sewer;
 - (3) 5 Y branches;
 - (4) 40 ft. 6-in. V.C.P. side sewer;
 - (5) 1 brick manhole.
- Estimated cost, \$1300. John J. Casey city engineer, 3rd floor, city hall.

LOS ANGELES, Calif.—Until 2 P. M., August 21, bids will be received by county supervisors to pave Slauson Ave. in Maywood from Mayflower to Riverside Drive, 2615 lin. ft. or 0.50 mile, under cash contract, involving: 4,723 cu. yds. excav., including removal of trees, walks and curbs; 4,934 lin. ft. 6x9x15 cem. conc. curb; 33,290 sq. ft. 6-in. cem. conc. gutter; 65 cu. yds. cem. conc. cross gutter, type D; 2,334 sq. ft. 1½-in. pre-mix pave.; 463 sq. ft. 8-in. cem. conc. pave.; 71,600 sq. ft. 4-in. asph. conc. base; 2,340 tons 2-in. asph. conc. surface; 2 drainage structures; 575 lin. ft. 1½-in. furnish and place lighting conduit; replace and rest manhole at ayflower 9ve.

Geo. W. Jones, county road commissioner, Mame B. Beatty, clerk of the board, 501 Hall of Records.

4.4-MI. ASPH. CONCRETE PAVE — SAN DIEGO CO

SAN DIEGO COUNTY, Calif.—Griffith Co., 502 Los Angeles Railway Bldg., Los Angeles, at \$70,086.20 submitted low bid August 2 to the State Highway Commission, Sacramento, to grade and pave with Portland cement concrete on 1.8 miles between Broadway and Harasthy St., involving:

- (1) 7200 cu. yds. rdwy. embank.;
- (2) 850 cu. yds. struc. excav.;
- (3) 39,500 sq. yds. subgrade for pave.
- (4) 8350 cu. yds. Class A Port. cem. conc. pave.;
- (5) 2 cu. yds. do. curbs;
- (6) 45 cu. yds. Class do. struc.;
- (7) 188,000 lbs. bar reinf. steel, pave and struc.;
- (8) 2500 lbs. misc. iron and steel struc.;
- (9) 234 lin. ft. 18-in. reinf. conc. pipe;
- (10) 12 lin. ft. 24-in. do;

UNIT BID SUMMARY

Compiled from the Daily News Service of Pacific Constructor

SLOPE EXCAVATION — LOS ANGELES CO.

LOS ANGELES COUNTY, Calif.—Von der Hellen & Pierson, Castlac, at \$56,717.60 submitted low bid August 2 to State Highway Commission, Sacramento, to excavate slopes between Palomas Creek and Whittaker Bridge, 6.3 miles, involving:

- (1) 180,000 cu. yds. slope excav., unclass.;
- (2) 310,000 ml. yds. overhaul;
- (3) 3900 cu. yds. struc. excav.;
- (4) 8 lin. ft. 18-in. corr. metal pipe;
- (5) 34 lin. ft. 24-in. do;
- (6) 50 lin. ft. 36-in. do;
- (7) 3 culvert headwalls, move and re-set.

Complete bids follow:

- (A) Von der Hellen & Pierson, Castlac, \$56,717.60.
- (B) Jahn & Bressi, Los Angeles, \$58,339.40.
- (C) Yglesias Bros., San Diego, \$81,239.50.
- (D) Lang Transportation Co., Los Angeles, \$82,745.60.
- (E) Hall Johnson and M. S. Ross, Alhambra, \$89,986.70.
- (F) Weymouth-Crowell Co., Los Angeles, \$99,933.00.
- (G) T. L. Parker, Los Angeles, \$109,446.00.

1.8-MI. GRADE AND PAVE—SAN DIEGO CO.

SAN DIEGO CO., Cal.—Griffith Co., 502 Los Angeles Railway Bldg., Los Angeles, at \$92,782.20 submitted low bid August 2 to State Highway Commission, Sacramento, to pave with asphaltic concrete 4.4 miles between Barnett Ave. and Balboa Ave., involving:

- (1) 350 cu. yds. struc. excav.;
- (2) 78,000 sq. yds. subgrade for pave.;
- (3) 100 cu. yds. cushion course;
- (4) 33,800 tons asph. concrete;
- (5) 60 cu. yds. Class A Port. cem. concrete curbs and gutters;
- (6) 8 cu. yds. Class A do (struc.);
- (7) 700 lbs. bar reinf. steel (struc.);
- (8) 1100 lbs. misc. iron and steel (struc.);
- (9) 168 lin. ft. 12-in. reinf. conc. pipe

- (10) 136 lin. ft. 14-in. do;
- (11) 2600 sq. yds. asph. paint binder;
- (12) 50 cu. yds. conc. remove from existing pavement and curb;
- (13) 2500 barrels fuel oil;
- (14) 660 guide posts;
- (15) 233 sta. finish roadway.

Complete bids follow:

- (A) Griffith Co., Los Angeles, \$92,782.20.
- (B) V. R. Dennis Const. Co., San Diego, \$94,859.00.
- (C) Daley Corp., San Diego, \$97,871.60.

EASTBAY DRIVE PROMISES 2,000 NEW DWELLINGS

Recovery Committee Reports Pledges Being Obtained For Many Homes

More than 200 Eastbay families have recently signified their willingness and ability to buy lots and build new homes in the immediate future, as a result of the home building campaign begun last week by the Eastbay Recovery committee, according to a report filed with the Oakland Real Estate Board.

The committee has enlisted the cooperation of a large number of employers who are urging upon their employees the desirability and timeliness of home building. The names of those willing to undertake such projects are being filed with the committee.

Members of the Oakland Real Estate Board have been asked to cooperate with the committee in handling the transactions of lot purchase and home building for the people named by the employers. For this purpose, the committee has set up certain requirements which the realtors are asked to meet.

In a communication to the realty board, Thomas G. McGuire, chairman of the executive committee of the Eastbay Recovery Committee, declares that it is the hope of the organization to be instrumental in procuring the erection of 2000 new homes in the Eastbay district within the next two years. He said:

"Our organization is centering its effort on stimulating new construction, particularly residence construction, because a dollar spent in that manner will go farther toward widening local employment and increasing local general prosperity than can be done by a dollar spent or invested in any other fashion.

"Bank and lending institutions are strongly in sympathy with this movement and wholly in accord with its purposes and our methods. Some are already committed to new lending policies which are far more liberal toward the borrower than any in vogue by such concerns for several years. It is expected that others will do so as the movement progresses."

THE WEEK'S NEWS Highlights

TAX EXEMPTIONS. Contractors and materialmen are still figuring their way in and out of the new California state sales tax. A tax manual is said to be in process of publication at Sacramento, meanwhile rulings of the New York Tax Commission on similar tax set-up are being consulted as the best authority. Most definite information from the California Board of Equalization was that issued Thursday re Federal purchases. Any material for Federal public works contracts, or any sales to Federal agencies of equipment and supplies for government use are to be exempt from tax.

STATE PROJECTS. California State Chamber of Commerce delegation was one of the early visitors to the office of Regional Public Works Administrator Justus Wardell last week. On Mr. Wardell's desk they left a list of 700 and more proposed public works projects for which Federal loan or gift financing is sought. Estimated cost of all projects listed exceeds \$250,000,000.

CONSTRUCTION CODE. Construction League of the United States of which the Construction League of California is local affiliate has presented to the NRA a comprehensive basic code for the construction industry. Minimum wage of 40 cents an hour and 35-hour week are essential items in proposal which also expressly prohibits "bid peddling."

COAST PERMITS. Coastwide survey of building permits for July reveals gain exceeding 60 percent over the corresponding month last year. Since gains are reported from widely separated cities and figures are almost wholly for private work, the month's history is particularly encouraging.

PERMIT SURVEY SHOWS BIG GAIN OVER LAST YEAR

Principal Cities of Coast Report 62 Per Cent Increase In Total

An increase of 62 percent in value of building operations commenced in July, compared with July last year is shown in reports from 100 Pacific Coast cities, compiled by DAILY PACIFIC BUILDER. Contrary to the usual seasonal trend, the July totals also reveal a gain compared with June. A decline between these two months is expected normally.

The total value of permits issued by reporting cities in the monthly survey is \$6,213,591 in July this year which compares with \$3,789,011 in July last year and \$6,032,177 in June this year. The figures are for an identical group of cities in the states of California, Arizona, Nevada, Oregon, Washington, Utah and Idaho. ■

Principal cities reporting higher totals in July than for the same month a year ago include: Berkeley, Fresno, Los Angeles, Long Beach, Pasadena, Sacramento, San Diego, San Francisco and Stockton; Boise, Idaho; Portland Oregon; Seattle, Spokane and Tacoma, Washington; Ogden, Utah.

The ten cities leading the list of 100 in comparative value of permits for July follow in order:

Los Angeles	\$1,422,791
Portland	781,990
San Francisco	770,290
Long Beach	495,785
Seattle	323,595
Oakland	272,503
Beverly Hills	230,049
San Diego	177,989
Berkeley	126,307
Pasadena	122,468

TOTAL \$4,723,767

TOTAL same group of cities June, 1933 \$4,679,224

TOTAL same group of cities July, 1932 \$2,493,683

MANY LICENSES REFUSED UNDER NEW REGULATIONS

Seventeen Percent of Applicants Filing Since July 1 Rejected

SACRAMENTO, Aug. 4.—Colonel Carlos W. Huntington, state registrar of contractors, today said that approximately 17 out of every hundred new license applications filed by California contractors during July were either rejected, or ordered held for further investigation.

With approximately 100 new licenses being issued each week since July 1, Registrar Huntington said the heavy ratio of denials was due to rigid enforcement of amendments to the state contractors' act, voted by the last legislature and approved by Governor Rolph.

Indicating increased activity in the building field, Col. Huntington said that approximately 1500 new licenses had been issued to contractors since July 1, in addition to the renewal of licenses of more than 16,000 contractors licensed at the close of the last fiscal year.

"Under rigid enforcement of amendments to the contractors' act," said Huntington, "it is necessary that we reject a large percentage of the new applications because of the failure of the applicant to satisfy this department of his responsibility.

"All applicants are required to give references for their honesty and integrity, in order that the public may be given the greatest possible measure of protection. Thus, the denial of applications, without prejudice, will work no hardship upon a legitimate contractor and aids in weeding out the crooked and irresponsible operator.

"The applications denied in this manner are re-referred to a field investigator, and it is likely that many of the applicants will be able to qualify and eventually obtain their license," he said.

NEW YORK FURNACES MAKE BRIDGE IRON

Blast furnaces of the Chateaugay Ore and Iron Co., at Lyon Mountain, N. Y., are to reopen at once to supply pig iron used in the building of the San Francisco Bay Bridge and the Golden Gate Bridge, reports the Engineering News-Record. This pig iron is to be used in making cables. The firm furnished similar materials for the George Washington Bridge over the Hudson River.

SHEET METAL CODE PRESENTED

The Furnace and Sheet Metal Dealers of Northern California, Inc., were among the first to submit a code of fair competition under the new California state law, controlling intrastate industry, when headquarters were opened yesterday at the state building.

The application for state approval was submitted by J. C. Seagrave, president of the board of directors, and H. O. Lothrop, secretary-manager. Headquarters of the association are at 1700 Broadway, Oakland.

Timothy Reardon, director of the state department of industrial relations, and M. F. Daugherty, commissioner of corporations, are joint administrators of the new act.

APPROVE FUND FOR SURVEY OF QUAKE HAZARDS

Committee Recommends Appropriation to Finance S. F. Building Inspection

A \$5,000 appropriation to cover cost of inspection of buildings for weak parapet walls, overhanging cornices, and other earthquake hazards, has been approved by the building committee of the Board of Supervisors.

If the appropriation is made, the survey will be conducted by building inspectors and engineers under the direction of John B. Leonard, Superintendent of the Bureau of Building Inspection. Owners of buildings will be required by law to remove any hazards disclosed by the survey.

Leonard urged speed action on the committee, pointing out the damage wrought by falling cornices and walls in the Southern California earthquake.

The Department of Public Works asked for the appropriation a month ago, but was halted by the mayor, who questioned the legality of compelling owners to remove hazards, and referred the matter to City Attorney J. J. O'Toole.

The proposed appropriation must be approved by the Finance Committee before it is submitted to the Board of Supervisors for passage.

Under the terms of the measure, hazard would include not only walls and cornices erected in violation of the building code, but also those which have been erected legally but have become weakened.

93% PLEDGES TO RENOVIZE ARE REDEEMED

Philadelphia Reports on Final Check of Last Winter's Campaign

That the idea behind renovize and modernization campaigns to increase employment by promoting property improvements is basically sound is evidenced by a check on the results of the campaign in Philadelphia, made public by Wm. A. Law, president of the Penn Mutual Life Insurance Company, who was its general chairman.

The Renovize Philadelphia Campaign, designed to promote employment by remodeling, restoring and otherwise improving business and home properties, was held last winter. Property owners were asked to sign pledges indicating the amounts they would spend within the next six months.

A careful check of the campaign pledges, Mr. Law said, revealed that more than \$20,000,000 had been spent within five months after the close of the campaign. This is 93 per cent of the amount pledged.

"The leaders of the campaign believed that the great majority of pledges would be fulfilled," Mr. Law said. "However, since the movement was entirely voluntary, we had no means of proving to ourselves and to the community how many of those who signed pledges would actually have the work done.

"A careful check of nearly all the residential and business pledges shows that \$20,000,000, or 93 per cent of the amount pledged, has already been spent. Surveys by the United States Chamber of Commerce show that of the money spent in a community for renovizing work, 70 per cent goes directly into the pay envelopes and pocket-books of wage earners. Therefore our campaign increased the pay of these wage earners by some \$14,000,000. Getting this money into circulation had a very beneficial effect on business in this community."

San Mateo county's renovize drive will start definitely on August 15, C. C. Young, chairman of the committee, announced yesterday. The date has been moved forward a week in order to avoid conflict with this week's campaign in behalf of the NRA program. Cities throughout the county have formed local committees and a quota of one million dollars worth of building remodeling and repair work has been set.

Contract Prices to be Checked With Day Labor Jobs in Federal Program

"Construction by contract, in so far as highways are concerned has been officially brought to the bar for trial, with the day labor system as prosecuting attorney and the cost ledger as the jury and judge," says the current issue of "Central Constructor," publication of the Associated General Contractors, Des Moines.

The article continues:

"Among special provisions issued by the federal bureau of roads governing construction of the highways to be built with funds made available in the \$450,000,000 appropriation carried by the National Industrial Recovery Act, is one provision requiring that in each state receiving a share of these funds, at least one representative highway project shall be constructed by the "direct labor" or day labor method.

"Chief Thomas H. MacDonald of the Bureau of Roads has long been known as a believer in the contract system, but he is also known as a fair and reasonable public officer. He has laid down terms for the carrying out of this test of day labor which are eminently fair to the day labor advocates and, as far as they may be, are equally fair to construction by contract.

"Contractors of course are placed upon trial of the merits of their system at a time when the entire industry is suffering from the most widespread disturbance possible to conceive. Not only is the industry itself effected by the innovations of federal control, but all others with which it must deal are similarly effected. The contractor will not be permitted, under the federal regulations, to make use of one of his time proven advantages over the day labor method—the advantage of having under his direct supervision a force of trained, loyal, reliable men whose performance is coordinated to produce the best results. Contractors will be obliged, in this competition with day labor projects, to assemble crews for each job from lists prepared for them. They must take what is offered to them and make the best of what they get.

In justice to the terms laid down

by the Bureau of Roads for the day labor projects it must be admitted that they will be subject to the same procedure for recruiting their crews, that they will be expected to include in their report all costs properly chargeable to the job, including the assembling and moving of equipment to and from the job, repair and maintenance of all equipment during the period of use, actual rental charges paid for equipment or a reasonable depreciation charge for equipment owned by the highway department, and any payments actually made for workmen's compensation, medical examination, liability or other insurance. These conditions, of course, place a handicap upon the day labor system which it will find more difficult in meeting than will contractors in meeting the necessity for organizing efficient crews composed of inexperienced and unfamiliar men. For while contractors through the years have learned to train good workmen, even during the course of a brief job, day labor has never learned to count its costs—or has never learned to account for them publicly and honestly.

One other element enters into the test—for it is actually a test of the contract system's claimed superiority over day labor. This time day labor will be placed on its metal to make a showing. Its advocates will see to it that good men are placed in charge. They will avoid suspicion of skimping, evasion of specifications, carelessness in the purchase of materials and in the handling of equipment, as the average day labor job has never done before. An extreme effort will be made on each job to show that day labor is more advantageous to the public interest and the public treasury than is the contract system. There will be a new degree of caution in the wholesale employment of labor, despite the fact that the entire highway program is specifically created and carried out in the interest of promoting employment. Day labor jobs will say—for contractors take care of the extra the first time in history—"let the

job-hunters. This is our chance to demonstrate how cheaply we can get by; not how many men we can hire or how many votes we can influence by patronage."

"Mr. MacDonald has left no doubt as to the significance of this test. His special provisions say:

"The continued approval of direct (day) labor projects will be contingent upon a showing that work by such methods can be performed at costs which are less than contract costs."

"Here is a challenge to the construction industry which, despite the fact that it will be a newly inspired and vastly improved brand of day labor against which it will have to compete, it should welcome. If day labor is 'shown up' in a direct contest of this kind, in which it can offer no alibi for failure and can evade no showing of inefficiency, the construction industry may have laid to rest an old ghost which has been extremely costly and annoying these many years, not only to itself but to the tax payers.

"Construction by contract, however, sure of its system as it has reason to be, may not now safely underestimate the foe it has to meet. It must also be on its toes, give a good account of itself and demonstrate once more that it is the logical, economical and certain way to perform public works."

The following regulations have been approved by the Los Angeles Building and Safety Commission for placing of signs on borders and roof of a marquee:

Permission to place: 1. Banners and pennants made of fabric hung on the marquee borders, provided there is not less than 7-foot clearance above the sidewalk under the same. 2. Banners hung from flag poles or walls of the building above a marquee. 3. Neon signs not more than 18-feet in height and not to exceed a total length of 6 feet on any one marquee may be placed on top of marquee borders, provided same comply with provision of electrical ordinance. All deviations from this ruling are to be removed and if after 90 days from July 6, the ruling is found to be satisfactory, the Board will consider amending the ordinance accordingly.

ROAD DIVISION HEADQUARTERS TO BE SHIFTED

Additional Mileage in State System Makes Reorganiza- tion Necessary

Plans for removal of two division highway offices from Sacramento to other cities and the establishment of a new division with headquarters at San Diego are under consideration by State Director of Public Works Earl Lee Kelly.

The changes probably will become effective before August 21 when the state will launch its new highway construction program.

Kelly said the transfers are contemplated to promote efficiency, economy and public service under the new highway administration set-up which is occasioned by transfer of 6600 miles of county roads to the state system.

District Engineer Chas. H. Whitmore with his staff of forty engineers and clerks is due to move to Marysville, the new headquarters for District III. District Engineer R. E. Pierce with thirty-nine on his staff will go to Stockton to establish headquarters of District X.

District III under the revised plan will include the east and west Pacific highways north to Tehama County, the Tahoe-Ukiah Highway, the Victory and Lincoln highways between the Nevada state line and Solano County, and the Golden State Highway from Sacramento to the San Joaquin County line.

District X will pick up the Golden State Highway at the county line and follow it to Madera County, take in the Sacramento-Oakland Highway at the Yolo-Solano line and other roads east and west from Stockton.

It is understood also that a new district is to be created, including San Diego, Riverside and Imperial counties. The transfer of District Engineer E. E. Wallace from Fresno to San Diego to take charge of the new division is contemplated, according to a report from Fresno.

The new division of highway districts by counties would be as follows:

I.—Del Norte, Humboldt, Mendocino counties; western Siskiyou and Trinity counties; headquarters, Eureka.

II.—(Unchanged) Siskiyou, Modoc, Lassen, Shasta, Tehama and Plumas counties; headquarters, Redding.

III.—Sierra, Nevada, Yuba, Butte, Glenn, Colusa, Sutter, Yolo, Sacramento, El Dorado counties; headquarters, Marysville.

IV.—San Francisco, Alameda, Marin, Sonoma, Napa, Contra Costa, San Mateo, Santa Clara, Santa Cruz counties; headquarters, San Francisco.

V.—(Unchanged) San Luis Obispo, San Benito, Monterey, Santa Barbara counties; headquarters, San Luis Obispo.

VI.—Madera, Tulare, Kings, Fresno and western Kern counties; headquarters, Fresno.

VII.—Los Angeles, Ventura and Orange counties; headquarters, Los Angeles.

VIII.—San Bernardino and north-west Riverside counties; headquarters, San Bernardino.

New State Statute Gives Preference To Bidders Operating Under Codes

For the protection of firms operating under the Federal NRA codes from competitors whose business is wholly within the state and therefore not subject to Federal control, the California legislature in July enacted two state laws, Assembly Bills 2400 and 2432. These statutes together authorize state authorities to enforce compliance of industries within the state with Federal codes and permit local groups to obtain state approval for voluntary regulation.

An important provision of the state act is that according preferential treatment to materialmen operating under a code. Authorities awarding public works contracts must require contractors to give a preference of 15 per cent to materials produced under the N R A code. In the purchase of supplies for public use a preference of 10% is accorded any bidder operating under the code.

Following is the complete text of the provision governing contract awards and purchase of supplies:

"Section 4. In furtherance of the purposes hereof any department of the State of California and any governing body of any political subdivision, municipal or other public corporation or of any district and any public officer or person charged with (1) the letting of contracts for the construction, alteration, or repair of public works, or (2) the purchasing of materials or supplies for public use (1) shall in letting contracts for the construction, alteration, or repair of public works cause to be inserted in each such contract for an expenditure in excess of five hundred dollars a clause providing that the contractor shall give a preference of fifteen per cent to supplies, articles, and materials mined, produced, manufactured, or supplied in observance of any code of fair competition approved, prescribed, or issued under the said Title I of the National Industrial Recovery Act, or under any similar law of the State of California, or in pursuance of any agreement entered into or approved under said laws, or in conformity with the terms prescribed in any licenses issued under said laws, as the case may be, and which concerns such trade or industry and subdivision thereof as may be involved, and (2) in the purchasing of materials or supplies for public use, shall give a preference of ten per cent to any bidder who expressly agrees to furnish only such materials or supplies so mined, produced, manufactured or supplied.

Any contractor or person who

IX.—Mono, Inyo and east Kern counties; headquarters, Bishop.

X.—San Joaquin, Stanislaus, Merced, Amador, Calaveras, Alpine, Tuolumne and Mariposa counties; headquarters, Stockton.

XI.—(New district) San Diego, Imperial and southeast Riverside county; headquarters, San Diego.

turnishes materials or supplies for public use or on public works, in violation of any such clause in his contract shall not be entitled to payment for the materials or supplies furnished, to the extent of such violation. Nothing contained in this act shall, however, be construed to repeal or in any way modify the terms of any public works labor law now in effect in this State or heretofore approved or by any other law for the protection of workers in this State. The provisions of this act shall instead be construed to supplement such laws."

All state codes must be submitted to M. F. Daugherty, chief of the Division of Corporations, who is charged with supervision and enforcement. The codes must be approved also by Timothy A. Reardon, director of the Department of Industrial Relations.

Fees to be paid for administration of the code are \$25 at the time of filing and an annual license not to exceed 25 cents per annum for each employe in the trade or industry represented.

ALAMEDA CONTRACTS FOR SYSTEM SURVEY

Alameda city council has approved a contract with the Jones Gas Process Company of San Francisco for a survey of the Alameda gas distributing system in contemplation of its purchase from the Pacific Gas and Electric Company. The Jones company bid \$1500 for making the investigation and report.

In addition to other structures, the pier will have a ballroom, bath houses, swimming pool and sky-ride towers. A breakwater, 80x1400 feet, enclosing a yacht harbor, is also contemplated. Estimated cost of the project is \$2,500,000.

SAN FRANCISCO.—Until August 16 2:30 P. M., bids will be received by S. J. Hester, chief deputy director, Dept. of Public Works, City Hall, for new passenger elevator in the Civic Auditorium for the Board of Education. Estimated cost, \$7,300.

BERKELEY, Cal.—Ransome Co., 1450 Harrison St., Oakland, at \$3519 (30 days completion) submitted low bid to the Regents of the University of California to construct three tennis courts on the University of California campus, Berkeley. Complete bids follow:

Ransome Co., Oakland, \$3519; Alt. \$4274, 30 days.
Price Constr. Co., Oakland, \$3850; Alt. \$3500; Alt. \$3300, 30 days.
J. H. Fitzmaurice, Oakland, \$3873; Alt., \$3134; Alt., \$3372, 21 days.
W. H. Larsen, Berkeley, \$4350, 30 days.
Lee J. Immel, Berkeley, \$4395, 45 days.
Malott & Peterson, San Francisco, \$4785, 60 days.
Tleslau Bros., Berkeley, \$4968; Alt. \$5190, 30 days.
Bids held under advisement.

LOS ANGELES, Cal.—The office of the City Engineer has completed for the use of the Board of Public Works a list of street, structural, sewer and storm drain projects to be used in the selection of work to be financed under the NRA. The list totals \$60,371,840, segregated as follows:

St. improvement projects	\$16,287,250
Structures	12,933,490

Sanitary sewer projects.....	3,993,100
Storm drain projects.....	26,148,000

Grand total\$60,371,840

Contract Awarded.

OVENS Cost, \$2000
SAN FRANCISCO, SE Mendell and Oakdale Streets.
Install ovens in bakery.
Owner—A. Traverso, 466 Union St., San Francisco.
Architect—Not Given.
Contractor—J. P. Glaser, 2480 Union St., San Francisco.

WASHINGTON, D. C.—John S. Heilmann, 2703 21st St., San Francisco, at \$18,698 submitted low bid to Treasury Dept. for retaining walls, roadway, etc., at the U. S. Marine Hospital, San Francisco. Second low bid was submitted by Theodore Cohn, San Francisco, at \$19,450 and third low bid by E. J. Treacy, San Francisco, at \$19,590. Complete list of bids will be published shortly.

SAN FRANCISCO.—Until August 16 1:45 P. M., informal bids will be received by S. J. Hester, Chief Deputy Director, City Hall, for concrete stairs on the south sidewalk of Waller St. between Buena Vista Ave. and Broderick Street. Estimated cost, \$450.

20—MISC. SUPPLIES AND MATERIALS

ALBANY, Alameda Co., Cal.—California Wire Cloth Company, 587 Mission St., San Francisco at \$1,265 submitted low bid to Albany City Council for iron fencing along the northern boundary of the City Park.

SAN FRANCISCO.—Readymix Concrete Co., Ltd., Carolina and Marinosa Sts., awarded contract under Bid No. 1020 by City Purchasing Agent to furnish ready-mix concrete.
Complete bids published June 10.

LOS ANGELES, Calif.—Bernard Bandler & Sons were awarded the contract by Saul A. Joseph, Purchasing Agent of the Metropolitan Water District, August 4 for furnishing carbons (black diamonds) under Bid No. 12913.

DENVER, Colo.—Specifications No. 597-D for furnishing bituminous primer and enamel for pipe coating, for Boulder Dam, will be changed by the Bureau of Reclamation in order to open up the work to competitive bidding. Apparently only one firm could submit a bid on specifications as previously prepared. The previous bid opening was scheduled for August 3.

Planned.
RACE TRACK Cost, \$750,000
SAN FRANCISCO. Site to be Selected Construct race track.
Owner—Charles Strub et al, Seals Stadium, 16th and Bryant Sts., San Francisco.
Architect—Miller & Pflueger, 580 Market St., San Francisco.

A permit has been applied for to the State Racing Commission to operate. Associated in the racing enterprise are:

Felix McGinnis, Cliff Weatherwax, Roger Lapham and Harry Young, all of San Francisco. Further details will be announced when the permit is granted.

Four sites are under consideration, two in San Francisco and two in San Mateo.

LOS ANGELES, Cal.—The Water & Power Commission has recommended that A. J. Holm, Los Angeles city purchasing agent, award a contract to Soule Steel Co. at \$2929 for furnishing metal doors under Spec. No. 3069.

SACRAMENTO, Cal.—Following bids received by U. S. Engineer Office, at Sacramento to furnish:
(1) 4000 lin. ft. (100) Douglas fir piles, 40-ft. long;
(2) 4500 lin. ft. (100) do, 45ft. long;
(3) 2500 lin. ft. (50) do, 50-ft. long;
(4) 2800 lin. ft. (40) do, 70-ft. long.

Dougherty Lumber & Box Co., Cottage Grove, Ore., (1) \$.05 (2) \$.05 (3) \$.05 (4) \$.055.

James L. Hall, San Francisco, \$.0575 for all.

Hammond Lumber Co., \$.0575 for all.
Fox Lumber Co., Portland, \$.059 for all.

W. W. Wilkenson, \$.055, \$.0555, \$.063, \$.086.

McDonald & Harrigan, \$.064 for all.
McCormick Supply Co., \$.0723 for all.

J. H. Baxter, San Francisco, \$.0775 for 1, 2, and 3, \$.0825 for 4.

Gamerston & Green, \$.074 for all.
Sullivan Lbr. Co., Portland, \$.08 for all.

Morrill Stergeon, Portland, \$.085 for all.

Chas. R. McCormick Lbr. Co., \$.1385 for all.

Chas. Nelson Co., \$.1675 for 1, 2 and 3, \$.20 for 4.

Knox Lumber Co., lump sum bid, \$1035.

Bids held under advisement.

SANTA BARBARA, Cal.—Until 1:30 P. M., August 17, bids will be received by city council for furnishing 7000 bbls. crude oil for use on city streets during a period of six months. The bids received by the council July 27, were rejected August 4.

LOS ANGELES, Cal.—Los Angeles Iron & Steel Co. awarded contract by Saul A. Joseph, Purchasing Agent of the Metropolitan Water District, August 5 at \$1474.85 for furnishing steel under Bid No. 13360.

BREMERTON, Wash.—Until Aug. 21, 10 A. M., D. S. T., under Req. No. 491 NSA, bids will be received by Supply Officer, Puget Sound Navy Yard, to furnish:

(1) 4000 ft. radio cable, SRTL 1-4000 C.M.;
(2) 2000 ft. TRLL do, 2-4000 C.M.;
(3) 2400 ft. SRHL do, 1-4000 C.M.

Specifications obtainable from above office. Delivery Astoria and San Francisco, Sept. 11.

YREKA, Siskiyou Co., Cal.—Until Sept. 1, bids will be received by Forest Supervisor, Yreka, for all the merchantable dead timber standing or down, and all the live timber marked or designated for cutting on two areas within Sec. 4 T. 41 S. R. 1 W., W. M. Klamath National Forest, Oregon. Further specifications obtainable from above.

SAN FRANCISCO—Golden Gate Iron Works, 1541 Howard St., at \$710 for item 1 and Berkeley Steel Construction Co., Second and Camelia Sts., Berkeley, at \$182.75 for item 2 awarded contracts by U. S. Forest Service to furnish structural steel for 75 ft. steel trail bridge also structural steel for two steel towers 14 ft. ¼ in. Complete bids follow:
Independent Iron Works*, \$600; \$175.
Golden Gate Iron Works, \$710, \$200.
McClintic-Marshall Corp., \$758, \$178.
Schrader Iron Works, \$725, \$196.
Judson-Pacific Co., \$751, \$190.
Moore Dry Dock Co., \$885, \$247.

*Bids disqualified.

21—BRIDGES

GILA COUNTY, Ariz.—Until Aug. 24 10 A. M., bids will be received by C. H. Sweetser, District Engineer, U. S. Bureau of Public Roads, 802 Title and Trust Bldg., Phoenix, to construct two bridges on Section H, Route 12, Globe-Holbrook National Forest Highway, Tonto National Forest, involving:

- (1) 231 cu. yds. unclass. excav.
- (2) 19.3 MFEM untreated timber;
- (3) 199 cu. yds. cem. rubble masonry;
- (4) 164 sq. yds. asph. seal coat, bridge floor.

Specifications obtainable from above office on deposit of \$10, returnable; certified check payable to Regional Fiscal Agent, U. S. Forest Service.

WASHINGTON STATE.—Until Aug. 29, bids will be received by L. V. Morrow, State Director of Highways, for bridge and structure construction as follows:

Kittitas County: Construct 316 foot timber extensions to snowshed, Lake Keechelus vicinity.

Lincoln County: Construct treated timber trestle 131-ft. long, with concrete deck, over Northern Pacific tracks at Goven; reinf. conc. girder bridge 11-ft. long over Corbett creek and double reinf. conc. box culvert 55-ft. long in Almira, from Wilbur to Almira.

Callam County: Construct 589-foot bridge, consisting of 242-ft. steel thru spans with concrete girder approaches over Dungeness river.

Jefferson County: Construct two bridges from Duckabush north, a reinforced concrete through arch, 110-ft. spans with two 28-ft. concrete girder approach spans over Duckabush river, and a reinf. conc. girder bridge 121-ft. long over slough of Duckabush river. Specifications obtainable from above.

SACRAMENTO, Cal.—County Engineer Chas. W. Deterding preparing plans to construct two bridges across Sutter Slough in the Delta region, estimated cost \$30,000 ea.; a joint project of Sacramento and Yolo counties. Project will be financed by federal funds through the NRA. One bridge will be between Sutter and Merrit islands across the mouth of Sutter Slough; the other between Sutter Island and Holland Land district, a road to be built from the Holland Land bridge to the Paintersville bridge.

SAN JOSE, Santa Clara Co., Cal.—Collins & Martin, 1139 Glenn Ave., San Jose, at \$2698 awarded contract by county supervisors to widen reinforced concrete culvert on Montague Road at San Jose-Alviso Road, Supervisor District No. 3. Complete bids follow:

Collins & Martin, San Jose.....	\$2698
O. G. Ritchie, San Jose.....	2895
John D. Carlson, San Jose.....	3075
F. O. Bohnett, Campbell.....	3278
T. J. Doyle, San Francisco.....	3637
Carl N. Swenson, San Jose.....	3724
Lee J. Immel, Berkeley.....	3844
Surveyor's Estimate	3360

SAN JOSE, Santa Clara Co., Cal.—Collins & Martin, 1139 Glenn Ave., San Jose, at \$3058 awarded contract by county supervisors to construct three reinforced concrete culverts on Columbet Ave., between Church and Mastie Ave., Supervisor District No. 1. Complete bids follow:

Collins & Martin, San Jose.....	\$3058
F. O. Bohnett, Campbell.....	3445
Soda & Son, Oakland.....	3818
Wm. Radtke, Gilroy.....	3823
T. J. Doyle, San Francisco.....	3877
Carl N. Swenson, San Jose.....	4138
John D. Carlson, San Jose.....	4198
Sam Sciarrino, San Jose.....	4270
Valley Constructors, Inc., Modesto.....	4450
Surveyor's Estimate	3440

RIVERSIDE, Cal.—Until 10 A. M., August 21, new bids will be received by County Purchasing Agent, W. L. Carlson, Court House, for furnishing lumber for a pile trestle bridge over the Temecula River. The bids on redwood lumber opened July 17 were rejected August 7. New bids will probably be taken on Oregon pine and Douglas fir in some combination.

COCONINO COUNTY, Ariz.—Until August 31, 10 A. M., bids will be received by C. H. Sweetser, District Engineer, U. S. Bureau of Public Roads, 802 Title & Trust Bldg., Phoenix, to construct the Dead Indian Canyon Bridge on Section C, Cameron-Desert View approach to Grand Canyon National Park, involving:

- (1) 625 cu. yds. unclas. excav., struc.;
- (2) 425 cu. yds. concrete;
- (3) 46,000 lbs. reinf. steel;
- (4) 380,000 lbs. struc. steel;
- (5) 604 lin. ft. steel rail.

Specifications obtainable from above office on deposit of \$10, certified check payable to Regional Fiscal Agent, U. S. Forest Service.

22—DREDGING, HARBOR WORKS, EXCAVATION

SACRAMENTO, Cal.—Union Granite Co., Rocklin, at \$600 (\$.60 ton) submitted low bid August 3 to U. S. Engineer Office, Sacramento, to furnish 1000 tons rip-rap stone for wing dams. Only other bid submitted by Guy F. Atkinson, San Francisco, at \$890 (\$.89 ton).

Bids held under advisement.

CAPITAL CITY TITLE COMPANY

J. C. PALEN,
Manager

914 Seventh Street
Sacramento :: California

LOS ANGELES, Cal.—Until Sept. 6, 3 P. M., bids will be received by U. S. Engineer Office, 751 S. Figueroa St., Los Angeles, Maj. W. H. Lanagan, District Engineer, for dredging Los Angeles Outer Harbor, involving removal of 170,000 cu. yds. of material. Specifications obtainable from above office.

EUREKA, Humboldt Co., Cal.—Hearing on proposed improvement of Humboldt Bay and harbor will be held by the War Department (U. S. Engineer Office) August 11 at 2 P. M.

LOS ANGELES, Cal.—Bids will be called by the U. S. Engineer, Lieutenant, Virgil L. Peterson, 751 So. Figueroa St., Los Angeles, probably within the next ten days for the construction of a 4000-ft. unit of the Los Angeles Harbor Breakwater. The proposed work will be additional to the 1400-ft. unit now under construction, and will be part of the ultimate 12,500 ft. breakwater. The cost of the present 4000-ft. section has been estimated at \$1,650,000. The new unit will be of the same cross-section as the previous unit and will be constructed in 50 ft. of water. The bids will be taken on alternative proposals as follows:

SCHEDULE "A"

Composite type of breakwater involving clay mound foundation. The quantities are:

- 350,000 cu. yds. clay;
- 1,100,000 tons stone.

SCHEDULE "B"

Alternate: All stone breakwater. The quantities are:

- 1,500,000 tons of all classes of stone.

24—ST. LIGHT. SYSTEMS

SANTA MONICA, Los Angeles Co., Cal.—City council has under consideration the rewiring of the old lighting system along the Ocean Front promenade, and extension of lighting system along three miles of the beach, at an estimated cost of \$150,000. Application will be made for N. R. A. funds.

25—MACHINERY AND EQUIPMENT

EUREKA, Humboldt County, Cal.—Gustafson & Jensen, Eureka, at \$622 net (allowance made for old car) was awarded contract by city council to furnish one new Oldsmobile 8 coupe. Seven bids in all were received.

SAN FRANCISCO.—Yondall Const. Co., 215 Market St., awarded contract by U. S. Forest Service for the rental of a power shovel with operator, compressor and Caterpillar tractor.

LINCOLN, Placer Co., Calif.—Until August 18, 7 P. M., bids will be received by Violet M. Tupper, Clerk, Lincoln Union Grammar School District, to furnish:

One V-8 Ford truck chassis, or equal, lengthened and equipped to accommodate and carry a 35 and 45 grammar school capacity bus body.

One Patchetts and Carstensen all-steel double strength coach body, or equal, 35 and 45 grammar school capacity.

One Chevrolet truck chassis, or equal, equipped with coach body or equal; 35 and 45 grammar school capacity.

Specifications obtainable from above office.

SAN FRANCISCO—Following bids received by U. S. Forest Service, to furnish five revolving scrapers for use behind tractors, 7-yd. capacity, for 55-drawbar hp. tractors:

Killefer Mfg. Co., Los Angeles, \$843.75 (for 5).

Davenport Mfg. Co., Los Angeles, \$848.75.

Associated Equipment Co., Los Angeles, \$872.59.

Solano Iron Works, \$975.

Ed. R. Bacon Co., \$1050.

Chas. Berg Imp. Co., San Francisco, \$270 each., Ala. \$360, Alt., \$388.

Euclid Road Machinery Co., Cleveland, \$270 f.o.b. Euclid.

Austin-Western Road Machinery Co., \$2012.50; Ala., \$1207.50 (f.o.b. factory).

Bids held under advisement.

LOS ANGELES, Calif.—Until 2 P. M., August 28, bids will be received by county supervisors to furnish electric storage battery tractor, batteries and charging equipment to the General Hospital, 1100 Mission Road, under Specifications No. 291. This tractor is to be used for towing rubber-tired light industrial-type trailers through corridors of buildings and about the grounds of the General Hospital. The tractor shall be capable of pulling train of trailers gross weight load of 10,000 lbs. plus or minus. Bids will be taken as follows:

(A) Price of installation complete as per specifications using Edison storage batteries.

(Alt. No. 1) If Exide "Ironclad" storage batteries are used in place of Edison batteries, deduct.

Wm. Davidson, 1006 Hall of Records, county mechanical engineer. Mame B. Beatty, 501 Hall of Records,

SAN FRANCISCO—Until Aug. 18, 3 P. M., under Bid No. 1063, bids will be received by T. A. Brooks, City Purchasing Agent, 270 City Hall, to furnish one caterpillar maintenance unit for Department of Public Works. Specifications obtainable from above office.

MADERA, Cal.—Gordon Chevrolet Co. awarded contract by Madera Union High School District to furnish one G.M.C. T-43 chassis and the City Garage, to furnish one Wayne All-steel bus body, 48-passenger capacity

28—FIRE EQUIPMENT

BERKELEY, Cal.—Unail Aug. 22, 10 A. M., bids will be received by Florence E. Turner, City Clerk, to furnish:

(1) 1300 ft. 2½-in. cotton fabric rubber lined tire hose;

(2) 500 ft. 1½-in. double jacket do.

Specifications obtainable from above office.

30—RESERVOIRS & DAMS

SEATTLE, Wash.—King County Engineer Thomas D. Hunt, announces that plans will be prepared for \$2,000,000 flood control dam project in Buckley canyon near Enumclaw. Project proposed by King and Pierce counties. Dam would be 300 ft. wide and 250 ft. long, and would control the flow of the White River.

ELDRIDGE, Sonoma Co., Cal.—State will make survey in connection with construction of a dam and a lake reservoir on the coast side of the Sonoma State Home at Eldridge; proposed capacity will be 99,000,000 gals., the same as that of the present lake.

32—SEWERS & SEWAGE DISPOSAL PLANTS

HALFMOON BAY, San Mateo Co., Cal.—Sanitary district formed by residents of the Half Moon Bay district authorizes Geo. Kneese, Redwood City to proceed with plans for installing a \$20,000 sewer system. Project will probably be financed by a bond issue and with aid from the National Industrial Recovery Act.

MILL VALLEY, Marin Co., Calif.—Homestead Valley Sanitary District, near Mill Valley, seeks \$40,000 federal funds through the NRA to construct sewer system in the district.

BRISBANE, San Mateo Co., Cal.—Residents of Brisbane consider calling special election to dissolve Brisbane Public Utility District. H. O. Royce, president, and seek federal funds for construction of 12-in. sanitary outfall sewer.

Bids on this project were opened Nov. 7, 1932, and a complete list was published in issue of November 10, project having been held up since that date due to lack of funds for construction.

REDWOOD CITY, San Mateo Co., Cal.—City Engineer will prepare plans for storm sewers at various locations, the project to be financed by federal funds through the NRA. No estimated cost has been set as yet, but may run between \$20,000 and \$30,000.

SAN RAFAEL, Marin Co., Cal.—Until August 22, 8 P. M., bids will be received by Oliver R. Hartzell, Secretary, San Rafael Board of Education, High School Building, East Mission St., San Rafael, for construction

of a storm drain on the grounds of the San Rafael High School. Plans and specifications available from above office.

CLOVERDALE, Sonoma Co., Cal.—Until Sept. 5, 8 P. M., bids will be received by A. Jos. Giovannetti, city clerk, to furnish one Imhoff tank for the municipal sewer system. Specifications obtainable from above office.

33—WATER WORKS

SAN FRANCISCO—Until Aug. 18, 3 P. M., under Bid No. 1062, bids will be received by T. A. Brooks, City Purchasing Agent, 270 City Hall, to haul approximately 1700 tons cast iron pipe for S. F. Water Department. Specifications obtainable from above office.

FRESNO, Cal.—Until Aug. 17, 11 A. M., bids will be received by H. S. Foster, City Clerk, to furnish:

(1) 5000 ft. 6-in. c. i. b. & s class 200 water pipe;

(2) 12,000 ft. 8-in. do;

(3) 4000 ft. 10-in. do;

All bids f.o.b. Fresno, Nov. 1. Certified check 10% required with bid. Further specifications obtainable from above office.

REDWOOD CITY, San Mateo Co., Cal.—City Council plan to seek \$20,000 federal funds through the NRA for the extension of the Emerald Lake water system, involving an 8-in. transmission pipe line 6000 ft. long near Brewster Ave., and construction of a 1,000,000-gal. capacity reservoir.

SACRAMENTO, Cal.—The \$170,000,000 water revenue bond act of the Central Valley water project has been signed by the governor. The project may now be included in the federal public works program. The project proposes the construction of dams at Kennett and Friant and the transfer of surplus water from the Sacramento river to the south San Joaquin valley. The department of public works plans to apply for N. R. A. funds. The plan, which involves storing of 3,000,000 acre feet of water in seven northern counties, provides for a dam near Kennett in the Sacramento river to store the water; conduits near the mouth of the river to supply lands at that point; a pumping system to carry water up the San Joaquin river from the Sacramento river; a dam at Friant in the San Joaquin river; a canal to Madera county and a long canal to carry water from that point through Fresno and Tulare counties into Kern County. Kings County would be cared for by water from the canal, transported through existing rivers or ditch systems. The Kennett dam will probably cost about \$80,000,000 and the Friant dam \$15,000,000.

LAKESIDE, San Diego Co., Cal.—Lakeside Farms Mutual Water Co., Lakeside, Calif. (J. F. Toms, vice-president) has applied to the Federal Emergency Administration of Public Works for N.R.A. funds in the sum of \$30,000 for improvements to the company's water system. Plans, prepared by Allen & Rowe, consulting engineers, provide for:

18,600 ft. concrete pipe lines,	
6-8- and 10-in.....	\$19,700
Reservoir	4,500
Modernizing pumping equip.....	500
Engineering	1,500
Gate valves	300

SAN FRANCISCO—American Tractor Equipment Co., 5301 Horton St., Oakland and Davis Mfg. Co., Davis, at \$278.50 submitted identical bids to

U. S. Forest Service to furnish one hydraulic pump complete with valve and fittings with control level, adapter, drive shaft and parts necessary for attaching to 30 Cletrac, capacity 20 GPM at 650 RPM. American Tractor Equipment Co. also submitted a bid at \$328.50 for double connected pump.

TORRANCE, Los Angeles Co., Cal.—City council has filed with the Federal Public Works Administrator the city's application for \$375,000 of N. R. A. funds to provide for a municipal water system. Complete details of the proposed system were printed in the issue of July 28. F. R. Leonard, city engineer, Salisbury, Bradshaw & Taylor, consulting engineers.

VICTORVILLE, San Bernardino Co. Cal.—The directors of the Victorville County Water District, have made application for NRA funds in the sum of \$50,000 to finance the construction of a domestic water system for Victorville. In accordance with preliminary plans prepared by Charles L. Foulke, consulting engineer, 455 4th St., San Bernardino. A bond issue of \$50,000 was voted recently. The proposed project is outlined as follows: Drilling of two 18-in. wells.

Installation of deep well pumps, capacity 100,000 gals. per day, and sand filters.

Construction of a 150,000-gal. reinf. conc. reservoir or steel water tank, 37,000 lin. ft. of 4- to 6-in. cast iron water pipe.

W. G. Roberts, Victorville, is president of the district.

OAKLAND, Cal.—American Smelting & Refining Co., 201 First St., San Francisco, at \$2250 submitted low bid to East Bay Municipal Utility District, Oakland, to furnish 30 tons copper sulphate. Only other bid submitted by Mountain Copper Company, San Francisco, at \$2280. Bids held under advisement.

LOS ANGELES, Cal.—Marko Matick, 1269 Colorado Blvd., awarded contract by county supervisors Aug. 7, at \$16,700 (proposition A), for constructing a water system involving 4-in., 6-in., 8-in. and 10-in. cast iron pipe in the Pomona fair grounds. The proposed line will hook up the city of Pomona main water line and to the present well supplying the fair grounds.

LOS ANGELES, Cal.—Until 11 A. M., August 18, bids will be received by A. J. Holm, City Purchasing Agent, 107 City Hall, to furnish and deliver to Water & Power Dept., f.o.b. warehouse at 410 Ducommun St., five hand operated sluice gate lifting gears, including threaded stem stubs, under Specifications No. 3189.

SAN FRANCISCO.—Gilmore Steel & Supply Co., 825 Folsom St., at \$1753.35 awarded contract by U. S. Forest Service to furnish 12,600 ft. 1 1/4-in. galv. iron pipe and fittings.

34—PARKS AND PLAY-GROUNDS

SEATTLE, Wash.—Until Aug. 16, 10 A. M., bids will be received by Allen Erickson, Chief Clerk, Board of Park Commissioners, Seattle, for chain link fence at the Cleveland Playground. Plans and specifications available at the Park Department Office upon deposit of \$5.00.

35—TUNNELS

SANTA MONICA, Los Angeles Co., Cal.—John A. Morton, Commissioner of Public Works, has announced that

arrangements are being made to drive a tunnel into the face of the bluff in Palisades Park at the foot of California Ave. in order to protect the park against seepage which is undermining the bluff. Nelson Marr will be in charge of the exploration work.

OAKLAND, Cal.—Joint Highway District No. 13, Wallace B. Boggs, Engineer, (Contra Costa and Alameda Counties) will seek \$3,752,035 through the NRA for construction of the Broadway Tunnel.

Plans call for a double bore, each 3168 ft. long; tunnel and approaches to be 2.08 mi. long; project to involve approximately:

- 82,000 cu. yds. concrete;
- 123,000 bbls. cement;
- 160,000 tons rock and sand.
- 4,870,000 lbs. reinf. steel.
- 1,344,000 lbs. struc. steel.
- 1,100,000 cu. yds. earth excav.

29—STREETS AND HIGHWAYS

MADERA COUNTY, Calif.—Stewart & Nuss, 410 Thorne Ave., Fresno, at \$12,811.86 awarded contract by State Highway Commission to apply bituminous surface treatment to existing pavement and shoulders in three sections as follows: Between 2.9 miles and 2 miles south of Madera, 0.9 mile; between 2 miles south of Madera and Madera; between Madera and northern boundary, 18.2 miles.

MARTINEZ, Contra Costa Co., Cal.—County plans road building program including: Tenth St. extension, Richmond, to join with State Highway at Tank Farm Hill;

Widen and repave Stockton St., San Pablo.

Pave gap in the Marsh Creek Highway, 6.5 miles, from Stonehouse to Brentwood.

Repave 6 miles of Concord-Clayton Highway.

LOS ANGELES, Cal.—J. J. Jessup, City Engineer, has completed plans for improving 118th St., from Broadway to Athens Way, under the 1911 act, involving:

- Lump sum grading;
- 10511 sq. ft. 6-in. conc. paving;
- 1362 sq. ft. 4-in. asph. conc. wear surface;
- 1172 sq. ft. oiled roadway; curb; sidewalk;

Water mains, fire hydrants and appurtenances; water service connections
REMOVALS—135 lin. ft. curb; 315 sq. ft. sidewalks. Estimated cost, \$3649.08.

LOS ANGELES, Cal.—Until 10 A. M., August 16, bids will be received by Board of Public Works for improving 51st St., between Main and Broadway, under Cash Contract, involving:

- (1) grading (960 cu. yds.);
- (2) 49,442 sq. ft. 6-in. concr. paving;
- (3) 75 sq. ft. asph. conc. wearing surf.
- (4) 600 sq. ft. rock and oil;
- (5) 94 ft. unplas. light curb;
- (6) 58 sq. ft. 3-in. concr. walk;
- (7) 113 sq. ft. 4-in. concr. walk (driveway);
- (8) 3 manholes to be reset (incl. furnishing frames and covers).

RIVERSIDE COUNTY, Cal.—C. W. Wood, P. O. Box 1435, Stockton, at \$31,200 submitted low bid to U. S. Bureau of Public Roads, San Francisco, to furnish and apply approximately 780,000 gals. liquid asphaltic road material on 33 miles of Sections A, B, and C, Route 70, Idyllwild-Desert National Forest Highway, San Bernardino National Forest. Complete bids follow:

- C. W. Wood, Stockton, \$.04; \$3,200.00
- Gilmore Oil Co., \$.0493; \$31,434.00.
- Pacific Tank Lines, Inc., Los Angeles, \$.0494; \$31,512.00.
- Fred R. Paulsen, Los Angeles, \$.0417; \$32,526.00.
- L. A. Brisbane, Arroyo Grande, \$.04192; \$32,682.00.
- Square Oil Co., Los Angeles, \$.044; \$31,320.00.
- Monarch Refineries, \$.04619; \$36,028.20.
- Richfield Oil Co., \$.01666; \$12,994.80.
- Engineer's estimate, \$.95; \$39,000.00.
- *Furnish oil only, f.o.b. refinery.
- Bids held under advisement.

ARIZONA STATE.—T. S. O'Connell, state highway engineer, has announced that Arizona municipalities will receive \$800,000 of the state's N. R. A. funds. The apportionments are:

- Wickenburg, \$191,000 (bridge).
- Flagstaff, \$125,000.
- Phoenix, \$73,000 (U. S. Highways 80 and 89).
- Tucson, \$60,000.
- Tempe, \$45,000.
- Globe, \$40,000.
- Chandler, \$30,000.
- Miami, \$30,000.
- Prescott, \$25,000.
- Mesa, \$25,000.
- Safford, \$20,000.
- Tombstone, \$20,000.
- Buckeye, \$18,000.
- Yuma, \$15,000.
- Jerome, \$10,000.
- Douglas, \$10,000.
- Pima, \$10,000.
- Thatcher, \$10,000.
- Bisbee, \$8000.
- Williams, \$5000.
- Winslow, \$5000.
- Benson, \$8000.

LOS ANGELES, Cal.—Until 10 A. M., August 16, bids will be received by Board of Public Works for Improving Exposition Blvd. from Vermont Ave. to Western Ave., under Cash Contract, involving:

- (1) grading (lump sum) 4488 cu. yds. excavation, no fill;
- (2) 154,051 sq. ft. Warrenite-Bitullithic pavement, 8-in.;
- (3) 3987 sq. ft. Warrenite-Bithullithic pavement wearing surface, average 1 1/2-in. thick;
- (4) 820 sq. ft. warrenite-Bithullithic pavement wearing surface average 1-in. thick;
- (5) 2395 sq. ft. rock and oil roadway;
- (6) 892 sq. ft. 8-in. concrete pave.;
- (7) 2857 lin. ft. unplastered light curb
- (9) 152 lin. ft. unplastered heavy curb
- (10) 1239 sq. ft. 3-in. concrete sidewalk;
- (11) 136 sq. ft. 6-in. concrete sidewalk (drive-ways);
- (12) 192 sq. ft. 4-in. concrete sidewalk (drive-ways);
- (13) 4945 sq. ft. 8-in. combination gutter;
- (14) 69 sq. ft. 6-in. concrete gutter;
- (15) storm drain and appurtenances complete, not including local depressions;
- (16) sanitary sewer complete, consisting of manhole frame and cover sets in place only, not including house connections;
- (17) 96 lin. ft. 6-in. vitrified clay pipe house connections sewers;
- (18) Ornamental lighting system complete;
- (19) 10 manholes to be reset.

LOS ANGELES, Cal.—The city engineering department has completed plans for improvements in the Carmelina Ave. and Helena St. Improvement District, under 1911 act, involving:

- 10,870 cu. yds. excavation;
- 14,688 lin. ft. curb;
- 30,394 sq. ft. gutter;
- 1,505 sq. ft. 5-in. concrete pave.;
- 261,740 sq. ft. 5-in. Warrenite Bitullithic pave.;
- storm drain.

TUOLUMNE COUNTY, Cal.—Until August 29, 2 P. M., bids will be received by C. H. Sweetser, District Engineer, U. S. Bureau of Public Roads, 461 Market St., San Francisco, for grading 6.237 miles of Section C, Route 38, the Sonora Pass National Forest Highway, Stanislaus National Forest, involving:

- (1) 48 acres clearing;
- (2) 275,000 cu. yds. unclass. excav.;
- (3) 1,100 cu. yds. unclass. excavation, structure;
- (4) 360,000 sta. yds. overhaul;
- (5) 6,237 miles finish earth graded rd.
- (6) 5,400 cu. yd. mi. haul backfill material;
- (7) 37 cu. yds. concrete;
- (8) 400 lbs. reinf. steel;
- (9) 3,162 lin. ft. corr. metal pipe;
- (10) 42 right of way monuments;
- (11) 11 spillway inlets;
- (12) 7,000 gals. liquid asph. road material.

Specifications obtainable from above office on deposit of \$10, certified check payable to Regional Fiscal Agent, U. S. Forest Service.

ALAMEDA COUNTY, Cal.—Tiffany Const. Co., 535 N 7th St., San Jose, at \$16,839 awarded contract by State Highway Commission, Sacramento, to apply bituminous surface treatment over 1.9 miles between Mission San Jose and Warm Springs.

LOS ANGELES COUNTY, Cal.—Gog & Rados, 10024 S. Figueroa St., Los Angeles, at \$15,751 awarded contract by State Highway Commission, Sacramento, to treat with asphaltic road oil 18.6 miles of roadbed and 2-in. earth shoulders between Neenach School and Del Sur Road; and between Wet Canyon and Colby Creek, 5.1 miles, roadbed to be treated with asphaltic road oil and bituminous seal coat applied.

LOS ANGELES COUNTY, Cal.—Von der Hellen & Pierson, Castiac, at \$56,717.60 awarded contract by the State Highway Commission, Sacramento, to excavate slopes between Paloma s Creek and Whittaker Bridge, 6.8 miles.

SAN DIEGO COUNTY, Cal.—Griffith Co., 502 Los Angeles Railway Bldg., Los Angeles, at \$70,986.20 awarded the contract by State Highway Commission, Sacramento, to grade and pave with Portland cement concrete on 1.8 miles between Broadway and Haras-ty Streets.

SAN DIEGO COUNTY, Cal.—Griffith Co., 502 Los Angeles Railway Bldg., Los Angeles, at \$92,782.20 awarded the contract by State Highway Commission, Sacramento, to pave with asphaltic concrete 4.4 miles, between Barnett Ave. and Balboa Ave.

SUSANVILLE, Lassen Co., Calif.—Until August 18, 2 P. M., bids will be received by the Lassen-Modoc Joint Highway District No. 14 at the offices of the District Engineer, County Surveyor's office, Susanville, for 2.89 mi. of excavation, grading, graveling and placing culvert pipes; also hauling and spreading gravel at intervals over about five miles of road now in use between Eagle Lake and Willow Creek Valley, about 35 miles north of Susanville. Specifications obtainable from above office. L. R. Cady, Secretary of the District.

SAN FRANCISCO.—Until Aug. 16, 2 P. M., bids will be received by Board of Directors of Joint Highway District No. 10, Room 375, City Hall, to construct Junipero Serra Blvd. Extension through Colma between School St. and the Edgemar road, 2¾ miles to be graded and paved with macadam and asphalt wearing surface, and involving construction of a reinforced

concrete bridge over the boulevard at Washington St., involving:

- (1) 80,000 cu. yds. excavation;
- (2) 250,000 sq. ft. 8-in. macadam base with 2½-in. asphalt wear. surf.;
- (3) 50,000 sq. ft. 8-in. do with 2-inch emulsified asph. wear. surface;
- (4) 600 cu. yds. reinf. conc. (struc.);
- (5) macadam and concrete walks and gutters;
- (6) pipe sewers;
- (7) manholes;
- (8) drop inlets;
- (9) fences.

Specifications obtainable from office of John J. Casey, District Engineer, Room 367, City Hall, on deposit of \$10. Certified check 10% required with bid. 29

EUREKA, Humboldt Co., Cal.—Capt. H. W. Rhodes, U. S. Lighthouse Service, plans survey for Petrolia-Point Gorda road on the southern Humboldt coast. 29

NEY COUNTY, Nevada.—Until Aug. 23, 2 P. M., bids will be received by S. C. Durkee, State Highway Engineer, Heroes Memorial Bldg., Carson City, to construct 20.21 mi. highway between 22 mi. and 2 mi. south of Beatty, Route 5, Sections E2, F & G1, involving:

- (1) 52,500 cu. yds. rdwy. excav.;
- (2) 27,011 sta. yds. overhaul;
- (3) 4348 cu. yds. select borrow;
- (4) 1590 cu. yds. struc. excav.;
- (5) 16.72 mi. subgrade 18-ft. wide;
- (6) 3.49 mi. subgrade 20 ft. wide;
- (7) 5 cu. yds. remove concrete foundation;
- (8) 49,200 cu. yds. cru. gravel or stone surf.;
- (9) 141 cu. yds. class B concrete;
- (10) 2690 lbs. reinf. steel;
- (11) 128 lin. ft. 18-in. corr. metal pipe;
- (12) 1342 lin. ft. 24-in. do;
- (13) 392 lin. ft. 30-in. do;
- (14) 804 lin. ft. 36-in. do;
- (15) 66 monuments;
- (16) 20.21 mi. finish roadway.

Specifications obtainable from above office on deposit of \$15. \$10 returnable. Certified check 5% required with bids.

WASHINGTON STATE.—Until Aug. 29, bids will be received by L. V. Morrow, State Director of Highways, for highway construction as follows:

King County: Pave 3.2 miles Sunset highway, State Road No. 2, from middle to lower crossing, south fork Snoqualmie river.

Kittitas County: Pave 9.1 miles from Lake Keechelus to Kachess river.

Lincoln County: Grade and surface 1.1 miles and surface 9.8 miles from Wilbur to Almira.

Grays Harbor County: Pave 2.9 miles Olympic highway, State Road No. 9, from Thurston county line to Oaksville.

Jefferson County: Grade 3.7 miles from Duckabush north.

Pacific County: Grade and surface .6 mile Willapa-Grays Harbor Highway, State Road No. 13, Raymond bridge approach.

Kittitas County: Grade 9.9 miles of North Central highway, State Road No. 7, from Ellensburg to highline canal.

Columbia County: Grade 0.5 mile Inland Empire highway, State Road No. 3, from Delaney and Jackson revisions.

Specifications obtainable from the above.)

LAS VEGAS, Nev.—J. P. King, Street Superintendent, has estimated the cost of paving Stewart St. and resurfacing all of the streets in the First Paving District at \$25,199.68. The proposed improvement calls for 1½-in. Bitumuls surfacing in the area bounded by Main and Fifth Streets

and Stewart and Bridger Streets, and 3-in. Bitumuls pavement on Stewart St., between Main and Fifth Sts., including preparation of subgrade. The work will be done by the street department. The project will be financed by N.R.A. funds on a 70-30 basis.

SAN FRANCISCO.—As previously reported, until August 16, 2 P. M., bids will be received by Board of Directors, Joint Highway District No. 10, Room 375, City Hall, to construct Junipero Serra Blvd. Extension through Colma between School St. and the Edgemar road, ¾-mi. to be grader and paved with macadam and asphalt wearing surface, and involving construction of a reinforced concrete bridge over the Boulevard at Washington St., involving:

- (1) 80,000 cu. yds. excav.;
- (2) 250,000 sq. ft. 8-in. macadam base and 2½-in. asph. wearing surf.;
- (3) 50,000 sq. ft. do, 2-in. wear. surf.;
- (4) 20,000 sq. ft. 4-in. do., 2-in. do.;
- (5) 15,000 sq. ft. resurf. 2-in. asph. wear. surface;
- (6) 6000 gtl. emulsified asph. (extra)
- (7) 30,000 sq. ft. macadam shoulders
- (8) 15,000 sq. ft. do, emul. asph. surf. tr.;
- (9) 24,000 sq. ft. macadam walk;
- (10) 3500 lin. ft. redwood curb;
- (11) 14,000 ft. 2x8-in. redwood headers
- (12) 6400 ft. 2x4-in. do;
- (13) 3400 ft. conc. gutter;
- (14) 1000 ft. emul. asph. gutter;
- (15) 1600 ft. unarmored conc. curb;
- (16) 3500 sq. ft. conc. walk;
- (17) 1600 ft. 10-in. V.C.P. culvert;
- (18) 2600 ft. 12-in. V.C.P. sewer;
- (19) 1000 ft. 18-in. do;
- (20) 910 ft. 21-in. do;
- (21) 250 ft. 18-in. metal storm sewer;
- (22) 1050 ft. 36-in. conc. do;
- (23) 20 brick manholes;
- (24) 2 conc. manholes, c. l. frames;
- (25) 40 conc. drop inlets, cast steel grating;
- (26) 600 cu. yds. class A Portland cement in structures;
- (27) 80,000 lbs. bar reinf. steel;
- (28) 250 lin. ft. conc. hand rail;
- (29) 1 wooden stairway;
- (30) 3500 sq. ft. 1½-in. asph. wearing surface;
- (31) 6200 lin. ft. wood fence;
- (32) 1600 ft. timber guard rail;
- (33) 10 conc. survey monuments;
- (34) 3500 ft. painted traffic line 6-in. wide;
- (35) 10,000 ft. do, 4-in. wide.

Specifications obtainable from office of John J. Casey, District Engineer, Room 367, City Hall, on deposit of \$10. Certified check 10% required with bid. Estimated cost, \$100,000.

ARIZONA STATE.—Arizona Sand & Rock Co., Box 1522, Phoenix, awarded contract by State Highway Commission, Phoenix, at \$43,761.90 for construction on the Holbrook-St. Johns Highway (E-78-B and E-78-F). The work on E-78-B and E-78-F, which extends from the end of the pavement in Holbrook to a point about 5.9 miles east of Holbrook, consists of the placing of subgrade stabilizer and oil processing by the plant mix method and is to be completed on or before Oct. 15, 1933.

ARIZONA STATE.—Packard & Tanner, 905 W Latham Street, Phoenix, awarded contract by State Highway Commission, Phoenix, at \$121,698.75 for highway construction on the Holbrook-Winslow Highway (E-40). The work on E-40, which extends from the west city limits of Holbrook westerly about 21.2 miles, consists of the construction of one concrete and two C.M.P. culverts, the placing of subgrade stabilizer and oil processing by the plant mix method, and is to be completed on or before Nov. 30, 1933.

UNIT BID SUMMARY

Compiled from the Daily News Service of Pacific Constructor

INDIAN ROCK AVE. STORM SEWER—BERKELEY

BERKELEY, Cal.—Oakland Sewer Construction Co., 9915 Walnut St., Oakland, at \$2790 awarded contract by city council to construct storm sewer in Indian Rock Ave., involving:

- (1) 1060 lin. ft. 15-in. vit. sewer pipe;
- (2) 310 lin. ft. 10-in. do;
- (3) 10 lin. ft. 8-in. do;
- (4) 7 catchbasins;
- (5) 2 curb inlets;
- (6) 3 manholes.

Complete bids follow:
 (A) Oakland Sewer Constr. Co., Oakland, \$2790.
 (B) W. J. Tobin, Oakland, \$2801.50.
 (C) Lee J. Immel, Berkeley, \$2806.
 (D) R. B. McNair, Oakland, \$2836.
 (E) McGuire & Hester, Oakland, \$3300.
 (F) Schnoor Bros., Oakland, \$3513.
 (G) L. L. Page, Richmond, \$5005.

ARIZONA STATE—Heafey - Moore Co., 640 N. First Ave., Phoenix, submitted low bid to State Highway Commission, Phoenix, Aug. 1, at \$103,716.88 for highway construction on the St. Johns - Springerville Highway, E-60 and E-68-A. The work, which begins at a point about 1 1/2 miles south of St. Johns and extends southeasterly approximately 8 1/2 miles toward Springerville, consists of grading and draining about 1/2 of a mile of roadway, the placing of subgrade stabilizer, and the oil processing of the entire length by the road mix method, and is to be completed on or before December 31, 1933. T. S. O'Connell, State Highway Engineer. The items are:

FEDERAL AID PROJECT NO. E-60

- (1) 21,871 cu. yds. roadway excav., unclass;
- (2) 40 cu. yds. structural excav., unclass;
- (3) 521 cu. yds. drainage excav., unclass;
- (4) 41 cu. yds. borrow excav., unclass;
- (5) 20,074 sta. yds. earthw'k overhaul
- (6) 300 hrs. rolling (excepting oil cake, seal coat and shoulders);
- (7) 7 cu. yds. class B concrete, incl. cement;
- (8) 10 lbs. reinf. steel (bars C.I.P.);
- (9) 44 lin. ft. 36-in. C.M.P. (C.I.P., including bands, excepting excavation);
- (10) 800 lin. ft. cable road guard (C.I.P.);
- (11) 50 M. gals. water applied to roadway (C.I.P.);
- (12) 522 cu. yds. subgrade stabilizer;
- (13) 3317 cu. yd. mi. subgrade stabilizer haul;
- (14) 199 cu. yds. mineral aggregate;
- (15) 54 cu. yds. mi. mineral aggregate, haul;
- (16) 3576 gals. asphaltic road oil (C.I.P. on road);
- (17) 0.174 mi. mixing, laying down and finishing;
- (18) 2 tons cutback asphalt cement for seal coat (C.I.P. on road);
- (19) 15 cu. yds. screenings for seal coat (C.I.P.);
- (20) 16 cu. yds. shoulder material;
- (21) 99 cu. yd. mi. shoulder material haul;
- (21a) 2000 cu. yds. stripping pits;

FEDERAL AID PROJECT NO. E-68-A

- (22) 7463 cu. yds. roadway excav., unclass;
- (23) 7 cu. yds. struc. excav., unclass;
- (24) 176 cu. yds. drainage excav., unclass;
- (25) 10 hrs. rolling (excepting oil cake, seal coat and shoulders);
- (26) 3 cu. yds. Class B concrete, incl. cement;

Unit bids follow:

	(A)	(B)	(C)	(D)	(E)	(F)	(G)
(27) 10 lbs. reinf. steel bars (C.I.P.);							
(28) 36 lin. ft. 24-in. C.M.P. (C.I.P.); including bands but excepting excavation);							
(29) 122 sq. yds. grading dips;							
(30) 25,648 cu. yds. subgrade stabilizer							
(31) 70,993 cu. yds. mi. subgrade stabilizer haul;							
(32) 239 M. gals. water applied to roadway (C.I.P.);							
(33) 9717 cu. yds. mineral aggregate;							
(34) 25,334 cu. yds. mi. mineral aggregate haul;							
(35) 174,906 gals. asphalt road oil (C.I.P. on road);							
(36) 8.501 mi. mixing, laying down and finishing;							
(37) 102 tons cutback asphalt cement for seal coat (C.I.P. on road);							
(38) 727 cu. yds. screenings for seal coat (C.I.P.);							
(39) 749 cu. yds. shoulder material;							
(40) 2080 cu. yds. mi. shoulder material haul;							
(41) 13,000 cu. yds. stripping pits;							

NON-FEDERAL AID WORK

- (42) 170 cu. yds. special mineral aggregate for stockpile (C.I.P.)

The total bids were:

(A) Heafey-Moore Co., \$103,716.88.
 (B) Phoenix-Tempe Stone Co., Phoenix, \$104,867.63.

ALAMEDA COUNTY, Cal.—Tiffany Constr. Co., 535 N. Seventh St., San Jose, at \$16,839 submitted low bid Aug. 2 to State Highway Commission, Sacramento, to apply bituminous surface treatment over 1.9 mi. between Mission San Jose and Warm Springs, involving:

- (1) 4300 cu. yds. selected material;
- (2) 1309 tons broken stone (bit. mac. base);
- (3) 2100 tons screenings (bit. surf. treat);
- 4) 280 tons emul. asph., base and surf. treat;
- (5) 101 sta. finish roadway.

Complete bids follow:

(A) Tiffany Constr. Co., San Jose, \$16,839.
 (B) Granite Con. Co., Watsonville, \$17,396.
 (C) Heafey-Moore Co., Oakland, \$17,795.
 (D) Pacific Truck Service, Inc., San Jose, \$19,068.60.

FOREST SERVICE HAS \$8,500,000 FOR ROAD WORK

**Improvements Planned In
California and Nevada
Areas, Says Show**

To aid the nationwide program for industrial recovery and the re-employment of men, U. S. Forest Service funds to the amount of \$8,500,000 will be expended during the next two years in the construction and maintenance of forest highways, secondary roads and trails, fire prevention and administrative improvements in the 18 national forests of California and southwestern Nevada, according to statement by S. B. Show, Federal regional forester at the San Francisco headquarters of the Forest Service. This amount of money will be used to purchase the machinery and equipment needed for the work and it is estimated will also provide for 1½ million man-days of labor, or the employment of 10,000 men at a substantial wage for a period of 150 days each. All positions, other than that of common laborer, will be under Civil Service, and work will be on the basis of a 30-hour

The appropriations received by the Forest Service under the National Industrial Recovery Act for expenditure within the national forests of the California Region are divided into three classes as follows: \$2,978,000 for national forest roads and trails required for the administration, protection, utilization and development of the national forests; \$2,660,000 for national forest highways which form a part of the United States and Federal-aid systems and are of great importance both to the traffic on these systems and in making the national forests accessible; \$2,871,000 for national forest protection and administrative improvements, and special forestry projects.

MASTER PAINTERS FIX 35-HOUR WEEK

The Master Painters' Association of San Francisco, in endorsement of the President's re-employment campaign, has fixed 35 hours as the maximum working week effective September 18, it was announced yesterday by Frank La Torres, secretary.

THE WEEK'S NEWS Highlights

STATE CODE. Directors of the California State Builders' Exchange have filed a proposed state construction code with Commissioner of Corporations Edwin M. Danagherly under provisions of the California Recovery Act. The code proposes a 40-hour week; wages set by local boards of arbitration; recognition of collective bargaining rights and also open shop operation; licensed architect or engineer supervision of all contracts exceeding \$2500; filing of duplicate copies or sub-bids submitted to any general contractor with local Builders' Exchange; minimum allowance of five percent overhead and ten percent profit in any estimate. (Complete Text of Proposed Code on Pages 4 and 5.)

PWA ENGINEERS. Frank E. Trask, Los Angeles, was named California state engineer for the Public Works Administration. Other western state appointments include: Howard S. Reed, Phoenix, for Arizona and New Mexico; R. A. Hart, Salt Lake City, for Nevada and Utah; Claude C. Hockley, Portland, for Oregon; Gene Hoffman, Olympia, for Washington.

FEDERAL BUILDINGS. San Francisco is assured funds for the new Federal building at the civic center, under a new list of PWA approved federal projects. The announced appropriation is \$2,689,089. Other appropriations for western building are Santa Cruz post office, \$99,000; Los Angeles quarantine station, \$63,000; Logan, Utah, post office, \$45,000.

CALIFORNIA HIGHWAYS. New highway construction in California calls for an estimated expenditure of \$34,352,438 in the 1933-35 biennium, according to the final budget adopted by the highway commission and made public this week. In addition the state will spend \$25,000,000 for maintenance.

MOVE DIVISION HIGHWAY STAFFS IN SEPTEMBER

**Kelly Issues Order Shifting
Two Headquarters Offices
from Capital**

Earl Lee Kelly, state director of public works, today officially announced that the highway offices of District No. 3, will be moved to Marysville, and of District No. 10 to Stockton. Both these offices are now located in Sacramento.

The transfer of the divisional headquarters will be accomplished by October 1. Engineering staffs will begin moving during the month of September. By this change Sacramento will lose approximately 60 families and state offices which have been here since the organization of the state division of highways.

The director of public works declared the changes in the location of the district offices have been made advisable from an engineering and economic point of view by the addition to the state highway system of 6,800 miles of county roads.

"In order to balance up the highway districts in mileage and work," Kelly said, "the engineering department has adopted a readjustment of the highway districts to promote efficiency and public service. This readjustment has made Marysville the center of District No. 3 and Stockton more nearly central in District No. 10 than is Sacramento. We believe that District No. 10 can better be served by having the district offices located in Stockton rather than in Sacramento or Modesto."

DISCHARGE AGITATORS AT BOULDER PROJECT

Eighteen men were reported discharged yesterday from the Boulder dam project as a result of agitation among workers for the Six Companies, Inc.

The men discharged were distributing propaganda in an effort to create labor trouble, according to Frank Crowe, general superintendent.

Text of Proposed Construction Code Filed by State Builders' Exchange

Following is the text of the proposed code of fair practice for the building and construction industry of the state of California approved by the California State Builders' Exchange and filed with Commissioner of Corporations Edwin M. Daugherty under provisions of the California Recovery Act:

1. Definitions.

The term "Building and Construction Industry" for the State of California as used herein is defined to mean all those engaged in public or private building construction work of every nature and kind throughout the State of California, and includes licensed general contractors, licensed sub-contractors, manufacturers and materialmen of all kinds.

The term "Employees" as used herein shall include all persons employed in the conduct of such operations of every craft.

2. On and after the effective date the minimum wage that shall be paid by employers in the building and construction industry shall be not less than forty cents per hour.

3. On and after the effective date employers shall not operate on a schedule in excess of forty hours per week from Monday at 8:00 a. m. to Friday at 5 p. m. inclusive for each week.

4. On and after the effective date employers in the building and construction industry shall not employ any minors under the age of sixteen years.

5. In any locality throughout the State of California where an Arbitration Board or a Wage Board has settled the wage question; this shall be the governing wage to be paid by employers in that locality. In all other cases the hourly wage paid in the locality shall be the actual prevailing hourly wages paid by employers to employees in the several crafts.

6. To further effectuate the policies of the Act, the building and construction industry shall set up a committee to be composed of a representative selected by the Board of Directors of each Builders' Exchange throughout the State, who shall co-operate with the Chief of the Division of Corporations in regard to any question which may come up under this Code, or any amendments which may be proposed thereto.

7. Employers in the building and construction industry agree:

(a) That employees shall have the right to organize and bargain collectively through representatives of their own choosing, and shall be free from the interference, restraint, or coercion of employers of labor, or their agents, in the designation of such representatives or in self-organization or in other concerted activities for the purpose of collective bargaining or other mutual aid or protection.

(b) That no employee and no one seeking employment shall be required as a condition of employment to join any company union or to refrain from joining, organizing, or assisting

a labor organization of his own choosing; and

(c) That employers shall comply with the maximum hours of labor, minimum rates of pay, and other conditions of employment, provided for in said State Code of fair competition, approved by the Chief.

(d) It is clearly understood that the foregoing paragraphs do not impair in any particular the constitutional rights of the employe and employer to bargain individually or collectively as may be mutually satisfactory to them; nor does it impair the joint right of employer and employe to operate an open shop.

(e) Nothing in this code is to prevent the selection, retention and advancement of employes on the basis of their individual merit without regard to their affiliation or non-affiliation with any labor organization.

8. That office employes shall be included within the benefits of this code.

9. To effect fair competition among licensed general contractors, licensed sub-contractors, manufacturers and material men of all kinds as named under this code for the building and construction industry of the State of California, no member of this industry shall knowingly participate in any construction project not performed in accordance with the following rules:

(a) In order that all structures may be adequately and safely designed and supervised, no construction project in excess of \$2500.00 except alterations not involving structural changes, shall be undertaken without plans and specifications prepared by a licensed architect or licensed engineer.

(b) When the owner decides to build, construct, or remodel he shall first decide whether he is going to let a general contract, segregated contract, guaranteed cost contract, or percentage contract.

(c) If the decision is to let a general contract, the owner shall call into competition only such licensed general contractors any one of whom he is willing to award the contract to if low bidder, requiring him to file with his bid a list of the licensed sub-contractors whose figures he has used. Then award the contract to the low bidder. All licensed sub-contractors furnishing figures to licensed general contractors shall file sealed notices with the nearest Builders' Exchange giving the names of the licensed general contractors to whom they have furnished figures, the amount of the figures, and state on what jobs the figures are to be used; and the Builders' Exchange will then see to it that the licensed general contractor, who is the successful bidder, let his sub-contracts to those licensed sub-contractors whose figures he has used in his bid, and at the amount of their

bid. Such sealed notices only to be opened in case of dispute.

(d) If it is decided to let the job by segregated contracts, the owner shall only call in as bidders licensed sub-contractors to whom he is willing to award the job if low, and then award the segregated contracts to the low bidder in each department.

(e) If the owner decides upon the guaranteed cost or percentage plan he shall insist that the guaranteed cost or percentage plan contractor when taking bids in the different departments, only take bids from licensed sub-contractors to whom he is willing to award the job if low, and then award the job to the low bidder. All licensed sub-contractors furnishing figures to guarantee cost or percentage plan contractors shall file sealed notices with the nearest Builders' Exchange giving the names of the guaranteed cost or percentage plan contractors to whom they have furnished figures, the amount of the figures and state on what jobs such figures are to be used; and the Builders' Exchange will then see to it that the guaranteed cost or percentage plan contractor, who is the successful bidder let his sub-contracts to those licensed sub-contractors whose figures he has used in his bid. Such sealed notices only to be opened in case of dispute.

(f) In case the licensed general contractor, the percentage plan or guaranteed cost contractor figures or estimates the job himself as a whole or in any department when taking it from the owner, the owner shall insist that if the licensed general contractor, the percentage plan or guaranteed cost contractor thereafter decides to let contracts for the actual doing of the work, and provided that he took no bids prior to the receipt of the contract, that he takes bids from reputable licensed sub-contractors and award the work to the lowest bidder in each department. Licensed sub-contractors in such case shall also protect themselves by filing sealed notices of their bids with the nearest Builders' Exchange, giving the names of their licensed general contractors to whom they have furnished figures, the amount of the figures, and state on what jobs such figures are to be used, and the Builders' Exchange will then see to it that the successful licensed general contractor or the successful percentage plan or guaranteed cost contractor awards the work to the lowest bidder in each department. Such sealed notices only to be opened in case of dispute.

(g) All bids for buildings, construction or alteration work shall be opened at a set time and place in the presence of bidders.

(h) It shall be considered unfair competition for any licensed general contractor to supply owners, licensed architects, or licensed engineers with unsolicited bids. It shall be considered unfair competition for any licensed subcontractor and manufacturer to furnish owners, any licensed general contractors licensed architects or licensed engineers with unsolicited bids.

(i) The owners of all projects shall be fully prepared to make payments therefore as hereinafter prescribed, and shall fully disclose the details of

such preparation upon the demand of any prospective participant.

(J) Payments by the owners or the licensed general contractor to all licensed contractors shall be made not later than the tenth of each calendar month during performance on account of the proportionate value of performance during the calendar month immediately preceding. Payment shall also be made on account not later than five days after completion. Payment in full shall be made not later than thirty-five days after completion, provided that a reasonable amount may be retained to cover any statutory mechanics' liens or stop notices filed. In the event the statutory mechanics' lien bond accompanies the contract, the monthly payments and the completion payment shall be not less than ninety percent of such proportionate values performed.

10. All licensed general contractors, percentage plan or guaranteed cost contractors, and licensed subcontractors operating throughout the State of California shall abide by all local conditions generally accepted in the trade in whatever locality they may figure to do the work.

11. No licensed general contractor, percentage plan or guaranteed cost contractor, or licensed subcontractor in figuring a job for any kind of building or construction or repair work shall make a bid or figure to do the work less than his entire cost, plus not less than five percent for overhead and ten percent net for profit.

12. Any licensed general contractor, percentage plan or guaranteed cost contractor, or licensed subcontractor who works himself must add to his bid or contract the actual value of his time to his bid or contract the same as if he was employing a laborer or mechanic to do the work.

13. On all building and construction and alteration work, the material man shall sell to the trade only. The trade only being licensed general contractors, percentage plan or guaranteed cost contractors, or licensed subcontractors.

14. All material men and manufacturers in every locality in the State of California shall quote to each and every buyer of building materials whether licensed general contractor, percentage plan or guaranteed cost contractor, or licensed subcontractor the same prices, terms and conditions adopted by the majority of the material men in each locality. Such schedule of prices may however, be required to be approved by the Chief of the Division of Corporations if it seems that such schedule is excessive or monopolistic.

15. Every owner, licensed contractor, percentage plan or guaranteed

cost contractor, licensed subcontractor, manufacturer and material man shall be governed by the building, safety and sanitary codes of the locality or city in which he is working; and providing no such building ordinances, safety ordinances and sanitary codes are in effect, then he shall be governed by the Uniform Building Code adopted for the State of California.

16. No licensed general contractor, percentage plan or guaranteed cost contractor, licensed sub-contractor, manufacturer, or material man shall falsely or maliciously injure the reputation or business or another in any way, shape or form.

17. No material man or manufacturer shall offer any inducement, presents, undue entertainment or extra credits or rebates to any owner, licensed contractor, percentage plan or guaranteed cost contractor or licensed subcontractor in order to secure his business.

18. It shall be considered unfair competition for any manufacturer or material man to not strictly adhere to the terms of credit adopted in the several localities in their line of business and shall under no circumstances offer to give, or give, any extended credit to any purchaser, owner, licensed general contractor, percentage plan or guaranteed cost contractor, or licensed subcontractor over and above their regular terms.

19. No manufacturer or material man shall give a lump sum bid on any bill of materials for any building or construction project. He will quote each material separately on a unit basis.

20. The term licensed general contractor, percentage plan or guaranteed cost contractor and licensed subcontractor, shall only apply to those who give figures to supply both labor and materials in their several lines, and no owner, licensed architect, or licensed engineer, or licensed general contractor, percentage plan or guaranteed cost contractor, or licensed subcontractor including so-called home builders, shall award so-called labor contracts in any department of the building and construction industry.

21. In large cities there are now what are called Home or Speculative Builders. Hereafter they shall be classed as general contractors, and shall be required to live up to all rules and regulations adopted for licensed general contractors.

22. Any violation of the provisions of this code shall be cause for revocation or suspension of State license, in addition to other penalties prescribed by law.

SAN JOAQUIN CONTRACTORS APPROVE CODE

Eight-Hour Day and Five-Day Week Provided in Competitive Agreement

A code of fair competition providing an eight-hour day and a 40-hour week was adopted by the General Contractors Association of San Joaquin county at a special meeting held in Stockton.

L. S. Peletz was elected president of the organization, John Cavanaugh, secretary; and O. H. Chain treasurer. The executive committee elected consists of Peletz, Cavanaugh, Chain, John Hachman and H. P. Green. The executive committee will act as a board of review in cases of reported violation of any provisions of the code.

A secret vote was taken on the wage scale for the various crafts allied with the building industry. The code will not be made public until it is submitted to the craft organizations for discussion and approval. President Peletz stated that all crafts would receive at least as much money as at the present time, even with the cut in hours.

The code contains rules against rebating, substitution of inferior materials, or evasions of any provisions of plans for a contract. All sub-contractors will be paid in proportion to the amount received by the general contractor as the work progresses.

The association voted to adopt a uniform estimation sheet for use of all members of the association. Members are forbidden to submit bids on projects after the date announced for opening bids, or take part in "bid peddling." General contractors from Lodi and Tracy promised to aid in securing other members in other towns of the county.

No date was set for the next meeting of the organization, as word on the code will be awaited from the State Building Trades Council, to whom the code will be submitted at once for inclusion in the state code. Meetings will be held monthly after the code is in operation, President Peletz said. The meeting was held in the council chamber at the city hall.

GRAND COULEE DAM TO START EARLY IN 1934

**Bids Will Be Called Shortly
For Preliminary Drilling
On Site**

Construction is to start early next year on the Grand Coulee dam project in Washington for which \$63,000,000 has been authorized in the Federal public works program to be spent by the Reclamation Bureau.

Bureau engineers are drawing specifications on which contracts will be advertised shortly for drill explorations and test pit excavation.

Preliminary engineering is financed by the state of Washington through the Columbia Basin State Commission, Chamber of Commerce Building, Spokane. James O'Sullivan is secretary.

Frank E. Banks has been assigned by the chief of the Reclamation Bureau to be project engineer. A tentative site for field headquarters has been selected at Almira, 22 miles from the dam site.

The present plans for construction provide a "first stage" or low dam, 251 feet high. The low dam will create a lake in the Columbia river about 50 miles long, extending to a point about opposite Fruitland on the Columbia river.

A lake more than 100 miles long will be created when the dam is developed to its ultimate height of 450 feet.

Power development of the dam will consist in installation of eight generating units of 65,000 kilowatt capacity each. An ultimate power development of 1,575,000 kilowatts is contemplated.

Estimated costs and items of construction are as follows:

Diversion and care of river during construction and unwatering foundation, \$7,500,000.

Excavation, common, of foundation of dam and power house at tailrace 9,000,000 cu. yds., \$6,750,000.

Excavation, rock, for foundation of gravity dam and power house and for tail race, 250,000 cu. yds., \$206,250.

Rock for buttress footings and cut-off walls and foundations, 175,000 cu. yds., \$875,000.

Mass concrete in dam, 1,095,000 cu. yds., \$6,296,250.

Concrete in arches, 156,000 cu. yds., \$2,145,000.

Concrete in buttresses, 390,000 cu. yds., \$3,354,000.

Guniting concrete surfacing, \$105,300.

Concrete in spillway crest, \$645,250.

200,000 cu. yds. backfill, \$70,000; 22,000,000 lbs. reinf. bars, \$884,000; 686,000 lbs. standard steel and cast iron pipe, fittings, \$82,320.

High pressure hydraulically operated sluice gates and metal conduit linings, 8,186,000 lbs., \$1,023,250.

Right of way, \$1,000,000.

Railway, Coulee City to site and sidings, \$600,000. (This may be built by a private railroad company, without cost of the project.)

Camp, \$500,000.

Fish ladder and accessories, \$300,000.

Total cost estimate for dam, including 6 per cent for engineering, 1½ per cent for superintendence and accounts

STATE EXEMPTS U. S. PURCHASES FROM SALES TAX

New Ruling Will Relieve Contractors Figuring Public Works Construction

Exemption of materials, supplies and equipment sold to the Federal government or for use in Federal contracts from the state sales tax has been approved by the Board of Equalization. It was announced at the San Francisco office yesterday.

This will relieve bidders on Federal construction work as well as dealers selling to government agencies from the necessity of figuring the sales tax in their bids. Federal purchasing departments in the state have been requiring bidders to guarantee that the taxes on any sales to the government have been covered, but the status of sales in this class has been uncertain, prior to the present ruling.

The Board of Equalization is expected to issue a guide to interpretations of the law which may clarify other points in which contractors and dealers are involved.

Pending the publication of rulings, the administrative officials are being guided largely by the rulings of the New York State Tax Commission, some of which were published in DAILY PACIFIC BUILDER on August 1.

Following are two typical questions and answers quoted from the New York decisions:

Q. Frequently materials and supplies are sold to contractors for use by them in fulfilling contracts for erecting, improving or repairing buildings and real property of others. Are receipts from such sales taxable to the seller?

A. Such contracts are of two kinds:

(a) Those in which the contractor agrees to furnish materials, supplies and necessary services, and

(b) Those in which the contractor agrees to furnish the materials and supplies at a given price and to render services for an additional price.

When the contractor uses material in carrying out such lump sum contract he becomes the consumer and final buyer thereof, and the sale is taxable to his seller. Where the contract calls for the sale of materials and supplies to the owner at an agreed price the contractor becomes the retailer and the

and 2½ per cent for general expenses, \$40,097,331.

Power plant, eight units, including contingency fund of 7.5 per cent and overhead, 10 per cent, \$19,137,971.

Costs on two units of the plant are divided as follows:

Trash racks, gates, crane, riprap and railroad, \$1,706,390.

Control and power house buildings and switching structure, \$2,455,660.

Control room, power house and switching station equip., \$2,663,544.

Total for the first two units, including contingency and overhead, \$8,071,265.

sale to the owner is taxable to the contractor. If the principal business of the contractor is lump sum contracts, certificates of re-sale should not be given. If, however, the contracts specified under item (b) are the principal type of contracts accepted by the contractor, certificates of re-sale should be given.

Q. Should manufacturers engaged in selling ready mixed concrete to contractors and builders add the tax to the cost of the product when they sell same? Is the sales tax to be computed on the cost of the merchandise sold or upon the cost of such merchandise plus the tax which has been added thereto?

A. Receipts from the sale of mixed concrete are subject to the sales tax unless the seller secures a signed certificate from the purchaser stating that such merchandise is purchased for resale. The tax is computed upon total receipts. If the selling price of a product has been increased to include the tax, this is the amount upon which the tax is to be based. If the tax is billed as a separate item, the tax must be computed on the sale price of the concrete plus the tax.

DENY EXTENSION ON S. F. JAIL CONTRACT

On the recommendation of City Architect Charles Sawyer, the Department of Public Works yesterday denied an extension of time to F. W. Snook, contractor on the water supply system at the new County Jail at Sneath Ranch.

Snook asked the department for an extension of 20 days in which to complete his \$30,892 contract, scheduled to have been finished August 14.

The contract was signed May 15.

cisco, for furnishing and installing automatic wet pipe fire sprinkling system in warehouse and shop building at the Veterans' Administration Facility, West Los Angeles. Plans and specifications available from above office.

Contract Awarded.
LIBRARY Cost, \$65,000
LOS ANGELES, Cal. Westlake Ave. N Wilshire Blvd.
 Three-story Class A concrete library and auditorium (50x100 ft.) steel sash, steel book stacks, dumbwaiter, steam heat and air conditioning systems, etc.; stage, reading and periodical rooms.
 Owner—Los Angeles County Medical Assn. (Dr. Harry Wilson, Secty.)
 Architect—Gordon B. Kaufmann, Union Bank Bldg., Los Angeles.
 Contractor—Wm. Simpson Const. Co., Architects' Bldg., Los Angeles.

Sub-Contracts Awarded.
ALTERATIONS Cost, \$4186
OAKLAND, Alameda Co., Calif. NE Thirteenth and Washington Sts.
 Alterations and additions to one- and two-story building (50x100 ft.)
 Architect—Edw. T. Foulkes, 357 12th St., Oakland.
 Owner—Blanche Boardman Porter.
 Contractor—W. C. Cone, 1744 Broadway, Oakland.
Plumbing—Scott Co., 113 10th Street, Oakland.
Ornamental Iron Work—C. Frauneder
 Orn. Iron Works, 335 8th Street, Oakland.
Electric—T. L. Rosenberg Co., 411 Webster St., Oakland.
Sheet Metal—East Bay Sheet Metal Works, 1101 Market St., Oakland.
Plastering—Wm. Makin, 354 Hobart

SAN FRANCISCO—Until August 21, 3 P. M., under Circular Proposal No. 34-8, bids will be received by U. S. Engineer Office, 401 Custom House, San Francisco, to overhaul two Hall-Scott Marine Engines. Specifications obtainable from above office.

SAN FRANCISCO—L. Schaffer & Co., 366 10th St., San Francisco, at \$220.35 submitted low bid to U. S. Engineer Office, 401 Custom House, San Francisco, for repair work to dredge as follows:
 (1) Build up tips of 4 blades of the semi-steel propeller wheel of the dredge "San Pablo";
 (2) Build up pump shaft of the dredge "Mackenzie" with hard facing.
 Complete bids follow:
 L. Schaffer & Co., (1) \$135.35; (2) \$85.
 John G. Ills & Co., \$200; \$60.
 Pacific Coast Eng. Co., \$168; \$128.
 Brown Bros., \$265; \$90.
 Golden State Iron Works, \$276.59; \$40.40.
 Neptune Machinery Works, \$275; \$84.
 General Eng. & D. D. Co., \$275; \$96.
 Bids held under advisement.

August 17, 1933
 Plans Being Completed.
RECREATION BLDG. Cost, \$6500
SAN FRANCISCO. No. 229 Minna Street.
 Recreation building for St. Patrick's Shelter (steel frame Class C, brick construction).
 Owner—St. Patrick's Shelter (Mon. Ryan in charge).
 Architect—Arnold Constable, 580 Market St., San Francisco.
 Bids will be asked about August 21.

BERKELEY, Cal.—J. A. Johnson (J. N. J. Firebrick Const. Co.) 475 Stevenson St., San Francisco, at \$2,432 awarded contract by Regents of the University of California for replacement of incinerator in the Life Sciences Building, Berkeley.

SAN FRANCISCO—D. C. McCabe, 74 New Montgomery St., at \$385.96 submitted low bid August 16 to Department of Public Works to construct concrete stairs on the south sidewalk of Waller St. between Buena Vista Ave. and Boderick St. Complete bids follow:
 D. C. McCabe \$385.96
 M. J. Lynch 418.00
 Love & Haun 429.00
 E. J. Treacy 456.00
 J. T. Tobin 535.00
 A. C. Anderson 673.00
 Bids held under advisement.

SAN FRANCISCO—L. Schaffer and Co., 366 Tenth St., at \$220.35 awarded contract by U. S. Engineer Office, San Francisco, for repair work to dredges.

WASHINGTON, D. C.—As previously reported, John S. Heilmann, 2703 21st St., San Francisco, at \$18,698 submitted low bid to Treasury Department for retaining walls, roadway etc., at the U. S. Marine Hospital, San Francisco. Following is a complete list of the bids:
 John S. Heilmann, S. F. \$18,698
 Theodore Cohn, S. F. 19,456
 E. J. Treacy, S. F. 19,596
 C. L. Wold Co., S. F. 19,677
 Clinton Const. Co., S. F. 20,400
 MacDonald & Kahn, S. F. 21,997
 Barrett & Hilp, S. F. 22,689
 Fay Imp. Co., S. F. 26,366
 Chas. L. Harney, S. F. 27,869
 P. L. Burr, S. F. 28,450

OAKLAND, Cal.—Until Sept. 5, 7:30 P. M., bids will be received by R. W. Robertson, Secretary, Board of Playground Directors, for surfacing tennis courts in Lakeside Park. Specifications and form of proposals available from secretary, room 315, City Hall, Oakland.

SEATTLE, Wash.—Until August 23, bids will be received by Custodian, Seattle, Federal Office Bldg., Room 35, for grading and landscaping at the Marine Hospital, Seattle. Plans and specifications available from the above office.

OREGON STATE—Following projects included in \$1,350,000 appropriation of forest highway funds:
 North Santiam, grade, 3 miles, \$120,000.
 South Santiam, grade, 8 miles, \$170,000.
 Cascade Lakes, surface, 5.5 miles, \$75,000.
 Weston-Elgin, grading, \$100,000.
 Willamette highway, grade, \$150,000.
 Tiller-Trail, sub-base, 2 miles, \$35,000.
 Hebo-Dolphin, reconstruct, 10 miles, \$185,000.
 Diamond Lake, surfacing, 24 miles, \$200,000.
 Imnaha, bridges, \$30,000.
 Euchre creek section, Oregon Coast Highway, oil, 20 miles, \$50,000.
 Glenada - Gardner Section, Oregon Coast highway, oil, 19.6 miles, \$40,000.
 Berry Creek - Lincoln Lnie Section, Oregon Coast Highway, oil, 12 miles, \$35,000.
 Wapinitia and Mt. Hood Leap, oil, 10 miles, \$35,000.
 Maintain existing highways, \$75,000.
 Surveys, \$35,000.

SACRAMENTO, Cal.—Sterling Elec. Co., 907 8th St., at approximately \$1500 awarded contract by the Capitol Clothing Co., 712 K St., for furnishing and installing sign at 916 K St., Sacramento.

SAN FERNANDO, Los Angeles Co., Cal.—The City of San Fernando has applied to the Federal Emergency Administration of Public Works for

\$82,304, for street improvements and storm drain construction as follows:
 Improving Celis St., SE city limits to NW city limits, estimate, \$19,554.
 Improving North Brank Boulevard, from 5th St. to NE city limits, estimate, \$14,570.
 North Maclay Ave. from 5th St. to NE city limits, involving widening 20 ft. strip on each side, cement concrete pavement; estimate, \$34,560.
 Construct storm drain from Southern Pacific Railway right-of-way south through easements to connect with existing drain at Hollister St., estimate, \$13,620.

SAN FRANCISCO—Pacific Elevator & Equipment Co., 45 Rausch St., at \$8466 submitted low bid to Department of Public Works, for new passenger elevator in the Civic Auditorium for the Board of Education. Following bids received:
 Pacific Elev. & Equip. Co. 8,466
 Westinghouse Elec. Elev. Co. 9,220
 Otis Elevator Co. 11,780

Bronze and Art Glass Bids Being Taken.
MAUSOLEUM Cost, \$4500
COLMA, San Mateo Co., Cal. Cypress Lawn Cemetery.
 Concrete mausoleum (marble exterior and interior).
 Owner—James M. McDonald.
 Architect—S. Heiman, 605 Market St., San Francisco.
 Contractor—Georgia Marble Co., 605 Market St., San Francisco.

Bronze and Art Glass Bids Being Taken.
MAUSOLEUM Cost, \$9500
PETALUMA, Sonoma Co., Cal.
 Concrete mausoleum (marble interior and exterior, bronze doors, art glass, etc.)
 Owner—Mr. Maggetti.
 Architect—S. Heiman, 605 Market St., San Francisco.
 Contractor—Georgia Marble Co., 605 Market St., San Francisco.

Plans Being Figured—Bids Close Aug. 21, 12 Noon.
ROOF DECK Cost, \$6000
OAKLAND, Alameda Co., Cal. Seventh and Kirkham Sts.
 Steel frame and concrete roof deck over open driveway.
 Owner—Golden West Brewery Co.
 Architect—A. R. Williams, Humboldt Bank Bldg., San Francisco.
 Engineer—W. Adrian, 417 Market St., San Francisco.

20—MISC. SUPPLIES AND MATERIALS

SACRAMENTO, Cal.—Daugherty Lumber Co., Cottage Grove, Oregon, awarded contract by U. S. Engineer Office, Sacramento, to furnish Douglas fir piles.

LOS ANGELES, Cal.—John A. Roebing Sons Co., awarded contract by the Board of Directors of the Metropolitan Water District August 11, at \$35,750 or \$715 per M. ft. for furnishing 50,000 ft. of rubber insulated metal armored cable. Bid No. 13,209.

PANAMA CANAL ZONE—Until Aug. 25, 10:30 A. M., under Schedule No. 2893, bids will be received by the General Purchasing Officer, Panama Canal Zone, Washington, D. C., to furnish equipment for craneship "Atlas," involving one centrifugal sand pump, 12-inch suction and discharge, and one towing machine, motor driven, non-automatic. Specifications obtainable from above office.

LOS ANGELES, Cal.—Bids for furnishing and delivering to Water and Power Department f.o.b. bidder's shipping point overhead ground wire under Specifications No. 3175 opened by A. J. Holm, City Purchasing Agent August 9. The items were:

- (1) 2,435,000 ft. ½-in. extra galvanized, high strength steel wire strand;
- (2) 2,435,000 ft. ½-in. extra galvanized, high strength steel wire strand;
- (3) 430,000 ft. copper covered steel wire strand.

The above ground wires are intended to be used on department's power transmission line extending from Boulder Canyon Dam Power house to Los Angeles, a distance of 270 miles. Deliveries of the items are to be made as follows:

Item No. (1), deliveries to begin March 1, 1934, and continue at a uniform monthly rate so as to effect complete delivery by June 1, 1934.

Item No. (2), deliveries to begin June 1, 1934, and continue at a uniform monthly rate so as to effect complete delivery by Sept. 1, 1934.

Item No. (3), deliveries to begin Sept. 1, 1934, and continue at a uniform monthly rate so as to effect complete delivery by December 1, 1934.

The bids, showing prices per M feet, were as follows:

Joslyn Co. of Calif.—(1) and (2) \$26.54, (3) no bid. Terms, 2% 20 days

E. H. Edwards Co.—(1) and (2) \$33.19, (3) no bid. Terms, 2% 30 days; 2% discount for combined awards on items (1) and (2).

Copperweld Steel Co.—(1) and (2) no bid, (3) \$83.37. Terms net.

John A. Roeblings Sons Co.—(1) and (2) \$35.50, (3) no bid. Terms, % 30 days.

Columbia Steel Co.—(1) and (2) \$29.98, (3) no bid. Terms, 2% 20 days
Anaconda Wire & Cable Co.—(1) and (2) no bid, (3) \$128.28. Terms, ½ of 1% 10 days.

Graybar Electric Co.—(1) and (2) \$35.99, (3) no bid. Terms, 2% 20 days.
Alt., zinc coat, (1) and (2) \$31.39, (3) no bid. Terms, 2% 30 days.

Pacific Wire Rope Co.—(1) and (2) \$32.45, (3) no bid. Terms, 2% 30 days.

OAKLAND, Cal.—Western Steel & Wire Co., 439 Bryant St., San Francisco, at \$2710 submitted low bid August 11 to East Bay Municipal Utility District to furnish:

- (1) 3000 lin. ft. 2-in. mesh 72-in. high No. 9 ga. chain link fence, copper-bearing wire;
- (2) 240 H columns copper-bearing line posts, 2¼-in., 8-ft. 8-in. long, galv. weight 4.1 lbs. per lin. ft.,
- (3) 24 gate posts, 3-in. tubular gates, galv. copper-bearing steel, 10 ft. long, weight not less than 5.79 lbs. per lin. ft.;
- (4) 6000 ft. No. 7 ga. spring coil tension wire with turnbuckle at each terminal;
- (5) 9000 ft. 4 point No. 12½ ga. galv. Aster weaving barbed wire with barbs placed 4-in. apart.

Complete bids follow:

Western Steel & Wire Co., San Francisco	\$2710
West Coast Wire & Iron Co.	2950
Standard Fence Co.	2950
California Ornamental Wire Co.	2950
Stewart Iron Works	2950
Crown Fence & Supply Co.	3009
Pacific Coast Fence Co.	3050
Anchor Post Fence Co.	3068
California Wire Cloth Co.	3127
Kamlan Fence Co.	3186
Michel & Pfeffer Iron Works....	3245
Earnes Bros. Iron Works.....	
..... (informal bid)	

SAN JOSE, Santa Clara Co., Cal.—Until Sept. 12, 8 P. M., bids will be received by Walter L. Barcroft, Secretary, Board of Education, to fur-

nish fuel oil for the School Department for the school year 1933-34. Specification obtainable from office of the city superintendent of schools.

OAKLAND, Cal.—American Smelting & Refining Co. (with Federated Metals Corp.) 201 First St., San Francisco, at \$2250 awarded contract by East Bay Municipal Utility District, Oakland, to furnish 30 tons of copper sulphate.

OAKLAND, Cal.—Until Aug. 25, 8 P. M., bids will be received by John H. Kimball, secretary, East Bay Municipal Utility District, 512 16th Street Oakland, to furnish 1200 tons aluminum sulphate under Bid No. 489. Specifications obtainable from above office.

OAKLAND, Cal.—Until August 25, 8 P. M., bids will be received by John H. Kimball, Secretary, East Bay Municipal Utility District, 512 16th St., Oakland, to furnish 100,000 gallons emulsified asphalt under Specifications No. LS-113, obtainable from above office

LOS ANGELES, Cal.—Concrete Engineering Co., 1450 Mirasol St., awarded contract by D. P. Nicklin, Purchasing Agent, Water and Power Bureau, August 12 for reinforcing steel under Specifications No. 1624.

LOS ANGELES, Cal.—Oil Well Supply Co. awarded contract by Saul A. Joseph, Purchasing Agent of the Metropolitan Water District, for couplings at \$2033.79 f.o.b. Indio.

LOS ANGELES, Cal.—Concrete Engineering Co. awarded contract by A. J. Holm, City Purchasing Agent, Aug. 10, at \$55,667.85 (estimated total) for furnishing Water & Power Department with structural grade reinforcing steel and black annealed tie wire under items (1-Alt.), (2) (3) and (4). Specifications No. 3173. The bids were opened August 2.

LOS ANGELES, Cal.—Until 2 P. M., Spt. 5, bids will be received by County Supervisors for supplying reinforcing steel for outlet tunnels of San Gabriel Dam No. 1. The material, amounting to 648,800 lbs. is to be furnished f.o.b. district freight yard, Azusa. The items are:

- (1) 103,400 lbs. 1-in. square deformed;
- (2) 163,900 lbs. 1-in. round do;
- (3) 175,000 lbs. ¾-in. do do;
- (4) 75,000 lbs. ¾-in. do do;
- (5) 35,000 lbs. ½-in. do do;
- (6) 1,000 lbs. ½-in. square do;
- (7) 85,000 lbs. ½-in. round;
- (8) 10,000 lbs. ¾-in. do;
- (9) 500 lbs. ¼-in. do

E. C. Eaton, Flood Control Engineer, 202 N. roadway. Mame B. Beatty, 501 Hall of Records, Clerk of the Board.

LOS ANGELES, Cal.—John A. Roebling Sons Co., 216 S. Alameda St. Los Angeles, awarded a contract by Metropolitan Water District on Aug. 14, at \$35,571.25 for furnishing armored cable under Bid No. 13209.

FRESNO, Cal.—Until Aug. 24, 11 A. M., bids will be received by H. S. Foster, City Clerk, to furnish gasoline for a one-year period from Nov. 26. Specifications obtainable from above office. Certified check 10% required with bid.

PANAMA CANAL ZONE.—Until Aug. 23, 10:30 A. M., under Schedule No. 2894, bids will be received by the General Purchasing Officer, Panama Canal Zone, Washington, D. C., to furnish miscellaneous supplies and

equipment, including: gasoline engine, coil chain, twist drills, bolt dies, shovels, spades, saws, tinners' snips, cold chisels, hoes, forks, rakes, scythe snaths, brass machine screws, sash chain, chain links, stamping letters, water gauges, ship glue, cup grease, cutting oil, liquid bronze, zinc anodes, oil testing sets, cable, magnet wire, door edging, office pine, metal card holders, etc. Specifications obtainable from above office.

LOS ANGELES, Cal.—E. C. Eaton, County Flood Control Engineer, has completed specifications for reinf. steel for construction of tunnels at San Gabriel dam. The material, amounting to 648,800 lbs. is to be furnished f.o.b. district freight yard, Azusa. The items are:

- (1) 103,400 lbs. 1-in. square deformed;
- (2) 163,900 lbs. 1-in. round deformed;
- (3) 175,000 do, ¾-in. do;
- (4) 75,000 lbs. ¾-in. do;
- (5) 35,000 lbs. ½-in. do;
- (6) 1000 lbs. ½-in. square deformed;
- (7) 85,000 lbs. ½-in. round;
- (8) 10,000 lbs. ¾-in. do;
- (9) 500 lbs. ¼-in. do.

SAN FRANCISCO.—Until August 22, 2 P. M., bids will be received by U. S. Forest Service, Ferry Bldg., for:

- (1) 27000 sq. yds. linoleum;
- (2) 3050 sq. yds. unsaturated deadening felt;
- (3) 68 5-gal. cans linoleum paste;
- (4) 27, 1-gal. cans do;
- (5) 6100 sq. yds. fiberized mastic floor covering;
- (6) 128 5-gal. cans bit. cement.

Materials to be delivered at Pasadena and Government Island, Alameda.

LOS ANGELES, Cal.—Until 11 A. M., August 21, bids will be received by A. J. Holm, City Purchasing Agent, 107 City Hall, for furnishing and delivering to Water & Power Dept., f.o.b. locations shown below. ¼-inch. hot rolled black copper rod on reels of approximately 4000 lbs. each, under Specifications No. 3200. The bids will be taken as follows:

- (1) 164,000 lbs. rod, f.o.b. cars, Boulder City, Nevada;
- (2) 156,000 lbs. rod, f.o.b. cars, Jean, Nevada;
- (3) 240,000 lbs. rod, f.o.b. cars, Silver Lake, Calif.;
- (3-Alt.) 240,000 lbs. rod, f.o.b. cars, Yermo, Calif.;
- (4) 292 lbs. rod, f.o.b. cars Yermo, Calif.;
- (5) 204,000 lbs. rod, f.o.b. cars, Victorville, Calif.;
- (6) 200,000 lbs. rod, f.o.b. cars, Los Angeles.

The above rod is intended to be used as buried ground wires or counterpoise for 270-mile power transmission line, extending from Boulder Canyon Dam Power Plant to Los Angeles.

SAN FRANCISCO—Until August 21, 2 P. M., bids will be received by the U. S. Forest Service, Ferry Bldg., for plumbing and fixtures as follows:

- (1) 122 bath tubs;
- (2) 80 lavatories;
- (3) 124 water closets;
- (4) 185 sinks;
- (5) 148 laundry trays;
- (6) 159 hot water boilers, 30 qts.;
- (7) 26 hot water boilers, 40 qts.;
- (8) 26 showers;
- (9) 26 urinals.

LOS ANGELES, Cal.—Contracts awarded by Saul A. Joseph, purchasing agent of the Metropolitan Water District for furnishing drifter drills, under bid No. 13831 are as follows: Ingersoll-Rand Co. of Calif. at \$2550 and The Worthington Co., Inc., at \$2550.

21—BRIDGES

ORANGE - RIVERSIDE COUNTIES, Cal.—T. C. Pritchard, 5260 Magnolia Drive, Riverside, awarded contract by the board of directors of the Ortega Joint Highway District, meeting at Santa Ana August 9, at \$12,449.84, for constructing a bridge across San Juan Creek, 2.6 miles north of San Juan Capistrano, in accordance with plans prepared by A. C. Fulmor, chief engineer. The proposed bridge will be of the steel girder type with concrete deck and concrete hand rail, 160 ft. in length, consisting of four 40-foot spans, with a 24-ft. roadway between curbs.

TRINITY COUNTY, Cal.—Until August 31, 2 P. M., bids will be received by C. H. Sweetser, District Engineer, U. S. Bureau of Public Roads, 461 Market St., San Francisco, to construct two bridges on Section C, Route 6, the Douglas City-Peanut National Forest Highway, Trinity National Forest, involving:

- (1) 215 cu. yds. unclass. excav., struc.;
- (2) 12 MFEM timber (placing only);
- (3) 246 cu. yds. concrete;
- (4) 20,000 lbs. reinf. steel;
- (5) 115,000 lbs. struc. steel;
- (6) 77 sq. yds. bit. wearing surface.

Specifications obtainable from above office on deposit of \$10, certified check payable to Regional Fiscal Agent, U. S. Forest Service.

WASHINGTON STATE—Until Sept. 6, 10 A. M., bids will be received by State Director of Highways, Olympia, to construct bridges over the Samish River and Silver Creek, Lake Samish Branch, State Road No. 1. Specifications obtainable from above. Certified check 5%.

LOS ANGELES, Cal.—W. A. Armstrong, County Bridge Engineer, is preparing plans for a wood and steel frame bridge to be built on New York Ave. over Eaton Wash. The proposed bridge will consist of four spans 38-ft. each, with 20-ft. roadway. The work will probably be done by contract.

OREGON STATE.—Until August 24, 9 A. M., bids will be received by State Highway Commission, Multnomah Hotel, Portland, to reconstruct approaches to bridge over Youngs Bay, Oregon Coast Highway nr. Astoria, Clatsop county, involving:

- 8,000 ft. untreated piling;
- 25,000 ft. treated piling;
- 400 MFEM creosoted lumber;
- 1,200 cu. yds. concrete;
- 135 tons metal reinforcement;
- 3,230 ft. handrail;
- 600 cu. yds. embankment;
- 80 cu. yds. crushed rock surfacing.

Specifications obtainable from Salem office on deposit of \$5, returnable.

OREGON STATE.—Until August 25, 9 A. M., bids will be received by State Highway Commission, Multnomah Hotel, Portland, for bridge construction as follows:

BAKER COUNTY: One culvert and 5 bridges over Burnt River, Dixie-Lime Section, Old Oregon Trail.

CLATSOP COUNTY: Bridge over Necanicum River, Wolf Creek Highway near Necanicum.

Specifications obtainable from Salem office on deposit of \$5, returnable.

22—DREDGING, HARBOR WORKS, EXCAVATION

SACRAMENTO, Cal.—Union Granite Co., Rocklin, at \$600 (\$60 ton) awarded contract by U. S. Engineer Office, Sacramento, to furnish 1000 tons riprap stone for wing dams.

SAN LUIS OBISPO, Calif.—County supervisors direct deputy county surveyor Kenneth Beck to prepare plans for proposed breakwater across the north channel of Morro Bay. Project is to be submitted to U. S. Government and will involve 23,000 tons of rock.

LOS ANGELES, Cal.—Shannah Bros., 6181 Eastern Ave., Los Angeles, submitted the low bid to the U. S. Engineer on August 11 at \$12,440 for repairing the enrockment at Reservation Point, Los Angeles Outer Harbor, involving 4000 tons furnish and place stone in embankment (rock to meet requirements of 150 lbs. per cu. ft.) The bids follow:

Shannah Bros., \$3.11 per ton net; total, \$12,440.

San Francisco Bridge Co., \$3.24 per ton net; total, \$12,960.

Karl B. Kumpe Co., \$3.25 per ton net; total \$13,000.

George Hess, \$3.33 per ton net; total, \$13,520.

Merritt-Chapman & Scott Corp., \$3.39 per ton net; total \$13,560.

EUREKA, Humboldt Co. Cal.—Hearing on proposed improvement of Humboldt Bay held with War Department engineers. Proposed program would involve deepening of four main channels to 30 ft., widening to 400 ft., estimated cost, \$537,000.

STOCKTON, San Joaquin Co., Cal.—City Port Commission urges \$250,000 federal appropriation for cotton com-

press plant and deepening of Deep Water Channel to 39-ft., \$990,000 estimated cost of the dredging.

SEATTLE, Wash.—Puget Sound Bridge & Dredging Co., 2929 16th St., SW, Seattle, at \$54,795 (\$195 cu. yd.) submitted low bid August 16 to U. S. Engineer Office, Seattle, to dredge 281,000 cu. yds. material from the Duwamish Waterway.

25—MACHINERY AND EQUIPMENT

WOODLAND, Yolo Co., Cal.—Spears Wells Machinery Co., 1832 9th, Oakland, at \$2274 awarded contract by city council to furnish one 3-wheeled 6-ton 4-cylinder gasoline street roller.

LOS ANGELES, Cal.—Until 11 A. M., August 24, bids will be received by A. J. Holm, City Purchasing Agent 107 City Hall, for furnishing and delivering to Water and Power Department f.o.b. the department's construction equipment section, 410 Ducommun St., one only earth boring machine under Specifications No. 3198. The bids will be taken as follows:

(1) one earth boring machine, complete and mounted on a gasoline engine driven truck, with undercutting device;

(1-Alt. A) one do;

(1-Alt. A) one do but without undercutting device;

(1-Alt. B) one earth boring machine complete and mounted on crawler type tracklaying tractor, with undercutting device;

(1-Alt. C) one earth boring machine similar to that furnished under item (1-Alt B) but without undercutting device.

SAN FRANCISCO—Following bids received by U. S. Forest Service to furnish five revolving scrapers 7 ft. class to work behind tractors of 55-drawbar hp.:

Associated Equipment Co., "7 Movmore" \$187.50.

Solano Iron Works, \$195.
Ed. R. Bacon, No. 27 Master, \$210.
Chas. Berg Imp. Co., "7A Atlas," \$270; "7C Atlas," \$360; "7F Atlas," \$388.

Austin Western, 3 f.o.b. Aurora, \$1207.50; \$402.50 each.

R. G. LeTourneau (with power control unit) \$2970.

Bids held under advisement.

CALIFORNIA STATE—Until Aug. 28, 2 P. M., under Quo. No. 3363, Req. No. 11937, bids will be received by State Purchasing Agent, Sacramento, to furnish snow plow equipment for delivery as follows:

EUREKA—2 push type reversible snow plows.

REDDING—7 hydraulically controlled reversible type push plows, mounted on Indiana Model S5A 2-ton trucks.

1 reversible blade hydraulically operated trailbuilder or bulldozer for use with 35 h.p. tracklayer type tractor.

SACRAMENTO—1 heavy duty V type snow plow with right hand wing. Frink 67-1/2S or equal, moldboard spread 120-in., for installation on 5-ton 4-wheel truck.

1 one way speed plow for 2-ton truck.

1 10-ft. do 4-ton truck.

1 do, for 2-ton F.W.D. truck Model HH6, Ser. No. 20031.

1 do, 4-ton truck.

CAPITAL CITY TITLE COMPANY

J. C. PALEN,
Manager

914 Seventh Street

Sacramento :: California

3 one-way speed snow plows complete with fittings, on 3- and 4-ton trucks.

1 9-ft. reversible blade bulldozer for McCormick-Deering Model T-40 track-layer tractor.

FRESNO—4 reversible blade snow plows.

NORTH HOLLYWOOD—1 reversible blade snow plow for Model AB Mack truck.

2 speed snow plows for 2-ton trucks.

1 snow plow with reversible straight blade.

1 V snow plow for rear control motor grader.

1 hydraulic operated bulldozer with reversible blade for 35 tracklaying type tractor.

LONS PINE—2 heavy duty V snow plows for 2 3-ton trucks.

30—RESERVOIRS & DAMS

SPOKANE, Wash.—Columbia Basin Commission estimates quantities of materials required for construction of 45-ft. low dam at Grand Coulee, a part of the \$63,000,000 Grand Coulee Project. Bids are to be called in about ten days.

In the following material estimates announced, the low dam figures are given first, with additional amounts necessary for the high dam given second:

Cement: 2,850,000 barrels; 12,630,000.

Reinforcing steel: 34,500,000 pounds; 27,000,000.

Miscellaneous steel: 1,650,000 pounds 18,970,000.

Sluice gate metal: 8,136,000 pounds; 15,682,000.

Structural steel: 8,162,000 pounds; 38,307,000.

Steel penstocks: 25,430,000 pounds; 25,430,000.

Turbines, valves: 15,000,000 pounds; 28,546,000.

Electrical equipment: 35,200,000 lbs.; 58,751,000.

Steel sheet piling: 47,182,000 pounds; 47,182,000.

Form lumber: 40,160,000 ft.; 95,674,000.

Timber cribbing: 29,820,000 ft.; 28,820,000.

No estimate is included for gravel in the dam.

PHOENIX, Ariz.—The Salt River Valley Irrigation District is considering an application to the federal emergency administration of public works for a loan of 500,000 for improvements to the dams and power plants of the Salt River project. The proposed work includes: Enclosing of the Horse Mesa dam power house; water spray protective work on the Mormon Flat dam power house; paving of the Horse Mesa dam spillways; building of a retaining wall at the Mormon Flat dam power house and other work of similar character.

LOS ANGELES, Cal.—Consolidated Steel Corp., Slauson and Eastern Aves., Los Angeles, at \$654,049.79 apparently submitted low bid Aug. 15 to city directors under Schedule No. 6, all-steel line, to construct 18.5 mi. conduit, consisting of 36-in. I. D. gravity pipe line, of 24.7 cu. ft. per second or 16,000 gals. per diem from the Pine Canyon Dam in San Gabriel Canyon to the Sunset Reservoir in Pasadena. Consolidated Steel also low on Schedule No. 7, steel and concrete line, at \$676,277.31; also on Schedule No. 3, furnish and install steel pipe for all of conduit, at \$567,632.54; also on Schedule No. 4, furnish and install steel pipe for major portion of conduit, at \$481,003.80; also on Schedule No. 8, complete furnish and construct for all-steel line for major portion of line, at \$533,989.10.

Geo. Hess, Los Angeles, low for

Schedule No. 1 at \$106,160 (excavation for all-steel conduit) and Schedule No. 2 at \$114,108.70 (excavation for concrete and steel conduit.)

ARIZONA STATE—Application for federal funds to finance construction of a flood control dam on the Gila River near the boundary of Greenlee and Graham Counties, will probably be filed shortly with the Arizona state advisory board of the Federal Public Works Administration. Although a survey of the proposed project has been made, the exact cost of the proposed project has not been estimated. However, it is believed approximately \$3,000,000 will be required to finance the construction. Phil C. Merrill, secretary of the Graham County Chamber of Commerce, Safford, is a member of the board which will file the application.

31—PIPE LINES & WELLS

BURLINGAME, San Mateo Co., Cal.—Bids will be called shortly by F. A. Bloom, City Purchasing Agent, to drill a water well in North Burlingame. Specifications will be ready in a few days.

SAN BERNARDINO, Cal.—Until Sept. 5, bids will be received by City Board of Water Commissioners for drilling a 16-in. water well in Lytle Creek Park and another near the intersection of Mill and D Sts. The proposed Lytle Creek Park well will be 300 ft. in depth, the latter 500 ft.

32—SEWERS & SEWAGE DISPOSAL PLANTS

SANTA CRUZ, Cal.—California Filter Co., 981 Folsom St., at \$1460 (one bid submitted) awarded contract by city council to furnish two steel filter tanks, 8 ft. dia., 20 ft. long.

LAGUNA BEACH, Orange Co., Cal.—City council has applied to the Federal Emergency Administrator of Public Works for a loan of \$190,000 to finance construction of a sewage disposal and treatment plant of the activated sludge type with separate sewage digestion, sewer mains and outfall. The city has already voted a \$180,000 bond issue but to date has not been able to find a purchaser for the bonds. Plans were prepared by the Currie Engineering Co., 219 Anderson Block, San Bernardino.

LOS ANGELES, Cal.—The boards of directors of County Sanitation Districts Nos. 1, 2, 5 and 8, have authorized A. K. Warren, Chief Engineer, to apply to the Federal Emergency Administration of Public Works for N. R. A. funds to finance the construction of the White's Point Outfall Sewer, estimated to cost, \$2,750,000. The engineer was also authorized to apply for funds for the construction of the Hooper Avenue-Compton Creek Trunk Sewer.

ROSEBURG, Ore.—City council will apply for \$100,000 federal funds for construction of trunk line sewer and sewage disposal plant; project authorized by special election.

SAN JUAN CAPISTRANO, Orange Co., Cal.—Nat H. Neff, County Road Commissioner, has received for forwarding to the Federal Public Works Administration an application for \$30,000 to finance the construction of two miles of outfall sewer from San Juan Capistrano to Serra (Doheny Park). The line will connect the sewer system with the treatment tanks. The line will involve vitrified clay sewer pipe with cast iron pipe for that portion under San Juan Creek.

SAN FRANCISCO.—Until Aug. 23, 2:30 P. M., bids will be received by the Department of Public Works, S. J. Hester, Chief Deputy Director, to improve 37th Ave. bet. Moraga and Noriega, sewer only, involving:

- (1) 593 ft. 8-in. VCP sewer;
- (2) 26 Y branches;
- (3) 2 brick manholes.

Estimated cost, \$920. Specifications obtainable from office of J. J. Casey, city engineer, 3rd floor, City Hall.

LOS ANGELES, Cal.—Until 11 A. M., August 24, bids will be received by A. J. Holm, City Purchasing Agent 107 City Hall, for furnishing and delivering to Water and Power Department f.o.b. the department's warehouse, Los Angeles, iron and steel castings consisting of vault frames and outer covers, manhole frames and covers, and vent frames and covers, in such quantities as may be ordered during 12-month period commencing August 16, 1933, or with date of contract if subsequent thereto, under Specifications No. 3184. The items are:

- (1) class 40 cast iron castings as per water and power dept. drawing Nos. 348, A-742, A-743 and 721-MS;
- (1a) commercial gray iron castings as per same drawings noted under item (1);
- (2) class 40 cast iron castings as per water and power dept. drawing No. D-620;
- (2a) commercial gray iron castings as per same, drawing noted under item (2);
- (3) cast steel castings as per water and power dept. drawing Nos. A-348 and A-743.

33—WATER WORKS

VICTORVILLE, San Bernardino Co. The Victorville County Water District has applied for funds in the amount of \$50,000 under the National Recovery Act to construct a water distributing system. Charles L. Foulke, 455 Fourth St., San Bernardino, engineer; Burns, McDonnell-Smith Engineering Co., 1031 S. roadway, Los Angeles, consulting engineer. The work will involve:

2 wells, 16-in. diameter, about 250 ft. deep, each equipped with deep well pump. Automatic controls, pump house, sand trap piping, etc., each unit having capacity of 300 gals. per minute; \$7330.

One 150,000 gal. reservoir (reinforced concrete ring tension); \$3500.

Distributing system, involving cast iron pipe and valves, as follows:

25,500 ft. 4-in. cast iron pipe;

11,680 ft. 6-in. cast iron pipe;

32 4-in. valves;

12 6-in. valves;

37 hydrants, complete.

Estimate, \$27,788.

Water services, including meter, meter box, copper goose neck corporation cock and curb cocks, average length of galvanized pipe 25-ft., labor, etc., cost per service \$22 each; total cost \$7700.

The cost will include:

Labor, \$12,538.

Material, \$33,780.

Engineering, \$2000.

Land, \$1200.

A bond issue of \$50,000 has been voted. W. G. Roberts, Victorville, is president of the district.

REDLANDS, San Bernardino Co., Cal.—Geo. S. Hinkley, city engineer, has announced that the city will apply for NRA funds to finance the construction of new water mains for the municipal water department. The city will probably ask for \$132,000.

SAN CLEMENTE, Orange Co., Cal.
 —W. A. Ayer, city engineer, is preparing preliminary plans for water improvements at San Clemente, involving the construction of improvements to the auxiliary pumping plant at San Juan Creek (\$5000) and 46,750 ft. 4-in. cast iron pipe in place (\$35,000). Application for \$40,000 of NRA funds will probably be made by the city.

WHITTIER, Los Angeles Co., Cal.
 —The City of Whittier has applied for funds in the amount of \$228,000 under the National Recovery Act for the following construction projects:
 Roofing Greenleaf Reservoir, total \$15,050; labor cost \$5254, material \$8646, engineering and overhead, \$1000
 Construction of Reservoir - pump house with pumps and equipment, also cast iron booster pipe line at \$15,069, labor cost \$5714, material \$8705, engineering, \$600.

Construction of Reservoir, pump house with pumps and equipment, cast iron booster pipe line and cast iron distributing line in northwest part of Whittier. Total cost \$19,650, labor \$7500, materials \$9500, engineering \$600, cost land \$2000.

The estimated quantity of pipe required follows:

- 20,330 ft. 6-in. C. I. pipe;
- 1,870 ft. 10-in. C. I. pipe;
- 1,030 ft. 4-in. C. I. pipe;

Installation of cast iron water distributing mains in various streets, total cost \$40,631, labor \$14,742, materials \$23,639, engineering \$1750.

Drilling and casing well No. 10, pump house with derricks, pump house and equipment for well No. 10 and also for existing well No. 9 and 30-in. water main from wells at Whittier Woodland Park to settling basins at pumping station No. 2, total cost \$31,950, labor \$11,300, material \$13,000, engineering \$1250, cost of land \$6000.

Construction of gas driven pumping and generating plant with transmission lines to serve ornamental street lights, total cost \$105,650, labor, \$19,650, material \$80,000, engineering \$5000

BOULDER CANYON, Nev. &—Until Sept. 12, 10 A. M., under Specifications No. 545, bids will be received by U. S. Bureau of Reclamation, Denver, Colo., to furnish two 3500-hp. horizontal shaft double overhung impulse type hydraulic turbines complete with hydraulically-operated follower ring type shut-off valves, two oil pressure governors complete with pumping equipment and auxiliary equipment for regulating the speed of above turbines and two 3000 kv-a, 300 r.p.m., three-phase, 60-cycle, 2400-volt, a.c.-generators, complete with direct-connected main exciters and pilot exciters for installation in the Boulder Power Plant. No charge for plans and specifications to prospective bona fide bidders; to others, \$1.50, not returnable.

BOULDER CANYON, Nev. —John W. Beam, Denver, at \$18,500 submitted low bid to U. S. Bureau of Reclamation, Denver, under Spec. No. 598-D, to furnish seat frames and bronze liners for bulkhead gates for draft tubes at Boulder Power Plant. Complete bids follow:

John W. Beam, Denver.....\$18,500.00
 Johnson City Fdy. & Mach... 18,530.00
 Reuter Bros. Iron Wks., Chicago
 19,548.18

Bids held under advisement.

BAKERSFIELD, Cal.—City council contemplates purchasing chlorinating apparatus to be installed at the city plunges.

OREGON STATE—Following projects included in Oregon State Public

Works program, funds to be sought through NRA:

- Sewage disposal plant, \$7,000,000.
- Salem Waterworks project, \$800,000.
- Salem Sewage project, \$350,000.
- Eugene Sewage project, \$250,000.
- Corvallis Sewage project \$200,000.
- Albany Sewage project, \$150,000.
- McMinnville Sewage project, \$100,000
- Astoria moorage, \$50,000.
- John Day river improvement, \$50,000
- Lower plant extension, Hood River, \$28,000.

SAN FRANCISCO.—Davis Mfg. Co., Davis, at \$278.50 awarded contract by U. S. Forest Service to furnish one hydraulic pump complete with valve and fittings with control lever, adapter, drive shaft and parts necessary for attaching to 30 Cletrac, capacity 20-gpm. at 650-rpm.

EUREKA, Humboldt Co., Cal.—City council plans development of water supply system from Mad River, plans prepared by C. C. Kennedy, 74 New Montgomery St., San Francisco, under three alternates as follows:

Alternate A—Delivering 4,000,000 gals. per Day; Construction Cost, \$941,200.

- (1) concrete diversion dam with sluice gates and flash boards;
- (2) detritor with gates, weir, piping, etc.;
- (3) pipe line:
 4,300 lin. ft. 27-in. dia. buried in trench;
 106,700 lin. ft. 24-in., laid in cradles;
 58,050 lin. ft. 24-in. buried in trench
- (4) bridges and culverts;
- (5) control equipment, gate valves, blow-off units, standpipe unit, valve manholes;
- (6) reservoir in Eureka, 10,225,000 gals.
- (7) filtration plant, 3,200,000 gals. per day capacity, booster pump station;
- (8) elevated storage tank, 100,000 gals.
- (9) mains in Eureka:
 400 lin. ft. 24-in. pipe to connect reservoir to filtration plant; 8,000 lin. ft. 21-in. pipe to connect filtration plant and existing storage at Harris and E Sts.; 330 lin. ft. 12-in. pipe to connect filtration plant and 100,000 gals. elevated tank; 6,000 lin. ft. 12-in. pipe to connect 100,000 gal. elevated tank with existing tank.

Alternate B: Construction Cost \$916,000

- (1) concrete dam, crest elevation 260, with control gates and flash boards;
- (2) clearing reservoir site;
- (3) pipe line:
 71,300 lin. ft. 24-in. pipe, laid in grade on surface;
 58,050 lin. ft. 24-in. pipe buried in trench;
- (4) bridges and culverts;
- (5) control equipment, gate valves, air-vacuum valves, blow-off units valve manholes;
- (6) reservoir in Eureka, 10,225,000 gals.
- (7) same as above (Alt. A);
- (8) same as above (Alt. A);
- (9) same as above (Alt. A).

Alternate C: Construction, \$1,992,400.

- (1) concrete dam, crest elevation 334, with spillways, control gates, etc.;
- (2) control works, trash racks, screens valves and controls;
- (3) 2300 ft. tunnel;
- (4) 108-in. conduit laid in cradles, including air and blow-off valves;
- (5) 14,490 ft. tunnel;
- (6) 78-in. conduit, 10,660 lin. ft., laid in cradles on surface, including bridges, air and blow-off valves;
- (7) 72-in. penstock, 1200 lin. ft. of pipe buried and anchored in ground;
- (8) power house structure with two operating units, inc. turbines, generators, crane, switchboard, transformers, etc.;

- (9) tail race, 570 lin. ft. of buried conduit;
- (10) surge works;
- (11) 30-in. conduit, 1730 lin. ft. laid in cradles on surface, inc. valves;
- (12) equalizing reservoir, 5,000,000 gal. capacity;
- (1) filtration plant, 3,200,000 gals. per day;
- (14) 18-in. dia. conduit, 45,270 lin. ft. of pipe buried in trench;
- (15) 10-in. pipe, 1020 lin. ft. of main extension in city, incl. valves.

Funds for this project are being requested through the NRA. Project will involve water and power development on the Mad River for the City of Eureka.

34—PARKS AND PLAY-GROUNDS

SAN FRANCISCO—Following bids received by Recreation Commission for furnishing and installing fencing and backstop on the following playgrounds:
 Funston Playground, Bay and Laguna Streets;

Julius Kahn, Presidio Wall at Walnut Street;

Thirty-eighth Ave. and Fulton St. Playground, at 38th Ave. near Fulton Street;

Aptos Playground, Aptos and Ocean Avenues.

Standard Fence Co., 1940 San Bruno Ave., \$3549.

C. J. Waterhouse (Stuart Iron Works) \$3560.

Crown Fence & Supply Co., \$3619.

Michel & Pfeffer Iron Works, \$3763.17.

Anchor Post Fence Co., \$3834.18.

Trask & Squiers, \$3916.

Bids held under advisement.

29—STREETS AND HIGHWAYS

RIVERSIDE COUNTY, Cal.—Until 2 P. M., August 23, bids will be received by the Board of Directors of Joint Highway Dist. No. 15, for constructing a road mix, oil treated surface on Sections C, D, E and F, and a portion of Section B, Ortega Highway in Joint Highway Dist. No. 15, involving:

- (1) 26.1 miles prepare subgrade;
- (2) 24,200 cu. yds. haul surf. material;
- (3) 660 M. gals. water;
- (4) 600,000 gals. heavy fuel oil;
- (5) 26.1 miles road mix, oil treated surface.

Plans obtainable from A. C. Fulmor, Chief Engineer, County Court House, on payment of \$5. Certified or cashier's check, 5% George Jeffrey, president; L. W. Briggs, secretary.

GILA COUNTY, Ariz.—Until Sept. 5 10 A. M., bids will be received by C. H. Sweetser, District Engineer, U. S. Bureau of Public Roads, 802 Title & Trust Bldg., Phoenix, for 5.247 miles grading Section A, Route 11, Payson-Colcord Mt. National Forest Highway Tonto National Forest, involving:

- (1) 20 acres clearing;
- (2) 39,000 cu. yds. unclass. excav.;
- (3) 460 cu. yds. unclass. excav., struc.;
- (4) 2,000 sta. yds. overhaul;
- (5) 5.247 miles finish earth graded rd.;
- (6) 2,022 lin. ft. corr. metal pipe.

Specifications obtainable from above office on deposit of \$10, returnable, check certified and payable to Regional Fiscal Agent, U. S. Forest Service.

OROVILLE, Butte Co., Calif.—City plans improvement of State highway on Villa Street through city of Oroville, involving 2225 ft. new street 80-ft. wide, a bridge over the Western Pacific railroad tracks, a fill, and a municipal auto park. Estimated cost, \$123,000. Federal funds may be sought through the NRA. S. J. Norris, city engineer.

RED BLUFF, Tehama Co., Cal.—All bids rejected by Joint Highway District No. 18 to surface with crushed rock base and penetration surface 1,000 ft. south of Gerber, etc., and the work will be done by force account under the direction of Martin Polk, engineer of the district.

LOS ANGELES, Cal.—Bids will be called within a few days by the board of public works for the improvement of Beaudry Ave. bet. Figueroa St. and Alpine St., under the 1911 act. The quantities are:

- (1) grading (352 cu. yds. cut);
- (2) 14,084 sq. ft. 4-in. rock and oil roadway;
- (3) 45 sq. ft. asph. conc. pave. (2-in. asph. conc. wear. surf., 6-inch concrete base);
- (4) 2245 ft. unplas. light curb;
- (5) 1987 sq. ft. 1-course walk;
- (6) 604 sq. ft. 4-in. driveway;
- (7) 4680 sq. ft. 6-in. conc. gutter;
- (8) 38 sq. ft. 8-in. comb. gutter;
- (9) storm drain and appurtenances;
- (10) 10 ft. 4-in. cast iron soil pipe.

Remove: 329 ft. curb, 6855 sq. ft. gutter as follows: 6128 sq. ft. cobblestone, 131 sq. ft. brick, and 596 sq. ft. concrete; 1854 sq. ft. walk, 647 sq. ft. drive-ways, 2 trees, 10 ft. 10-in. pipe.

The final ordinance ordering the work was adopted by the city council August 9.

TRINITY COUNTY, Cal.—Until August 31, 2 P. M., bids will be received by C. H. Sweetser, District Engineer, U. S. Bureau of Public Roads, 461 Market St., San Francisco, for grading 2,655 miles of Sections A and C, Route 5, Douglas City-Peanut National Forest Highway, Trinity National Forest, involving:

- (1) 11 acres clearing;
- (2) 63,800 cu. yds. unclass. excav.;
- (3) 840 cu. yds. unclass. excavation structure;
- (4) 114,000 sta. yds. overhaul;
- (5) 2,655 miles finish earth graded road;
- (6) 4 MFEM timber cribbing;
- (7) 102 cu. yds. concrete;
- (8) 2,400 lbs. reinf. steel;
- (9) 60 cu. yds. cement rubble masonry;
- (10) 1068 lin. ft. corr. metal pipe;
- (11) 310 cu. yds. hand laid riprap;
- (12) 30 right of way monuments;
- (13) 260 lin. ft. lam. timber culverts (alt. for 6-in. corr. metal pipe).

Specifications obtainable from above office on deposit of \$10, certified check payable to Regional Fiscal Agent, U. S. Forest Service.

MODOC COUNTY, Cal.—A. Teichert & Son., P. O. Box 1118, Sacramento, at \$9990 awarded contract by U. S. Bureau of Public Roads to apply 28,077 mi. road oil dust palliative on Beds and Howard Gulch National Forest Highway, Modoc National Forest.

STOCKTON, Cal.—Until Aug. 28, 5 P. M., to be opened at 8 P. M., bids will be received by B. L. Trahern, City Clerk, for graveling near the Deep Water Terminal at the lumber storage areas, 2-in. of gravel to be laid, involving 3000 tons road gravel in place. Specifications obtainable from above office or from office of City Port Commission.

SUSANVILLE, Lassen Co., Cal.—As previously reported, until August 18, 2 P. M., bids will be received by the Lassen-Modoc Joint Highway District No. 14 at the offices of the District Engineer, County Surveyor's office, Susanville, for 2.89 miles of excavation, grading, graveling and placing culvert pipes; also hauling and spreading gravel at intervals over about five miles of road now in use between Eagle Lake and Willow

Creek Valley, about 35 miles north of Susanville, involving:

- (1) 8500 cu. yds. grading, unclass.;
- (2) 2270 cu. yds. gravel new constructed section, av. haul 1.1 miles;
- (3) 3500 cu. yds. do, old section, haul 2.44 miles;
- (4) 650 lin. ft. place metal culvert pipes.

Specifications obtainable from above office, L. R. Cady, Secretary; M. J. Tilley, District Engineer.

RIVERSIDE, Cal.—C. W. Wood, P. O. Box 1435, Stockton, at \$31,200 awarded contract by U. S. Bureau of Public Roads to furnish and apply approximately 780,000 gals. liquid asphaltic road material on 33 mi. Sections A, B, and C, Route 70, Idyllwild, Desert National Forest Highway, San Bernardino National Forest.

OROVILLE, Butte Co., Cal.—No bids received by county supervisors for maintenance of A and B roads. Work will be done by county force account under direction of County Engineer J. A. Baumgarner.

WASHINGTON STATE—Until Sept. 6, 10 A. M., bids will be received by State Director of Highways, Olympia, for highway construction as follows:

SKAGIT CO.—Grade 3.8 mi. Lake Samish Branch, State Road No. 1, Section A, State Fish Hatchery to Lake Samish, N. R. S. H. Pro. Unit 1, N. R. S.—191-A.

SKAGIT CO.—Grade 3.2 mi. Lake Samish Branch, State Road No. 1, Section B, State Fish Hatchery-Lake Samish.

KLICKITAT CO.—Surface 8.3 mi. State Road No. 8, Lyle-Grand Dalles, between Lyle and Goldendale.

YAKIMA AND KITTITAS CO.—Stockpile 25,610 cu. yds. crushed stone surfacing and oil rock on 33.6 mi. State Road No. 5, Morse Creek to Carmack Bridge.

Specifications obtainable from above office on deposit of \$2. Certified check 5% required with bid.

ST. HELENA, Napa Co., Cal.—Until Aug. 21, 8 P. M. (postponed from August 15) bids will be received by E. R. Palmer, town clerk, to pave one mile of Spring St. between Oak Ave. and the Cemetery, with oil and gravel wearing surface, 18-ft. wide. Specifications obtainable from above office.

KLAMATH COUNTY, Ore.—Until Aug. 25, 9 A. M., bids will be received by State Highway Commission Multnomah Hotel, Portland, to construct 5.53 miles of oil mat surface treatment Fort Klamath-Crooked Ck. Section, The Dalles-California and Crater Lake Highways. Specifications obtainable from Salem office on deposit of \$5.

WASHOE COUNTY, Nevada—Until Sept. 7, 2 P. M., bids will be received by C. H. Sweetser, District Engineer, U. S. Bureau of Public Roads, 461 Market St., San Francisco, for placing 5.536-mi. selected material for surfacing on Sections B, C and D, Route 1, the Lake Tahoe National Forest Highway, Tahoe National Forest, involving:

- (1) 2000 cu. yds. unclass. excav., hor. row;
- (2) 1 mile fine grading subgrade and shoulders;
- (3) 7500 cu. yds. selected material for surfacing.

Specifications obtainable from above office on deposit of \$10, certified check payable to Regional Fiscal Agent, U. S. Forest Service.

August 17, 1933

LOS ANGELES, Cal.—Griffith Co., 502 Los Angeles Railway Bldg., Los Angeles, at \$47,440.95 submitted low bid to Board of Public Works Aug. 16 to improve Exposition Blvd. from Vermont Ave. to Western Ave.

SAN FRANCISCO—Until Aug. 30, 2:30 P. M., bids will be received by Department of Public Works, S. J. Hester, Chief Deputy Director, to improve Golden Gate Park Roads, involving:

- (1) 362,000 sq. ft. 2-in. asph. conc. wear. surf.;
- (2) 7000 sq. ft. 1½-in. do;
- (3) 5000 sq. ft. 8-in. waterbound macadam base;
- (4) 200 cu. yds. red rock;
- (5) 52 storm water inlets;
- (6) 5100 ft. 6-in. V.C.P. culvert;
- (7) 5 seepage pits;
- (8) 1500 ft. 2-in. galv. NEC conduit.

Estimated cost \$29,000. Specifications obtainable from office of John J. Casey, City Engineer, 3rd Floor, City Hall.

JUNEAU, Alaska.—Siems - Spokane Co., Realty Bldg., Spokane, Wash., at \$82,000 awarded contract by the U. S. Bureau of Public Roads, Juneau, for 2,902 miles grading and surfacing the Tongass Highway, Mud Bay-Pt. Higgins Section.

Siems-Spokane Co. at \$25,000 also awarded contract to grade and construct piling on 0.76 mile of Seward Highway, Seward Grade Crossing Section, Chugach National Forest.

LOS ANGELES, Cal.—City engineer has completed plans and quantities for the improvement of Coldwater Canyon Drive bet. Mulholland Highway and Eden Court (center line 3143 ft.) The quantities are:

- (1) grading;
 - (2) 93,573 sq. ft. 7-in. compressed concrete pavement;
 - (3) 1760 sq. ft. 6-in. asph. conc. pave.;
 - (4) 114 ft. heavy unplas. curb;
 - (5) 6192 ft. reinf. integral curb;
 - (6) storm drain;
 - (7) reset 1 manhole.
- Storm drain includes:
 2 manholes "EZ";
 2 manholes frame and cover sets;
 1 catchbasin No. 44;
 1 catchbasin frame and grating;
 155 ft. 18-in. corr. metal pipe;
 480 ft. 24-in. corr. metal pipe;
 4 concrete head walls, Class C concrete (4 yds. conc. in each);
 1 catchbasin No. 38;
 1 catchbasin frame and cover set.

WASHOE COUNTY, Nevada—Until Sept. 7, 2 P. M., bids will be received by C. H. Sweetser, District Engineer, U. S. Bureau of Public Roads, 461 Market St., San Francisco, for grading 1.304 mi. Section A, Route 1, the Lake Tahoe National Forest Highway, Tahoe National Forest, involving:

- (1) 8.4 acres clearing;
- (2) 25,500 cu. yds. unclass. excav.;
- (3) 190 cu. yds. unclass. excav., struc.
- (4) 20,000 sta. yds. overhaul;
- (5) 1,304 mi. finish earth grader road
- (6) 45 cu. yds. concrete;
- (7) 3300 lbs. reinf. steel;
- (8) 29 cu. yds. cement rubble masonry;
- (9) 264 lin. ft. corr. metal pipe;
- (10) 443 cu. yds. hand laid rock embankment;
- (11) 38 right-of-way monuments;
- (12) 188 lin. ft. remove and relay corrugated metal pipe.

Specifications obtainable from above office on deposit of \$10, certified check payable to Regional Fiscal Agent, U. S. Forest Service.

UNIT BID SUMMARY

Compiled from the Daily News Service of Pacific Constructor

GRADE SECTION G—COCONINO CO., ARIZ.—GOVT.

COCONINO COUNTY, Ariz.—Skousen Bros.; Albuquerque, N. M., submitted low bid to U. S. Bureau of Public Roads, 802 Title & Trust Bldg., Phoenix, Ariz., August 10, at \$159,878.10, for grading 9.688 mi. Section G, Route 7, Oak Creek National Forest Highway, Coconino National Forest, involving:

- (1) 50 acres clear;
- (2) 88,000 cu. yds. unclass. excav.;
- (3) 2027 cu. yds. unclass. excav. struc
- (4) 26,000 cu. yds. unclass. excav. borrow;
- (5) 50,000 sta. yds. overhaul;
- (6) 9.677 mi. finishing earth graded road;
- (7) 828 cu. yds. Class "A" concrete;
- (8) 120 cu yds. Class "B" concrete;
- (9) 115 cu. yds. Class "D" concrete;
- (10) 82,500 lbs. reinforcing steel;
- (11) 672 lin. ft. 18-in. C. M. pipe;
- (12) 710 lin. ft. 24-in. C. M. pipe;
- (13) 144 lin. ft. 30-in. C. M. pipe;
- (14) 384 lin. ft. 36-in. C. M. pipe;

- (15) 134 lin. ft. 42-in. C. M. pipe;
- (16) 36 lin. ft. 48-in. C. M. pipe;
- (17) 25 cu. yds. hand laid rip rap;
- (18) 6421 lin. ft. wood guard rail;
- (19) extra work, maintenance exist. road;
- (20) 8700 cu. yds. mi. borrow, haul;
- (21) 332 lin. ft. remove, clean and stockpile C.M.P.;
- (22) 29,500 lin. ft. protection ditch;
- (23) 18,200 lin. ft. fence;
- (24) 3 each farm entrance gates;
- (25) 3 each cattle guards (30 ft. 2½-in.);
- (26) 72 each right-of-way monuments;
- (27) 1 each cattle guard (15 ft. 1½-in.)

The total bids were:
 (A) Skousen Bros., \$159,898.10.
 (B) Haddock & Lindberg, Pasadena, \$181,343.40.
 (C) Utah Constr. Co., \$203,060.75.
 (D) Hoegman & McVicar, Pasadena, \$218,815.62.
 (E) Engineer's estimate, \$134,749.10.

Bids held under advisement.

LOS ANGELES, Cal.—Until 2 P. M., Sept. 5, bids will be received by county supervisors for the improvement of Slauson Avenue and Alameda Street, under Cash Contract No. 436. The project includes the improvement of Slauson Ave., from Wilmington Ave. to Alameda St., and Alameda St., from Slauson Ave. to Florence Ave., in the vicinity of Huntington Park, 5688 ft. or 1.08 miles, involving:

- (1) 59,456 sq. ft. 10-7-7-10-in. concr. pavement;
- (2) 24,029 sq. ft. 8-in. concr. pave.;
- (3) 35,430 sq. ft. 6-in. concr. pave.;
- (4) 1589 sq. ft. 6-in. concrete driveway entrance;
- (5) 37,940 sq. ft. 2-in. asph. concrete wearing surface;
- (6) 884 tons asph. concr. wearing surf., variable thickness;
- (7) 2509 sq. ft. 4-in. concr. base;
- (8) 1461 sq. ft. cem. walk standard section;
- (9) 1709 ft. 6x9x15-in. concr. monolithic curb and gutter (7-in., 8-in., by 2 ft.);
- (10) 5046 ft. do 7-in., 8-in., by 4 ft.);
- (11) 285 ft. do (7-in., 8-in., by 5 ft.);
- (12) 2923 ft. do (7-in., 10-in., by 12 ft.);
- (13) 24 ft. 6x10x18-in. do (7-in., 8-in. by 5 ft.);
- (14) 143 ft. do 7-in., 8-in., by 2 ft.);
- (15) 332 sq. ft. concr. gutter, 8-in. section;
- (16) 135 ft. concr. curb, 6x9x15-in.;
- (17) 382 ft. concr. curb, 6x10x18-in.;
- (18) 136.23 ft. curb armor.

Geo. W. Jones, County Road Commissioner. Mame B. Beatty, 501 Hall of Records, Clerk of the Board.

WHATCOM COUNTY, Wash.—Until August 31, 10 A. M., bids will be received by W. H. Lynch, District Engineer, U. S. Bureau of Public Roads, 316 New Post Office Bldg., Portland, to surface 11.0965 miles Baker River Project NR-24-A3, B2, C3, Mt. Baker National Forest, involving:

- (1) 3,000 cu. yds. unclass. excavation, borrow;
- (2) 32,000 sta. yds. overhaul, slides and borrow;
- (3) 4,000 cu. yds. subgrade reinf.;
- (4) 11.0965 miles fine grading, subgrade and shoulders;
- (5) 15,000 tons crushed run bottom course;
- (6) 15,600 tons crushed run top course
- (7) 1,000 tons supplemental crush. run top course;
- (8) 3,000 ml. yds. binder haul;
- (9) 1,000 M. gals. watering;
- (10) 2,000 cu. yds. binder;
- (11) 2 acres roadside cleanup.

Specifications obtainable from above office on deposit of \$10, returnable. Proposal guarantee, 5%.

MATERIALS PRICE GAIN 6.4% IN MONTH OF JULY

Federal Bureau Reports Current Level Above 1932 Quotations

Building materials prices increased 6.4% during the month of July, according to the monthly index prepared by the United States Bureau of Labor Statistics.

Average prices of brick and tile, cement, lumber, paint and paint materials and miscellaneous building materials all moved upward. Structural steel showed no change during the month.

Metals and metal products, including plumbing fixtures also increased in comparison with June prices.

Building materials prices are now substantially higher than they were in the corresponding month last year, the index shows, the group average standing at 79.5 at the end of July, compared with 69.7 at the same time last year.

The upward trend continued thru the first two weeks of August, according to the weekly bulletin of the labor bureau for the week ending August 12, although there has been an increase of less than a point since July 29 and a decline of two-tenths of a point since August 5, when the rise reached a peak.

The index on August 12 stood at 80.7, compared with 80.9 on August 5 and 78.8 on July 15.

Following is the table of comparative prices prepared by the United States Bureau of Labor Statistics:

	July 1932	July 1933
Building materials	69.7	79.5
Brick and tile	75.9	78.2
Cement	77.3	88.2
Lumber	56.9	75.9
Paint & paint materials.....	66.8	77.9
Plumbing and heating.....	67.1	69.4
Structural steel	81.7	81.7
Other building materials.....	77.9	83.3

San Francisco prices remain unchanged from last week. Lumber was reported firm at the level established several weeks ago. Output has been somewhat curtailed by making effective the new national code and pending receipt of regional codes from Washington.

THE WEEK'S NEWS Highlights

HIGHWAY JOBS. Forty-one contracts on which bids will be received by the California State Highway Commission on three successive days commencing September 13 were advertised during the week. This is the first new construction to be undertaken in the new biennium.

The Highway Commission program contemplates award of \$10,000,000 in contracts before October 31, according to State Director of Public Works Earl Lee Kelly. Already being advertised are jobs estimated to cost in excess of \$4,000,000. (See Engineering Report Section this issue for complete estimates of construction quantities involved.)

STATE CODES. Sponsors of a competitive code for the California crushed stone, sand and gravel industry will present their case at a public hearing August 28, 10 A. M., the first hearing scheduled under the California Recovery Act. Other hearings on the calendar include: Furnace Dealers and Sheet Metal Contractors of Northern California, Inc., August 29, 10 A. M.; Retail Lumber and Lumber Building Material Industry, Sept. 7, 10 A. M.; Southern California Metal Weatherstrip Association, Aug. 28, 10 A. M. (Los Angeles).

Proposed construction code for the state filed by California State Builders' Exchange has been assigned to the Los Angeles office of the corporation commission for hearing, but no date announced.

FELONY NOW. New state legislation effective August 21 makes wage rebating to avoid payment of public works prevailing wage scales a felony. State Labor Commissioner Frank C. MacDonald announced his department would press prosecution of any complaints.

FIRST STATE CODE HEARING HERE MONDAY

Six Industry Regulatory Proposals on Corporation Commission Schedule

First public hearing on a state industrial code will be that of the crushed stone, sand and gravel industries, set for 10 a. m., Monday, according to a schedule announced yesterday by Commissioner of Corporations Edwin M. Daugherty.

Twenty proposed codes have been filed with the commission to date, including six of interest to the building industry. These are the codes offered by Furnace Dealers and Sheet Metal Contractors of Northern California, Inc.; Retail Lumber and Lumber Building Material Industry of California; Southern California Metalstrip Association; California State Builders Exchange; Furnace Dealers Association of Southern California; Crushed Stone, Sand and Gravel Industries.

The stone and gravel industry hearing has been assigned to Deputy Commissioner D. A. Pearce for hearing. All hearings in San Francisco will be in the corporation commission chambers of the state building.

Wage and hour provisions of the stone and gravel code are 36 to 40 hours per week for all labor, except clerical, emergency and employes on floating equipment; minimum wage of 40 cents an hour south of the Tehachapi, 50 cents an hour north of the Tehachapi, \$13 a week for employes on floating equipment in the south and \$14 for the same in the north. According to the sponsors of the code this will provide an increase of 15 percent in the pay of 2000 employes.

Furnace Dealers and Sheet Metal Contractors are asking for a 32-hour week and a maximum 8-hour day. Wage schedules for journeymen are fixed at \$1.18 per hour, appliance installers, \$0.75 an hour, apprentices from \$.35 to \$1.04 an hour.

The association asks for an enforcement of the code in Alameda, Contra Costa, San Mateo and Santa Clara counties and the city of Vallejo. Seventy-six contractors with 500 employes are represented, according to officials of the association. The hearing for this code is to be at 10 a. m., August 29.

WEBB RULING WILL GUIDE LABOR BUREAU

MacDonald Says His Dept. Plans to Use Bridge Pay Opinion in Enforcement

Frank C. MacDonald, state labor commissioner, yesterday declared his department would enforce the rulings given by Attorney-General U. S. Webb on wage scales to be paid for labor on the San Francisco-Oakland bridge and on structures appertaining to it. The attorney-general's opinion was given in response to an inquiry from Chief Engineer Chas. H. Purcell.

"Our attorney's analysis of the opinion makes it clear that work done off of the job site is included as part of the public work if the work consists of fabricating a part of the structure itself, according to plans and specifications set forth in the contract, instead of merely fabricating the materials which are to be used in the structure," said MacDonald.

"The work of fabricating the huge caissons at the Moore Dry Dock at Oakland, which caissons are later to be floated to the site of the San Francisco-Oakland Bay Bridge and to become a substantial part of the foundation to the bridge, was held to come under the law, whereas the work of manufacturing the pontoons and other materials which form the component parts of the caissons was held not to come under the law, the caissons being built according to specifications for this particular job and not being standard or stock material sold to the trade generally.

"In drawing the line at this point the attorney-general follows, in substance, the so-called Massachusetts rule which the Supreme Court of California has in two cases adopted as the rule of interpretation in this state, which rule is to the effect that 'where the seller is to furnish materials, and fashion them according to specifications furnished by the purchaser, or according to some model selected and when, without the special contract entered into by the parties, the thing furnished would never have been put in the particular shape or condition in which it was furnished, then the contract is essentially one for labor.' (Flynn vs. Dougherty, 91 Cal. 667, and United Iron Works vs. Standard Brass Casting Company, 69 Cal. App. 384, in which latter case a hearing was denied by the Supreme Court, thus making it a Supreme Court decision.)

U. C. EXTENSION COURSES RESUME

The University of California Extension Division, which now has the largest class department of any like institution in the world, is completing plans for the offering of close to 1500 courses of instruction in various cities and communities throughout the state during the year 1933-34.

An extensive program by which the Extension Division hopes to serve a greater number of adults than it ever has before, is being formulated at the present time, according to announcement of Prof. Leon J. Richardson, Extension Division head. New fall classes will start in August and September.

NEW ELECTRICAL CODE IN EFFECT

A new electrical ordinance is effective in Stockton, providing for licensing of all electrical contractors, shops and repair services. The annual fees are: General contractors, \$100; shops, \$25; repairmen, \$10. Registration of all mechanics is required.

Owners of homes and buildings are allowed to do their own wiring and electrical work on condition they obtain a permit from the office. All such work must be inspected by the department and approved under the code.

"Drawing the line at this point makes out enforcement problem simple and lays down a clear rule for the guidance of contractors generally in bidding upon public work, for the plans and specifications in the contract can be looked to for guidance as to whether or not a part of the structure is provided for or merely materials such as are ordinarily sold to the trade generally.

"Ready-mixed concrete prepared for the Bay Bridge at the bunkers of the Kaiser Paving Company at Oakland, for instance, was held by the attorney-general to be material to the manufacture of which the wage scale set forth in the contract would not apply. After the barges containing the ready-mixed concrete have been towed to the bridge site, however, the wage scale applies as the material is then considered as having been delivered.

"These simple rules will serve greatly to facilitate enforcement of the law and we are glad that the line has been clearly drawn for the guidance of all those interested."

DIRECTORS ASK \$3,000,000 FOR CITY SCHOOLS

Board To Make Further Structural Survey to Gauge Quake Hazards

A \$3,000,000 school building program has been recommended to Mayor Rossi by the San Francisco Board of Education, the board proposing that application be made for Federal funds to finance the work.

The proposed new schools are: Hassler Health School, Florida between 25th and 26th, \$150,000; Lawton School, 30th avenue and Lawton, no cost given; George Washington High School, 30th avenue and Geary, \$1,200,000; Marina Junior High School, Fillmore and Chestnut St., \$385,000; Sunshine School, Dolores and Dorland, \$115,000.

Alterations to 9 wooden school structures were included in the figure.

Construction of new schools is necessary to relieve overcrowding, officials said.

The Department of Public Works and consulting engineers were preparing today to make a new detailed survey of 19 steel frame school buildings to determine the work necessary to correct structural weaknesses and minimize earthquake hazard.

The Board of Education authorized immediate inspection of one school, to be named later, which will be taken as a type of the others.

Plans for the survey, which will supplement one made several months ago by the Bureau of Building Inspection, were worked out at a conference attended by John B. Leonard, chief building inspector, Ira W. Coburn, school director, Chas. Sawyer, city architect, S. J. Hester, chief deputy director of public works, and W. L. Huber, L. H. Nishkian, H. J. Brunnier and Earl Cope, structural engineers.

The conference decided that the total cost of the survey will be \$36,000. Examination of the buildings will cost \$10,000 and engineering services \$26,000.

Mayor Rossi yesterday approved an appropriation of \$5000 for a survey by building inspectors of balconies, cornices, parapet walls, and other earthquake hazards.

Chief Building Inspector John B. Leonard recommended the survey. Owners will be required to remove the hazards, Leonard said.

PLAN SERVICE IS VIOLATION OF STATE ACT

Attorney-General Rules Architectural Statute Evaded By Draftsmen

Persons who do not hold state architects' certificates but advertise themselves as preparers of plans directly violate the Act to Regulate the Practice of Architecture, even though they do not call themselves architects, Attorney General U. S. Webb ruled yesterday in response to a query from the State Board of Architectural Examiners.

Webb's ruling affects hundreds of draftsmen doing architectural work throughout the state.

The board asked Webb's opinion on the legality of such advertisements as:

- (1) "J. J. Jones, Plan Service."
- (2) "Blank Construction Company, Plans."
- (3) "Brown & Black, using plans by _____"

Webb called attention to the section of the act which makes it unlawful for anyone not holding a state certificate to advertise to the public that he is an architect.

He quoted the definition of the term "architect" in Webster's dictionary:

"One who makes it his occupation to form plans and designs of and to draw up specifications for buildings, and to superintend their execution.

"A designer or maker."

Webb declared that the first two cases, "Plan Service" and "Blank Construction Company, Plans," were in direct violation of the act.

"They would indicate that the advertisers hold themselves as qualified to engage in the practice of architecture as that term is generally understood."

The third case, he said, was not clear. If the board meant "Brown and Black, using plans by John Jones," there would be no indication that Brown and Black were holding themselves qualified as architects. The phrase "Plans by Brown and Black" would be in violation of the law, he declared.

FEDERAL BUILDING FUND IS APPROVED

Money for the San Francisco Federal building is included in the appropriations finally approved yesterday by the PWA, according to news dispatches from Washington. The San Francisco appropriation is placed at \$2,689,089. Other appropriations for western buildings approved include Los Angeles quarantine station, \$63,000; Santa Cruz post office, \$99,000; Logan, Utah, post office, \$45,000.

Arthur Brown, Jr., is architect for the San Francisco federal building.

NRA MEMBERS ONLY MAY BID STOCKTON JOB

The city of Stockton will be among the first California municipalities to restrict bidders on public work to members of the NRA.

Proposals to be received August 28 for graveling areas in the vicinity of the Stockton port turning basin are to be restricted to firms operating under the President's employment agreement or under codes of fair competition acceptable to the NRA.

The bid call also incorporates a provision obligating the contractor to assume any sales tax on materials.

Following are the two new provisions quoted from the official advertising with which contractors soon will become familiar:

The contractor shall assume all taxes, including whatever taxes might have to be paid on account of the "Retail Sales Act of 1933."

Bidders must be members of, and purchase all materials from, members of NRA or operate under a code of Fair Competition adopted pursuant to National Industrial Recovery Act or Supplement to the California Industrial Recovery Act in Furtherance Thereof. (See subsection 1a under General Provisions of Specifications for full details concerning the same).

SAN MATEO ASKS SPECIAL SCHOOL BUILDING FUND

Strengthening of Two Structures Held Necessary by District Directors

Directors of the San Mateo union high school and junior college district have asked permission of the State Board of Equalization to levy an emergency tax of 31 cents this year for reconstruction of two school buildings to make them earthquake proof.

The special tax levy would produce \$66,000, it is estimated. This sum together with a surplus in the school district building fund would be used to strengthen Burlingame and San Mateo school buildings.

William H. Eddy, secretary of the school board, said unless the tax levy is permitted, it is probable that a bond issue will be necessary to finance the work.

STANDARD TRIM FOR SCHOOL BUSES

Standard color and trim for school busses have been specified in the new code of California school law applicable to all busses built or repainted after July 15. The law is not retroactive, however.

Following are the specifications, quoted from the new law:

"The body, fenders, hood and wheels of each school bus, the purchase of which is contracted for after July 15, 1933, and of each school bus repainted after said date, shall be painted medium chrome yellow, excepting that any molding thereon shall be black. All lettering placed upon a school bus so painted or repainted shall be unshaded and shall be black on a background of medium chrome yellow."

ASSOCIATION HAS BLUE EAGLE RULES

Interpretations of the rules for obtaining NRA emblems as they are issued by the administration are being cataloged by the Industrial Association of San Francisco. Mimeographed bulletins have been prepared on rulings issued to date.

INSPECTORS FOR TEN PWA REGIONS NAMED

**Frank Y. McLaughlin Assigned
to Local District Head-
quarters Here**

Local officials of the Public Works Advisory Board for District 6 are not acquainted with Frank Y. McLaughlin, appointed by Public Works Administrator Harold L. Ickes to be regional inspector for the PWA, it was said at the San Francisco headquarters yesterday.

McLaughlin is one of ten regional inspectors named at Washington to work directly under Lonis R. Glavis head of the division of investigations of the Department of the Interior.

The duties of these inspectors, according to the bulletin announcing their appointment will be to "see that there shall be no misuse in the expenditure of the \$3,300,000,000 public works fund."

"All of the regional inspectors are engineers familiar with the various types of construction to be undertaken in the public works program," says the announcement. "They will see to it that contract specifications are lived up to, that the government is not cheated and that government funds are disbursed as intended.

"Investigators in each region will investigate complaints filed with the regional inspector."

Regional inspectors' headquarters will be at Boston, New York, Chicago, Omaha, Portland, San Francisco, Fort Worth, Kansas City, Atlanta and Baltimore. The regional inspectors will receive their orders and report directly to the Public Works Division of Investigations in Washington.

Following are the appointees as announced:

Region 1. D. J. Barry, Young's Hotel, Boston, Mass. The region consists of Maine, Vermont, New Hampshire, Massachusetts, Rhode Island and Connecticut.

Region 2. Wharton Green, Federal Bldg., New York City. The region consists of New York, New Jersey and Pennsylvania.

Region 3. Chas. Allen, Old Post-office Bldg., Chicago, Ill. The region consists of Illinois, Indiana, Michigan, Ohio and Wisconsin.

Region 4. Robt. A. Radford, Post-office Bldg., Omaha, Neb. The region consists of North Dakota, South Dakota, Nebraska, Minnesota, Iowa and Wyoming.

Region 5. Roy F. Bessey, Post-office Bldg., Portland, Ore. The region consists of Montana, Idaho, Washington and Oregon.

Region 6. Frank Y. McLaughlin, Hughes Bldg., San Francisco. The region consists of California, Nevada, Utah and Arizona.

Region 7. G. L. Rodier, Old Post-office Bldg., Fort Worth, Tex. The region consists of Texas, Louisiana and New Mexico.

Region 8. F. W. Kassebaum, Post-office Bldg., Kansas City, Mo. The

PWA Contracts Require Employment Of All Labor Through U. S. Bureau

By Floyd O. Booe, Secretary-Mgr.,
Northern California Chapter, A.G.C.

One of the most important features in connection with the Federal Public Works construction program is that of the program of reemployment to be carried out under the direction of the National Re-employment Service affiliated with the U. S. Department of Labor. The contracts and specifications on all projects which are let will contain mandatory requirements that the contractor employ men only through this national re-employment service, and it is well for all contractors to thoroughly familiarize themselves with the requirements and the manner in which same will be carried out.

The reemployment program does not contemplate the mere placing back in employment of every charity case on the charity roll, but on the other hand is designed to make available to the employer a built up record of capable efficient men who are in need of employment and who can be relied upon to fill a proper place in a construction organization. In this respect the whole scheme is wholly different from that heretofore followed of community placement lists which were simply a list of men needing work, which list was given to the employer without segregation or distinction of the ability of the particular worker, and which have caused so much grief during the last year.

The Federal Employment Service program includes the complete card indexing of the experience and record of every man seeking employment and these records will be built up in every important community under the immediate supervision of a capable man appointed by the federal director. For the present at least it is intended that the Federal government will make use of existing agencies of the state employment service and in this respect these state agencies will become a branch of the Federal plan. In other communities where there are no state agencies a manager will be appointed by the federal director and he will work in direct cooperation with all local agencies, but will be responsible solely to the federal director of the state of California.

It is expected that the most satisfactory manner of procedure in

region consists of Colorado, Kansas, Oklahoma, Missouri and Arkansas.

Region 9. C. L. Homer Federal Bldg., Atlanta, Ga. The region consists of Mississippi, Alabama, Georgia, South Carolina and Florida.

Region 10. F. R. Keyes, Post-office Bldg., Baltimore, Md. The region consists of Tennessee, Kentucky, West Virginia, Maryland, Delaware, Virginia and North Carolina.

connection with the cooperation between the employer, the federal director and the public body awarding the contract will be for these three agencies to arrange a conference and work out a plan of procedure immediately in the beginning of every job, and all firms on public work in future are requested to keep this phase of the matter particularly in mind and be prepared to cooperate on this basis.

There will probably be many difficulties to be ironed out pending the smooth functioning of the whole program but it is believed the cooperative arrangement which will be set up should shortly be functioning in an efficient manner.

The Federal Reemployment Director for the State of California is Mr. J. A. Stellern, whose address is 613 State Building, San Francisco, and the supervisor in charge of the Southern California district will be Mr. Henry E. Walker, whose address is 302 State Building, Los Angeles.

MODESTO PAINTERS FORM ASSOCIATION

Twenty-two members joined the Modesto Master Painters' Association at the organization meeting.

A. J. Felt was elected president; E. Miller, vice-president, and G. L. Virgin, secretary-treasurer.

The association members have agreed to a seven-hour day and five-day week with minimum wages of 90 cents an hour.

U. S. REPORTS COAST GAIN IN BUILDING

**Improvement Over June Shown
Last Month in West; Na-
tional Total Drops**

Building permit reports collected by the Bureau of Labor Statistics from 776 identical cities over 10,000 population indicate a decrease of 10.6 percent in the number and 11.3 percent in total expenditures in July compared with June. Eighty-three cities of the mountain and Pacific group of states show a slight increase between the two months.

New residential buildings decreased 6.9 percent in number and 8.8 percent in indicated expenditures during this period.

New nonresidential buildings decreased 8.6 percent in number, while indicated expenditures for this type of building decreased 4.9 percent.

The number of additions, alterations and repairs decreased 11.7 percent, while indicated expenditures for this type of construction decreased 19.8 percent.

During July, 1933, 3,293 family-dwelling units were provided in new buildings. This is a decrease of 17.1 percent as compared with June.

Contracts awarded by the various agencies of the United States Government during July totaled only \$528,382. This compares with Government awards of over \$10,000,000 in July, 1932, and over \$1,000,000 in June, 1933.

Comparing permits issued in 345 identical cities having a population of 25,000 or over in July, 1933, and July, 1932, there was an increase of 30.1 percent in the number and an increase of 43.0 percent in indicated expenditures for new residential building.

New nonresidential buildings decreased 2.6 percent in number and 41.0 percent in estimated value.

The number of additions, alterations, and repairs increased 19.5 percent, while estimated expenditures for this type of building increased 18.8 percent.

The number of total building operations increased 15.3 percent. Indicated expenditures for total building construction, however, decreased 10.1 percent.

The number of family-dwelling units provided in new dwellings increased 31.6 per cent comparing July 1933 with July 1932. For three consecutive months there has been an increase in the number of family dwelling units as compared with the same month of the previous year.

Permits were issued during July 1933 for the following important buildings: In St. Louis, Mo., for a municipal auditorium to cost \$3,000,000; in Fort Worth, Texas, for a public-utilities building to cost \$400,000; in the Borough of Manhattan for additions, alterations, and repairs to cost nearly \$850,000;

BIDS ASKED ON COULEE DRILLING

SPECIAL TO DAILY PACIFIC BUILDER

SEATTLE, Wash., August 18. —Bids were asked today by Columbia Basin Commission on 21,000 feet core drilling and test excavation at the site of the Grand Coulee dam on the Columbia river. Proposals on the contract will be received Sept. 1 by the commission at its offices in Spokane.

Preliminary engineering on the dam is being financed by the state of Washington. Actual construction will be under the Reclamation Bureau with Frank E. Banks, engineer in charge.

The Federal Public Works Administration has authorized \$63,000,000 for initial construction, with an ultimate outlay of \$400,000,000 estimated.

CONTRACTORS ORGANIZE AT PALO ALTO MEET

Organization of a general contractors association for Northern Santa Clara and Southern San Mateo counties was effected at a special meeting held in Palo Alto Wednesday night.

Harry Dabinett, of Palo Alto was elected president of the new organization. Neal Darrah, of Mountain View was named vice president and Vance M. Brown, Palo Alto, secretary. The board of directors include the foregoing and Ralph Follmer, Ed Schmalung and Bert Tunberg, of Palo Alto; Len Follett, East Palo Alto; C. Lindholm, Mountain View and M. Klay, of Menlo Park.

The board of directors was assigned the task of preparing an NRA code to be presented at the next meeting.

COUNTY PAINTERS' ASSOCIATION ELECT

Officers of painters and decorators associations in two counties have been elected at meetings held recently.

A. R. Elliott is president of the San Mateo county association; W. L. Ball, vice-president; and Emil J. Moklofsky, secretary. The association has approved the state code for master painters.

J. J. Burdon, Jr., is temporary chairman of the Contra Costa county association and Charles A. Long, temporary secretary.

in Houston, Texas, for a school building to cost \$450,000, and in Portland, Oregon, for mercantile buildings to cost over \$500,000.

Following are the figures for various classes of building in the 83 cities of the mountain and Pacific group from which statistics were obtained:

	June	July
Residential	\$2,255,566	\$2,556,330
Non-residential	1,686,821	1,798,613

Total (including alterations, repairs) \$6,254,779 \$6,321,147

SURVEY REVEALS HOUSE SHORTAGE IN BIG CITIES

**Rapid Improvement in Real
Estate Market Reported
By Association**

Real estate activity is rising. The increased activity is measurable and well distributed. That is the outstanding fact shown by the twenty-first semi-annual survey of the real estate market made by the National Association of Real Estate Boards, according to a summary just released.

"This is the first time since June, 1927, in which this semi-annual survey has shown a predominating upward trend in market activity," says the Association report.

"The survey tabulates confidential reports from the association's member boards in the principal cities of the country. The current study covers 245 cities. Of the 245 cities, 39 percent report a more active real estate market than last year at this time, 34 percent report a less active market, 27 percent state that activity is approximately on last year's level.

"The picture is changing rapidly. The February survey of this year showed 65 percent of the cities with a market less active than the previous year, 24 percent in a stationary condition, and only 11 percent with increased activity. The low of the four year depression period from the point of view of market trends (though not from the point of view of price levels) came in July of 1932, when 69 percent of the cities reporting showed declining activity and only 9% showed increased activity.

"Recent gain is most general in the East South Central section, where 67 percent of the cities show a more active market and not a single city checks "less active." In the West South Central section 53 percent of the cities show an up movement; in the South Atlantic section, 50 percent; in the Pacific section 55 percent. Strongest pick-up so far has come in the group of cities of between 200,000 and 500,000 population, where 55 percent report rising activity.

In 33 per cent of the cities of over 500,000 population there is a shortage in single family dwellings. Not one of the cities in this group showed such a shortage six months ago. Undersupply of one-family houses is indicated in 12 percent of all the cities. This is 5 percent more cities than showed such a situation in February. Many cities report that with any return to normal buying power they would have a dwelling shortage. Where over-supply exists there is often at the same time an actual shortage of new, modern houses, the overstock being heaviest in large old houses.

 steel sash and reinforcing bars to
 Truscon Steel Co., Call Bldg.

Plans Being Figured—Bids Close Aug.
 29, 12 Noon.

STORE Cost, \$80,000
REDWOOD CITY, San Mateo Co., Cal.
 Broadway and Hamilton Aves.
 One-story, mezzanine floor and base-
 ment steel and brick or reinforced
 concrete store (60x150 ft.)

Owner—David J. Davis, 500 Chelms-
 ford Road, Hillsborough.
 Plans by Engineering Dept. of Lessee
 Supervising Architect — G. Albert
 Lansburgh, 140 Montgomery St.,
 San Francisco.
 Lessee—Montgomery Ward Co., Chi-
 cago, Illinois.

Following will submit bids:
 Lindgren & Swinerton, Inc., 225
 Bush St., San Francisco.

Dinwiddie Constr. Co., Crocker Bldg.
 San Francisco.

Cahill Bros., 206 Sansome St., San
 Francisco.

H. H. Larsen, 64 South Park, San
 Francisco.

G. W. Williams Co., Ltd., 315 Prim-
 rose St., Burlingame.

17—THEATRES

Decorating Contract Awarded.
ALTE? THEATRE Cost, \$75,000
SEATTLE, Wash. 513-515-517 Pike St.
 Alterations to theatre (to seat 750).

Owner—S. & A. Manheimer, Bigelow
 Bldg., Seattle.

Architect—Henry Bittman, Securites
 Bldg., Seattle.

Contractor—J. W. Bailey Const. Co.,
 1621 Boren Ave., Seattle.

Decorating—A. Weissenborn Decorat-
 ing Co., 516 Westlake, Seattle.

Contract Awarded.
REPAIR THEATRE Cost, \$3329
SAN JOSE, Santa Clara Co., Calif. S
 San Pedro, S Market Street.

Repair fire damage to theatre.
 Owner—Liberty Amusement Co., 60 S
 San Pedro St., San Jose.

Plans by F. W. Moore, 1132 Glen Ave.,
 San Jose.

Contractor—H. A. Bridges, 1398 Lin-
 coln, San Jose.

18—WHARVES & DOCKS

STOCKTON, San Joaquin Co., Cal.
 —C. A. Lauritzen, Antioch, at \$1725
 awarded contract by City Port Com-
 mission to furnish and install float-
 ing fenders for Wharves 2, 3 and 4,
 Stockton Deep Water Development.

Low bid was submitted August 14
 by Geo. W. Jacobs, Stockton, at \$1-
 184.20 but no certified check was en-
 closed, so contract was awarded to
 second low bidder.

OAKLAND, Calif.—Architects Kent
 & Hass, 525 Market St., San Fran-
 cisco, awarded the painting contract
 to Raphael Co., 270 Tehama St., San
 Francisco, and the finish hardware to
 the Palace Hardware Co., 581 Market
 St., San Francisco, in connection with
 the construction of the new boat and
 train concourse for the Key Terminal
 Railway Co., Ltd., Oakland.

OAKLAND, Calif.—Steel Erectors
 Consolidated, foot of 17th St., Oak-
 land, at approximately \$15,000 award-
 ed contract by Key System Railway
 Co., 22nd and Grove Sts., Oakland, for
 steel passenger bridges in connection
 with the construction of the new Key
 Route Pier, Oakland. Kent and Hass,
 525 Market St., San Francisco, archi-
 tects.

19—MISC. CONSTRUCTION

Plans Being Prepared.
MAUSOLEUM Cost, \$800,000
PORTLAND, Ore. Valkyrie Memorial
 Park Cemetery.

Reinforced concrete masoleum.

Owner—Valkyrie Memorial Park Cem-
 etery Assn. (M. L. Munger, Ameri-
 can Bank Bldg., Portland).

Architect—Roald & Schneider, Spald-
 ing Bldg., Portland.

Sub-Contracts Awarded.
RECREATION CENTER Cost, \$5000
RICHMOND, Contra Costa Co., Calif.
 Nichol Park.

Two one-story frame and stucco recreation buildings (men's unit, 27x55 ft.; women's unit, 21x27.6 ft.) locker and shower rooms, toilets, etc.; tile roof, concrete floors (Spanish style).

Owner—City of Richmond.
 Plans by City Building Inspector.
 Contractor—Tandy & Theis, 1937 Garvin Ave., Richmond, \$3,710.60.

Brick Work—James Walker, 3001 Barrett Ave., Richmond.

Concrete—Lavggi Bros., 2339 Downer St., Richmond.

Sheet Metal—Spiersch Bros., 322 13th St., Richmond.

Lumber—Hill Lumber Co., 47th and Railroad, Richmond.

Plumbing—Richmond Plbg. Co., 451 33rd St., Richmond.

Electric Wiring—Pacific Elec. Co., 1120 Macdonald Ave., Richmond.

Plastering—C. Jackson, 846 33rd St., Richmond.

Roofing—Master Craft & Tile Co., 1 20th St., Richmond.

Carpentry—Tandy & Theis, 1937 Garvin, Richmond.

Painting—Lamble & Lamble, 533 Barrett, Richmond.

LONG BEACH, Cal.—Until 4 P. M., August 28, bids will be received by the Long Beach board of education for a cafeteria hand-out stand. Specifications may be obtained at the office of the business manager, corner of 25th and Chestnut Ave., Long Beach.

SAN FRANCISCO.—Dunham, Carrigan & Hayden, Kansas and Division Streets, awarded contract by City Purchasing Department for door closers for the School Department. Bid read \$6.32 each with an alternate bid of \$6.24 each. Complete bids published July 17.

PORTLAND, Oregon.—Ground for a \$600,000 cemetery for Portland has been broken at Valkyrie Memorial Pk. where an \$800,000 community mausoleum is contemplated. M. L. Monger, president. Tentative plans have been prepared.

BERKELEY, Alameda Co., Cal.—Ransome Co., 1450 Harrison St., Oakland, at \$3519 awarded contract by Regents of the University of California for constructing three tennis courts on the University of California Campus, Berkeley.

Low Bidder.
ROOF DECK Cost, \$6000
OAKLAND, Alameda Co., Cal. Seventh and Kirkham Streets.

Steel frame and concrete roof deck over open driveway.

Owner—Golden West Brewery Co.
 Architect—A. R. Williams, Humboldt Bank Bldg., San Francisco.

Engineer—W. Adrian, 417 Market St., San Francisco.

Low Bidder—S. Rasori, 74 New Montgomery St., San Francisco.

Bids held under advisement.

Plans Being Figured—Bids Close Aug. 30, 12 Noon.

RECREATION BLDG. Cost, \$6500
SAN FRANCISCO. 229 Minna Street. Recreation building for St. Patrick's Shelter (steel frame Class C brick construction).

Owner—St. Patrick's Shelter (Mon. Ryan in charge).

Architect—Arnold Constable, 580 Market Street.

Bids are being received from a selected list of contractors.

Grading Contract Awarded.
BATH Cost, \$5000
SAN FRANCISCO. N Market Street 50 E Noe Street.

One-story frame public bath house.

Owner—Mrs. M. A. Finnilla, 4132 17th Street.

Engineer—W. Adrian, 417 Market St.

Grading—L. Devincenzi, 148 Blake St.

Work is being done by day's labor under the owner's supervision.

MESA, Ariz.—Col. Fred Cardway, 37 N Country Club Drive, Phoenix, has had plans prepared for improvements, including a ranch house, at Rancho del Vaquero, ten miles east of Mesa. The owner will supervise construction. The house will be an adobe brick structure, containing 20 rooms and 10 bathrooms. Other improvements will include corrals, stable, swimming pool servants' quarters, garages, and landscaping.

ARCADIA, Los Angeles Co., Cal.—Architects A. R. Walker and P. A. Eisen, Ltd., 507 Signal Oil Bldg., Los Angeles, have completed working drawings for the stables, grandstand and clubhouse to be erected on the Santa Anita Rancho, Arcadia, for the Los Angeles Jockey Club. Plans for the paddock and executive buildings, together with the landscaping and exterior entrances, are nearing completion. The general grading for the track is finished, foundations for the clubhouse and six stable constructed and super-structures for 3 stables built. Work on the plant will be resumed when permits for race meets have been issued by the State Racing Commission. Lindgren and Svinerton, Inc., 523 W 6th St., Los Angeles, and R. Westcott Co., 536 S Broadway, Pasadena, are associated as general contractors for the work.

20—MISC. SUPPLIES AND MATERIALS

REDDING, Shasta Co., Cal.—James L. Hall, Mills Bldg., San Francisco, at \$594.70, 2% 10 days, awarded contract by city council to furnish cedar poles f.o.b. cars Redding as follows:
 (1) 10 9-in. top 50-ft. cedar poles;
 (2) 35 9-in. top 45-ft. cedar poles;
 (3) 10 9-in. top 40-ft. cedar poles.

Western Red Cedar, butts creosoted one-half inch guaranteed penetration. Complete bids follow:

James L. Hall, S. F.	\$594.70
Chas. R. McCormick, S. F.	594.70
Maydwell & Hartzell, S. F.	618.75
Graybar Elec. Co., S. F.	620.00
J. A. Baxter Co., S. F.	687.50
Diamond Match Co., Redding	687.50
Neidermeyer Martin Lumber Co. Portland, Oregon	689.45
Nestos Pole Co., Seattle	706.25
General Electric Supply Co., San Francisco	761.00

BREMERTON, Wash.—Until Aug. 31, 10 A. M., D.S.T., under Req. No. 103 NSA, bids will be received by Supply Officer, Puget Sound Navy Yard, to furnish 23,000 lbs. boiler compound, feed-water-boiler, Navy Standard, in 50-55 lb. drums. Specifications obtainable from above office. Delivery Sept. 15 f.o.b. above or f.o.b. carrier at or near contractor's works.

LOS ANGELES, Calif.—Until 11 A. M., Sept. 8, bids will be received by A. J. Holm, city purchasing agent, 107 City Hall, for furnishing and delivering to Water and Power Department f.o.b. trucks, department's warehouse, 257 E 3rd St., Los Angeles, or f.o.b. cars, Davies Extension spur, S. P. delivery, or f.o.b. cars, bidder's designated shipping point with full freight allowed to 257 E 3rd St., Los Angeles, 750,000 C. M., 35,000-volt, 3-conductor, lead covered, paper insulated cable on

reels under Spec. No. 3190. The bids will be taken as follows:

(1) 18,663 ft. cable (for number of reels, reel numberings and lengths per reel under this item, see specifications on file in the office of Los Angeles city purchasing agent).

(2) 18,653 ft. cable (for number of reels, reel numberings and lengths per reel under this item, see specifications on file in the office of Los Angeles city purchasing agent).

LOS ANGELES, Calif.—California Portland Cement Co. awarded contract at \$617.25 mill; \$232.75 freight; \$850 delivered, by Saul A. Joseph, Purchasing Agent of the Metropolitan Water District, Aug. 17 for furnishing portland cement f.o.b. cars at mill under Bid No. 14216. The award was based on total delivered cost.

LOS ANGELES, Cal.—Union Hardware & Metal Co. was awarded contract by H. E. Russell, County Purchasing Agent, 524 N Spring St., for brass nipples and couplings under Specifications No. 6243.

LOS ANGELES, Cal.—Mell O. Haldemann Corp. awarded contract by H. E. Russell, County Purchasing Agent, for brass couplings, tees, elbows, etc. Specification No. 6248.

SAN FRANCISCO—Moran Plumbing Supply Co., 323 11th St., Oakland, at \$14,790.96 submitted low bid to U. S. Forest Service, for:

- (1) 122 bath tubs;
- (2) 80 lavatories;
- (3) 124 water closets;
- (4) 185 sinks;
- (5) 148 laundry trays;
- (6) 159 hot water boilers, 30 gallons;
- (7) 26 hot water boilers, 40 gallons;
- (8) 26 showers;
- (9) 26 urinals.

Bid read as follows:

	Each
(1)	\$30.30
(2)	9.64
(3)	17.37
(4)	20.98
(5)	11.27
(6)	10.34
(7)	18.23
(8)	10.38
(9)	15.35

*Crane Co. submitted second low bid at \$15,260.81.

Identical bids were submitted by the following:

- Tay Holbrook Co., San Francisco.
- Pacific Plumbing & Heating Co., San Francisco.
- California Pipe & Supply Co., San Francisco.
- P. E. O'Hair & Co., San Francisco.
- M. O. Haldemann Corp.
- Richmond Sanitary Co., Richmond.
- Grinnell Co., San Francisco.
- Auburn Lumber Co., Auburn.
- Dalziel Moller Co.
- United Pipe & Supply Co., San Francisco.
- West Coast Sanitary Co., San Francisco.
- Dahlman Supply Co.
- Griffith Pipe & Supply Co.
- Olson & Heffernan, San Francisco.

Bids read as follows:

	Each
(1)	\$31.25
(2)	10.01
(3)	17.83
(4)	21.52
(5)	11.88
(6)	10.63
(7)	18.78
(8)	10.97
(9)	15.98

*Crane Company's bid was identical with the above with the exception of item 9, their bids reading \$13.98 each.

21—BRIDGES

VENTURA, Cal.—Until 11 A. M., Sept. 2, bids will be received by the directors of Joint Highway District No. 6, Ventura, for constructing a timber trestle bridge on the route of the Maricopa-Ventura Highway across the Cuyama River, in Ventura County, about 40 miles from Maricopa. The bridge will be 350 ft. in length, 24 ft. wide. The plans may be obtained from the Chief Engineer, C. W. Petit, Court House, Ventura, upon payment of \$2, not returnable. Certified check or bond, 10%. The quantities are:

- 71 timber piles, 32 ft. in length;
- 10.5 cu. yds. class A reinf. concrete;
- 6,800 cu. yds. earthwork grading;
- 74,000 ft. B. M. redwood, dense select structural;
- 20,000 ft. B. M. redwood select structural;
- 7,600 sq. ft. asphalt macadam wearing surface.

Alternate bids will be taken on all creosoted Douglas fir timber.

MENDOCINO CO., Cal.—Until Sept. 13, 2 P. M., bids will be received by State Highway Commission, Sacramento, to construct a bridge across Feliz Creek at Hopland, consisting of nine 33 ft. steel stringer spans with concrete decks on concrete pile bents, involving:

- (1) 300 cu. yds. struc. excav.;
- (2) 1410 lin. ft. furnish reinf. conc. piles (incl. test piles);
- (3) 54 drive reinf. conc. piles (incl. test piles);
- (4) 402 cu. yds. class A Port. cement concrete;
- (5) 60,000 lbs. bar reinf. steel;
- (6) 289,000 lbs. struc. steel;
- (7) 1750 lbs. cast steel;
- (8) 1 lot misc. items of work.

BUTTE, CO., Cal.—Until Sept. 13, 2 P. M., bids will be received by State Highway Commission, Sacramento, to construct a reinforced concrete bridge across west branch of Feather River about 14 mi. north of Oroville consisting of one 155-ft. open spandrel arch span, three 40-ft. concrete girder spans and six 38-ft. concrete girder spans, involving:

- (1) 2000 cu. yds. struc. excav.;
- (2) 1345 cu. yds. class A Port. cem. conc. (struc.);
- (3) 265 cu. yds. do (arch and rib);
- (4) 39.5 cu. yds. do (ralling);
- (5) 300,000 lbs. mar reinf. steel;
- (6) 512 lbs. bronze expansion plates;
- (7) 1 lot miscellaneous items of work.

Specifications obtainable from above office.

ELKO COUNTY, Nev.—Until Sept. 6, S. C. Durkee, State Highway Engi-

neer, Carson City, to construct overpass over the Western Pacific Railway near Silver Zone, Rt. 1, Sec. G-2, 0.04 mile, involving:

- (1) 200 cu. yds. rdwy. excav.;
- (2) 500 cu. yds. excav., struc.;
- (3) 130 cu. yds. Class A concrete;
- (4) 200 cu. yds. Class D concrete;
- (5) 36,000 lbs. structure steel;
- (6) 58,000 lbs. reinf. steel;
- (7) surface approaches (lump sum);
- (8) 0.04 mile finish roadway.

Specifications obtainable from the above office on deposit of \$5, \$2.50 of which \$2.50 is returnable. Certified check 5% required with bid.

ARIZONA STATE — Bids will be asked shortly by State Highway Commission, Phoenix, to construct overhead railroad crossing and approaches on the Flagstaff-Williams Highway, involving:

- (1) 2250 cu. yds. unclass. excav.;
- (2) 2663 cu. yds. drainage excav.;
- (3) 150 cu. yds. slides and over-breakage;
- (4) 320 cu. yds. unclass. excav., struc.;
- (5) 21,224 cu. yds. unclass. borrow excav.;
- (6) 877 sta. yds. earthwork overhaul;
- (7) 1004 sta. yds. select borrow;
- (8) 1305 select borrow haul (cu. yd. mi.);
- (9) 788 cu. yds. agg. base course;
- (10) 2530 cu. yd. mi. do, haul;
- (11) 8 cu. yds. class A-4 concrete;
- (12) 467 cu. yds. class do;
- (13) 62,542 lbs. reinf. steel bars;
- (14) 75,250 lbs. struc. steel;
- (15) 4 blast plates;
- (16) 40 lin. ft. 36-in. corru. metal pipe
- (17) 63 lin. ft. riprap;
- (18) 2010 lin. ft. cable road guard;
- (19) 1110 lin. ft. standard line fence;
- (20) 250 hours rolling fill;
- (21) 6 corru. metal catchbasins.

21

PLUMAS COUNTY, Cal.—Until September 14, 2 P. M., bids will be received by State Highway Commission, Sacramento, to construct a bridge across North Fork of Feather River at Howells, consisting of an 130-foot through steel arch span with concrete deck, involving:

- (1) 133 cu. yds. Class "A" Port. cem. concrete;
- (2) 16,550 lbs. bar reinf. steel;
- (3) 246,170 lbs. struc. steel;
- (4) 4,708 lbs. cast bearings;
- (5) 1 lot misc. items of work.

LOS ANGELES, Cal.—Until 2 P. M., September 11, bids will be received by County Supervisors to construct wood and steel frame bridge on New York Ave., over Eaton Wash. Bids will be taken on two types, viz: (1)

Redwood with Douglas Fir, and (2) using all Redwood. The proposed bridge will consist of four spans 33-ft. each, with 20-ft. roadway. The estimates of quantities follow:

- 4,653 B. M. Redwood with Douglas Fir;
 - 46,184 B. M. creosoted Douglas Fir;
 - 50,837 B. M. total (OR);
 - 53,180 B. M. all Redwood;
 - 2,321 lbs. structural steel;
 - 1,843 lbs. truss rods;
 - 1,178 lbs. lateral rods;
 - Bolts, and lag screws; etc.;
 - 743 cu. yds. excavation;
 - 46 cu. yds. class D concrete.
- W. D. Armstrong, County Bridge Engineer.

SACRAMENTO CO., Cal. — Until Sept. 15, 2 P. M., bids will be received by State Highway Commission, Sacramento, to widen eight reinforced concrete slab bridges and one culvert from 24-ft. roadway to 34-ft. roadway, at points between Sacramento and McConnell, involving:

- (1) 700 cu. yds. struc. excav.;
- (2) 120 cu. yds. exist. conc. to be removed;
- (3) 690 cu. yds. class A Port. cem. concrete;
- (4) 64,500 lbs. bar. reinf. steel;
- (5) 1275 lin. ft. solid timber railing;
- (6) 1 lot temporary timber guard-rail;
- (7) 1 lot misc. items of work.

LOS ANGELES, Cal.—Until 2 P. M., Sept. 11, bids will be received by County Supervisors to construct reinforced concrete rigid frame bridge to be built on Muscatel Ave., over Eaton Wash. The proposed bridge will be 120 ft. in width with a 40 ft. clear span. The quantities are:

- 1,310 lbs. No. 5 wire;
- 866 cu. yds. class E conc.;
- 96 cu. yds. class D conc.;
- 2,500 cu. yds. excavation;
- 19,670 sq. ft. form area;
- 346 sq. ft. 5/8-in. asph. felt;
- 160 sq. ft. 1/2-in. asph. felt;
- 124 lin. ft. galvanized iron hand rail;
- 246,545 lbs. reinforcing steel;
- 180 cu ft. grade F asphalt.

Note: Add cost of moving existing 24-in. corrugated metal pipe.

W. D. Armstrong, county bridge engineer.

LOS ANGELES, Calif.—Atlas Const. Co., 39 Congress St., Pasadena, submitted low bid to county supervisors August 21 at \$8100, for constructing a concrete and steel bridge to be built on Camp Baldy Road over San Antonio Creek. The proposed bridge will consist of two spans, 32 1/2 ft. each, with a 20-ft. roadway, concrete abutments, steel girders and conc. slab.

MENDOCINO COUNTY, Cal.—Until Sept. 15, 2 P. M., bids will be received by State Highway Commission, Sacramento, to construct a bridge across the Russian river two miles south of Hopland, consisting of one 247-ft. 7-in. through steel truss span on concrete piers and twenty-one steel beam spans having a total length of approximately 889 ft., and supported by reinforced concrete pile bents and two concrete abutments, involving:

- (1) 1100 cu. yds. struc. excavation;
- (2) 4040 lin. ft. furnish reinf. conc. piles inc. test piles;
- (3) 114 drive reinf. conc. piles inc. test piles;
- (4) 270 cu. yds. Class A Port. cem. conc. (footing blocks);

CAPITAL CITY TITLE COMPANY

J. C. PALEN,
Manager

914 Seventh Street
Sacramento :: California

- (5) 1535 cu. yds. do(struc.);
- (6) 213,000 lbs. bar reinf. steel;
- (7) 1,283,000 lbs. struc. steel;
- (8) 77,800 lbs. struc. steel (railing);
- (9) 11,200 lbs. cast steel;
- (10) 80 lin. ft. 8-in. corru. metal pipe;
- (11) 1 lot misc. items of work.

MADERA CO., Cal.—Until Sept. 14, 2 P. M., bids will be received by State Highway Commission, Sacramento, to construct a timber bridge across Ash Slough 0.5 mi. north of Chowchilla, consisting of thirty-four 10-ft. spans on pile bents, involving:

- (1) 80 cu. yds. struc. excav. ;
- (2) 400 cu. yds. rdwy. excav. unclass.
- (3) 1 only exist. bridge remove;
- (4) 5580 lin. ft. furnish redwood piles incl. test pile;
- (5) 218 drive redwood piles incl. test piles;
- (6) 157 MFBM redwood timber, dense select all-heart struc. grade;
- (7) 87 MFBM redwood timber, select all-heart struc. grade;
- (8) 380 cu. yds. Class "A" Port. cem. conc. (deck slab);
- (9) 110 cu. yds. do (pave wlden);
- (10) 58,000 lbs. bar reinf. steel (pave and struc.);
- (11) 1 lot misc. items of work.

MARIN AND SONOMA CO., Cal.—Until Sept. 14, 2 P. M., bids will be received by State Highway Commission, Sacramento, to repair east timber trestle approach to a bridge across Petaluma Creek at Green Point, consisting of replacing defective stringers and bracing and reconstructing floor and railing and paving with asphalt concrete, involving:

- (1) 145 M. ft. B. M. old timber, remove and dispose of;
- (2) 48 M. ft. B. M. Douglas fir timber, sel. struc. grade (stringers, bridging and bracing);
- (3) 127 M. ft. B. M. Douglas fir timber, sel. struc. grade (lam. floor, floor plank and headers);
- (4) 40 M. ft. B. M. redwood timber, dense sel. all-heart struc. grade;
- (5) 7 M. ft. B. M. redwood timber, sel. do;
- (6) 220 tons asph. conc. surf.;
- (7) 9600 lbs. struc. metal;
- (8) 1125 lin. ft. temporary timber guardrail;
- (9) 1 lot misc. items of work.

21

LOS ANGELES, Cal.—Parish Bros., 1222 N. Grower St., awarded contract by County Board of Supervisors Aug. 21 at \$13,590 for constructing a reinforced concrete bridge to be built on Alameda St., over Compton Creek. The proposed bridge will consist of two spans, 30 ft. each, with a 50-ft. roadway and with creosoted piling foundation.

21

22—DREDGING, HARBOR WORKS, EXCAVATION

SEATTLE, Wash.—As previously reported, Puget Sound Bridge and Dredging Co., 2929 16th Ave. S. W., Seattle, at \$54,795 submitted low bid to U. S. Engineer Office, Seattle, to dredge 281,000 cu. yds. material from Duwamish Waterway, Seattle Harbor. Only other bid submitted by the General Const. Co., Seattle, at \$60,415.

LONG BEACH, Cal.—City Council has appropriated \$100,000 from gasoline tax funds toward the cost of constructing a seawall along the ocean front at Alamitos Bay in the Naples district. The estimated cost is \$300,000. The balance, or \$200,000, will probably be financed by an assessment district in the event that an NRA application for \$333,300 is not granted. One of the two plans which the engineers have before them is an alter-

native plan calling for filling of the Naples Canal and the Rivo Alto Canal and paving these waterways. The other plan provides for a bulkhead along the entire front. Plans are under the direct supervision of E. H. Harnett, 502 City Hall, city engineer's office, and call for the following:

- 11,000 lin. ft. concrete sheet piling;
- Concrete coping;
- Pipe railing;
- Cement concrete sidewalk.

SPOKANE, Wash.—Until Sept. 1st, bids will be received by Columbia Basin Commission, Spokane, for 21,000 ft. core drilling and examination excavation at dam site, in connection with \$63,000,000 Grand Coulee Project. Estimated cost of survey, \$150,000.

LONG BEACH, Los Angeles Co., Cal.—Applications for NRA funds for harbor projects to be financed by the Federal Public Works Administration have been filed with the Federal Emergency Administrator. The list totals, \$3,450,000, segregated as follows:

- Pier Ave.—paving Pier A and const. of transit shed, \$568,826.03.
- Extension of west mole in outer harbor, \$1,034,957.86.
- Pier B constr. of pave., wharf and retaining walls at Berth 12, \$531,574.73.
- Dry and cold storage shed at Berth 12, \$243,979.55.
- Administration building and appurtenances, \$25,778.25.
- Wharf and open storage for lumber on property bound by channel 34, slip 5, \$623,947.05.
- Pier 1 constr. of transit shed at Berth 48, \$70,100.52.
- Belt line connection at Water and Tulare Sts., and various connections, \$338,482.97.
- Misc. paving Santa Clara Ave., pave. Mitchell Ave., aids to navigation, \$12,353.04.

SANTA BARBARA, Calif.—Detailed quantities for the proposed groyne to be built on E Cabrillo Blvd. for which bids will be received by city council August 31 (previously noted), as announced by E. B. Brown, city engineer, are:

Alternate "A"—Timber Groyne

Consists of 200 ft. groyne constructed from 6x12-in. x 18-ft. grooved creosoted sheet piling with 1 1/4 x 2 3/4-in. creosoted splines, double 6x8-in. creosoted wales and staggered round piles along the side. Approximate quantities:

- 25 MBF. of creosoted timber;
- 15 creosoted round piles, 30-ft. long;
- 9 creosoted round piles, 35-ft. long;
- 11 creosoted round piles, 40-ft. long.

Alternate "B"—Steel Groyne

200 lin. ft. of steel sheet piling every fifth pile driven to extra depth; Lackawanna pile No. D P 166 or equal; two 8-in. by 18.75 lb. channel wales and 6x18-in. creosoted timber cap.

Approximate quantities:

- 118 18 ft. piles;
- 10 40-ft. piles;
- 8 35-ft. piles;
- 14 30-ft. piles;
- 400 lin. ft. 8x18.75 lb. channels; (approximately 74.5 tons);
- 1.8 MBF. creosoted timber;

and necessary hardware. Copies of specifications, plans and proposals obtainable from city engineer on deposit of \$5, returnable.

SAN FRANCISCO.—No bids received by U. S. Engineer Office to dredge 6750 cu. yds. material in the channel at the mouth of Noyo River, near Fort Bragg, Calif.

SACRAMENTO, Calif.—All bids rejected by U. S. Engineer Office, Sac-

ramento, to construct new levee and raise old levee along the northeasterly side of Hass Slough from near its junction with Cache Slough to its junction with Reclamation District No. 2968 canal, and on the easterly side of said canal to near the pumping plant, total length of levee 16,400 ft., and new bids will be called shortly.

23—IRRIGATION PROJ.

PHOENIX, Ariz.—The Arizona State Advisory Board has before it a proposal to grant the State of Arizona a loan of \$20,836,500 for the construction of the Parker-Gila Reclamation Project on the Colorado River. The project contemplates the reclamation of 266,000 acres by the 2,800,000 acre feet of Colorado water allocated to the state. W. W. Lane is chairman of the State Advisory Board.

25—MACHINERY AND EQUIPMENT

SANTA ANA, Orange Co., Calif.—Bids for furnishing the city a motor-driven street sweeper, complete, opened by the city council August 14 were taken under advisement, as follows:

- Concrete Machinery & Supply Co.—Austin, \$6900; allowance on used equipment, \$500; 2%, 30 days.
- Kinney Mfg. Co., Kinney-Springfield, \$6835 net, f.o.b. Boston; freight allowed to Santa Ana.
- Elgin Corp.—Elgin, \$7250; allowance \$565; 4 1/2% 30 days.

LOS ANGELES, Cal.—Contracts for furnishing gas generating plants, space heaters and appurtenances, water heaters and appurtenances and gas fuel under Spec. No. 3144 awarded by A. J. Holm, City Purchasing Agent, August 18 as follows: Items (1) and (4) to Parkhill Ware, Inc., at \$18,783.20 (estimated total); items (2) and (3) to Pacific Gas Radiator Co. at \$5980.72 (estimated total). The bids were opened July 17.

MARYSVILLE, Yuba Co., Cal.—A. H. Holtman, Marysville, at \$1882.93 awarded contract by Marysville Union High School District to furnish one chassis for school bus; Patchetts and Carstensen, Newman, at \$1583.55 was awarded contract for bus body.

SAN FRANCISCO.—Associated Equipment Co., Ltd., 355 Fremont St., at \$4766.25 submitted low bid to T. A. Brooks, City Purchasing Agent, under Bid No. 1063, to furnish one caterpillar maintenance unit for Department of Public Works. Complete bids follow:

- Associated Equip. Co.\$4766.25
- Robinson Tractor Co. 5120.00
- Eby Machinery Co. 5585.00
- Austin-Western Road Mach..... 5599.00
- J. D. Adams Co. 5928.50
- Jenison Machinery Corp..... 6103.88

Bids held under advisement.

LOS ALTOS, Santa Clara Co., Cal.—Until Sept. 5, 4 P. M., bids will be received by Frank Evans, Clerk, Los Altos Elementary School District, to furnish one school bus, 40-passenger capacity. Further specifications obtainable from above office.

LOS ANGELES, Cal.—Stephens-Adamson Mfg. Co. awarded contract at \$2185, Los Angeles; \$2230 Indio, by Saul A. Joseph, Purchasing Agent of the Metropolitan Water District, Aug. 17, for furnishing portable screening plant under Bid No. 13749.

OAKLAND, Cal.—Until Aug. 30, 5:30 P. M., bids will be received by John H. Kimball, Secretary, East Bay Municipal Utility District, 512 16th Street,

Oakland, to furnish one 22,000 lbs. 4-wheel trailer under Spec. LS-492, obtainable from above office.

OAKLAND, Cal.—Until Aug. 30, 5:30 P. M., bids will be received by John H. Kimball, Secretary, East Bay Municipal Utility District, 512 16th Street, Oakland, to furnish one 22,000 pound truck under Spec. LS-491, obtainable from above office.

OAKLAND, Cal.—Until Aug. 30, 5:30 P. M., bids will be received by John H. Kimball, Secretary, East Bay Municipal Utility District, 512 16th Street, Oakland, to furnish one gasoline motor-driven roller, not over eight tons, under Spec. LS-490, obtainable from above office.

FAIRMED, Madera Co., Cal.—The Logan Auto Co., Fresno, at \$2261.40 awarded contract by the Fairmead Grammar School District, for one bus chassis with factory standard wheel base of 164 inches, full floating rear axle, six cylinder L-head motor and equipped with a custom built 42 passenger grammar school body.

Two low bids submitted by Frank E. Beckett, Inc., and the White Co., both of Fresno, were not considered as they did not comply with specifications.

SAN FRANCISCO—Rix Co., Inc., 400 4th St., at \$170 each awarded contract by U. S. Forest Service to furnish 10 rock drills. Ingersoll-Rand Co., at \$170 each awarded contract to furnish 6 rock drills.

SAN FRANCISCO—A. L. Young Machinery Corp., Inc., 26 Fremont St., at \$59.60 with an alternate of \$68.50 submitted low bid to U. S. Forest Service to furnish one gasoline engine, 3½-h.p. rating, horizontal, hopper-cooled type. Complete bids follow:

A. L. Young Machy. Corp.	\$ 59.60
Alternate	68.50
Woodin & Little	78.00
Brown-Bevls, Los Angeles	80.00
Fairbanks-Morse Co.	101.55
Kratz & McClelland	107.50
Jenison Mfg. Co.	110.00
Alternate	75.00

Bids held under advisement.

LOS ANGELES, Calif.—Until 11 A. M., Sept. 12, bids will be received by A. J. Holm, City Purchasing Agent, 107 City Hall, to furnish supervisory control equipment for the control and supervision of the Palisades Del Rey Distribution Stations, with options to purchase additional equipment of the same type for the Reseda and Owensmouth Distributing Stations within a period of six months after date of contract. Specifications No. 3099.

SANTA ANA, Orange Co., Calif.—All bids for furnishing a motor-driven street sweeper, opened August 14, rejected by city council August 21. The city auditor, L. M. Banks, was ordered to buy in the open market.

PASADENA, Cal.—Kelman Electric & Mfg. Co., 1650 Naud St., Los Angeles, submitted low bid to city board of directors August 22 at \$19,390 to furnish metal-clad switch gear and appurtenances and certain spare parts for the Lamanda Park substation. Bids taken under advisement.

NORTH HOLLYWOOD, Los Angeles Co., Cal.—Bids for furnishing one 35' gasoline powered tracklaying type tractor, Reg. No. 6200 f.o.b. North Hollywood, were opened by the State Purchasing Agent, Sacramento, Aug. 21. The bids were:

B. Hayman Co., Bates, \$2495 net.
Shepherd Tractor & Equip Co., Caterpillar, \$2765; 2% 30 days.

Crook Co., Allis-Chalmers, \$2765; 2 percent 30 days.

J. D. Adams Co., McCormick-Deering, \$2804; less 14% 30 days.

SAN FRANCISCO—All bids rejected by U. S. Engineer Office to overhaul two Hall-Scott marine engines, and new bids will be called to open probably Aug. 29, 3 P. M.

LAS VEGAS, Nev.—Until 10 A. M., Sept. 2, bids will be received by the Las Vegas Union School District for one school bus; capacity not less than 60 high school pupils. Bidders will specify type of seating, upholstery, shatter-proof glass, driver controlled doors, etc., in addition to engine specifications and type and size of tires. O. K. Adcock, president.

30—RESERVOIRS & DAMS

POMONA, Los Angeles Co., Cal.—All bids for drilling a 20-in. water well for water department, opened by the city council August 1, were rejected August 15

ST. HELENA, Napa Co., Calif.—Town council considers construction of spillway at the Upper Reservoir. Estimated cost \$7500, to be financed by Federal funds through the NRA. E. R. Palmer, town clerk.

SANTA CLARA, Santa Clara Co., Cal.—Until Sept. 5, 10 A. M., bids will be received by Santa Clara Valley Water Conservation District, Auzeais Bldg., San Jose, Leroy Anderson, Secretary, to construct Coyote Perocla-tion Dam near Coyote, Santa Clara county, involving:

- (1) 1200 cu. yds. excavation;
- (2) 1000 cu. yds. backfill, embank.;
- (3) 335 cu. yds. reinf. concrete;
- (4) 3060 sq. ft. steel sheet piles;
- (5) 5000 sq. ft. conc. block mattress;
- (6) 300 cu. yds. rip-rap;
- (7) 2 metal radial gates;
- (8) 23 moveable crest panels;
- (9) derricks, cables, etc.

Specifications obtainable from above office or from office of Fred H. Tibbetts, Engineer of the District, 1320 Alaska Commercial Bldg., San Francisco, on \$5 deposit, returnable. Certified check 5% required with bid. Estimated cost, \$30,000. California Industrial Recovery Act requirements.

UPLAND, San Bernardino Co., Cal.—R. C. Manley, city service manager has completed preliminary plans for a new reservoir to be constructed on E 15th St. near the present reservoir. The proposed reservoir will be of reinforced concrete construction, 400x200 ft., with a capacity of 5,000,000 gals. Application has been made for NRA funds, the city having applied for \$75,000 to cover the reservoir cost and water mains to be built on Mountain Ave. and other streets.

31—PIPE LINES & WELLS

PASADENA, Los Angeles Co., Cal.—Consolidated Steel Corp., 6500 E. Slauson Ave., Los Angeles, at \$654,894.35 tentative awarded contract by city directors Aug. 22 to construct an all-steel pipe line (Schedule No. 6), 18.5 mi. in length from Pine Canyon Dam in San Gabriel Canyon to the Sunset Reservoir in Pasadena. The line will consist of 18.5 mi. 36-in. I.D. gravity pipe line of 24.7 cu. ft. per second.

Directors will meet Thursday morning, Aug. 24, 9 A. M., to confirm award, which only awaits approval of the NRA.

SAN BERNARDINO, Calif.—Until 7:30 P. M., Sept. 5, bids will be received by board of water commission-

ers, 416 3rd St., San Bernardino, to construct two wells. One well will be drilled in Lytle Creek Park and the other at Mill and D Sts. They will be 16-in. diameter, and vary in depth from 200 to 1000 ft. The contractor is to furnish and install casing. Certified check, 10%.

SAN FRANCISCO—Until Aug. 31, 3 P. M., bids will be received by Public Utilities Commission, Felton Taylor, Secretary, Room 225, City Hall, to construct Early Intake Tall Race Pipe Line (H.H.W.S. Contract No. 145), involving:

- (1) 885 ft. furnish and lay 60-in. steel pipe 5/16-in. plate;
- (2) 230 ft. do ¾-in. plate;
- (3) 1000 sq. ft. mortar covering on steel pipe;
- (4) 13,000 sq. ft. fela wrapping on do;
- (5) 1 expansion joint;
- (6) 2 manholes;
- (7) 300 lbs. steel saddle nozzles;
- (8) 1000 lbs. steel frames and covers for valve and manhole boxes;
- (9) 200 lbs. steel bolts, nuts, washers
- (10) connection to power house (lump sum);
- (11) connection in tunnel (lump sum);
- (12) construct standpipe (lump sum);
- (13) 100 lin. ft. overflow pipe from standpipe;
- (14) 300 lbs. misc. steel work;
- (15) 300 lbs. install fittings furnished by city;
- (16) 10,000 lbs. install valves (do);
- (17) 1000 lbs. install misc. metal work (do);
- (18) 1300 cu. yds. common excav., east of Sta. 2+45;
- (19) 300 cu. yds. rock excav., do;
- (20) 200 cu. yds. common excav. west of St. 2+45;
- (21) 500 cu. yds. rock excav. do;
- (22) remove conc. bukhead in tunnel (lump sum);
- (23) 330 cu. yds. concrete, class A;
- (24) 25 cu. yds. conc. class C;
- (25) 35,000 lbs. reinf. steel;
- (26) 250 lin. ft. dowel holes in exist. concrete;
- (27) 20 bbls. extra cement;
- (28) 3 MFMB wood construction;
- (29) 2000 lbs. corr. sheet metal work;

Specifications obtainable from Room 609, S. F. Water Dept. Bldg., 425 Mason St., San Francisco, on deposit of \$20. Certified check 10% payable to City and County of San Francisco required with bid.

PHOENIX, Ariz.—The Bechtel-Kaiser Co., Ltd., and Henry J. Kaiser Co., 155 Sansome St., San Francisco, and Boulder City, Nev., awarded contract by the Western Gas Co. of El Paso, Texas, for the construction of a natural gas pipe line from Douglas to Phoenix, via Tucson. The total cost is approx. \$2,200,000. The proposed line will involve:

- 215 miles of 10½-in. steel pipe (15,000 tons);
- 1,698,000 lbs. pipe paint;
- 6,450 gallons primer;
- 127 gate valves.

The line will be electrically welded and tested at a pressure of 600 lbs. per square inch. The line will have a capacity of 15,000,000 cu. ft. per day. The Western Gas Co. will establish offices in Phoenix. H. G. Frost, vice-president. A loan granted by the Reconstruction Finance Corp. provides the funds for this project. The above contractors constructed the company's pipe line from El Paso to Douglas and Bisbee, Ariz., and Cananea, Sonora, Mexico.

32—SEWERS & SEWAGE DISPOSAL PLANTS

PETALUMA, Sonoma Co., Cal.—City of Petaluma preparing preliminary report on proposed sewage disposal system, involving pumping plant, filter-

ing plant, pipe lines, etc.; estimated cost, \$150,000. L. H. Nishkian, 525 Market St., and Prof. Chas. Hyde, University of California, Berkeley, project engineers. Project will be financed by federal funds through the NRA.

LOS ANGELES, Calif.—Until 10 A. M., Sept. 6, bids will be received by board of public works for the construction of sewers in the Bundy Dr. and Chalon Road Sewer Dist. The work involves:
2666.1 lin. ft. 8-in. cement pipe, inc.
105 8x6 wyes;
11 manholes "B";
1 junction chamber;
12 manhole frame and cover sets.

REDWOOD CITY, San Mateo Co., Cal.—County Purchasing Agent E. A. Werder purchases 700 feet of concrete sewer pipe from Redwood Material Co. All bids from selected list of bidders for vitrified pipe rejected.

SAN RAFAEL, Marin Co., Cal.—J. J. Ongaro, 50 Winship Ave., Ross, at \$935.55 awarded contract by San Rafael Board of Education, to construct storm drain on the grounds of the San Rafael High School, involving 63 cu. yds. concrete. Complete bids follow:
J. J. Ondero, Ross.....\$14.85
John Carcano, San Rafael..... 15.25
James Garrattl, San Rafael..... 16.95
Louis Lambretti, Mill Valley..... 17.85
F. J. Nain, San Anselmo..... 18.00
Harry E. Connor..... 23.00
Bottini Bros., San Rafael..... 25.82
G. M. Gest, Oakland..... 27.50

LOS ANGELES, Cal.—Ordinance of intention has been adopted by the city council to construct sewers in the 112th St. and Hoover St. Sewer District. The work will involve:
(1) main sewer complete (2010 ft. 8-in. pipe);
(2) 300 ft. 6-in. house connections;
(3) 79,400 sq. ft. Class A resurfacing;
(4) 94 sq. ft. Class D do.
Hearing has been set for Sept. 15.

LOS ANGELES, Cal.—Vernon Tool Co. submitted lowest regular bid to A. J. Holm, City Purchasing Agent, August 22 at \$4150 net, to furnish and install two automatic rake and cleaner units for 1-in. spaced bar screens at Hyperion north screening plant for Bureau of Engineering under Specifications No. 3193.

33—WATER WORKS

SELMA, Fresno Co., Calif.—City council considers municipal water system, estimated cost \$66,709.70, to be financed by federal funds through the NRA. Project would involve construction of a 300,000-gal. storage tank transmission line to four pumps; and drilling of a well. E. K. Hussey Engineering Corp., Syndicate Bldg., Oakland, project engineer.

LODI, San Joaquin Co., Cal.—City plans erection of 1,000,000-gal. water tank. W. L. Huber, project engineer, preparing plans. Funds will be obtained through the NRA.

SEBASTOPOL, Sonoma Co., Cal.—John Bean Mfg. Co., at \$1644 awarded contract by city council to furnish deep-well pump for city water works system. Other bids submitted were:
Layne & Bowler Corp.....\$1546.70
Sterling Pump Works..... 1570.00
Fairbanks Morse Co..... 1595.83
Byron-Jackson Co. 1746.00
Pelton Water Wheel Co..... 1755.00
Wilkinson & Co., N. Monterey Blvd., Gilroy, at \$2 per lin. ft. for drilling and \$2.07 for casing, awarded contract to drill water well equal to ca-

capacity of present well; which is 263 feet deep.

Other bid submitted by Fred H. Bante, Santa Rosa, at \$1.50 lin. ft. for drilling and \$1.45 for casing.

All bids rejected for cast iron pipe as location of well was changed, and the small quantity of pipe required will be purchased in the open market. The following bids were submitted:

California Corrugated Culvert Co., Berkeley, lump sum, \$335.07 for 8-in. 12-ga. steel pipe and fittings.

American Cast Iron Pipe Co., \$526.53 for 420 ft. 8-in. cast iron pipe and fittings.

Ipameco Pipe Corp., 400 to 600 ft. 8-in. cast iron pipe, \$.75 per ft. Fittings, \$.04 per lb. 33

SAN FRANCISCO—Until Aug. 30, 3 P. M., bids will be received by Public Utilities Commission, Felton Taylor, Secretary, to lay 6- and 8-in. cast iron pipe in Alemany Blvd., between San Jose and Naglee (Section 1 and between Ocean Ave. and Seneca St. (Section 2), involving:

Section 1

- (1) 5050 lin. ft. excav. and backfill trench;
- (2) 40 cu. yds. add. excav. and backfill;
- (3) 50 sq. ft. add. pavement, remove and replace;
- (4) 105 tons install pipe and fittings;
- (5) 1010 ft. minerlead joints;
- (6) 20 bolted joints;
- (7) 400 sq. ft. repave street openings with asphalt concrete;
- (8) 300 sq. ft. repave sidewalk openings.

Section 2

- (1) 4100 lin. ft. excav. and backfill trench;
- (2) 40 cu. yds. add. exvac. and backfill;
- (3) 50 sq. ft. add. pave., remove and replace;
- (4) 110 tons install pipe and fittings;
- (5) 900 ft. minerlead joints;
- (6) 20 joints, bolted;
- (7) 200 sq. ft. repave street openings with asphalt concrete;
- (8) 100 sq. ft. repave sidewalk openings.

Specifications obtainable from Room 605, S. F. Water Department, 425 Mason St. Certified check 10% required with bid. 33

LOMPOC, Santa Barbara Co., Calif.—The City of Lompoc has applied to the Federal Emergency Administration of Public Works for \$15,000 to finance improvements and replacements to the municipal water works system. The application was made through the Santa Barbara county committee, the members of which are: Harvey T. Nielson, mayor of Santa Barbara, and County Supervisors Ronald M. Adam and C. L. Preister. L. Deming Tilton is secretary of the committee. 33

GARDEN GROVE, Orange Co., Cal.—Johason Pump Co. awarded contract by county supervisors, Santa Ana, at \$1330 net (\$1400, less 5%) for furnishing a pump for Orange County Water District No. 3at plant on Huntington St., Garden Grove. The bids were taken through the office of the county purchasing agent. 33

OAKLAND, Cal.—United States Pipe & Foundry Co., Monadnock Bldg. San Francisco, at \$74,950 (lump sum bid) awarded contract by East Bay Municipal Utility District to furnish cast iron pipe. 33

LOS ANGELES, Cal.—Contracts for furnishing pumps under Bid No. 13, 550 awarded by Saul A. Joseph, Purchasing Agent, Metropolitan Water District, as follows: Item 1, 2 and 5

to Petroleum Equip. Co. at \$7296 and items 3 and 4 to Herberts Machinery Co., Ltd, at \$4296.32.

SAN FRANCISCO.—Until Aug. 19, 11:30 A. M., bids will be received by U. S. Forest Service, Ferry Bldg., to furnish corrugated metal pipe culverts to be in accordance with U. S. Dept. of Agriculture Circular No. 331 (with revisions of June 1, 1928), pipe and couplings f.o.b. plant Fresno, Porterville, Auburn, Blairsden, Oroville, Quincy, Hornbrook, Hillt, Truckee, Del Rosa, Shasta, Westwood, Los Angeles, Berkeley, Oakland and San Francisco. Sizes of pipe as follows:

- 12-in. diameter pipe;
 - 18-in. do;
 - 24-in. do;
 - 36-in. do;
- and band couplers for above pipe.

HEBER, Imperial Co., Cal.—Until 7:30 P. M., Sept. 1, bids will be received by the Board of Directors of the Heber Public Utility District, to construct, erect, install and complete waterworks improvements in accordance with the plans and specifications on file in the office of the District Engineer at the City Hall, El Centro, Calif., or with Clerk of Board of Directors, Southern Pacific Co. depot, Heber.

The approximate amount of work to be done is as follows:

- (1) 4584 cu. yds. earth embank. settling basin levees.
- (2) 400 lin. ft. service ditches lined with cem. plaster and 850 lin. ft. earthen do, incl. check gates and delivery boxes.
- (3) 4 basin connections, 140 lin. ft. 12-in. C. I. pipe, 4 12-in. orchard valves, 4 12-in. slide gates, 4 12-in. standpipes six feet in height and 4 wooden walkways 2 ft. 6 in. by 13 ft., incl. bolts, anchors, nails, etc.
- (4) One tank 14 ft. dia. x 14 ft. high capacity 16,000 gals., erected on wooden tower 65 ft. 4-in. high, incl. pipes, valves, connections, etc.
- (5) One pump house, 20 ft. x 24 ft., wood frame, 26 ga. corr. metal, concrete floor, motor and pump foundations, reservoirs, pump sump, etc.
- (6) Electric wiring incl. lights, switches, electrical fittings, etc.
- (7) Two pumping units, 300 G.P.M. each, total head 85 ft. One operated by gasoline motor, incl. valves, gauges couplings, pipe and fittings.
- (8) Furnish and install:
1460 lin. ft. of 6-in. C. I. pipe;
2340 lin. ft. of 4-in. C. I. pipe;
1540 lin. ft. of 3-in. C. I. pipe;
5455 lin. ft. of 2-in. C. I. pipe, incl. all valves and fittings.
- (9) House service connections, 3/4 in. and 1 in.

Certified check 10% required with bid. All proposals subject to the sale of \$15,000 District bonds and receipt of funds from the R. F. C. for this improvement.

Specifications obtainable from Philip W. Knights, District Engineer, El Centro, Calif., on deposit of \$5.00 returnable. R. D. Jones, Clerk.

35—TUNNELS

BEVERLY HILLS, Los Angeles Co., Cal.—W. R. Metz, city engineer, is preparing plans for a pedestrian tunnel to be built at the Wilshire Blvd.-Santa Monica Blvd. intersection. The cost is estimated at \$38,750. Application will be made for NRA funds.

29—STREETS AND HIGHWAYS

TULARE COUNTY, Cal.—Until September 5, 2 P. M., bids will be received by E. E. Wallace, District En-

gineer, State Highway Commission, State Highway Bldg., Fresno, to apply a bituminous seal coat to the shoulders on each side of the existing pavement over 46 miles between the southerly boundary and Kingsburg.

Specifications obtainable from above office. Certified check 10% required with bid.

Specifications obtainable from above office. Certified check 10% required with bid.

HUMBOLDT COUNTY, Cal.—Hemstreet & Bell, 501 11th St., Marysville, at \$47,525 awarded contract by U. S. Bureau of Public Roads, San Francisco, for 13,748 miles of crushed gravel base course on California Federal Lands Project No. 1, Hoopa Valley Indian Reservation.

NYE COUNTY, Nev.—Dodge Const., Inc., Fallon, at \$67,744.03 awarded the contract by State Highway Commission to construct 20.21 miles of highway between 22 miles and 2 miles south of Beatty, Rt. 5, Sec. E2, F and G1.

VALLEJO, Solano Co., Cal.—Hearing will be held Sept. 15 on paving of Butte St. from Tennessee to Alabama. T. D. Kilkenny, city engineer.

KERN COUNTY, Cal.—Until Sept. 5, 2 P. M., bids will be received by E. E. Wallace, District Engineer, State Highway Commission, State Highway Bldg., Fresno, to apply retread surface treatment to two miles of existing pavement between 6.2 miles and 10.4 miles east of Bakersfield. Specifications obtainable from above office. Certified check 10% required with bid.

LOS ANGELES CO., Cal.—Until September 2, 2 P. M., bids will be received by State Highway Commission, San Bernardino District Office, for 6 miles earth shoulders treating with fuel oil.

LOS ANGELES CO., Cal.—Until Sept. 5, 2 P. M., bids will be received by State Highway Commission, Los Angeles district office, for 1.8 miles bituminous surface treatment of highway between Vasques Rock and 2 miles east and for 0.2 miles grading and surfacing with water bound macadam base and bituminous macadam surface.

SAN BERNARDINO CO., Cal.—Until Sept. 2, 2 P. M., bids will be received by State Highway Commission, San Bernardino District Office for 14.3 miles bituminous surface treatment between Needles and Colorado River bridge, near Topock.

LOS ANGELES COUNTY, Cal.—Until Sept. 13, 2 P. M., bids will be received by State Highway Commission Sacramento, to grade and pave with Portland cement concrete 3.8 miles between Orange Ave. and Barranca St., involving:

- (1) 200 sta. clear and grub right of way;
- (2) 24,000 cu. yds. rdwy. excav., unclass.;
- (3) 270,000 sta. yds. overhaul;
- (4) 3,000 cu. yds. imp. borrow;
- (5) 2360 cu. yds. struc. excav.;
- (6) 67,000 sq. yds. subgrade (pave.);
- (7) 14,200 cu. yds. Class A Port. cem. conc. (pave.);
- (8) 840 cu. yds. do. (struc.);

- (9) 300 cu. yds. do. (curbs);
- (10) 333,000 lbs. bar reinf. steel (pave. and struc.);
- (11) 17,000 lbs. misc. iron and steel (struc.);
- (12) 6 1/2 in. 18-in. corr. metal pipe;
- (13) 170 lin. ft. 24-in. do;
- (14) 78 lin. ft. 30-in. do;
- (15) 286 lin. ft. 30-in. std. reinf. conc. pipe;
- (16) 1150 cu. yds. salvage macadam;
- (17) 800 tons broken stone bit. macadam surf.;
- (18) 70 tons grade "E" asph. bit. macadam surf.;
- (19) 1550 bbls. heavy fuel oil (shoulders);
- (20) 1 bridge, remove and dispose of;
- (21) 800 M. gals. water;
- (22) 24 culvert markers;
- (23) 200 sta. finish roadway;
- (24) 42 monuments complete in place.

SANTA CRUZ COUNTY, Cal.—Until Sept. 13, 2 P. M., bids will be received by State Highway Commission, Sacramento, to grade about 0.8 mile between one mile north of Inspiration Point and Inspiration Point, involving:

- (1) 250,500 cu. yds. rdwy. excav., unclass.;
- (2) 730,000 sta. yds. overhaul;
- (3) 1500 M. gals. water;
- (4) 1520 cu. yds. struc. excav.;
- (5) 10 cu. yds. Class A Port. cem. conc. (struc.);
- (6) 650 lbs. bar reinf. steel (struc.);
- (7) 590 lin. ft. 8-in. corr. metal pipe
- (8) 1278 lin. ft. 18-in. do;
- (9) 280 lin. ft. 24-in. do;
- (10) 1290 lin. ft. 8-in. perf. metal pipe (underdrain);
- (11) 2 miles new property fence;
- (12) 6 gates complete in place;
- (13) 1200 tons crushed run base;
- (14) 5 tons emulsi. asph. road oil;
- (15) 250 natural rock asphalt;
- (16) 1000 lin. ft. lam. timber guard rail;
- (17) 60 cu. yds. Port. cem. conc. remove from existing pavement;
- (18) 41 sta. finish roadway.

ARIZONA STATE — Bids will be asked shortly by State Highway Commission, Phoenix, for 14.7 mi. oiling on the Flagstaff-Williams Highway, Coconino Co., N.R.H. 24-A and N.R.M. 24-A, involving:

- (1) 14,000 cu. yds. stripping pits;
- (2) 240,747 sq. yds. reshape road surf.
- (3) 347 M gals. sprinkling;
- (4) 10,085 cu. yds. agg. base course;
- (5) 46,326 cu. yd. mi. agg. base course haul;
- (6) 6104 cu. yds. shoulder material;
- (7) 29,012 cu. yd. mi. shoulder matl. haul;
- (8) 27,088 tons plant mix;
- (9) 130,024 ton ml. plant mix haul;
- (10) 1571 tons cut-back asphalt;
- (11) 14,675 mi. place plant mix;
- (12) 1261 cu. yds. screenings;
- (13) 429 sq. yds. place intersections.

IMPERIAL CO. Cal.—Until Sept. 14, 2 P. M., bids will be received by State Highway Commission, Sacramento, to surface with bituminous treated crushed gravel or stone 10.1 mi. between El Centro and Calexico, involving:

- (1) 11,980 tons bit. tr. cru. gravel or stone surf.;
- (2) 55 tons emul. asph.

MENDOCINO CO. Cal.—Until Sept. 15, 2 P. M., bids will be received by State Highway Commission, Sacramento, to apply bituminous surface treatment over 9.5 mi. between Ukiah and Hopland, involving:

- (1) 9200 tons coarse rock and screenings;
- (2) 250 tons emul. asph. road oil Type A;
- (3) 300 tons do, Type B;
- (4) 3000 cu. yds. screened gravel (shoulders);
- (5) 600 bbls. fuel oil (shoulders);

COCONINO CO., Ariz.—All bids rejected by U. S. Bureau of Public Roads and new bids will be received until Sept. 7, 10 A. M., by C. H. Sweetser, District Engineer, 802 Title & Trust Bldg., Phoenix, for grading 9.688 mi. Section G, Rt. 7, the Oak Creek National Forest Highway, Coconino National Forest, involving:

- (1) 50 acres clearing;
- (2) 88,000 cu. yds. unclass. excav.;
- (3) 2027 cu. yds: unclass. excav., struc.;
- (4) 26,000 cu. yds. unclass. excav., borrow;
- (5) 50,000 sta. yds. overhaul;
- (6) 9,677 ml. finish earth graded road;
- (7) 18,700 cu. yds. ml. haul borrow;
- (8) 1063 cu. yds. concrete;
- (9) 82,500 lbs. reinf. steel;
- (10) 2082 lin. ft. corr. metal pipe;
- (11) 25 cu. yds. hand laid riprap;
- (12) 72 right-of-way monuments;
- (13) 18,200 lin. ft. fence;
- (14) 4 cattle guards;
- (15) 29,500 lin. ft. protection ditch;
- (16) 6424 lin. ft. wood guard rail;
- (17) 2500 M. gals. watering.

Specifications obtainable from above office on deposit of \$10, certified check payable to Regional Fiscal Agent, U. S. Forest Service.

Skousen Bros., Albuquerque, N. M., submitted low bid Aug. 10 at \$159,878.10.

Complete bids published in issue of August 16.

MERCED CO. Cal.—Until Sept. 15, 2 P. M., bids will be received by State Highway Commission, Sacramento, to apply bituminous surface treatment over 6.2 mi. between the north boundary and Livingston, involving:

- (1) 5700 tons screenings;
- (2) 360 tons emul. asph. road oil.

TULARE CO., Cal.—Until Sept. 15, 2 P. M., bids will be received by State Highway Commission, Sacramento, to grade and pave with asphaltic concrete 5 mi. between the western boundary and 2 mi. south of Plaza Garage, involving:

- (1) 650 cu. yds. rdwy. excav., unclass.;
- (2) 29,600 cu. yds. imp. borrow;
- (3) 1550 cu. yds. struc. excav.;
- (4) 9800 sq. yds. subgrade for pave;
- (5) 17,800 tons asph. conc.;
- (6) 155 cu. yds. class A Port. cem. conc. (struc.);
- (7) 8550 lbs. bar reinf. steel (struc.);
- (8) 174 lin. ft. 18-in. corr. metal pipe
- (9) 76 lin. ft. 36-in. do;
- (10) 208 lin. ft. 42-in. do;
- (11) 60 lin. ft. 54-in. do;
- (12) 9 conc. joints (pipe culverts);
- (13) 5450 tons cru. run base;
- (14) 49,750 sq. yds. a sph. paint binder
- (15) 360 cu. yds. conc. to be removed from exist. pave and struc.;
- (16) 2100 M gal. water;
- (17) 4930 bbl. fuel oil;
- (18) 0.24 mi. move and reset property fence;
- (19) 24 culvert markers;
- (20) 32 timber guide posts;
- (21) 267 sta. finish roadway;
- (22) 24 monuments complete in place.

RIVERSIDE COUNTY, Calif.—Until Sept. 15, 2 P. M., bids will be received by State Highway Commission, Sacramento, to treat shoulders with fuel oil over 41.6 miles between Corona and the south boundary, involving:

- (1) 21,400 bbls. heavy fuel oil;
- (2) 41.6 miles finish roadway.

RIVERSIDE COUNTY, Cal.—Until Sept. 15, 2 P. M., bids will be received by State Highway Commission, Sacramento, to treat shoulders with fuel oil over 25.1 miles between Riverside and Elsinore, involving:

- (1) 12,900 bbls. heavy fuel oil;
- (2) 25.1 miles finish roadway.

RIVERSIDE AND IMPERIAL COS., Cal.—Until Sept. 15, 2 P. M., bids will be received by State Highway Commission, Sacramento, to treat shoulders with fuel oil over 21.7 miles between Avenue 62 and Riverside-Imperial county line, and between three miles and ten miles south of the Riverside-Imperial county line, involving:

- (1) 11,000 bbls. heavy fuel oil;
- (2) 21.7 miles finish roadway.

SAN BERNARDINO COUNTY, Cal.—Until Sept. 15, 2 P. M., bids will be received by State Highway Commission, Sacramento, to grade and pave with Portland cement concrete, 0.2 mile at Mt. Vernon Ave. crossing in San Bernardino, involving:

- (1) 700 cu. yds. rdwy. excav., unclass.;
- (2) 9800 cu. yds. imp. borrow;
- (3) 390 cu. yds. struc. excav.;
- (4) 5500 sq. yds. subgrade for pave.;
- (5) 1250 cu. yds. Class A Port. cem. conc. (pave.);
- (6) 2 cu. yds. do (struc.);
- (7) 96 cu. yds. do (curbs and gutters)
- (8) 70 cu. yds. Class A Port. cem. conc. (sidewalks);
- (9) 30,500 lbs. bar reinf. steel (pave and struc.);
- (10) 24 lin. ft. 24-in. corr. metal pipe
- (11) 204 lin. ft. 48-in. do;
- (12) 455 cu. yds. conc. to be removed from existing pave. and struc.;
- (13) 10 sta. finish rdwy.

State will furnish corrugated metal pipe.

LOS ANGELES COUNTY, Cal.—Until Sept. 14, 2 P. M., bids will be received by State Highway Commission, Sacramento, to grade and pave with Portland cement concrete and asphalt concrete 5.1 miles between Santa Clara River and Castaic School, involving:

- (1) 272 sta. clear and grub right of way;
- (2) 29,000 cu. yds. rdwy. excav., unclass.;
- (3) 230,000 sta. yds. overhaul;
- (4) 15,500 cu. yds. imp. borrow;
- (5) 160 cu. yds. struc. excav.;
- (6) 41,700 sq. yds. subgrade for pave.
- (7) 3,100 cu. yds. Class "A" Portland cem. conc. (pave.);
- (8) 8 cu. yds. do (struc.);
- (9) 69,000 lbs. bar reinf. steel (pave. and struc.);
- (10) 21,100 tons asph. conc.;
- (11) 36,250 sq. yds. asph. paint binder;
- (12) 134 lin. ft. 18-in. corr. metal pipe
- (13) 72 lin. ft. 24-in. do;
- (14) 10 lin. ft. 30-in. do;
- (15) 2,000 M. gals. water;
- (16) 7 culvert markers;
- (17) 2,300 bbls. heavy fuel oil;
- (18) 1.7 miles move and reset property fence;
- (19) 272 sta. finish roadway;
- (20) 40 monuments complete in place.

INYO COUNTY, Cal.—Until Sept. 15 2 P. M., bids will be received by State Highway Commission, Sacramento, to grade, surface with selected material and a bituminous treatment applied over 3.5 miles between Bishop and Owens River Canal, involving:

- (1) 650 cu. yds. rdwy. excav., unclass.
- (2) 8200 cu. yds. imp. borrow;
- (3) 45 cu. yds. struc. excav.;
- (4) 525 M gals. water;
- (5) 8 cu. yds. Class A Port. cement concrete (struc.);
- (6) 200 lbs. bar reinf. steel (struc.);
- (7) 6,500 lbs. struc. steel;
- (8) 1700 cu. yds. binder for salvaged base;
- (9) 3.65 miles scarify, salvage and re-lay base;
- (10) 5000 cu. yds. sel. surf. material;
- (11) 360 tons cut-back asph. road oil;
- (12) 3.64 miles mix bituminous binder and surface material;

- (13) 900 bbls. light fuel oil;
- (14) 26 lin. ft. 18-in. corr. metal pipe;
- (15) 1.75 MFBM redwood timber dense select all-heart struc. grade;
- (16) 193 sta. finish roadway.

State will furnish corr. metal pipe.

LOS ANGELES COUNTY, Cal.—Until Sept. 14, 2 P. M., bids will be received by State Highway Commission, Sacramento, to grade and pave with asphalt concrete 0.6 mile between Foothill Blvd. and Alosta Ave., involving:

- (1) clear and grub right of way;
- (2) 3,500 cu. yds. rdwy. excav., unclass.;
- (3) 12,000 cu. yds. imp. borrow;
- (4) 600 cu. yds. struc. excav.;
- (5) 14,350 sq. yds. subgrade for pave.
- (6) 800 sq. yds. asph. paint binder;
- (7) 6,200 tons asph. concrete;
- (8) 232 cu. yds. salvage macadam;
- (9) 160 tons broken stone (bit. mac.)
- (10) 14 tons grade "E" asph. (bit. macadam);
- (11) 500 bbls. fuel oil;
- (12) 220 cu. yds. Class "A" Port. cem. conc. (struc.);
- (13) 215 cu. yds. do (curbs);
- (14) 20,000 lbs. bar reinf. steel (struc.)
- (15) 2,500 lbs. misc. iron and steel (struc.);
- (16) 16 lin. ft. 8-in. corr. metal pipe;
- (17) 510 lin. ft. 18-in. corr. metal pipe
- (18) 100 lin. ft. solid timber guard rail
- (19) 32 sta. finish roadway.

GLENN, Placer and Colusa Counties, Cal.—Until Sept. 5, 2:30 P. M., bids will be received by C. H. Whitmore, District Engineer, State Highway Commission, Public Works Bldg., Sacramento, to apply 14.2 miles bituminous surface treatment. Specifications obtainable from above office. Certified check 10% required with bid.

See call for bids under official proposal section in this issue.

ARIZONA STATE.—Bids will be asked shortly by State Highway Commission, Phoenix, for 3,302 miles of grading, draining and aggregate base course on the Holbrook-Lupton Highway, Navajo county, N.R.H. 83-G, involving:

- (1) 9837 cu. yds. rdwy. excav., unclass.;
- (2) 849 cu. yds. drainage;
- (3) 110 cu. yds. slides and overbreakage;
- (4) 242 cu. yds. struc. excav., unclass.
- (5) 17,232 cu. yds. borrow, unclass.;
- (6) 8,044 sta. yds. earthwork overhaul;
- (7) 3000 cu. yds. stripping pits;
- (8) 12,206 cu. yds. agg. base course;
- (9) 10,827 cu. yd. mile do, haul;
- (10) 70 cu. yds. Class A concrete;
- (11) 4920 lbs. reinf. steel;
- (12) 74 lin. ft. 24-in. corr. metal pipe;
- (13) 140 lin. ft. 30-in. do;
- (14) 114 lin. ft. 36-in. do;
- (15) 34,875 lin. ft. std. line fence;
- (16) 26 right of way markers.

MONTEREY COUNTY, Cal.—Until Sept. 13, 2 P. M., bids will be received by State Highway Commission, Sacramento, to apply bituminous surface treatment over 7.4 miles at various locations between San Ardo and King City, involving:

- (1) 6500 tons screenings;
- (2) 215 tons emulsified asph. road oil;
- (3) 520 bbls. heavy fuel oil.

29

IMPERIAL COUNTY, Calif.—Until Sept. 13, 2 P. M., bids will be received by State Highway Commission, Sacramento, to pave with asphalt concrete 23.7 miles between East Highline Canal and Sand Hills, involving:

- (1) 278,000 sq. yds. asph. paint binder;
- (2) 50,000 tons asph. concrete;
- (3) 400 timber guide posts;

- (4) 48.4 MFBM Douglas fir timber;
- (5) place timber mats;
- (6) 1109 sta. finish roadway;
- (7) 316 monuments complete in place.

MONO COUNTY, Calif.—Until Sept. 13, 2 P. M., bids will be received by State Highway Commission, Sacramento, to grade, surface with selected material, and apply a bituminous treatment over 3.7 ml. between Sherwin Hill Summit and Whiskey Canyon, involving:

- (1) 63,200 cu. yds. rdwy. excav., unclass.;
- (2) 65,000 sta. yds. overhaul;
- (3) 10 cu. yds. struc. excav.;
- (4) 4400 cu. yds. sel. surf. material;
- (5) 3.67 ml. mix bit. binder and surf. material;
- (6) 110 bbls. light fuel oil;
- (7) 290 tons cut-back asph. road oil;
- (8) 470 lin. ft., H type surf. culvert;
- (9) 75 remove and reset guide posts;
- (10) 700 M. gals. water;
- (11) 8.35 MFBM redwood timber select all-heart struc. grade;
- (12) 194 sta. finish roadway.

SANTA BARBARA CO., Cal.—Until Sept. 13, 2 P. M., bids will be received by State Highway Commission, Sacramento, to grade and pave with Portland cement concrete 0.8 mile Ellwood overhead approaches, involving:

- (1) 86,800 cu. yds. rdwy. excav., unclass.;
- (2) 760,000 sta. yds. overhaul;
- (3) 210 tons crushed run base;
- (4) 225 cu. yds. struc. excav.;
- (5) 9725 sq. yds. subgrade for pave.;
- (6) 2085 cu. yds. Class A Port. cem. conc. (pave.);
- (7) 64 cu. yds. do (struc.);
- (8) 57,500 lbs. bar reinf. steel (pave. and struc.);
- (9) 364 lin. ft. 8-in. corr. metal pipe
- (10) 108 lin. ft. 18-in. do;
- (11) 78 lin. ft. corr. metal pipe, clean and relay;
- (12) 670 cu. yds. conc. remove from exist. pave. and struc.;
- (13) 11 sq. yds. paved spillway inlet apron;
- (14) 4000 M. gals. water;
- (15) 950 bbls. fuel oil;
- (16) 850 lin. ft. move and reset exist. guard rail;
- (17) 1 exist. overhead structure to be removed;
- (18) 8 culvert markers;
- (19) 0.9 mile new property fence;
- (20) 0.3 mile exist. fence to be removed and reset;
- (21) 6 fence gates;
- (22) 46 sta. finish roadway;
- (23) 28 monuments complete in place.

29

ELKO CO., Nev.—Until Sept. 6, 3:15 P. M., bids will be received by S. C. Durkee, State Highway Engineer, Carson City, to construct cement concrete pavement within the City of Elko, between west city limits and 13th St., Rt. 1, Sec. A-3, 1.21 mi., involving:

- (1) 4920 cu. yds. rdwy. excav.;
- (2) 1240 sta. yds. overhaul;
- (3) 3773 cu. yds. select borrow;
- (4) 460 cu. yds. excav., struc.;
- (5) 14,200 sq. yds. subgrade for pavement;
- (6) 2950 cu. yds. cement conc. surface
- (7) 21 cu. yds. class A concrete;
- (8) 140 cu. yds. class do;
- (9) 56,400 lbs. reinf. steel;
- (10) 114 lin. ft. 18-in. corr. metal pipe;
- (11) 74 lin. ft. remove pipe culverts;
- (12) 74 lin. ft. relay culvert pipe;
- (13) 2 move pipe culvert headwalls;
- (14) 202 lin. ft. remove fence;
- (15) 202 lin. ft. reconstruct fence;
- (16) 1.21 ml. finish roadway.

Specifications obtainable from above office on deposit of \$15, \$10 returnable. Certified check 5% required with bid.

UKIAH, Mendocino Co., Calif.—As previously reported, until August 26, bids will be received by Mendocino county supervisors for highway construction as follows:

Surface 3.3 miles road between Noyo and Willitts, involving 8000 cu. yds. crushed or broken rock surface.

Re-align 600 ft. Hardy Creek-Hockport road, involving 5000 cu. yds. unclassified excavation.

Specifications obtainable from above office. H. M. Burke, county clerk; E. H. Smith, county surveyor.

29

LYON COUNTY, Nev.—Until Sept. 6, 2:30 P. M., bids will be received by S. C. Durkee, State Highway Engineer, Carson City, for oiling between 12 miles and two miles west of Labontan, Route 2A, Sec. C2, 9.99 miles, involving:

- (1) 226,122 gals. asph. road material, type SC-2;
- (2) 16,540 gals. do, type MC-2;
- (3) 10.14 miles road mix;
- (4) 9.99 miles finish roadway.

Specifications obtainable from the above office on deposit of \$5, \$2.50 of which \$2.50 is returnable. Certified check 5% required with bid.

29

LYON COUNTY, Nev.—Until Sept. 6, 2:15 P. M., bids will be received by S. C. Durkee, State Highway Engineer, Carson City, to oil 12.94 miles between two miles east of Mound House and nine miles east of Dayton, Route 2A, Sec. A2 and B, involving:

- (1) 800 cu. yds. structure excavation;
- (2) 132 lin. ft. 1-in. water pipe;
- (3) 1,073 lin. ft. 1½-in. do;
- (4) 42 lin. ft. 2½-in. do;
- (5) 1,727 lin. ft. 5-in. do;
- (6) 276,609 gals. asph. road material, type SC-2;
- (7) 20,339 gals. do, type MC-2;
- (8) 12.94 miles road mix;
- (9) 12.94 miles finish roadway.

Specifications obtainable from the above on deposit of \$15, of which \$10 is returnable. Certified check 5%.

MINERAL CO., Nev.—Until Sept. 6, 2:15 P. M., bids will be received by S. C. Durkee, State Highway Engineer, Carson City, to oil 22.22 mi. bet. Dutch Creek and Schurz, involving:

- (1) 8865 cu. yds. rdwy., excav., channel;
- (2) 27,000 sta. yds. overhaul;
- (3) 110 cu. yds. excav., struc.;
- (4) 107 cu. yds. class A concrete;
- (5) 11,000 lbs. reinf. steel;
- (6) 2 remove culvert headwalls;
- (7) 46 lin. ft. remove culvert pipe;
- (8) 150 cu. yds. hand-laid riprap;
- (9) 439,970 gals. asph. rd. matl., type SC-3;
- (10) 32,591 gals. do, type MC-2;
- (11) 22.22 mi. roadmix;
- (12) 22.22 mi. finish roadway.

Specifications obtainable from above office on deposit of \$5, \$2.50 returnable. Certified check 5% required with bid.

SAN FRANCISCO—Eaton & Smith, 715 Ocean Ave., awarded contract by Joint Highway District No. 10 to construct Junipero Serra Blvd, Extension through Colma between School St. and the Edgeman Road, ⅔-mi. to be graded and paved with macadam and asphalt wearing surface, and involving construction of a reinforced concrete bridge over the Boulevard at Washington St.

ST. HELENA, Napa Co., Calif.—Lone bid submitted by Harold Smith, 1427 Kearny St., St. Helena, at \$2520 to pave one mile of Spring St. bet. Oak Ave. and the Cemetery, rejected by own council, and project will be done by day labor.

SOLANO AND NAPA COS., Cal.—Until Sept. 14, 2 P. M., bids will be received by State Highway Commission, Sacramento, to grade 10.3 mi. between Carquinez Bridge and Cordelia, involving:

- (1) 223 remove and dispose of trees;
- (2) 1,166,000 cu. yds. rdwy. excav. unclass.;
- (3) 14,000,000 sta. yds. overhaul;
- (4) 10,800 cu. yds. struc. excav.;
- (5) 650 cu. yds. Class "A" Port. cem. conc. (struct.);
- (6) 35,500 lbs. bar reinf. steel (struc);
- (7) 702 lin. ft. 8-in. corr. metal pipe; 16 ga.;
- (8) 3710 lin. ft. 18-in. do;
- (9) 1710 lin. ft. 24-in. do, 14 g.;
- (10) 846 lin. ft. 30-in. do;
- (11) 178 lin. ft. 36-in. do, 12 ga.;
- (12) 246 lin. ft. 42-in. do, 10 ga.;
- (13) 394 lin. ft. 48-in. do, 9 ga.;
- (14) 168 lin. ft. 60-in. do, 10 ga.;
- (15) 152 lin. ft. 66-in. do;
- (16) 118 lin. ft. 66-in. do, 8 ga.;
- (17) 110 lin. ft. 84-in. do;
- (18) 232 lin. ft. 96-in. do;
- (19) 168 lin. ft. corr. metal pipe, clean and relay;
- (20) 413 lin. ft. salvage exist. culverts
- (21) 18,600 M gal. water;
- (22) 1,950 tons untreated crush. gravel or stone surf.;
- (23) 0.4 mile move and reset fences;
- (24) 20.5 miles new property fence;
- (25) 80 fence gates;
- (26) 1,350 lin. ft. solid timber guard rail;
- (27) 544 sta. finish roadway;
- (28) 170 monuments complete in place
- (29) 120 MFBM redwood timber, dense select all-heart struc. grade;
- (30) 128 MFBM redwood timber, select all-heart struc. grade.

LOS ANGELES, Calif.—Until 10 A. M., Sept. 6, bids will be received by board of public works to improve the Coldwater Canyon Drive bet. Mulholland Highway and Eden Court (center line 3143 ft.) Cash contract, involving:

- (1) grading;
- (2) 93,573 sq. ft. 7-in. compr. concrete pavement;
- (3) 1760 sq. ft. 6-in. asph. conc. pave.;
- (4) 114 ft. heavy unplas. curb;
- (5) 6192 ft. reinf. integral curb;
- (6) storm drain;
- (7) reset one manhole.

LOS ANGELES, Cal.—L. A. Paving Co., 3200 E. Vernon Ave., awarded contract by county supervisors August 21 at \$20,874.88 for paving First Street in Norwalk, from its intersection with Pioneer Blvd. and Rosecrans Ave. at Five Points, northerly to Imperial Highway, 6300 lin. ft. or 1.21 miles; Cash Contract No. 444.

LOS ANGELES, Cal.—Mundo Engr. Co., 1026 N. McCadden Place, submitted low bid to county supervisors, August 21 at \$23,342.64, for paving Slauson Ave. in Maywood, from Mayflower to Riverside Drive, 2615 lin. ft. or 0.50 mile, under cash contract.

SHASTA CO., Cal.—Until Sept. 13, 2 P. M., bids will be received by State Highway Commission, Sacramento, to grade and surface with bituminous treated crushed gravel or stone about 9.1 mi. between Boulder Creek and 1.5 mi. east of Bella Vista, involving:

- (1) 60 acres clear and grub right-of-way;
- (2) 275,500 cu. yds. rdwy. excav., unclass.;
- (3) 839,000 sta. yds. overhaul;
- (4) 4323 cu. yds. struc. excav.;
- (5) 31,100 tons cru. rub base;
- (6) 17,000 tons cru. gravel or stone (bit. tr. surf.);
- (7) 925 tons cut-back asph.;
- (8) 395 cu. yds. class A Port. cem. conc. (struc.);

- (9) 274 cu. yds. class B do (struc);
- (10) 39,000 lbs. bar reinf. steel (struc);
- (11) 5000 lbs. struc. metal;
- (12) 57 drive timber piles (incl. test piles);
- (13) 70 MFBM redwood timber dense select all-heart struc. grade;
- (14) 66 MFBM redwood timber select all-heart struc. grade;
- (15) 2000 lin. ft. furnish redwood piles incl. test piles;
- (16) 2388 lin. ft. 18-in. corr. metal pipe;
- (17) 692 lin. ft. 24-in. do;
- (18) 288 lin. ft. 36-in. do;
- (19) 296 lin. ft. 48-in. do;
- (20) 695 bbls. light fuel oil;
- (21) 7070 M gals. water;
- (22) 136 culvert markers;
- (23) 476 sta. finish roadway;
- (24) 89 monuments complete in place.

MARIPOSA COUNTY, Calif.—Until Sept. 13, 2 P. M., bids will be received by State Highway Commission, Sacramento, to surface with crushed gravel or stone and bituminous seal coat 15.1 miles between Orange Hill School and Mariposa, involving:

- (1) 35,000 cu. yds. rdwy. borrow excavation, unclass.;
- (2) 350 cu. yds. struc. excav.;
- (3) 176,700 sq. yds. subgrade surf.;
- (4) 87,009 tons crush. gravel or stone surface;
- (5) 1600 bbls. light fuel oil;
- (6) 280 tons asph. road oil;
- (7) 3200 tons rock screenings;
- (8) 6 cu. yds. Class A Port. cement concrete (struc.);
- (9) 250 lbs. bar reinf. steel (struc.);
- (10) 756 lin. ft. 8-in. corr. metal pipe
- (11) 30 lin. ft. 12-in. do;
- (12) 120 lin. ft. 18-in. do;
- (13) 700 lin. ft. 8-in. perf. metal pipe underdrain;
- (14) 8000 lin. ft. lam. timber guard rail;
- (15) 700 timber guide posts;
- (16) 50 culv. markers;
- (17) 3550 M. gals. water;
- (18) 796 sta. finish roadway.

RIVERSIDE CO., Cal.—Until Sept. 14, 2 P. M., bids will be received by State Highway Commission, Sacramento, to grade and surface with oil treated crushed gravel or stone 9.2 mi. between Black Butte and Elythe, involving:

- (1) 9000 cu. yds. rdwy. ex. unclass.;
- (2) 15,000 cu. yds. imp. borrow;
- (3) 19,800 tons cru. gravel or stone surf.;
- (4) 700 cu. yds. screenings (seal coat)
- (5) 5410 bbls. fuel oil;
- (6) 9.15 mil. paint traffic stripe;
- (7) 484 sta. finish roadway.

State will furnish lacquer for painting traffic stripe.

IMPERIAL COUNTY, Calif.—Until Sept. 14, 2 P. M., bids will be received by State Highway Commission, Sacramento, to construct oil treated crushed gravel or stone borders, 25.6 miles, between the northerly boundary and Trifolium Canal, involving:

- (1) 31,250 tons crushed gravel or stone (borders);
- (2) 7,810 lbs. heavy fuel oil (borders);
- (3) 25.6 miles finish roadway.

ORANGE & LOS ANGELES COS., Cal.—Until Sept. 14, 2 P. M., bids will be received by State Highway Commission, Sacramento, to oil treat 31.0 miles of existing roadbed shoulders between Doheny Park and Galivan, 7.8 miles; between Fullerton and Los Angeles-Orange county line, 4.7 mi.; between Arroyo Ave. and Pomona, 6.1 miles; between the Coast Blvd. and Newport, 1.3 miles; between Newport and Laguna, 7.2 miles, and between Laguna and Dana Point, 3.9 miles, involving: 12,700 lbs. heavy fuel oil.

PLACER & NEVADA COS., Cal.—Until Sept. 15, 2 P. M., bids will be received by State Highway Commission, Sacramento, to grade and surface with crusher run base and bituminous treated crushed gravel or stone 4.2 miles between Drum Canal and Rt. 37 near Yuba Pass, involving:

- (1) 35 acres clear and grub right of way;
- (2) 170,000 cu. yds. rdwy. excav., unclass.;
- (3) 612,000 sta. yds. overhaul;
- (4) 5400 cu. yds. struc. excav.;
- (5) 8100 cu. yds. sel. material;
- (6) 15,400 tons crusher run base;
- (7) 8,560 tons crushed gravel or stone (bit. treated surface);
- (8) 400 tons cut-back asphalt;
- (9) 400 bbls. light fuel oil (prime coat);
- (10) 325 cu. yds. rock backfill under-drain;
- (11) 400 cu. yds. Class A Port. cem. conc. (struc.);
- (12) 33,000 lbs. bar reinf. steel (struc.);
- (13) 132 lin. ft. 12-in. corru. metal pipe
- (14) 2442 lin. ft. 18-in. do;
- (15) 480 lin. ft. 24-in. do;
- (16) 176 lin. ft. 30-in. do;
- (17) 212 lin. ft. 36-in. do;
- (18) 65 lin. ft. 120-in. multiplate metal pipe;
- (19) 1694 lin. ft. 8-in. perf. metal pipe;
- (20) 8 lin. ft. 3-in. wrought iron pipe;
- (21) 140 cu. yds. rubble masonry;
- (22) 45 lin. ft. rubble masonry parapet
- (23) 3600 M gals. water;
- (24) 6.5 miles new property fence;
- (25) 85 cu. yds. conc. and rubble masonry in exist. struc. to be removed;
- (26) 9 gates;
- (27) 90 lin. ft. pipe handrail;
- (28) 222 sta. finish roadway;
- (29) 92 monuments complete in place.

NAPA CO., Cal.—Until Sept. 14, 2 P. M., bids will be received by State Highway Commission, Sacramento, to surface with bituminous treated crushed gravel or stone 8.2 ml. bet. easterly boundary and Napa Wye; and between Napa Wye and southerly boundary, involving:

- (1) 108,600 sq. yds. asph. paint binder;
- (2) 8800 tons cru. gravel or stone (bit. tr. surf.);
- (3) 550 tons cut-back asph. (surf. and seal coat);
- (4) 1100 tons screenings (seal coat);
- (5) 2300 tons cru. run base (shoulders)

CONTRA COSTA COUNTY, Calif.—Until Sept. 14, 2 P. M., bids will be received by State Highway Commission, Sacramento, to grade and pave with asphalt concrete 0.2 mile in Valona, involving:

- (1) 1 lot readjust private improvements, Group ((A));
- (2) 1 lot do, Group "B";
- (3) 1 lot do, Group "C";
- (4) 24,500 cu. yds. rdwy. excav., unclass.;
- (5) 357,000 sta. yds. overhaul;
- (6) 50 cu. yds. struc. excav.;
- (7) 760 cu. yds. crushed conc. (base and shoulders);
- (8) 1,340 sq. yds. exist. bit. macadam, remove;
- (9) 560 cu. yds. conc. remove from existing pave. and struc.;
- (10) 740 tons asph. concrete;
- (11) 200 sq. yds. subgrade for pave. (2nd Ave.);
- (12) 35 cu. yds. Class "A" Port. cem. conc. (pave.);
- (13) 15 cu. yds. Class "A" do (curbs, gutters and sidewalks);
- (14) 40 cu. yds. Class "A" do (struc.);
- (15) 4,500 lbs. bar reinf. steel (struc.);
- (16) 5 tons cut-back asphalt;
- (17) 13 tons screenings;
- (18) 1 foot bridge, remove;
- (19) 80 lin. ft. 8-in. corru. metal pipe;
- (20) 3 catchbasins, complete in place;
- (21) 920 lin. ft. solid timber guard rail

(22) 8 stations finish roadway;

(23) 4 monuments complete in place.

PLACER CO., Cal.—Until Sept. 14, 2 P. M., bids will be received by State Highway Commission, Sacramento, to grade and pave with Portland cement concrete and asphalt concrete 5.2 ml. between Loomis and Newcastle, involving:

- (1) 50 acres clear and grub right-of-way;
- (2) 148,000 cu. yds. rdwy. excav., unclass.;
- (3) 744,000 sta. yds. overhaul;
- (4) 5800 cu. yds. struc. excav.;
- (5) 59,000 sq. yds. subgrade for pave.;
- (6) 3850 cu. yds. class A Port. cem. conc. (pave.);
- (7) 145 cu. yds. do (struc.);
- (8) 95,000 lbs. bar. reinf. steel (pave. and struc.);
- (9) 600 pavement tie bars;
- (10) 17,000 tons asph. conc.;
- (11) 2450 tons cur. gravel or stone (bit. tr. surf.);
- (12) 125 tons cut-back asph.;
- (13) 6500 tons cru. gravel or stone (borders, road appr. and detours)
- (14) 30 tons asph. road oil (bit surf. tr.);
- (15) 310 bbls. heavy fuel oil (detours)
- (16) 0.9 mi. road mix. detour surf.;
- (17) 310 bbls. light fuel oil (borders and dust oil);
- (18) 650 tons screenings;
- (19) 2600 M gals. water;
- (20) 624 lin. ft. 8-in. pref. metal pipe underdrains;
- (21) 1278 lin. ft. 12-in. corru. metal pipe (close riveted & soldered);
- (22) 1826 lin. ft. 12-in. do;
- (23) 2326 lin. ft. 18-in. do;
- (24) 576 lin. ft. 24-in. do;
- (25) 334 lin. ft. 30-in. do;
- (26) 550 lin. ft. 2-in. wrought Iron water pipe; ,
- (27) 550 lin. ft. 3-in. do;
- (28) 1700 lin. ft. 4-in. do;
- (29) 1250 lin. ft. 5-in. do;
- (30) 1850 lin. ft. 6-in. do;
- (31) 103 cu. yds. rubble masonry;
- (32) 124 lin. ft. exist. culv. remove and salvage;
- (33) 2450 lin. ft. exist. water pipes. remove and salvage;
- (34) 715 cu. yds. conc. exist. pave. and struc. remove and dispose of;
- (35) 150 lin. ft. exist. 8-in. tile drain and rock backfill remove and salvage;
- (36) 9 ml. new property fence;
- (37) 57 drive gates;
- (38) 3 walk gates;
- (39) 200 lin. ft. lam. timber guard rail
- (40) 318 sta. finish rdwy.;
- (41) 100 monuments.

VENTURA & LOS ANGELES COS., Cal.—Until Sept. 15, 2 P. M., bids will be received by State Highway Commission, Sacramento, to apply bituminous seal coat to existing shoulders over 40.3 miles between Ventura and Castaic Junction, involving:

- (1) 440 tons asphalt road oil;
- (2) 3880 tons screenings;
- (3) 1260 bbls. heavy fuel oil.

KERN COUNTY, Cal.—Until Sept. 13, 2 P. M., bids will be received by State Highway Commission, Sacramento, to grade and pave with asphalt concrete 2.1 miles bet. Pierce Road and Tank Farm, involving:

- (1) 33,000 cu. yds. rdwy. excav., unclass.;
- (2) 662,000 sta. yds. overhaul;
- (3) 98,700 cu. yds. imp. borrow;
- (4) 1850 cu. yds. struc. excav.;
- (5) 36,000 cu. yds. subgrade for pave.;
- (6) 15,850 cu. yds. asph. concrete;
- (7) 80 cu. yds. Class A Port. cem. conc. (struc.);
- (8) 1,000 lbs. reinf. steel (struc.);
- (9) 174 lin. ft. 8-in. corru. metal pipe
- (10) 654 lin. ft. 18-in. do;
- (11) 386 lin. ft. 24-in. do;
- (12) 18 ea. conc. joints comp. in place

(13) 280 lin. ft. 24-in. plain conc. pipe;

(14) 260 lin. ft. 12-in. std. reinf. conc. pipe;

(15) 46 lin. ft. 24-in. do;

(16) 20 cu. yds. drainage sumps;

(17) 70 tons crusher run base;

(18) 2800 tons gravel or stone (bit. treated surf.);

(19) 125 tons cut-back asphalt;

(20) 11,150 M. gals. water;

(21) 150 bbls. fuel oil, penetr. method;

(22) 900 bbls. fuel oil mix. method;

(23) 0.5 mile property fences, remove and dispose of;

(24) 2.5 miles new property fences;

(25) 9 each gates complete in place;

(26) 3675 lin. ft. lam. timber guard rail;

(27) 20 lin. ft. erect timber rail and wheel guard;

(28) 14 each timber culvert markers;

(29) 111 sta. finish roadway;

(30) 30 each monuments complete in place.

IMPERIAL COUNTY, Calif.—Until Sept. 13, 2 P. M., bids will be received by State Highway Commission, Sacramento, to construct oil treated crushed gravel or stone borders over 6.9 miles between Holtville and East Highline Canal, involving:

- (1) 6500 tons crushed gravel or stone (borders);
- (2) 1620 bbls. heavy fuel oil (borders).

SONOMA & MENDOCINO COUNTIES, Cal.—Until Sept. 13, 2 P. M., bids will be received by State Highway Commission, Sacramento, to surface with gravel base 13.9 miles between Cloverdale and Hopland, involving:

- (1) 150,000 cu. yds. slope excav. (unclass.);
- (2) 2,000,000 sta. yds. overhaul;
- (3) 123,000 tons gravel base;
- (4) 500 bbls. asph. road oil.

LOS ANGELES COUNTY, Calif.—Until Sept. 15, 2 P. M., bids will be received by State Highway Commission, Sacramento, to grade 4 miles between Colby Canyon and Mt. Wilson, involving:

- (1) 914,000 cu. yds. rdwy. excav., unclass.;
- (2) 5,000,000 sta. yds. overhaul;
- (3) 5870 cu. yds. struc. excav.;
- (4) 150 cu. yds. Class A Port. cem. conc. (struc.);
- (5) 12,100 lbs. bar reinf. steel (struc.);
- (6) 1900 lin. ft. 8-in. corru. metal pipe
- (7) 4780 lin. ft. 24-in. do;
- (8) 240 lin. ft. 30-in. do;
- (9) 260 lin. ft. 36-in. do;
- (10) 112 lin. ft. 84-in. do;
- (11) 310 lin. ft. 90-in. multiplate metal pipe;
- (12) 162 lin. ft. 105-in. do;
- (13) 208 lin. ft. 135-in. do;
- (14) 500 lin. ft. lam. timber guard rail
- (15) 2950 bbls. fuel oil;
- (16) 130 culvert markers;
- (17) 209 sta. finish roadway.

SAN LUIS OBISPO, MONTEREY AND SAN BENITO CO., Cal.—Until Sept. 14, 2 P. M., bids will be received by State Highway Commission, Sacramento, to oil treat 17.2 ml. existing roadbed shoulders north and south of Cuesta Grade, 4.8 ml.; north and south of Bradley Bridge, 0.5 ml.; southerly from San Juan Bautista, 1.9 ml.; and between San Juan Bautista and 3.2 ml. north of Hollister, 10 ml. involving:

- (1) 2150 bbls. heavy fuel oil (Loc. A);
- (2) 360 bbls. do (Loc. B);
- (3) 6620 bbls. do (Loc. C).

LINCOLN COUNTY, Nevada.—Until Sept. 6, 2 P. M., bids will be received by S. C. Durkee, State Highway Engineer, Carson City, for oiling between the junction of the Alamo-Delmar rd. and Caliente, Rt. 7, Sec. B-2, 13.13 miles, involving:

- (1) 288,943 gals. asph. road material, type SC-2;
- (2) 21,189 gals. do, type MC-2;
- (3) 13.13 miles road mix;
- (4) 13.13 miles finish roadway.

Specifications obtainable from above office on deposit of \$5, \$2.50 returnable. Certified check 5% required with bid.

LINN COUNTY, Ore.—Until Sept. 7, 10 A. M., bids will be received by U. S. Bureau of Public Roads, W. H. Lynch, District Engineer, 316 New Post Office Bldg., Portland, to construct 6.337 ml. North Santiam Clearing Project E-24-F, Willamette National Forest, involving 74 acres clearing. Specifications obtainable from above office on deposit of \$10; proposal guarantee 5%.

EL SEGUNDO, Los Angeles Co., Cal.—Until 7:15 P. M., Sept. 6, bids will be received by city council to improve Arizona Drive (State Highway No. 60) under the Municipal Improvement Act of 1927, in accordance with plans and specifications obtainable from the city clerk or city engineer, on deposit of \$5, returnable. Certified or cashier's check or bidder's bond, 10%. The engineer's estimate of quantities follows: clear right of way; 90,000 cu. yds. earth work excav.; 431,965 sq. ft. subgrade; 431,965 sq. ft. 7-in. full penetration 2-course asph. mac. pave.; 1131 lin. ft. 18-in. corr. iron drainage pipes; headwalls, catchbasins; 3000 bbls. heavy fuel oil.

Victor D. McCarthy, city clerk. R. T. Hutchins, city engineer.

RIVERSIDE COUNTY, Cal.—Kovacevich & Price, Inc., Southgate, at \$44,085, submitted low bid to the Directors of Joint Highway District No. 15 for constructing road mix, oil treated surface on Sections C, D, E and F, and a portion of Section B. Ortega Highway in Joint Highway District No. 15, V. R. Dennis, San Diego, second low bidder at \$48,044. Match Bros., Elnore, and George Gardner and Sons, Redlands, third low bidder at \$50,987. Bids were taken under advisement for two weeks.

EL DORADO COUNTY, Cal.—Until Sept. 1, 2:30 P. M., bids will be received by C. H. Whitmore, District Engineer, State Highway Commission 502 State Office Bldg., Sacramento, to construct a timber bridge across Greenwood Creek 12 miles northwest of Placerville, consisting of four 19-ft. spans on frame bents and roadway approaches to be graded and surfaced with selected material. Specifications obtainable from above office. Certified check 10% required with bid.

NEVADA STATE—U. S. Forest Service will call bids shortly to construct Lake Tahoe roads, Incline-Spooners section, estimated cost \$100,000; Glenbrook highway, south to California State line, \$38,300; grade and asphalt surface Mt. Rose Reno-Carson highway intersection as far as Galena Creek, estimated cost \$29,000.

LOS ANGELES, Calif.—Until 10 A. M., Sept. 13, bids will be received by the board of public works to improve Beaudry Ave. bet. Figueroa St. and Alpine St. under the 1911 act, involving: grading; 14,084 sq. ft. 4-in. rock and oil rdwy.; 2245 ft. unplas. light curb; 1587 sq. ft. 1-course walk; driveway, gutter, storm drain.

COLUSA & GLENN COS., Calif.—Until Sept. 15, 2 P. M., bids will be received by State Highway Commission, Sacramento, to grade and surface with gravel about 7.1 miles between Maxwell and Norman, involving:

- (1) 160 sta. clear and grub;
- (2) 105,000 cu. yds. rdwy. excav., unclass.;
- (3) 997,000 sta. yds. overhaul;
- (4) 2300 cu. yds. struc. excav.;
- (5) 665 cu. yds. Class A Port. cem. conc. (struc.);
- (6) 6 cu. yds. do. (ralling);
- (7) 880 lin. ft. furnish reinf. concrete piles (inc. test piles);
- (8) 25 drive reinf. concrete piles (inc. test piles);
- (9) 77,000 lbs. bar reinf. steel (struc.);
- (10) 61,000 cu. yds. gravel base;
- (11) 6 tons bit. treated crushed stone or gravel surf.;
- (12) 176 lin. ft. 8-in. corr. metal pipe
- (13) 320 lin. ft. 12-in. do;
- (14) 368 lin. ft. 18-in. do;
- (15) 58 lin. ft. 24-in. do;
- (16) 300 lin. ft. 30-in. do;
- (17) 45 lin. ft. 42-in. corr. metal pipe siphon;
- (18) 82 lin. ft. 24-in. do;
- (19) 5 8-in. corr. metal pipe inlets;
- (20) 200 lin. ft. pipe culvert removed and salvaged;
- (21) 2800 M gals. water;
- (22) 40 cu. yds. concrete remove from exist. pave. and struc. and dispose of;
- (23) 1 conc. headwall, remove and reset;
- (24) 0.5 miles new property fence;
- (25) 2 miles special property fence;
- (26) 1.75 miles remove and dispose of property fences;
- (27) 3.5 miles move and reset property fences;
- (28) 25 drive gates;
- (29) 5 walk gates;
- (30) 400 lin. ft. existing guard rail, remove and salvage;
- (31) 210 bbl. light fuel oil;
- (32) 210 bbl. heavy fuel oil;
- (33) 380 sta. finish roadway;
- (34) 19 monuments, move and reset;
- (35) 59 monuments complete in place.

LOS ANGELES, Calif.—Until 10 A. M., August 30, bids will be received by board of public works for the improvement of Kincardine Avenue bet. Canfield and Durango Aves., in Kincardine Ave. and Canfield Imp. Dist., under cash contract. The quantities are:

- grading, including drainage ditch (483 cu. yds. cut, 282 cu. yds. fill);
 11,681 sq. ft. 4-in. rock and oil rdwy.;
 628 lin. ft. light unplastered curb;
 3,128 sq. ft. 1-course sidewalk;
 629 sq. ft. concrete gutter, 6-in. thick;
 storm drain complete, including bulkhead and guard rail;
 91 lin. ft. 96-in. galv. corr. metal pipe
 2 wooden bulkheads, including guard rail;
 2,561 ft. b.m. timber;
 9 rods (217 lbs.);
 18 steel plates (78 lbs.);
 9 special washers;
 13 nuts.
 200 spikes.

PHOENIX, Ariz.—Specifications for two highway jobs coming under the national recovery act were sent to the San Francisco, office, U. S. bureau of public roads, with recommendations for approval.

WHITMAN COUNTY, Wash.—Until Sept. 12, 10 A. M., bids will be received by L. V. Murrow, State Director of Highways, Olympia, to pave with portland cement concrete 10 ml. State Road No. 3, Pullman to Parvin Road, N.R.H. Pro. No. 152-B. Specifications obtainable from above office on deposit of \$2, certified check 5% required with bid.

LOS ANGELES, Calif.—Griffith Co., Los Angeles Railway Bldg., submitted low bid to harbor department on Aug. 16, at \$49,130, for paving miscellaneous streets, transit shed floors and wharf decks; Spec. No. 918. Bids were taken as follows:

- (1) 7000 tons asph. conc. base material
 - (2) 7000 tons asph. conc. wear. surf., No. 2;
 - (3) 3000 tons fine sheet asph. or course sheet asph. wearing surface.
- Griffith Co., (1) \$2.89 (2) \$2.89 (3) \$2.89; total, \$49,130.
 L. A. Paving Co., (1) \$2.99 (2) \$3.19 (3) \$3.19; total, \$52,830.
 Sully-Miller Const. Co., (1) \$3.30 (2) \$3.38 (3) \$3.48; total, \$57,200.

29

TUCSON, Ariz.—Paul Fernald, city engineer, authorized by city council to prepare plans for paving of 3.5 mi. of streets with hard-surface pavement in the district bounded by N Stone Ave., Drachman St., Park Ave. and Speedway. The council plans to include this project in its NRA program.

BERKELEY, Alameda Co., Calif.—Until Sept. 6, 8 P. M., bids will be received by Board of Education, Clara F. Andrews, Secretary, for grading, paving, and fencing at the Burbank School, University Ave. and Curtis St., Berkeley.

LONG BEACH, Cal.—G. G. Fisher Equipment Co., 1143 Junipero St., was awarded contract by city council Aug. 18 at \$1497.86 for improving portions of 11th St. from Redondo Avenue to Loma Ave., and Newport Ave. from 10th to Anaheim St., Long Beach.

LOS ANGELES, Cal.—Hearing on the improvement of Chautauqua Blvd. between Vance St. and Malibu Road, 1086 ft. center line, continued by city council until Nov. 17. The work involves:

- grading;
 36,526 sq. ft. 6-in. conc. pave.;
 5842 sq. ft. 6-in. asph. conc. pave.;
 188 sq. ft. 8-in. conc. pave.;
 1430 ft. light unplastered curb;
 1232 sq. ft. 1-course sidewalk;
 wooden guard rail, concrete gutter;
 storm drain, sanitary sewer;
 water system complete.
 Engineer's estimate, \$14,821.94.

CLARK COUNTY, Idaho.—Northwestern Engr. Co., Rapid City, S. D., at \$85,769.56 (wire cable guard rail) awarded contract by U. S. Bureau of Public Roads for 1.044 miles Dubois-Monida Forest Road Project E-33-A4, Targhee National Forest.

PHOENIX, Ariz.—City Manager S. McN. Johnson, has announced that the city will start work shortly on the improvement of Grand Ave. between Roosevelt St. and Six Points, 0.66 mile, by paving 38 ft. with concrete, making full width of 56 ft., and constructing curbs. The cost is estimated by City Engineer W. C. Lefebvre at \$40,000. The funds have been apportioned from National Recovery Act funds.

UNIT BID SUMMARY

Compiled from the Daily News Service of Pacific Constructor

JUNIPERO SERRA BLVD. EXTENSION—BIDS OPENED

SAN FRANCISCO.—Eaton & Smith, 715 Ocean Ave., at \$96,540 submitted low bid to Joint Highway District No. 10 to construct Junipero Serra Blvd. Extension through Colma between School St. and the Edgemar Road, 3/4 mile to be graded and paved with macadam and asphalt wearing surface, and involving construction of a reinforced concrete bridge over the Boulevard at Washington St., involving:

- (1) 80,000 cu. yds. excavation;
- (2) 250,000 sq. ft. 8-in. mac. base and 2 1/2-in. asph. wearing surface;
- (3) 50,000 sq. ft. do, 2-in. wear. surf.;
- (4) 20,000 sq. ft. 4-in. do, 2-in. do;
- (5) 15,000 sq. ft. resurface 2-in. asph. wearing surface;
- (6) 6,000 gal. emulsified asph. (extra)
- (7) 30,000 sq. ft. mac. shoulders;
- (8) 15,000 sq. ft. do, emulsified asph. treated;
- (9) 24,000 sq. ft. macadam walk;
- (10) 3,500 lin. ft. redwood curb;
- (11) 14,000 sq. ft. 2x8-in. redwood headers
- (12) 6,400 ft. 2x4-in. do;
- (13) 3,400 ft. concrete gutter;
- (14) 1,000 ft. emulsified asph. gutter;
- (15) 1,600 ft. unarmored conc. curb;
- (16) 3,500 sq. ft. conc. walk;
- (17) 1,600 ft. 10-in. V.C.P. culvert;

- (18) 2,600 ft. 12-in. V.C.P. sewer;
- (19) 1,000 ft. 18-in. V.C.P. sewer;
- (20) 910 ft. 21-in. do;
- (21) 250 ft. 18-in. metal storm sewer;
- (22) 1050 ft. 36-in. conc. storm sewer;
- (23) 20 brick manholes;
- (24) 2 concrete manholes, c.l. frames;
- (25) 40 concrete drop inlets, cast steel grating;
- (26) 600 cu. yds. Class A Port. cement in structures;
- (27) 80,000 lbs. bar reinf. steel;
- (28) 250 lin. ft. concrete hand rail;
- (29) 1 wooden stairway;
- (30) 3,500 sq. ft. 1 1/2-in. asph. wearing surface;
- (31) 6,200 lin. ft. wood fence;
- (32) 1,600 ft. timber guard rail;
- (33) 10 concrete survey monuments;
- (34) 3,500 ft. painted traffic line 6-in. wide.
- (35) 10,000 ft. do, 4-in. wide.

SIGNAL HILL, Los Angeles Co. Cal. —Bids for furnishing cast iron water pipe and fittings opened by city council August 14 follow:

- (1) 10,875 ft. 6-in. cast iron pipe;
- (2) 4,700 ft. 12-in. do;
- (3) 825 ft. 16-in. do;
- (4) 1 16x16x12-in. tee (all bell);
- (5) 1 16x16x16-in. do;
- (6) 3 12x6x16-in. do;
- (7) 22 6x6x6-in. do;
- (8) 2 12x12x6x6-in. crosses;
- (9) one 12x12x12-in. cross (all bell);
- (10) 5 6x6-in. cross (all bell);
- (11) 3 12x8-in. bell and spigot reducers
- (12) 2 16x12-in. do;
- (13) 4 16-in. 45-deg. bell and spigot bends;
- (14) 12 6-in. plugs.

- (15) one 16-in. hub end gate valve;
- (16) 5 12-in. do;
- (17) 21 6-in. do;
- (18) 15 6-in. fire hydrants with 4x2 1/2-in. outlets.

The bids were:

Central Foundry Co.: (1) 55.9c (2) \$1.52 (3) \$2.43 (4) \$66.80 (5) \$73.50 (6) \$34 (7) \$10.32 (8) \$38.80 (9) \$49.60 (10) \$13.60 (11) \$13.60 (12) \$25.12 (13) 38.48 (14) \$2.16 (15) \$150.15 (16) \$65.85 (17) \$20.02 (18) \$55; total \$17,884.34.

Reliable Iron Foundry: (4) to (7) inclusive, \$342.18 (8) to (10) inc., \$131.94 (11) and (12) \$67.64 (13) \$106.02 (14) \$7.56; total \$655.34.

Viking Automatic Sprinkler Co.: (15) \$126.50 (16) \$313.50 (17) \$420.42 (18) \$748.50.

National Cast Iron Pipe Co. (1) 61.5c (2) \$1.57 (3) \$2.63.

Hercules Foundries, Inc.: (4) to (7) inc. \$297.45 (8) to (10) inc., \$114.75 (11) and (12) \$66.82 (13) \$106.02 (14) \$7.56; total, \$592.60.

U. S. Pipe & Foundry Co. (totals of each item): (1) \$65.25 (2) \$70.50 (3) \$2062.50 (4) to (7) inc., \$355 (8) to (10) \$138 (11) and (12) \$71.50 (13) \$112 (14) \$8.00.

Long Beach Iron Works: (4) to (7), inc., \$342.18 (8) to (10) inc., \$131.94 (11) and (12) \$67.64 (13) \$106.02 (14) \$7.56 (18) \$870; total \$1525.34.

Pacific States C. I. Pipe Co.: Bid irregular.

Alhambra Foundry Co.: (4) to (7) inc., \$342.18 (8) to (10) inc., \$131.94 (11) and (12) \$67.64 (13) \$106.02 (14) \$7.56.

Rensselaer Valve Co.: (15) \$143 (16) \$62.70 (17) \$20.02 (18) \$50; total \$1,626.72.

R. D. Wood & Co.: (1) 57.8c (2) \$1.486 (3) \$2.49 (15) \$143 (16) \$68.75 (17) \$22.83 (18) \$43.

Crane Co.: (4) to (7) inc., \$342.18 (8) to (10) inc., \$131.94 (11) and (12) \$67.64 (13) \$106.02 (14) \$7.56; total \$2,371.52.

American C. I. Pipe Co. (totals): (1) \$6198.75 (2) \$6862 (3) \$2021.25 (4) to (7) inc., \$342.18 (8) to (10) inc., \$131.94 (11) and (12) \$67.64 (13) \$106.02 (14) \$7.56; total \$15,737.34.

SAN FRANCISCO.—Following bids received August 18 by T. A. Brooks, City Purchasing Agent, under Bid No. 1062, to haul approximately 1700 tons cast iron pipe for San Francisco Water Department, as follows:

Schedule (1a): Haul 35 tons (2000 lbs.) 6- and 8-in. pipe, including bolts and washers, from Pier 31 to yard at 639 Bryant St.;

Schedule (1b): Haul 36 tons 6- and 8-in. pipe, including bolts and washers, from Pier 54 to yard at 639 Bryant Street;

Schedule (1c): Haul 815 tons 6- and 8-in. pipe, including bolts and washers, from Pier 31 to storage lot at Ocean and Phelan Avenues;

Schedule (1d): Haul 815 tons 6- and 8-in. pipe, including bolts and washers, from Pier 54 to storage lot at Ocean and Phelan Avenues;

If awarded contract for all items together, the prices shall be as follows:

Schedule (2a): Haul 35 tons do from Pier 31 to yard at 639 Bryant St.;

Schedule (2b): Same as (1b);

Schedule (2c): Same as (1c);

Schedule (2d): Same as (1d).

Bids were as follows (bid by schedule only):

Overland Freight Transit, Schedule (1) \$1414; Schedule (2) \$1414.

J. H. Krumlinde, (1) \$1498.42; (2) \$1498.42.

King & Co., (1) \$1795.22; (2) \$1,795.22.

John McCarthy & Son, (1) \$2008.50 (2) \$1999.00.

J. A. Clark Draying, (1) \$2086.50.

Farnsworth & Ruggles, (1) \$2107.50; (2) \$1896.76.

N. Giorgi, (1) \$2252.75; (2) \$2252.75.

Meyer Rosenberg, (1) \$2267.75; (2) \$2267.75.

Jos. D. Sheedy, (1) \$3365.00; (2) \$3,365.00.

Daniel Gallagher T. M. & R. Co. bid by units as follows: (1a) 95c; (1b) 95c; (1c) \$1.45; (1d) \$1.45; (2a) 95c; (2b) 95c; (2c) \$1.45; (2d) \$1.45.

Bids held under advisement.

LOS ANGELES, Cal.—Bids for furnishing and delivering to Water and Power Department f.e.b. department's warehouse, 410 Ducommun St., double disc, round bottom, hub end gate valves under Spec. No. 3186, were opened by A. J. Holm, city purchasing agent, August 15. The items were:

- (1) 150 12-in. valves;
- (2) 1 24-in. valve with extended grease case;
- (2a) 1 24-in. do except without extended grease case and with Alemite lubricating fittings.

The bids were:

Rennselaer Valve Co.: (1) \$58 (2) \$412 (2a) \$372. Terms net.

Rich Mfg. Co.: (1) \$60.70 (2 and 2a) no bid. Terms 2% 30 days.

Water Works Supply Co.: (1) \$61.47 (2) \$471.10 (2a) \$413.50. Terms net.

A. H. Coates Co.: (1) \$62.50 (2) \$452 (2a) \$402. Terms net.

Columbian Iron Works: (1) \$64.26 (2) \$414.62 (2a) \$399.62. Terms 2% 30 days. Delivery, 10 weeks.

Ludlow Valve & Mfg. Co.: (1) \$69.50 (2) \$490 (2a) \$440. Terms net.

Viking Automatic Sprinkler Co.: (1) \$65.31 (2) \$515.65 (2a) \$496.72. Terms 2% 10th prox. after date of invoice.

Griffith Pipe & Supply Co.: Submitted same prices as Viking Automatic Sprinkler Co., above.

Ohio Injector Co.: (1) \$66.16 (2) no bid (2a) no bid. Terms 2½% 25 days.

Chapman Valve Mfg. Co.: (1) \$73.60 (2) \$532 (2a) \$494. Terms net. Delivery, 45 days.

R. D. Wood & Co.: (1) \$73.67 (2) and (2a) no bid. Terms, ½ of 1% 10 days. Delivery one-half of requirements in 8 or 9 days, balance 14 or 15 weeks. Deduct 50c per valve % delivery.

Crane Co.: (1) \$80 (2) \$800 (2a) \$575. Terms, 2% 30 days.

Warren & Bailey Co.: (1) \$87 (2) \$669.28 (2a) \$630.93. Terms, 2% 30 days. 33

ARIZONA STATE.—J. A. Casson, Westward Ho Hotel, Phoenix, and 344 High Street, Oakland, Calif., awarded contract by State Highway Commission, Phoenix, August 14 at \$96,992.36 for highway construction on the St. Johns-Springerville Highway, Project E-60 and E-68-A. The work, which begins at a point about 11½ miles south of St. Johns and extends southeasterly approx. 8½ miles toward Springerville, consists of grading and draining about ½ of a mile of roadway, the placing of subgrade stabilizer and the oil processing of the entire length by the road mix method, involving:

Federal Aid Project No. E-60

- (1) 21,871 cu. yds. rdwy. excav., unclassified;
- (2) 40 cu. yds. struc. excav., unclass.
- (3) 521 cu. yds. drainage excav., unclassified;
- (4) 41 cu. yds. borrow excav., unclassified;
- (5) 20,074 sta. yds. earthwork overhaul;
- (6) 300 hours rolling (except oil cake, seal coat and shoulders);
- (7) 7 cu. yds. Class B concrete, including cement;
- (8) 10 lbs. reinf. steel (bars C.I.P.);
- (9) 44 lin. ft. 36-in. C.M.P. (C.I.P., inc. bds. but except excavation);
- (10) 800 lin. ft. cable road guard (C. I. P.);
- (11) 50 M. gals. water applied to roadway (C.I.P.);
- (12) 522 cu. yds. subgrade stabilizer;
- (13) 3317 cu. yd mi. sugrade stabilizer haul;
- (14) 199 cu. yds. mineral aggregate;
- (15) 54 cu. yd. ml. do haul;
- (16) 3576 gals. asph. road oil (C.I.P. on road);
- (17) 0.176 ml. mix, lay and finish;
- (18) 2 tons cutback asph. cement for seal coat (C.I.P. on road);

- (19) 15 cu. yds. screenings for seal coat (C.I.P.);
- (20) 16 cu. yds. shoulder material;
- (21) 99 cu. yd. mi. do, haul;
- (21a) 2000 cu. yds. stripping pits;

Federal Aid Project No. E-68-A

- (22) 7463 cu. yds. rdwy. excav., unclassified;
- (23) 7 cu. yds. structural do;
- (24) 176 cu. yds. drainage do;
- (25) 10 hours rolling (except oil cake seal coat and shoulders);
- (26) 3 cu. yds. Class B concrete, including cement;
- (27) 10 lbs. reinf. steel (bars C.I.P.);
- (28) 36 lin. ft. 24-in. C.M.P. (C.I.P., inc. bands but except excav.);
- (29) 1222 sq. yds. grading dips;
- (30) 25,648 cu. yds. subgrade stabilizer
- (31) 70,993 cu. yd. mi. subgrade stabilizer haul;
- (32) 239 M. gals. water applied to roadway (C.I.P.);
- (33) 9717 cu. yds. mineral aggregate;
- (34) 25,334 cu. yd. mi. mineral aggregate haul;
- (35) 174,906 gals. asph. road oil (C. I. P. on road);
- (36) 8,501 miles mix, lay and finish;
- (37) 102 tons cutback asph. cement for seal coat (C.I.P. on road);
- (38) 727 cu. yds. screenings for seal coat (C.I.P.);
- (39) 749 cu. yds. shoulder material;
- (40) 2080 cu. yd. mi. do haul;
- (41) 13,000 cu. yds. stripping pits;

Non-Federal Aid Work

- (42) 170 cu. yds. special mineral aggregate for stockpile (C.I.P.).
- The total bids were:
- (A) J. A. Casson, Westward Ho Hotel, Phoenix, \$96,992.36.
 - (B) All Arizona Engr. & Const. Co., Clifton, Ariz., \$99,870.79.
 - (C) Pleasant-Hasler Const. Co., Phoenix, \$104,106.86.

LOS ANGELES, Cal.—Parish Bros., 1222 N. Grower St., submitted low bid to County Board of Supervisors, Aug. 14, at \$13,590, for constructing a reinforced concrete bridge to be built on Alameda St. over Compton Creek.

The proposed bridge will consist of two spans, 30 ft. each, with a 50-ft. roadway and with creosoted piling foundation. The engineer's estimate of quantities follow:

- 435 cu. yds. class "B" concrete;
- 199 cu. yds. class "A" concrete;
- 3,100 lin. ft. wood pile;
- 3,514 lbs. rocker and bearing plates
- 39,446 lbs. reinforcing steel;
- 40 pieces tile;
- 131 lin. ft. hand rail;
- 2,213 cu. yds. excavation;
- 8 4-in. x 8-in. x 18-in., 16 gauge

galvanized drain;
14,996 sq. ft. form area;
392 sq. ft. expansion material.
W. D. Armstrong, county bridge engineer.
Bids were taken as follows:
(1) Lump sum;
(2) Price per yd. for additional "B" concrete;
(3) Price per lb. for additional reinf. steel;
(4) Price per lin. ft. for additional piling for every foot over 25 ft. in length.

- The bids were:
(A) Parish Brothers.
(B) John Strona.
(C) Willard Lutz.

WEBB DENIES PUBLIC WORKS TAX EXEMPTION

**Materials Sold to L. A. Projects
Held Subject to
State Levy**

The state sales tax should be assessed on material used in the Los Angeles Flood Control Project and the Metropolitan Water District project, Attorney General U. S. Webb advised the State Board of Equalization yesterday in response to an inquiry.

Though the terms of the law exempt "public works" from the tax, Webb held that projects such as irrigation, reclamation, and flood control districts, though public corporations, were not "public works" in the strict sense.

"In the absence of judicial ruling on the point," Webb said, "I am of the opinion that the term should be taken in the restricted sense."

He advised the board to levy the tax, and refund it later if a court decided that the broad meaning of "public works" should be applied. "The state must protect itself," he declared. "If the tax were not collected at the time of the sale, it would never be collected."

STEEL BOOKINGS STILL AT LOW LEVEL

Bookings of steel construction during July continued at the low rate established this year according to the final tabulation of returns. The shipments for the month were approximately 15 per cent below the average monthly shipments during the second quarter of this year and more nearly approximated the monthly shipments of the first quarter. The low record is due in large measure to the failure to date of the Federal Government to allow any credits for public works, says the Institute of Steel Construction monthly report.

KERN TO BUY ONLY FROM NRA DEALERS

Kern county has joined the list of public bodies requiring bidders on public contracts to conform to NRA requirements.

A resolution by the board of supervisors pledges the county to buy only from firms displaying the NRA emblem.

THE WEEK'S NEWS Highlights

STATE CODES.—Seven proposed codes for the construction industry and some of its many subdivisions are before administrators of the California Recovery Act this week.

Hearings held: Crushed Rock, Sand and Gravel Industry;

Hearings continued: Furnace Dealers and Sheet Metal Contractors of Northern California, Inc. (Tentatively adjourned to Saturday, September 2, 9 a. m.)

Hearings scheduled: California State Builders' Exchange basic contracting code, September 11, 10 a. m.; Retail Lumber and Lumber Building Material Industry of California, September 7, 10 a. m.

Hearings to be scheduled: Building Material Council of Northern California; California Reinforcing Steel Institute; Concrete Industry of Alameda and San Francisco; Water Heater and Gas Warm Air Heating Industry of California.

All hearings in San Francisco are held at the offices of the Corporation Commission, Room 219, State Building. Parties interested in attending hearings or wishing to file protests should address Commissioner of Corporations Edwin M. Daugherty.

NATIONAL CODES.—Hearings on the national construction industry basic code and supplemental codes are to start at Washington on September 6, according to latest information received in San Francisco by the Construction League of California. This is the state agency representing the Construction League of the United States, sponsors of a basic national code and supplemental codes reaching every branch of the industry, including architects and engineers.

BIDS ON FIRST FEDERAL WORK UNDER ESTIMATE

**Eleven Contractors Submit
Offers on National Forest
Grading Job**

Anticipated increases in road construction costs failed to materialize in contractors' bids submitted yesterday to the Bureau of Public Roads at the first local bid opening on a federal project since the "new deal" became fully operative.

The low bid, offered by George Pollock Company of Sacramento, at \$143,829 was more than twenty-five percent below the engineer's estimate of \$203,337 for the job of grading 6.2 miles of national forest road in Tuolumne county. Principal items include 275,000 cu. yds. unclassified excavation and 360,000 sta. yds. overhaul.

The four low bids were all under the estimated cost. Federal officials expressed surprise at the prices offered, pointing out that bids received on the first contracts advertised by the government in the neighboring states of Oregon and Nevada had been substantially in excess of the estimates.

Eleven bids were opened. They were submitted by contracting firms operating in both northern and southern California and by one Nevada company.

Following are the bids:

Geo. Pollock, Sacramento.....	\$143,829
Weymouth-Crowell Co., Los Angeles	185,317
Granfield, Farrar & Carlin, San Francisco	191,939
Fredrickson and Watson, Oakland	192,286
J. E. Haddock, Pasadena....	207,245
A. Teichert & Son., Sacto....	228,302
Mittry Bros., L. A.....	235,187
Isbell Const. Co., Carson City, Nevada	242,374
MacDonald & Kahn, S. F.....	242,906
Hass, Doughty & Jones, San Francisco	256,877
Hemstreet & Bell, Marysville	258,486
ENGINEER'S ESTIMATE..	203,337

U. S. READY TO AID MUNICIPAL UTILITY PLANTS

**Engineer Advised Government
Will Finance Proposed
Projects**

Funds for construction of public-ly-owned projects may be obtained from the Federal government, even though the planned development is to be in competition with existing privately-owned utilities, according to information received by Edward K. Hussey of the Hussey Engineering Corporation, Syndicate Building, Oakland.

A reply to an inquiry by Mr. Hussey was received from Philip B. Fleming, executive officer for Col. Waite, deputy administrator of public works.

The letter said:

"Public bodies are eligible for grants and loans for utilities projects even though there may be adequate existing private facilities.

"The President has not acted under Section 203 (d), other than to provide for leasing arrangements as indicated in Circular No. 1, Section 5, Page 3. Until he does, no opinion can be given as to its interpretation.

"The National Industrial Recovery Act provides that the United States Government must be reasonably secured. The kind of security public bodies have authority to give is a question of state law.

"Your attention is called to Article 5, Page 12, of Circular No. 1, which sets out various methods of financing public projects."

Mr. Hussey is consulting engineer on a number of proposed municipal utility projects in California, including a municipal water system in Selma. The Selma authorities are preparing an application for a federal loan of \$108,659 and a federal grant of \$46,568 for "construction, installation and completion of a complete up-to-date water system including wells, pumps, reservoirs and electric power transmission lines between pumping plants."

The present Selma water system is owned and operated by the San Joaquin Light & Power Corp.

HUMBOLDT COUNTY INCREASES WAGES

Humboldt county board of supervisors has adopted a wage scale for county labor, increasing wages an average of 8 percent, based on an 8-hour day and 44-hour week.

Following are the hourly rates: common labor, 43½c; truck driver, 55c; foreman, 68½c; man and team, \$1¼c.

ENGINEER NAMED TO AID TRASK ON PWA APPLICATIONS

Appointment of A. D. Wilder as northern California engineer for the state public works advisory board was announced yesterday at the offices of Justus Wardell, regional director of the works program.

Mr. Wilder will be the local representative of F. E. Trask of Los Angeles, state engineer for the public works administration. He probably will have offices at the State Building in San Francisco and applications for federal funds received from northern California agencies will be referred to him.

Mr. Trask is to be in San Francisco today for an informal conference with Mr. Wardell.

Mr. Trask is engineer for the state advisory committee who include Supervisor F. R. Havenner of San Francisco, E. F. Scattergood electrical engineer of the Los Angeles water and power board, and Hamilton H. Cotton, Los Angeles, chairman of the committee.

The conference will have to do with general administrative affairs and will not involve discussion of specific projects or possible allocation of funds, it was said.

FILING FEE FIXED FOR HOUSING PLANS

Applications to build housing projects under the Community Land Chest Act must be accompanied by a fee of one-half of one per cent of the estimated cost of the project, Attorney General U. S. Webb ruled yesterday in response to a query from Edwin M. Dougherty, Commissioner of Corporations

Dougherty, to whose office the fee is payable under the state law, asked Webb whether it was legal to collect the fee in advance, inasmuch as the applications of builders are often denied.

The act provides that plans and details of rentals and sale prices must be filed with the commissioner.

The commissioner, in considering the application, takes into account building ordinances, zoning laws, and everything which may affect the project.

Webb ruled that since the commissioner must do the same amount of work whether the job is approved or not, the fee must be collected at the time the plans are filed.

"The language of the act, which refers to the estimated cost of the project, clearly indicates that the fee is to be collected to advance," Webb declared.

NATIONAL TOTAL JULY BUILDING 8.6% OVER 1932

**Dun and Bradstreet Reports
Major Improvement In
Coast Cities**

Although building operations in July dropped 13.5 percent from June, they were 8.0 percent above those for July of last year. This followed a gain of 5.9 percent in June over the preceding year, the first such increase to be recorded in this series since April, 1929.

The total value of building permitted for, including new work and alterations, for 215 cities of the United States, as reported to Dun & Bradstreet, Inc., for the month of July, amounted to \$29,484,891, as compared with \$34,098,334 in June and \$27,150,469 for July of 1932.

New York city, five boroughs reporting, shows a total of \$4,512,233 during July, a decline of 56.2 percent from the preceding month's figure of \$10,304,501, but a rise of 27.9 percent over the \$3,528,000 recorded in July a year ago.

Omitting New York city it is found that building permit values were 5.5 percent higher than a year ago and 5 percent above the total for June. Last month's building permits for the 214 cities, excluding the metropolis, totalled \$24,972,563, as against \$23,793,833 during June and \$23,622,460 in July of last year.

The west central group of states showed the largest gain over a year ago, 114.7 percent, followed by a rise of 85.3 percent for the Pacific coast group. The south central group had an increase of 67.2 percent, mountain 18.8 percent and middle Atlantic 8.7 percent. As compared with the preceding month only three groups showed improvement, the south central, west central and Pacific groups.

EMPLOYMENT SERVICE TO OPEN OFFICES

Offices of the National Re-employment Service of the United States Department of Labor are to be opened in seven northern California counties shortly in addition to the offices in San Francisco, it was announced in Sacramento yesterday by Chas. W. Lyon, field representative of the service.

Counties to have offices are Yolo, Yuba, Amador, Calaveras, Tehama, Butte and Placer, according to Lyon. The Federal service will open offices only in counties where state offices are not operating, Lyon said.

Contractors on public works will be required to obtain labor from these bureaus.

50,000 Men To Be Employed By Christmas On State Highway Work

California contractors will back the State Highway Commission to the limit in its program to have 50,000 men at work on highway construction and production of road building materials by Christmas.

Individual contractors and spokesmen for contracting groups yesterday declared the state's construction industry is ready to put men at work just as rapidly as contracts can be awarded. They made clear that there would be no obstacle within the industry to interrupt a steady flow of public money into the channels of trade through employment of labor and purchase of materials once the contracts are signed.

With \$6,000,000 worth of highway contracts now being advertised for opening the second and third weeks of September, State Director of Public Works Earl Lee Kelly has announced that he intends to award contracts for \$20,000,000 worth of highway work before December 25. This will involve advertising and letting of contracts at the rate of \$1,000,000 a week.

"The new program calls for opening of bids on \$4,380,000 worth of highway work September 13, 14 and 15; \$2,000,000 on September 20 and 21; \$2,000,000 on September 27, and \$1,000,000 a week thereafter until Christmas," Kelly stated.

Kelly declared 16,000 men will be given work directly on the highway construction. Allied industries, including cement, asphalt, machinery and others, will get work for 34,000 more from the highway millions, according to the director's estimates.

"Of every dollar spent, 90 cents will go directly or indirectly to labor," Kelly said. "In a \$20,000,000 program that means 4,500,000 man days of employment.

"Governor Rolph's purpose in speeding ahead highway work, instead of spreading it evenly over the 1933-35 biennium, is to provide labor with purchasing power necessary to make NRA successful.

"Public works is the most effective means of stimulating purchasing power. Every dollar earned by the laboring man goes for necessities. That keeps factories, food industries and other business going."

Under normal conditions California's \$34,000,000 highway construction program—including \$16,000,000 in federal funds—would be spread over a 24-month period. With the accelerated program announced by

Kelly only \$14,000,000 will be left for projects to be started in the 18 months beginning January 1.

Instructions were sent all district engineers to speed project surveys necessary before final specifications can be drawn in the Sacramento offices of the public works department.

As contracts are awarded and sent back to the districts for construction supervision, men laid off during recent months because of lack of work will be re-employed, Kelly said. Most of the thousands of jobs will come through contractors.

Emergency construction will be spread over all sections of the state. Fifty-two of 58 counties share in the budgeted work and this distribution will be adhered to. Contractors will be requested to employ men from local jobless ranks in the project area, the director declared. Such local employment is mandatory on projects financed from federal funds.

FIVE LICENSES SUSPENDED IN JULY

Licenses of five contractors were suspended during the month of July as a result of investigation of unethical practices, according to the report of Registrar Carlos Huntington.

A total of 55 cases were considered by the registrar. The complaints involved \$60,348.

The contractors' bureau filed 29 court complaints during the month and obtained convictions in 18 cases. Two cases were dismissed and nine are pending.

SCHOOL SURVEY TO BE EXTENDED BY S. F. BOARD

Directors to Order Examination of Three More Structures by Engineers

With a survey of the earthquake resistance of nineteen Class C school structures already in progress, the San Francisco Board of Education has decided to select three other schools of different structural types for inclusion in the survey.

The three schools selected will be typical of a number of others built on the same lines.

The survey was urged by Ira W. Coburn, chairman of the physical properties committee of the board, in order to determine as soon as possible the total amount of work necessary on San Francisco schools with a view to obtaining NRA funds.

The cost of the work necessary to make all buildings earthquake-proof has been roughly estimated at \$350,000.

The survey was originally begun by John B. Leonard, chief building inspector, at the order of the board following the Southern California earthquake.

Leonard, whose report covered the Adams School, taken as typical of the nineteen buildings now under examination, declared that the structures would not withstand severe horizontal shock, and recommended extensive strengthening of the frames.

6.237-MI. GRADING — SONORA PASS

TUOLUMNE COUNTY, Calif.—Geo. Pollock, P. O. Box 903, Sacramento, at \$143,829 submitted low bid to and recommended for award by U. S. Bureau of Public Roads, San Francisco, for grading 6.237 miles of Section C, Route 38, the Sonora Pass National Forest Highway, Stanislaus National Forest, involving:

- (1) 48 acres clearing;
- (2) 275,000 cu. yds. unclass. excav.;
- (3) 1,100 cu. yds. unclass. excavation, struc.;
- (4) 360,000 sta. yds. overhaul;
- (5) 6.237 miles finish earth graded rd.
- (6) 5,400 cu. yd. mi. haul backfill material;
- (7) 1 cu. yd. Class A concrete;

- (8) 36 cu. yds. Class B do;
- (9) 400 lbs. reinf. steel;
- (10) 178 lin. ft. 8-in. corr. metal pipe;
- (11) 150 lin. ft. 12-in. do;
- (12) 622 lin. ft. 18-in. do;
- (13) 2,212 lin. ft. 24-in. do;
- (14) 42 right of way monuments;
- (15) 7 type A spillway inlets;
- (16) 4 type-B do;
- (17) 7000 gals. liquid asph. road material;
- (18) extra work, \$200 lump sum.

Complete bids follow:
 (A) Geo. Pollock, Sacramento, \$143,829.00.
 (B) Weymouth-Crowell Co., Los Angeles, \$185,317.84.
 (C) Granfield, Farrar & Carlin, San Francisco, \$191,939.00.

SAN FRANCISCO. — Herman Lawson, 465 Tehama St., at \$2644.10 submitted low bid to Public Utilities Commission to lay 6- and 8-in. cast iron pipe in Alemany Boulevard between San Jose and Naglee (Section 1) and between Ocean Ave. and Seneca St. (Section 2), involving:

Section 1

- (1) 5050 lin. ft. excav. and backfill trench;
- (2) 40 cu. yds. add. excav. and backfill;
- (3) 50 sq. ft. add. pavement, remove and replace;
- (4) 105 tons install pipe and fittings;
- (5) 1010 ft. mlinerlead joints;
- (6) 20 bolted joints;
- (7) 400 sq. ft. repave street openings with asphalt concrete;
- (8) 300 sq. ft. repave sidewalk openings.

Section 2

- (1) 4100 lin. ft. excav. and backfill trench;
- (2) 40 cu. yds. add. exvac. and backfill;
- (3) 50 sq. ft. add. pave., remove and replace;
- (4) 110 tons install pipe and fittings;
- (5) 900 ft. mlinerlead joints;
- (6) 20 joints, bolted;
- (7) 200 sq. ft. repave street openings with asphalt concrete;
- (8) 100 sq. ft. repave sidewalk openings.

Complete bids follow:

- (A) Herman Lawson, (1) \$1440 (2) \$1204.10; total \$2644.10.
- (B) F. W. Snook, (1) \$1885.95 (2) \$1435.89; total \$3321.84.
- (C) E. J. Treacy, (1) \$2180.58 (2) \$1826; total \$4006.58.
- (D) S. F. Water Dept., (1) \$2368.00 (2) \$2005.50; total \$4373.50.

20.21-MI. HIGHWAY CONSTRUCTION - NYE CO., NEV.

NYE Co., Nev.—As previously reported, Dodge Construction, Inc., Fallon, at \$67,741.03, awarded contract by State Highway Dept. to construct 20.21 miles highway between 22 miles and 2 miles south of Beatty, Rt. 5, Sections B2, F & G, involving.

- (1) 52,500 cu. yds. rdwy. excav.;
(2) 27,011 sta. yds. overhaul;
(3) 4348 cu. yds. select borrow;
(4) 1590 cu. yds. struc. excav.;
(5) 16.72 ml. subgrade 18-ft. wide;
(6) 3.49 ml. subgrade 20 ft. wide;
(7) 5 cu. yds. remove concrete foundation;
(8) 49,200 cu. yds. cru. gravel or stone surf.;
(9) 141 cu. yds. class B concrete;
(10) 2690 lbs. reinf. steel;
(11) 128 lin. ft. 18-in. corr. metal pipe;

Table with 7 columns (A-G) and 16 rows of bid amounts for various construction items.

BUTTERFLY VALVES — BOULDER, CANYON, NEV.

BOULDER CANYON, Nevada—Bids for furnishing butterfly valves for the Boulder Power Plant, Boulder Canyon Project, Spec. No. 544, opened by Bureau of Reclamation, Denver, Aug. 25, as follows:

- SCHEDULE NO. 1
(1) one 120-in. dia. butterfly valve;
(2) four 168-in. do;
SCHEDULE NO. 2
(3) one 120-in. do, welded plate-steel;
(4) four 168-in. do;
SCHEDULE NO. 3
(5) one 120-in. do, comp. alloy cast-steel and welded steel-plate;

Table with 7 columns (A-G) and 18 rows of bid amounts for butterfly valves.

Table with 5 columns (A-E) and 8 rows of bid amounts for items 1-8.

LOS ANGELES, Cal.—As previously reported, Dravo Contracting Co., Dravo Bldg., Pittsburgh, Pa., submitted low bid to the Metropolitan Water District, Los Angeles, August 28, at \$967,827 to construct the East Eagle Mountain Tunnel and appurtenant works of the Colorado River Aqueduct, between Sta. 5879+31 and Sta. 5973+91. This tunnel is located in the Eagle Mountains about 43 miles easterly from Indio, in Riverside County, Calif. The work consists of the excavating and lining of a 16-ft. diameter water supply tunnel, approximately 1.79 miles, or 9460 ft., in length. The items are:

- (1) tunnel access works (lump sum);
(2) No. 12 in specifications;
(3) 103,900 cu. yds. exca. in tunnel;
(4) 50 cu. yds. excav. for tunnel enlargement;
(5) No item 5 in specifications;
(6) 27,000 cu. yds. conc. in tunnel;
(7) 200 M. ft. b.m. furnish and place permanent timbers in tunnel;
(8) 10 tons erect steel support in tunnel;
(9) 100 cu. yds. gunite coating of rock in tunnel;
(10) 40 conn. for grouting;
(11) 50 cu. yds. mix and place grout;
(12) 50,000 lbs. place reinf. steel;
(13) 10,000 cu. yd. mi. overhaul of concrete aggregates;
(14) 160 ton miles hauling steel.
(15) 305,000 ton miles hauling cement.

- The bids were:
(A) Dravo Contr. Co., Pittsburgh, Pa., \$967,827.
(B) Bates & Borland, Los Angeles, \$1,030,324.
(C) S. S. Magoffin Co., Inc., Adrian, Ore., \$1,116,240.

Table with 3 columns (A-C) and 15 rows of bid amounts for tunnel items.

SACRAMENTO, Calif.—A. Teichert & Son, P. O. Box 1118, Sacramento, at \$2488.80 submitted low bid to U. S. Engineer Office, Sacramento, to grade 642 lin. ft. subgrade and provide 1430 sq. yds. bituminous pavement to form a hard surfaced roadway over the hydraulic dredge fill near Capital Rice Mills on the west bank of the Sacramento river, 0.5 mile below the M St. bridge, involving:

- (1) 430 cu. yds. grading;
(2) 1430 cu. yds. bit. pave.;
(3) 1430 s. yds. sealcoat.
Complete bids follow:
(A) A. Teichert & Son, Sacto., \$2488.80

- 2,300 cu. yds. mile aggregate base course haul;
- 475 cu. yds. concrete;
- 62,500 lbs. reinforcing steel;
- 40 lin. ft. 36-in. C.M.P.;

- 1,700 lin. ft. cable guard fence;
- 1,100 lin. ft. standard line fence;
- 6 catchbasins and other incidental items.

Cash or certified check, 5%. The attention of bidders is directed to the Special Provisions covering subletting or assigning the contract and to the use of Domestic Materials. Labor lists shall be obtained from the Coconino County Re-employment Committee Chairman, Mr. P. J. Moran, Flagstaff, Arizona.

SKAGIT and Whatcom Cos., Wash.—Until Sept. 6, 10 A. M., bids will be received by L. V. Murrow, State Director of Highways, Olympia, to pave with Portland cement concrete 0.4 mi. State Road No. 1, Fisher's Slough to B. C. line paving gaps N. R. H. Pro. 30-A and 17, and N. R. M. Pro. 137-C and 137-E. Specifications obtainable from above office on deposit of \$2, returnable. Certified check 5% required with bid.

GLENN, Placer and Colusa Counties, Cal.—As previously reported, until Sept. 5, 2:30 P. M., bids will be received by C. H. Whitmore, District Engineer, State Highway Commission, Public Works Bldg., Sacramento, to apply 14.2 miles bituminous surface treatment, involving:

- (1) 44 tons asph. road oil, Loc. A;
- (2) 525 tons screenings do;
- (3) 75 tons asph. road oil, Loc. B;
- (4) 890 tons screenings do;
- (5) 40 tons asph. road oil, Loc. C;
- (6) 450 tons screenings do.

Specifications obtainable from above office. Certified check 10% required with bid. 29

KERN COUNTY, Cal.—As previously reported, until Sept. 5, 2 P. M., bids will be received by E. E. Wallace, District Engineer, State Highway Commission, State Highway Building, Fresno, to apply retread surface treatment to two miles of existing pavement between 6.2 miles and 10.4 miles of Bakersfield, involving:

- (1) 125 tons emul. asph. road oil;
- (2) 1630 tons screenings.

Specifications obtainable from above office. Certified check 10% required with bid. 29

KINGS COUNTY, Cal.—As previously reported, until Sept. 5, 2 P. M., bids will be received by E. E. Wallace, District Engineer, State Highway Commission, State Highway Building, Fresno, to apply retread surface treatment to existing pavement over 2.7 miles near Lemoore, involving:

- (1) 117 tons emul. asph. road oil;
- (2) 1764 tons screenings.

Specifications obtainable from above office. Certified check 10% required with bid. 29

TULARE CO., Calif.—As previously reported, until Sept. 5, 2 P. M., bids will be received by E. E. Wallace, District Engineer, State Highway Commission, State Highway Building, Fresno, to apply a bituminous seal coat to the shoulders on each side of the existing pavement over 46 miles between the southerly boundary and Kingsburg, involving:

- (1) 270 tons cut-back asph. in place;
- (2) 1500 tons sand in place.

Specifications obtainable from above office. Certified check 10% required with bid. 29

CONTRA COSTA COUNTY, Calif.—Bids to have been opened Sept. 14, 2 P. M., by State Highway Commission, Sacramento, cancelled; to grade and pave with asphalt concrete 0.2 mile in Valona.

LOS ANGELES CO., Cal.—Until Sept. 5, 2 P. M., bids will be received by S. V. Cortelyop, District Engineer, State Highway Commission, 808 State Office Bldg., Los Angeles, to apply bituminous surface treatment over 1.8 mi. between Vasquez Rock Road and 2 mi. easterly and to grade and surface with waterbound macadam base and bituminous macadam surface about 0.2 mi., involving:

- (1) Clear and grub right-of-way;
- (2) 6300 cu. yds. rdwy. excav., unclass;
- (3) 4550 ml. yds. overhaul;
- (4) 2425 sq. yds. subgrade waterbound mac. base;
- (5) 560 tons broken stone do;
- (6) 280 tons broken stone (bit. mac. surf.);
- (7) 1700 tons screenings do;
- (8) 90 tons asph. road oil;
- (9) 110 cu. yds. conc. remove from exist. pave.;
- (10) 11 sta. finish rdwy.;
- (11) 20,000 sq. yds. paint binder.

29

BERKELEY, Alameda Co., Calif.—The Regents of the University of California will construct one block of 6-ft. sidewalk at the University, Berkeley. Luther Nichols, comptroller.

ARIZONA STATE—Until 2:30 P. M., Sept. 12, bids will be received by T. S. O'Connell, State Highway Engineer, Phoenix, Ariz., for highway construction on N. R. M. 24-A and N. R. H. 24-A, Flagstaff - Williams Highway. The work begins about fifteen miles west of Flagstaff and extends easterly to the pavement at Flagstaff excepting Project 24-B, consists of additional base course material, a three (3") inch plant mix oil cake and is to be completed on or before January 31, 1934. The principal items are:

- 14,000 cu. yds. stripping pits;
- 240,000 sq. yds. reshaping road surf.;
- 1,436 M. gals. water for sprinkling;
- 10,000 cu. yds. aggregate base course;
- 64,300 cu. yds. mi. aggregate base course, haul;
- 5,800 cu. yds. shoulder material;
- 25,700 cu. yd. mi. shoulder material haul;
- 26,560 tons plant mix;
- 127,480 ton mi. plant mix haul;
- 1,560 tons cut-back asphalt;
- 14.7 mi. placing plant mix;
- 1,280 cu. yds. screenings;
- 420 sq. yds. intersection;
- 400 tons spl. plant mix for stockpiling;
- 300 cu. yds. aggregate for stockpile.

Cash or certified check 5%. The attention of bidders is directed to the Special Provisions covering subletting or assigning the contract and the use of Domestic Materials. Labor lists shall be obtained from the Coconino County Re-employment Committee Chairman, Mr. P. J. Moran, Flagstaff, Arizona.

LOS ANGELES COUNTY, Calif.—Bids to have been opened Sept. 15, 2 P. M., by State Highway Commission, Sacramento, cancelled; to grade four miles between Colby Canyon and Mt. Wilson.

STOCKTON, San Joaquin Co., Cal.—R. E. McCarthy, 603 Eastworth St., Stockton, at \$,895 ton submitted low bid to City Port Commission for graveling near the Deep Water Terminal at the lumber storage areas, 2-inch gravel to be land, involving 3000 tons road gravel. Complete bids follow:

- R. E. McCarthy, Stockton.....\$.895
- Willard, Biasotti, Lovatti, Stockton..... .94
- J. R. Reeves, Sacramento..... 1.09

Bids held under advisement.

29

CONTRA COSTA CO., Cal.—Until Sept. 15, 2 P. M., bids will be received by State Highway Commission, Sacramento, to grade and pave with asphaltic concrete 0.2 mi. in Valona, involving:

- (1) 1 lot readjust private improvements (Group 4);
- (2) 1 lot do, (Group B);
- (3) 1 lot do, (Group C);
- (4) 24,504 cu. yds. rdwy. excav., unclass;
- (5) 357,000 sta. yds. overhaul;
- (6) 50 cu. yds. struc. excav.;
- (7) 760 cu. yds. cru. conc. (base and shoulders);
- (8) 1340 sq. yds. exist. bit. mac. to be removed;
- (9) 560 cu. yds. conc. remove from exist. pave. and struc.;
- (10) 740 tons asph. conc.;
- (11) 200 sq. yds. subgrade for pave (2nd Ave.);
- (12) 35 cu. yds. class A Port. cem. conc. (pave);
- (13) 15 cu. yds. do (curbs, gutters and sidewalks);
- (14) 40 cu. yds. do (struc.);
- (15) 4500 lbs. bar reinf. steel (struc.);
- (16) 5 tons cut-back asph.;
- (17) 13 tons screenings;
- (18) 1 footbridge to be removed;
- (19) 80 lin. ft. 8-in. corr. metal pipe;
- (20) 3 catchbasins complete in place;
- (21) 920 lin. ft. solid timber guardrail;
- (22) 8 sta. finish rdwy.;
- (23) 4 monuments complete in place.

29

LOS ANGELES COUNTY, Cal.—Until Sept. 15, 2 P. M., bids will be received by State Highway Commission, Sacramento, to grade four miles between Colby Canyon and Mt. Wilson, involving:

- (1) 914,000 cu. yds. rdwy. excav., unclassified;
- (2) 5,000,000 sta. yds. overhaul;
- (3) 5870 cu. yds. struc. excav.;
- (4) 150 cu. yds. Class A Port. cem. conc. (struc.);
- (5) 12,100 lbs. bar reinf. steel (struc.);
- (6) 1900 lin. ft. 8-in. corr. metal pipe
- (7) 4780 lin. ft. 24-in. do;
- (8) 240 lin. ft. 30-in. do;
- (9) 260 lin. ft. 36-in. do;
- (10) 112 lin. ft. 84-in. do;
- (11) 310 lin. ft. 90-in. multiplate metal pipe;
- (12) 162 lin. ft. 105-in. do;
- (13) 208 lin. ft. 135-in. do;
- (14) 500 lin. ft. lam. timber guardrail;
- (15) 2950 bbls. fuel oil;
- (16) 130 culvert markers;
- (17) 209 ta. finish rdwy.

29

LOS ANGELES COUNTY, Cal.—Until Sept. 20, 2 P. M., bids will be received by State Highway Commission, Sacramento, to grade and pave with Portland cement concrete 0.8 mile in the city of Long Beach, between Anaheim St. and State St., involving:

- (1) 41 sta. clear and grub right-of-way;
- (2) 8000 cu. yds. rdwy. excav., unclass.;
- (3) 200 cu. yds. struc. excav.;
- (4) 17,500 sq. yds. subgrade for pave.;
- (5) 3700 cu. yds. Class A Port. cem. concrete (pave.);
- (6) 45 cu. yds. do, (struc.);
- (7) 86,000 lbs. bar reinf. steel (pave. and struc.);
- (8) 110 bbls. light fuel oil (subgrade treatment);
- (9) 29 tons asph. road oil (subgrade treatment);
- (10) 350 bbls. heavy fuel oil (shoulders);
- (11) 1.4 miles new property fence;
- (12) 8 fence gates complete in place;
- (13) 2 culvert markers complete, in place;
- (14) 16 monuments complete, in place;
- (15) 41 sta. finish rdwy.

SAN BERNARDINO COUNTY, Cal.—Until Sept. 21, 2 P. M., bids will be

received by State Highway Commission, Sacramento, to construct a reinforced concrete slab bridge across San Timoteo Creek about five miles west of Hedlands consisting of two 33-ft. spans on two 27-ft. spans on concrete pile bents and concrete abutments with wing walls on pile foundations, involving:

- (1) 1500 cu. yds. struc. excav.;
- (2) 7900 cu. yds. rdwy. excav., unclass.;
- (3) 2750 sq. yds. subgrade for pave.;
- (4) 143 cu. yds. remove and dispose of exist. pave.;
- (5) 1 existing bridge, remove and dispose of;
- (6) 3200 lin. ft. furnish creo. Douglas fir piles, incl. test piles;
- (7) 1050 lin. ft. furnish reinf. conc. piles, incl. test piles;
- (8) 139 drive creo. Douglas fir piles incl. test piles;
- (9) 30 drive reinf. conc. piles, incl. test piles;
- (10) 790 cu. yds. Class Port. cement concrete (struc.);
- (11) 9 cu. yds. do (railing);
- (12) 600 cu. yd. do, (paving);
- (13) 108 cu. yds. do (slope paving);
- (14) 105,000 lbs. bar reinf. steel;
- (15) 728 lbs. bronze expansion plates;
- (16) 1100 tons crushed gravel or stone surf. (detours and borders);
- (17) 260 bbls. heavy fuel oil (detours and borders);
- (18) 15 sta. finish rdwy.;
- (19) 1 lot misc. items of work.

29

ARIZONA STATE—Until 10 A. M., Sept. 13, bids will be received by T. S. O'Connell, State Highway Engineer, Phoenix, Ariz., for highway construction on the Flagstaff-Fredonia Highway, N.R.H. 95-E and N.R.P.L. 4-B. The work on these projects which begins approximately 9 miles southwest of the Grand Canyon Bridge and extends approximately 18.7 miles westerly consists of the grading, draining and placing of base course and is to be completed on or before July 30, 1934. The principal items are:

- 72,400 cu. yds. rdwy. excav.;
- 18,300 cu. yds. drainage excav.;
- 3,470 cu. yds. struc. excav.;
- 71,000 cu. yds. borrow excav.;
- 22,200 sta. yds. earthwork overhaul;
- 40,300 cu. yds. base course material;
- 64,300 cu. yds. mi. do haul;
- 2,600 cu. yds. conc.;
- 230,000 lbs. reinf. steel;
- 2,400 lin. ft. corr. metal pipe (various sizes);
- 12,400 lin. ft. type "A" cable guard;
- 11,000 lin. ft. grader ditches;
- 106,000 lbs. struc. steel;

ALTERNATE
12,400 lin. ft. type "C" steel plate guard and other incidental items
Proposal guarantee, 5%. 29

TEHAMA CO., Cal.—Until Sept. 20, 2 P. M., bids will be received by State Highway Commission, Sacramento, to grade 13.3 mi. between Red Bluff and 1.5 miles east of Dales, involving:

- (1) 15 acres clear and grub right-of-way;
- (2) 229,650 cu. yds. rdwy. excav., unclass.;
- (3) 4,201,000 sta. yds. overhaul;
- (4) 46,400 cu. yds. imp. borrow;
- (5) 5000 cu. yds. struc. excav.;
- (6) 4000 M gal. water;
- (7) 770 cu. yds. class A Port. cem. conc. (struc.);
- (8) 68,700 lbs. bar reinf. steel (struc.);
- (9) 180 lin. ft. 12-in. reinf. conc. pipe;
- (10) 3285 lin. ft. 18-in. do;
- (11) 348 lin. ft. 24-in. do;
- (12) 120 lin. ft. 30-in. do;
- (13) 279 lin. ft. 36-in. do;
- (14) 252 lin. ft. 48-in. do;
- (15) 160 culvert markers;
- (16) 705 sta. finish rdwy.;
- (17) 117 monuments complete in place.

DEL NORTE COUNTY, Cal.—Until Sept. 20, 2 P. M., bids will be received by State Highway Commission to grade and surface with crusher run base and untreated crushed gravel or stone surfacing 9.5 miles between Last Chance Slide and Flannigan's, involving:

- (1) 62 acres clear and grub right-of-way (Loc. A);
- (2) 13 acres do, (Loc. B);
- (3) 17 acres do, (Loc. C);
- (4) 80 remove and grub redwood trees, size 1;
- (5) 120 do, size 2;
- (6) 160 do, size 3;
- (7) 88 do, size 4;
- (8) 35 do, size 5;
- (9) 17 do, size 6;
- (10) 6 do, size 7;
- (11) 2 do, size 8;
- (12) 55 remove redwood trees, size 1;
- (13) 60 do, size 2;
- (14) 60 do, size 3;
- (15) 40 do, size 4;
- (16) 25 do, size 5;
- (17) 11 do, size 6 and larger;
- (18) 120 remove and grub spruce, fir and hemlock trees, size 1;
- (19) 185 do, size 2;
- (20) 65 do, size 3;
- (21) 9 do, size 4;
- (22) 2 do, size 5 and larger;
- (23) 60 remove spruce, fir and hemlock trees, size 1;
- (24) 110 do, size 2;
- (25) 30 do, size 3;
- (26) 6 do, size 4 and larger;
- (27) 34,000 sq. yds. seal surf. (log fills)
- (28) 670,500 cu. yds. rdwy. excav., unclass.;
- (29) 1,440,000 sta. yds. overhaul;
- (30) 16,400 cu. yds. imp. sel. matl.;
- (31) 9550 cu. yds. struc. excav.;
- (32) 95 cu. yds. Class A Port. cem. conc. (struc.);
- (33) 6300 lbs. bar reinf. steel (struc.);
- (34) 46,000 cu. yds. crusher run base;
- (35) 16,500 cu. yds. untreated crushed gravel or stone (surf.);
- (36) 5240 cu. yds. screenings;
- (37) 4750 M. gals. water;
- (38) 5400 lin. ft. 18-in. corr. metal pipe;
- (39) 800 lin. ft. 24-in. do;
- (40) 120 lin. ft. 30-in. do;
- (41) 450 lin. ft. 36-in. do;
- (42) 500 lin. ft. 42-in. do;
- (43) 60 lin. ft. 54-in. do;
- (44) 500 lin. ft. 8-in. perf. metal pipe;
- (45) 6 MFEM redwood timber dense sel. all-heart struc. grade (cattle passes);
- (46) 15.5 MFEM redwood timber sel. all-heart struc. grade (cattle passes);
- (47) 190 MFEM redwood timber sel. all-heart structural grade (cribs Types A and B);
- (48) 8300 horizontal redwood timber members (cribs Type C);
- (49) 590 timber guide posts and culvert markers complete in place;
- (50) 1.5 miles exist. property fence, remove and dispose of;
- (51) 4 miles new property fence;
- (52) 15 fence gates complete in place;
- (53) 510 sta. finish rdwy.;
- (54) 180 monuments complete in place.

29

NEVADA CO., Cal.—Until Sept. 20, 2 P. M., bids will be received by State Highway Commission, Sacramento, to surf. with bituminous treated crushed gravel or stone over 7.4 miles west of Washington Road and 0.5 mile east of Summit, involving:

- (1) 31,500 tons crusher run base;
- (2) 14,100 tons crushed gravel or stone (bit. treated surf.);
- (3) 1360 M. gals. water;
- (4) 540 bbls. light fuel oil (prime coat)
- (5) 635 tons cut-back asph. (bit. treated surface);
- (6) 36 tons cut-back asph. (seal coat);
- (7) 390 sta. finish rdwy.

29

IMPERIAL COUNTY, Calif.—Until Sept. 21, 2 P. M., bids will be received by State Highway Commission, Sacramento, to grade and place Portland cement concrete pavement and pavement widening strips on 3.2 miles between 4 miles west of Westmoreland and Trifolium Canal, involving:

- (1) 12,200 cu. yds. rdwy. excav., unclass.;
- (2) 52,000 sta. yds. overhaul;
- (3) 2330 cu. yds. struc. excav.;
- (4) 2600 sq. yds. subgrade for pave.;
- (5) 2400 cu. yds. Class A Port. cem. conc. (pave.);
- (6) 225 cu. yds. do (struc.);
- (7) 101,000 lbs. bar reinf. steel (pave. and struc.);
- (8) 505 cu. yds. Class A Concrete (slope paving);
- (9) 3100 sq. yds. reinf. steel (slope paving);
- (10) 246 lin. ft. 24-in. corr. metal pipe
- (11) 72 lin. ft. 30-in. do;
- (12) 62 lin. ft. 48-in. do;
- (13) 976 lin. ft. 4-in. tile underdrain;
- (14) 63 lin. ft. 24-in. vit. clay pipe;
- (15) 573 lin. ft. 36-in. do;
- (16) 3200 tons crushed gravel or stone (borders and detours);
- (17) 850 bbls. heavy fuel oil (borders and detours);
- (18) 443 cu. yds. Port. cem. conc., remove from existing pave. and struc.;
- (19) 169 sta. finish rdwy.;
- (20) 44 monuments complete in place.

29

MONTEKEY COUNTY, Calif.—Until Sept. 20, 2 P. M., bids will be received by State Highway Commission, Sacramento, to grade and surface with asphaltic concrete 6 miles between Gonzales and Chualar, involving:

- (1) 41,350 cu. yds. rdwy. excav., unclass.;
- (2) 461,000 sta. yds. overhaul;
- (3) 40,600 cu. yds. imp. borrow;
- (4) 1870 cu. yds. struc. excav.;
- (5) 34,000 sq. yds. subgrade for pave.
- (6) 28,100 sq. yds. asphalt binder
- (7) 25,700 tons asph. conc.;
- (8) 173 cu. yds. Class A Port. cem. conc. (struc.);
- (9) 12,700 lbs. bar reinf. steel (struc.)
- (10) 24 lin. ft. 8-in. corr. metal pipe;
- (11) 52 lin. ft. 12-in. do;
- (12) 792 lin. ft. 18-in. do;
- (13) 472 lin. ft. 24-in. do;
- (14) 216 lin. ft. 30-in. do;
- (15) 358 lin. ft. 36-in. do;
- (16) 640 lin. ft. corr. metal pipe (clean and relay);
- (17) 750 cu. yds. Port. cem. conc. in existing pave. and struc. to be removed and disposed of;
- (18) 3500 M. gals. water;
- (19) 6100 bbls. heavy fuel oil;
- (20) 46 timber guide posts;
- (21) 20 timber culvert markers;
- (22) 5.2 miles new property fence;
- (23) 36 fence gates;
- (24) 318 sta. finish rdwy.;
- (25) 34 monuments complete in place.

29

LINCOLN COUNTY, Nevada.—Until Sept. 12, 2:00 P. M., bids will be received by S. C. Durkee, State Highway Engineer, Carson City, to construct 14.37 miles between Maynard Lake and Alamo, Rt. 7, Sec. A-2, involving:

- (1) 187,500 cu. yds. rdwy. excav.;
- (2) 84 acres clear and grub;
- (3) 149,196 sta. yds. overhaul;
- (4) 24,453 cu. yds. select borrow;
- (5) 1570 cu. yds. struc. excav.;
- (6) 14.37 miles subgrade;
- (7) 34,000 cu. yds. crushed gravel or stone surf.;
- (8) 120 cu. yds. Class A concrete;
- (9) 200 cu. yds. Class B concrete;
- (10) 17,700 lbs. reinf. steel;
- (11) 28,607 lin. ft. remove fence;
- (12) 1064 lin. ft. 18-in. corr. metal pipe;

- (13) 1066 lin. ft. 24-in. do;
- (14) 114 lin. ft. 30-in. do;
- (15) 414 lin. ft. 36-in. do;
- (16) 160 lin. ft. 48-in. do;
- (17) 702.5 lin. ft. 18-in. vit. pipe;
- (18) 977.5 lin. ft. 24-in. do;
- (19) 522.5 lin. ft. 36-in. do;
- (20) 2482 lin. ft. reconstruct fence;
- (21) 47,731 lin. ft. construct fence;
- (22) 2900 cu. yds. handlaid riprap;
- (23) 240 monuments;
- (24) remove 4 buildings, lump sum;
- (25) 14.37 miles finish roadway.

Specifications obtainable from above office on deposit of \$15, \$10 returnable. Certified check 5% required with bid.

EUREKA COUNTY, Nevada.—Until Sept. 12, 2:15 P. M., bids will be received by S. C. Durkee, State Highway Engineer, Carson City, to reconstruct 10.15 miles Route 2, Sec. C-1, between Eureka and the East county line, involving:

- (1) 59,600 cu. yds. rdwy. excav.;
- (2) 62,518 sta. yds. overhaul;
- (3) 38,868 cu. yds. select borrow;
- (4) 1050 cu. yds. struc. excav.;
- (5) 10.15 miles subgrade;
- (6) 94 remove culvert headwalls;
- (7) 32,100 cu. yds. crushed gravel or stone surface;
- (8) 227 cu. yds. Class A concrete;
- (9) 74 cu. yds. Class B concrete;
- (10) 23,050 lbs. reinf. steel;
- (11) 222 lin. ft. 15-in. corr. metal pipe
- (12) 814 lin. ft. 18-in. do;
- (13) 146 lin. ft. 24-in. do;
- (14) 62 lin. ft. 30-in. do;
- (15) 38 lin. ft. 36-in. do;
- (16) 250 lin. ft. 8-in. perf. drain;
- (17) 242 lin. ft. remove culvert pipe;
- (18) 110 lin. ft. relay culvert pipe;
- (19) 37 cubic yards hand laid rip rap (grout);
- (20) 140 monuments;
- (21) 10.15 miles finish roadway;
- (22) 90 lin. ft. 4-in. water pipe;
- (23) 2,580 lin. ft. remove water pipe;
- (24) 820 lin. ft. relay water pipe;
- (25) 87 lin. ft. construct fence;
- (26) 1,837 lin. ft. remove fence;
- (27) 55 cu. yds. gravel backfill.

Specifications obtainable from above office on deposit of \$15, \$10 returnable. Certified check 5% required with bid.

MONO COUNTY, Calif.—Until Sept. 21, 2 P. M., bids will be received by the State Highway Commission, Sacramento, to grade and surface with bituminous treated crushed gravel or stone 6.2 miles between Point Ranch and Dressler's Corner, involving:

- (1) 33,400 cu. yds. rdwy. excav., unclass.;
- (2) 300,000 sta. yds. overhaul;
- (3) 51,000 cu. yds. imp. borrow;
- (4) 6300 cu. yds. ditch excav.;
- (5) 2450 cu. yds. struc. excav.;
- (6) 18,800 cu. yds. pit run gravel;
- (7) 34,000 tons screened gravel;
- (8) 12,000 tons crushed gravel or stone (bit. treat. surf.);
- (9) 670 tons cut-back asph.;
- (10) 380 tons screenings;
- (11) 470 bbls. light fuel oil;
- (12) 145 cu. yds. Class A Port. cem. concrete;
- (13) 75 cu. yds. Class B do (footings);
- (14) 16,100 lbs. bar reinf. steel;
- (15) 54 lin. ft. 8-in. corr. metal pipe;
- (16) 2130 lin. ft. 18-in. do;
- (17) 426 lin. ft. 24-in. do;
- (18) 626 lin. ft. 30-in. do;
- (19) 84 lin. ft. 36-in. do;
- (20) 506 lin. ft. 12-in. perf. metal pipe underdrain;
- (21) 14 lin. ft. corr. metal pipe, clean and relay;
- (22) 566 lin. ft. corr. metal pipe, remove and salvage;
- (23) 2500 M gals. water;
- (24) 30 cu. yds. light riprap;
- (25) 3.47 miles new property fence, type A;
- (26) .57 mile do, type B;
- (27) 3.4 miles do, type C;

- (28) 3 mile do, type D;
- (29) 28 fence gates;
- (30) 23 MFBM redwood timber dense sel. all-heart struc. grade;
- (31) 17 MFBM redwood timber sel. all-heart struc. grade;
- (32) 1 existing reinf. conc. bridge, remove and dispose of;
- (33) 6 timber guide posts;
- (34) 327 sta. finish rdwy.;
- (35) 95 monuments complete in place.

MARIN COUNTY, Calif.—Until Sept. 21, 2 P. M., bids will be received by the State Highway Commission, Sacramento, to grade and pave with asphaltic concrete 0.4 mi. between Napa St. and Water St. in Sausalito, involving:

- (1) 4500 cu. yds. rdwy. excav., unclass.;
- (2) 19,000 sta. yds. overhaul;
- (3) 9500 cu. yds. material from stockpile;
- (4) 1400 cu. yds. struc. excav.;
- (5) 4500 tons asph. conc.;
- (6) 5 cu. yds. Class A Port. cement conc., (struc.);
- (7) 28 cu. yds. Class A do (curbs and gutters);
- (8) 45 cu. yds. Class C do (sewer encasement);
- (9) 400 lbs. bar reinf. steel;
- (10) 3700 tons crusher run base;
- (11) 1140 tons crushed gravel or stone (oil treated surf.);
- (12) 11,255 sq. yds. asph. paint binder;
- (13) 315 lin. ft. 12-in. vit. clay pipe;
- (14) 705 lin. ft. 18-in. extra strength reinf. conc. pipe;
- (15) 168 lin. ft. 24-in. extra strength reinf. conc. pipe;
- (16) 380 bbls. fuel oil;
- (17) 40 tons screenings (seal coat);
- (18) 50 M. gals. water;
- (19) 340 cu. yds. existing concrete, remove and dispose of;
- (20) 1896 lin. ft. lam. timber guard rail;
- (21) 0.36 mile new property fence;
- (22) 13 catchbasins;
- (23) 21 sta. finish rdwy.;
- (24) 11 monuments in place.

YUBA COUNTY, Calif.—Until Sept. 21, 2 P. M., bids will be received by the State Highway Commission, Sacramento, to grade and pave with asphaltic concrete, 2.5 miles between Wheatland and Morrison Crossing, involving:

- (1) 4000 cu. yds. rdwy. excav., unclass.;
- (2) 10,000 sta. yds. overhaul;
- (3) 32,000 cu. yds. imp. borrow;
- (4) 20,000 cu. yds. pit run gravel;
- (5) 675 cu. yds. struc. excav.;
- (6) 17,100 sq. yds. subgrade for pave.
- (7) 12,000 sq. yds. asph. paint binder;
- (8) 11,500 tons asph. concrete;
- (9) 90 cu. yds. Class Port. cement conc., (struc.);
- (10) 7500 lbs. bar reinf. steel (struc.);
- (11) 240 lin. ft. 12-in. corr. metal pipe
- (12) 464 lin. ft. 18-in. do;
- (13) 64 lin. ft. 24-in. do;
- (14) 176 lin. ft. salvage exist. culverts
- (15) 12 culvert headwalls, remove and reset;
- (16) 40 cu. yds. Port. cem. conc. in exist. pave, and struc., remove and dispose of;
- (17) 1 timber spillway, remove and dispose of;
- (18) 260 lin. ft. timber guard rail, remove and reset;
- (19) 1.75 miles property fence, remove and dispose of;
- (20) 0.6 mile property fence, remove and reset;
- (21) 1.75 miles new property fence;
- (22) 10 fence gates;
- (23) 40 cu. yds. sack conc. riptap;
- (24) 1100 M. gals. water;
- (25) 1330 lin. ft. furnish redwood piles
- (26) 44 drive piles;
- (27) 36 MFBM redwood timber dense sel. all-heart struc. grade;
- (28) 7.5 MFBM redwood timber sel.

- all-heart struc. grade;
- (29) 3 miles shape detour road;
- (30) 745 bbls. light fuel oil;
- (31) 127 sta. finish rdwy.;
- (32) 15 monuments, remove and reset;
- (33) 20 new monuments complete in place.

TRINITY COUNTY, Calif.—Until Sept. 12, 2 P. M., bids will be received by U. S. Bureau of Public Roads, 461 Market St., San Francisco, C. H. Sweetser, District Engineer, to grade 4.512 miles Section D, Route 5, Douglas City-Peanut National Forest Highway, Trinity National Forest, involving:

- (1) 34 acres clearing;
- (2) 198,500 cu. yds. unclass. excav.;
- (3) 1,900 cu. yds. do, struc.;
- (4) 107,000 sta. yds. overhaul;
- (5) 4,512 miles finish earth graded rd.
- (6) 61 cu. yds. concrete;
- (7) 1,900 lbs. reinf. steel;
- (8) 3,346 lin. ft. corr. metal pipe;
- (9) 160 cu. yds. hand laid rock embankment;
- (10) 132 right of way monuments;
- (11) 3 spillway inlets.

Specifications obtainable from above office on deposit of \$10, returnable; certified check payable to Regional Fiscal Agent, U. S. Forest Service.

HUMBOLDT COUNTY, Cal.—Until Sept. 21, 2 P. M., bids will be received by State Highway Commission, Sacramento, to grade and surface with screened gravel 7.6 mi. between Benbow and 7 miles north of Garberville, involving:

- (1) 85 acres clear and grub right of way, Loc. A;
- (2) 6 acres do, Loc. B;
- (3) 716,000 cu. yds. rdwy. excav., unclass.;
- (4) 3,815,000 sta. yds. overhaul;
- (5) 7920 cu. yds. struc. excav.;
- (6) 1470 cu. yds. trench excav.;
- (7) 1500 cu. yds. trench backfill;
- (8) 8700 cu. yds. sel. material;
- (9) 19,000 cu. yds. screened gravel surf.;
- (10) 50,000 cu. yds. gravel base;
- (11) 4000 M. gals. water;
- (12) 370 cu. yds. Class A Port. cem. conc. struc.;
- (13) 31,500 lbs. bar reinf. steel struc.;
- (14) 340 lin. ft. 8-in. corr. metal pipe;
- (15) 120 lin. ft. 10-in. do;
- (16) 3700 lin. ft. 18-in. do;
- (17) 2200 lin. ft. 24-in. do;
- (18) 800 lin. ft. 30-in. do;
- (19) 480 lin. ft. 36-in. do;
- (20) 70 lin. ft. 42-in. do;
- (21) 220 lin. ft. 78-in. do;
- (22) 50 lin. ft. 12-in. part circle corr. metal pipe;
- (23) 130 lin. ft. 18-in. do;
- (24) 200 lin. ft. 24-in. do;
- (25) 1100 lin. ft. 8-in. perf. metal pipe underdrain;
- (26) 550 lin. ft. corr. metal pipe, remove and dispose of;
- (27) 800 timber guide posts and culvert markers;
- (28) 64 MFBM redwood sel. all-heart struc. grade;
- (29) 2700 sq. yds. sel surf. (log fill);
- (30) 1300 bbls. fuel oil;
- (31) 401 sta. finish rdwy.;
- (32) 150 monuments complete in place.

ARIZONA STATE—Until 2:30 P. M., Sept. 13, bids will be received by T. S. O'Connell, State Highway Engineer, Uhoenix, Arizona, for highway construction on the Holbrook-Lupton Highway, N.R.H. 83-G. The work, which begins approximately 18 miles east of Holbrook and extends east approximately 3.3 miles to the county line, consists of the grading, draining and placing of base course and is to be completed on or before January 31, 1934. The principal items are:

- 9,000 cu. yds. rdwy. excav.;
- 700 cu. yds. drainage excav.;
- 240 cu. yds. struc. excav.;
- 15,000 cu. yds. borrow excav.;

- 7,000 sta. yds. earthwork overhaul;
 - 11,000 cu. yds. base course material;
 - 10,300 cu. yds. ml. do haul;
 - 70 cu. yds. concrete;
 - 5,000 lbs. reinf. steel;
 - 328 lin. ft. corr. metal pipe (various sizes);
 - 34,800 lin. ft. std. line fence;
 - and other incidental items.
- Proposal guarantee 5%. 29

ARIZONA STATE—Until 2 P. M., Sept. 13, bids will be received by T. S. O'Connell, State Highway Engineer, Phoenix, Ariz., for highway construction on the Flagstaff-Fredonia Highway, N.R.H. 95-G. The work, which begins at a point about six miles east of Flagstaff and extends northerly approximately 8.7 miles, consists of the grading, draining and placing of base course, and is to be completed on or before January 31, 1934. The principal items are:

- 106,700 cu. yds. rdwy. excav.;
- 1,900 cu. yds. drainage excav.;
- 700 cu. yds. struc. excav.;
- 400 cu. yds. borrow excav.;
- 33,000 sta. yds. earthwork overhaul;
- 38,000 cu. yds. sel. borrow;
- 29,000 cu. yds. ml. sel. borrow haul;
- 18,000 cu. yds. agg. base course;
- 56,000 cu. yds. ml. agg. base course haul;
- 280 cu. yds. conc.;
- 17,400 lbs. reinf. steel;
- 1,800 lin. ft. corr. metal pipe (various sizes);
- 2,000 lin. ft. cable road guard;
- 56,500 lin. ft. std. line fence;

ALTERNATE
2,000 lin. ft. steel plate road guard and other incidental items.
Proposal guarantee, 5%. 29

LANDER COUNTY, Nevada.—Until Sept. 12, 2:30 P. M., bids will be received by S. C. Durkee, State Highway Engineer, Carson City, to construct 15.92 miles between Campbell Creek and Railroad Pass, Rt. 2, Sec. B, involving:

- (1) 75,000 cu. yds. rdwy. excav.;
- (2) 25,207 sta. yds. overhaul;
- (3) 57,118 cu. yds. selected borrow;
- (4) 1,100 cu. yds. struc. excav.;
- (5) 15.92 miles subgrade;
- (6) 50,300 cu. yds. crushed gravel or stone surf.;
- (7) 70 cu. yds. Class A concrete;
- (8) 127 cu. yds. Class B concrete;
- (9) 9,955 lbs. reinf. steel;
- (10) 116 lin. ft. 15-in. corr. metal pipe
- (11) 392 lin. ft. 18-in. do;
- (12) 2,744 lin. ft. 24-in. do;
- (13) 160 lin. ft. 30-in. do;
- (14) 214 lin. ft. 36-in. do;
- (15) 44 monuments;
- (16) 172 lin. ft. remove culvert pipe;
- (17) 36 remove culvert headwalls;
- (18) remove conc. culvert (lump sum)
- (19) 1,968 lin. ft. remove fence;
- (20) 5,506 lin. ft. reconstruct fence;
- (21) 15.92 miles finish roadway.

Specifications obtainable from above office on deposit of \$15, \$10 returnable. Certified check 5% required with bid.

ALAMEDA, Alameda Co., Cal.—Until Sept. 5, 8 P. M., bids will be received by D. Elmer Dyer, city clerk, to improve Park St. from Santa Clara Ave. to Buena Vista Ave., involving:

- (1) 370 cu. yds. excavation;
- (2) 300 tons crusher run base;
- (3) 650 tons asph. conc. base;
- (4) 375 tons asph. conc. surf.;
- (5) 50 tons non-skid surf.

Specifications are obtainable from B. Hamilton, City Engineer, City Hall. Certified check 10% required with bid.

TULARE COUNTY, Cal.—Yglesias Bros., Box 25, San Diego, at \$164,874 awarded contract by U. S. Bureau of Public Roads for 3.37 mi. grading Section B, General Grant-Sequoia Park Road.

CONTRACTORS TO CELEBRATE BID OPENING

State-Wide Rally of Construction Industry Planned at Sacramento

Opening of bids on more than four million dollars worth of highway work by the California State Highway Commission next Wednesday will be the occasion for a mammoth rally of the construction industry at Sacramento.

Plans are being made by the Northern and Southern chapters of the Associated General Contractors for a joint banquet Wednesday night at the Hotel Senator which hundreds of members and their guests will attend. Announcement of the affair was made yesterday by Floyd O. Booe, secretary of the Northern chapter, and F. J. Connolly, secretary of the Southern chapter.

Contractors and materialmen will gather at the capital from every part of the state to attend the highway bid openings Wednesday, Thursday and Friday. With 41 contracts advertised for opening on these three days it will establish a record for launching state highway work.

"As the opening gun in State Director of Public Works Kelly's program to let \$20,000,000 in highway contracts and to re-employ 50,000 men before Christmas, the construction industry should plan a celebration worthy of the occasion," George Pollock, president of the Northern Chapter, Associated General Contractors, said yesterday.

"I hope we can make this an event long to be remembered as the beginning of our industry's return to normal business."

Officials in charge of the evening's program said Director Kelly, Frank E. Trask, state engineer for the public works advisory board, representatives of the federal and state public works agencies in Nevada and other officials would be guests of honor at the gathering. The affair will start with a dinner at the Hotel Senator at 6:30 Wednesday.

THE WEEK'S NEWS Highlights

CONSTRUCTION CODE—Hearing of the proposed code of fair practices for the California construction industry sponsored by the State Builders' Exchange will commence Monday morning at 10 o'clock. The hearing is before Deputy Corporation Commissioner A. Michel in offices of the Corporation Commission, State Building, San Francisco.

The code proposed (text in issue of August 19) will affect every branch of the state's industry if accepted. Labor and employer interests from each group will be represented at the hearing, it is expected.

This is a summary of the state code record for the past week:

Submitted—Crushed Rock, Sand and Gravel Industry; Furnace Dealers and Sheet Metal Contractors of Northern California, Inc.; Retail Lumbermen's Association of California; Building Material Council of Northern California; Excavators and Dump Truck Owners' Association of Northern California; Concrete Contractors of San Francisco and Alameda counties; Water Heater and Gas Warm Air Heating Industry of California.

Hearings Scheduled—California State Builders' Exchange basic code, 10 a. m., September 11;

Northern California Weatherstrip Association, 10 a. m., September 14;

California Reinforcing Steel Institute, 10 a. m., September 18.

Filed and Not Scheduled—Water Well Drilling Contractors of Northern California; Southern California Stone Producers and Contractors' Association.

NATIONAL CODE—Hearings commenced September 6 on the basic code for the construction industry proposed by the Construction League of the United States. Hearings on supplemental codes are in progress, including: General Contractors, Architects, Master Painters, Electrical Contractors, Marble Industry, Building Granite Industry, Cement Gun Contractors, Plumbing and Heating Contractors, Heating and Piping Contractors.

MATERIAL MEN CODE RECEIVED BY COMMISSION

Provisional Acceptance To Await Conferences on Differences

Retail lumber dealers and building material men spent a full day yesterday with Deputy Corporation Commissioner A. Michel in an attempt to complete an acceptable code of fair practices for their businesses. At the end of the day the code was accepted provisionally by the commissioner with the understanding that committees representing various groups would endeavor to reach an accord within the next few days.

A joint hearing was conducted by Commissioner Michel on the code submitted by the California Retail Lumbermen's Association, asking a state-wide code, and that submitted by the Building Material Council of Northern California, asking a code for Northern California.

The codes, excepting for minor provisions, are identical, according to officials sponsoring them.

H. A. Lake of Garden Grove, Orange county, is president of the Lumbermen's Association; E. T. Robie, Auburn, vice-president, and D. C. Essley, Oakland, is manager. Mr. Essley presented the code for the sponsors.

The codes provide for regulation of competition by control of any proposed increase in distributing facilities, establishing uniform cost accounting systems, prohibiting sale below minimum prices and elimination of unfair sales practices.

More than a hundred dealers attended the hearing.

Concrete contractors of San Francisco and Alameda counties who entered protests to the retail material men's codes in so far as they might affect sale of concrete aggregates, earlier in the day had submitted their own code to the commission. The code was presented without protest. It provides a 70-cent minimum wage for laborers and \$1 for finishers; 7-hour day and 35-hour week.

The code was presented by Kenneth H. Henry for the Concrete Contractors' Association of San Francisco and J. E. Wentworth for the Master Concrete Contractors' Association of Alameda County.

PWA MINIMUM WAGE SCHEDULE IS APPROVED

**Board Fixes \$1.10 Hourly
Payment for Skilled
Labor in California**

Minimum wage rates on construction projects undertaken through the assistance of the federal public works funds have been approved in a resolution recently passed by the Public Works Board. The rates were under an agreement signed by representatives of the American Federation of Labor, arranged by the United States Department of Labor. Under the resolution the country is divided into three wage zones: Southern, Central and Northern. It is specified that the rates are to be effective for public works fund construction for a period not to exceed 12 months.

The Labor Wage Board, consisting of Henry W. Blumberg, Carpenters Union; Charles L. Reed, Electrical Workers Union; John Colfield, Plumbers Union; Thos. A. Lane, Bricklayers Union, and M. J. McDonough, signed the agreement. Mr. McDonough is chairman of the Building Trades Council of the American Federation of Labor.

The agreement in resolution form as adopted by the Special Board for Public Works, states:

"I. Be it resolved that, for the purpose of determining wage rates on all construction financed from funds appropriated by the Administrator of Public Works under the authority of the National Industrial Recovery Act, the United States shall be divided into three zones, as follows:

Southern Zone: South Carolina, Georgia, Florida, Arkansas, Alabama, Mississippi, Louisiana, Arizona, Oklahoma, Texas and New Mexico.

Central Zone: Delaware, Maryland, Virginia, Tennessee, Colorado, Utah, California, North Carolina, West Virginia, Kentucky, Missouri, Kansas, Nevada, and District of Columbia.

Northern Zone: Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Indiana, Wisconsin, Minnesota, Nebraska, Wyoming, Oregon, South Dakota, Idaho, Pennsylvania, Ohio, Michigan, Illinois, Iowa, North Dakota, Montana and Washington.

The hourly wage rates to be paid on construction projects in these zones shall not be less than the following:

Southern Zone: skilled labor, \$1.; unskilled labor, 40 cents.

Central Zone: skilled labor, \$1.10 unskilled labor, 45 cents.

EMPLOYMENT AGENCY WORK IS DESCRIBED

How the divisions of employment agencies, State Department of Industrial relations, cooperates with the Federal government to take workers off the charity list is told in a section of the report of T. A. Reardon, director of the department, in a report today to the Governor's council.

"This division is working directly in cooperation with the National re-employment Service under which jobs will be allocated to the unemployed of this state, for public works contracts already in excess of \$15,600,000," the report states.

The plan to be followed is as follows: When a contract is awarded, the state employment division is notified of the name of the contractor two weeks in advance. Men to be employed are then selected from capable, bona fide residents who live within a radius of 50 miles of the proposed job.

"This means jobs for a great many persons at present unemployed," Reardon points out, "and an immediate increase in spending power in California."

The Federal government has already allotted \$500,000 to the National Re-employment Service in California, the report adds.

Northern Zone: skilled labor, \$1.20; unskilled labor, 50 cents.

"II. Be it further resolved, that in the event that the prevailing hourly rate prescribed under collective agreements or understandings between organized labor and employers on April 30, 1933, shall be above the minimum set for any district within that zone; that agreed wage rate shall be the rate to be paid for employees on construction projects financed from funds appropriated by the Administrator of Public Works under the authority of the National Industrial Recovery Act.

"III. Be it further resolved, that the rates specified in paragraphs I and II shall be effective during the life of any contract financed from funds appropriated by the Administrator of Public Works under the authority of the National Industrial Recovery Act, but for a period not to exceed 12 months.

"IV. Be it further resolved, that the above designated minimum rates are not to be used in discriminating against assistants, helpers, apprentices and serving laborers who work with and serve skilled journeymen mechanics and who are not to be termed as 'unskilled laborers.'"

STATE REQUIRES NRA PLEDGE OF CODE APPLICANTS

Excavation Contractors Complete Agreement at Speedy Hearing

Two rulings important to groups seeking codes of fair practice under the California Recovery Act were announced yesterday by the Corporation Commission.

(1) Applicants for licenses to operate under approved codes will be granted only to firms who have signed the NRA blanket code.

(2) Seven days will be allowed for applicants to obtain licenses after a code has been declared effective. Applications may be made at the offices of the Corporation Commission or through the trade association sponsoring the code. A fee of 25 cents for each employe will be collected with the application.

These regulations were announced by Deputy Commissioner D. A. Pearce at the conclusion of the hearing on the code submitted by the Excavators and Dump Truck Owners' Association.

This group established a record for speedy action and unanimous agreement on a state code when the hearing of their proposed agreement had been completed twenty-four hours after the Corporation Commission announced receipt of the code. Twenty-four companies are represented by the code group which asks that the regulations be made effective in the state north of the Tehachapi mountains.

E. F. Martin, executive secretary of the association, presented the code for the sponsors. A wage schedule increasing pay of all classes of labor by 8 to 10 per cent was offered and accepted without discussion by representatives of organized labor.

A price increase of about 15 per cent will be necessary to operate under terms of the code, Martin said. This increase will enable firms to operate again at a profit, he declared. Every contractor has been operating at a loss, depreciating his equipment without setting up a capital reserve for replacement, according to Martin. Under the new price schedule replacement of operating equipment which has been worn out in the past three years will commence, extending the code benefits to other industries, Martin said.

Martin said he did not believe that any contract held by members of his organization at the present time was being performed at a profit.

FEES FIXED FOR SCHOOL INSPECTION

Attorney-General Rules Building Supervisory Charges May Be Grouped

Fees for inspection of new school buildings by the state Division of Architecture should be based on the estimated cost of buildings involved rather than on the number of separate structures, in cases where there are a number of buildings of the same design, Attorney General U. S. Webb ruled Saturday in answer to a query from State Architect G. B. McDougall.

McDougall had asked Webb's opinion in the case of proposed temporary school buildings to be erected in Los Angeles and Long Beach to replace those destroyed in the earthquake.

Los Angeles plans to erect 2500 temporary bungalows, to cost \$500 each. Long Beach proposes to erect 26 similar bungalows at from \$250 to \$400 each.

The state law which makes it a duty of the Division of Architecture to inspect all school buildings sets a fee of one-half of one per cent for the first \$250 and one-quarter of one percent for any amount above \$250, to be paid when plans are filed by the school district with the Division. The minimum fee is \$50.

In the case of the Los Angeles buildings, if the fee were assessed for each separate building, it would amount to \$125,000, a prohibitive figure.

Webb ruled that twenty buildings of identical construction and with the same ground conditions could be taken as a unit. The cost of twenty would be \$10,000, and the fee would be the minimum one of \$50.

SET PAINTERS' SCALE

Shasta county board of supervisors has fixed the wage for bridge painters on county jobs at \$4 per day.

ARMY BUYS ONLY "NRA"

Bidders Must Meet 'Blue Eagle' Terms To Get Contracts

The Army has gone into the "Blue Eagle" camp, the War Department directing that until further notice purchasing and contracting officers will require bidders to include in their bids the following provision, and bidders are also to be instructed that a like provision will be included in the contract:

"The bidder agrees that he will comply with all provisions of the applicable approved code of fair competition for the trade or industry or subdivision thereof concerned, or if there be no approved code of fair competition for the trade or industry or subdivision thereof concerned, then with the provisions of the President's agreement promulgated under authority of section 4 (a) of the act of Congress entitled "An Act to encourage National Industrial Recovery, to foster fair competition and to provide for the construction of certain useful public works, and for other purposes," approved June 16, 1933, or any amendment thereof, without regard to whether the contractor is himself a party to such code or agreement.

"The bidder agrees that where the supplies bid upon are not mined, produced or manufactured in the United States, the special or general code or general code of fair practice shall apply to that portion of the contract executed within the United States."

Seeking legal protection for features of its track-type tractors, Caterpillar Tractor Co. has filed suit against Reinharts, Inc., a Winne-mucca firm selling the products of the International Harvester Company. The case comes to trial on Monday, Sept. 11, before Judge Frank H. Norcross in the United States District Court for the District of Nevada.

Caterpillar Tractor Co. claims that its rights to a large number of patents have been invaded thru International Harvester Company's attempt to enter the track-type tractor field.

S. F. AUGUST PERMIT TOTAL IS \$544,224

Decline In Residential Work from July Figure Shown by Report

August building permits in San Francisco totaled \$544,224, according to the report of Wm. H. Worden, director of public works.

This figure compares with \$770,290, the total in July, and \$1,035,714 in August, 1932.

The number of permits issued was 442, comparing with 445 in July and 451 in August, 1932.

Permits for private residences numbered 57 and were valued at \$282,584 last month. This is a decrease of about fifty percent from the July total of 116 permits and \$497,654 in value. It is approximately the same as the total both in number and value in the corresponding month last year.

Alteration work totaling \$147,579 in the month is about equal to that in July, when the total was \$149,836.

Virtually no state or other public work is included in last month's total, while in August, 1932, this classification accounted for \$418,460.

Following are comparative figures for the two corresponding months:

	August, 1933		August, 1932	
	No. P'mts	Est. Cost	No. P'mts	Est. Cost
A	1	\$ 7,000
B	1	500
C	7	98,600	8	171,400
Frames	57	282,584	58	212,894
Alter.	375	147,579	381	232,990
State	3	404,969
Public	1	7,961	1	13,491
Total	442	\$544,224	451	\$1,035,714

SAN FRANCISCO, Calif.—Until Sept. 18, 8 P. M., bids will be received by Board of Fire Commissioners, Rm. 2, City Hall for drydocking, repainting of hulls, overhauling and repairs to the Fire Boards "Dennis T. Sullivan and David Scannell." Specifications obtainable from Room 2, City Hall.

STOCKTON, Cal.—Until Sept. 23, 10:30 A. M., under Circular Proposal No. 34-17, Spec. No. 5634, bids will be received by U. S. Engineer Office, California Fruit Bldg., Sacramento, to dredge 1,140,000 cu. yds. material from the Suisun Bay Channel between Stake Point and Point Edlth.

LOS ANGELES, Cal.—Until 3 P. M., Sept. 25, bids will be received by the U. S. Engineer, 751 S. Figueroa St., Los Angeles, to construct additional 4000-ft. unit of Harbor breakwater. The new unit will be of the same cross-section as the previous unit and will be constructed in 50 ft. of water. The bids will be taken on alternative proposals as follows:

SCHEDULE "A"

Composite type of breakwater involving clay mound foundation. The quantities are:

- 350,000 cu. yds. clay;
- 1,100,000 tons stone.

SCHEDULE "B"

Alternate: All stone breakwater. The quantities are: 1,500,000 tons of all classes of stone.

The ultimate length is 12,500 ft., 1400 ft. of which is now under construction.

The Federal government recently made an allocation of \$1,600,000 for this work. Specifications obtainable from Lieut. Col. Virgil L. Peterson, U. S. Engineer.

STOCKTON, San Joaquin Co., Cal.—Until Sept. 22, 3 P. M., under Circular Proposal No. 34-16, Spec. No. 5633, bids will be received by U. S. Engineer Office, California Fruit Bldg., Sacramento, to dredge 1,881,000 cu. yds. material from the San Joaquin River Deep Water Channel at ten or more shoals between Criminal Point and Suisun Bay, 23 mi. designated as Part III, San Joaquin River 30-ft. Channel.

STOCKTON, San Joaquin Co., Cal.—Until Sept. 21, 3 P. M., under Circular Proposal No. 34-15, Spec. No. 5602, bids will be received by U. S. Engineer Office, California Fruit Bldg., Sacramento, to dredge 2,531,000 cu. yds. material from the San Joaquin River 30-ft. channel, over 8.8 mi. between the mouth of Turner Cut at the upstream end of the work, and Criminal Point, at the downstream end of the work.

MONTEREY, Cal.—Until Sept. 26, 3 p. m., bids will be received by U. S. Engineer Office, 401 Custom House, San Francisco, to construct 400 ft. extension to Monterey breakwater, involving furnishing and placing 116,500 tons stone. Specifications obtainable from above office.

RICHMOND, Contra Costa Co., Cal.—Until Sept. 19, 3 p. m., bids will be received by U. S. Engineer Office, 401 Custom House, San Francisco, to re-align the Richmond channel, involving 1,661,191 cu. yds. dredging. Specifications obtainable from above office.

23—IRRIGATION PROJ.

PATTERSON, Stanislaus Co., Calif.—The Patterson Water Co. will apply for NRA funds in the sum of \$30,000 to finance the construction of seven miles of irrigation laterals. J. P. Sillerman, manager.

25—MACHINERY AND EQUIPMENT

ALAMEDA, Alameda Co., Cal.—Until Sept. 19, 8 P. M., bids will be received by Win. G. Paden, Secretary, Alameda Board of Education, Administration Bldg., Oak St. and Alameda Ave., Alameda, to furnish one radial drill, Carlton or equal, 3-ft. arm, 11-in. column, equipped with one plain table. Motor to be 3-phase, 220-volt, 60-cycle. Specifications are obtainable from above office. Certified check 10% required with bid.

OAKLAND, Cal.—Spears Wells Machine Co., 1832 9th St., Oakland, at \$4100 less \$100 cash discount awarded contract by East Bay Municipal Utility District, Oakland, to furnish gas gasoline motor-driven roller, not over 8 tons. Only other bid submitted by Austin-Western Road Machinery Co. at \$3412.40 with an alternate bid of \$3562.40.

OAKLAND, Cal.—Reliance Trailer & Truck Co., 2765 16th St., San Francisco, at \$1290 submitted low bid to East Bay Municipal Utility District, Oakland, to furnish one 22,000-lb. 4-wheel trailer. Only other bid submitted by New Comer Freuhaus Trailer Corp. at \$1325. Bids held under advisement.

OAKLAND, Cal.—Bill Motors Co. at \$2950 net submitted low bid to East Bay Municipal Utility District, Oakland, to furnish one 22,000-lb. truck. Complete bids follow:

Bill Motors Co.	\$2950.00 net
Fageol Motors	2970.28 net
White Co.	3752.52 net
Kleiber Motor Co.	3871.00 net
Western Traction Co.	4700.00 net
Bay Acceptance Corp.	5250.00 net

Bids held under advisement.

SAN FRANCISCO.—Following bids received by U. S. Forest Service, San Francisco, to rent dump trucks:

- (1) Forest Service furnish gas and oil but no driver;
- (2) Forest Service furnish gas, oil and driver;
- (3) Forest Service furnish mechanical repairs, no driver;
- (4) Forest Service furnish same as (3) except with driver and tires.

Bids were taken as follows:

- (a) 1½-cu. yd.;
- (b) 2-cu. yd.;
- (c) 3-cu. yd.;
- (d) 4-cu. yd.

Bids follow:

J. S. Baker, Burlingame, (d) (1) \$19 day.
C. A. Baker, Sacramento, (d) (1) \$30 (2) \$25 (3) \$20 (4) \$15.
N. Giorgi, San Francisco, (d) (1) \$20 (2) \$14.50 (3) \$12.48 (4) \$10.10.
C. E. Hull, Merced, (c) (1) \$12.
L. Burkholder, Oakland, (a) (1) \$12 (2) \$9 (3) \$7 (4) \$6.25; (b) (1) \$12 (2) \$9 (3) \$7 (4) \$6.25.
Independent Trucking Co., Oakland, (a) (1) 13 (2) \$9 (3) \$7.50 (4) \$6.75; (b) (1) \$13.50 (2) \$9.50 (3) \$8 (4) \$7.25.

KING CITY, Monterey Co., Calif.—Until Sept. 13, 8 P. M., bids will be received by Arnold Frew, clerk, King City Union High School District, for a seven-passenger automobile for the King City Union High School District. Cost not to exceed \$1,000.

LOS ANGELES, Calif.—Until 10 A. M., Sept. 18, bids will be received by the Metropolitan Water District, room 504, 306 W 3rd St., to furnish three sets of voltage regulating equipment, for delivery at Los Angeles, in accordance with specifications which may be obtained at room 1007, at the

above address, upon payment of \$2.00. F. E. Weymouth, general manager and chief engineer.

SAN FRANCISCO.—Following bids received by U. S. Forest Service to rent one to four compressors of 235 or plus class to operate two drills:

- (1) 1 month;
 - (2) 2nd month;
 - (3) thereafter.
- Western Machinery, 240 c.f. (1) \$200; (2) \$185; (3) \$175.
- W. H. Cowan, 235 c.f. alt. 310 c.f. (1) \$200, alt. \$300; (2) \$185, alt. \$300; (3) \$175, alt. \$300.
- Lindgren & Swinerton, 240 c.f. (1) 175; (2) \$175; (3) \$175.
- Associated Equip. Co., Los Angeles, 265 c.f., alt. 310 c.f. (1) \$250; (2) \$250; (3) \$250.
- Ed. R. Bacon, 210 cu. ft., (1) \$175; (2) \$160; (3) \$150.

Bids held under advisement.

PASO ROBLES, Calif.—City Council rejected bids to furnish and install power equipment consisting of Diesel Engine, water pumps and electric motors. New bids will be asked shortly. Contract was previously awarded to the Superior Engine Co., 147 N. Los Angeles, Los Angeles at \$12,000.

SACRAMENTO, Cal.—Until Sept. 15 8 P. M., bids will be received by W. L. Johns, principal, San Juan Union High School, San Juan Union High School Building, for one Indiana, 55 D. R. 54-passenger truck chassis and one P. C. 92-198 E.B. body. Price not to exceed \$3,500. Certified check in the amount of 10% of the amount bid.

28—FIRE EQUIPMENT

BERKELEY, Cal.—All bids rejected by city council to furnish fire hose, and material will be purchased in the open market.

Complete bids published Aug. 23.

30—RESERVOIRS & DAMS DISPOSAL PLANTS

SANTA BARBARA, Cal.—Victor H. Trace, water superintendent, has announced that the city council has authorized applications for NRA funds to finance the construction of additions to the Gibraltar Dam and the construction of other water resources.

The proposed work at Gibraltar Dam estimated to cost \$2,000,000, will consist of raising the height of the dam from 150 to 200 ft., increasing the capacity from 15,000 ac. ft. to 40,000 ac. ft. The addition will be of rock fill type with reinforced concrete facing, tied into the present reinforced concrete structure. The work will provide 200,000 man-days labor. The project includes two small reinforced concrete distributing reservoirs on the south side of the range. The other water resources, estimated to cost \$578,000, will include increasing the Sheffield Reservoir from 10,000,000 gals. to 60,000,000 gals. and improvements to the La Mesa and El Cielito reservoirs. Included under this head are distributing mains, involving 7000 ft. of 24-in. main and about 3 miles of 12- and 16-in. shop and garage.

The work will be done in accordance with the preliminary report of Quinton, Code, Hill, Leeds & Barnard, consulting engineers, Los Angeles.

GLENDALE, Los Angeles Co., Cal.—The City of Glendale has applied to the Federal Administration of Public Works for National Recovery funds in the amount of \$108,509.63 to finance the construction of a reinforced con-

crete roof on the Chevy Chase reservoir, Glendale.
 The work involves:
 250,000 F.B.M. lumber;
 33,000 sacks cement;
 3,600 tons sand;
 5,000 tons rock;
 425 tons reinforcing steel;
 332 round column forms;
 copper water stops and hatch

32—SEWERS & SEWAGE DISPOSAL PLANTS

CLOVERDALE, Sonoma Co., Cal.—W. J. Tobin, 3701 Balfour Ave., Oakland, at \$4030.95 submitted low bid to city council to construct Imhoff tank and 12-in. discharge pipe line, involving:

- (1) 450 cu. yds. excav.;
- (2) 107 cu. yds. concrete;
- (3) 24,000 lbs. reinf. steel;
- (4) 110 ft. cast iron pipe;
- (5) 1230 ft. clay or concrete pipe;
- (6) 0.8 MFBM redwood lumber.

Complete bids follow:
 W. J. Tobin, Oakland.....\$4030.95
 J. J. Ongaro, San Anselmo..... 4195.50
 J. E. Bentley, Cloverdale..... 4222.15
 Harvey E. Conner, Redwood City 4609.49
 Geo. C. DeGolyer, Oakland..... 4726.00
 Baldwin & Butler, Berkeley..... 5082.00
 City Improvement Co., Berkeley 6654.80
 B'ds held under advisement until Sept. 19, 8 p. m.

33—WATER WORKS

SAN FRANCISCO—Overland Freight Transfer Co., 201 California Street, awarded contract by T. A. Brooks, City Purchasing Agent, under Bid No. 1062, to haul approximately 1700 tons cast iron pipe for San Francisco Water Department.

FRESNO, Cal.—Until Sept. 14, 11 A. M., bids will be received by H. S. Foster, City Clerk, to furnish four 12-in. deep well turbine pumps, 800 G.P.M., 1200 R.P.M., 150-ft. head. Specifications obtainable from above office. Bidder to purchase four Western Well Works Deep Well turbine pumps from City. Certified check 10% required with bid. 33

COLTON, San Bernardino Co., Cal.—An election to vote on a bond issue of about \$125,000 for water and sewer improvements will probably be held during the latter part of October, according to a statement by Mayor E. F. Hartford. The bond issue would form the basis for an application for NRA funds to obtain the thirty per cent grant as is possible under the National Recovery Act.

The original proposal called for water works improvements only, but the need for a disposal plant has caused the city council and chamber of commerce to recommend the inclusion of \$38,000 for a plant similar to the plant in operation at San Bernardino. Costs on the water improvements have been reduced to approximately \$87,000 since last estimated.

New wells, pumps and mains, \$41,133.
 Reservoir, \$32,280, or tank of 2,000,000-gal. capacity, \$21,150.

Brief details of the proposed works, as shown by the engineer's preliminary figures, are:

Drill two 20-in. wells, 550 ft. deep, housing for same, bowl type pumps of 200 miners' inches capacity each pump, replacing of three old pumps and rebuilding three pump houses;

Construct reinforced concrete reservoir, 186x250 ft. by 12 ft. deep, with corrugated iron roof, 3,000,000-gallon capacity.

Replace pipe lines, involving:
 30,000 ft. 6-in. pipe (type not selected);
 3,000 ft. 10-in. pipe (type not selected);
 3,000 ft. 8-in. pipe (type not selected).
 C. H. Maxwell, water superintendent.

SAN DIEGO, Cal.—Until 11 A. M., Sept. 26, bids will be received by the Public Works Officer, 11th Naval District, San Diego, for improving of fuel oil storage at the Naval Operating Base, (Fuel Depot), San Diego. Specifications No. 7333. The work consists of furnishing and installing a 55,000 bbl. fuel oil tank and piping, and includes earthwork, concrete work, steel and iron work, piping, and electrical work.

Specifications obtainable from above office on deposit of \$10, returnable.

SAN DIEGO, Cal.—Until 11 a. m., Sept. 28, bids will be received by the Public Works Officer, 11th Naval District, San Diego, for heating plant boilers and equipment at the Naval Operating Base (Air Station), San Diego, Specification No. 7422. The work includes in general, the furnishing and installing of the following:

- (a) Three 250 horsepower water-tube boilers with settings, supports, concrete foundations, fuel oil burners, soot blowers and accessories.
- (b) Two boiler-feed pumps, one deaerating feed-water heater, fuel oil pump set, two fuel oil tanks, one water-storage tank, 3 instrument panels, water and fuel oil meters, gauges, liquid level controllers, pumping unit for emergency water supply.
- (c) Steam, exhaust, boiler-feed, drip, blow-off, fuel oil, water, vent, cold water and drain piping; also miscellaneous electrical work.
- (d) Blow-off and waste tank, concrete floor for the boiler room, structural platform and overhead walkways, breeching from boiler smoke flue outlets to an existing breeching, an overhead condensate receiver, insulating and protective coverings, and miscellaneous work and material. The work also includes the removal and reinstalling of an existing water-softening plant.

Specifications obtainable from above office on deposit of \$10 certified check.

SAN FRANCISCO—Until Sept. 15, 3 P. M., under Bid No. 1075, bids will be received by T. A. Brooks, City Purchasing Agent, to furnish valves for Hetch Hetchy as follows:

- (1) 3 24-in. gate valves;
- (2) 3 30-in. do;
- (3) 1 48-in. gate or butterfly valve.

Specifications obtainable from above office.

29—STREETS AND HIGHWAYS

LOS ANGELES Co., Cal.—Until Sept. 27, 2 P. M., bids will be received by State Highway Commission, Sacramento, to apply bituminous surface treatment and to super-elevate curves over 5 mi. between Oak Garag and Palmdale, involving:

- (1) 6350 tons coarse rock and screenings (retread surf. treatment);
- (2) 400 tons emul. asph. road oil (do);
- (3) 5000 sq. yds. asph. paint binder (curve super-elev.);
- (4) 1430 tons cru. rock (do);
- (5) 90 tons emul. asph. road oil (do).

MONO CO, Cal.—Until Sept. 27, 2 P. M., bids will be received by State Highway Commission, Sacramento, to grade, surface with selected material, and apply a bituminous treatment over 2.9 mi. between 2 mi. north of Leevining and Mono Inn, involving:

- (1) 74,100 cu. yds. rdwy. excav. unclass;
- (2) 200,000 sta. yds. overhaul;
- (3) 3800 cu. yds. imp. borrow;

- (4) 1150 cu. yds. fl. struc. excav.;
- (5) 4600 cu. yds. sel. surf. material;
- (6) 405 bbls. light fuel oil;
- (7) 365 tons cut-back asph. road oil;
- (8) 2.86 ml. mix bit. binder and surf. material;
- (9) 150 cu. yds. screenings;
- (10) 20 cu. yds. class A Port. cem. conc (struc.);
- (11) 1100 tons bar reinf. steel (struc.);
- (12) 40 lin. ft. 12-in. pref. metal pipe underdrains;
- (13) 1370 lin. ft. 18-in. corru. metal pipe;
- (14) 106 lin. ft. 18-in. close riveted and soldered corru. metal pipe;
- (15) 152 lin. ft. 24-in. corru. metal pipe;
- (16) 146 lin. ft. corru. metal pipe, clean and relay;
- (17) 276 lin. ft. salvage exist. culverts
- (18) 1300 M gal. water;
- (19) 250 cu. yds. dry rubble walls;
- (20) 0.9 ml. exist. property fences remove and reset;
- (21) 1.5 ml. new property fence;
- (22) 5 fence gates complete in place;
- (23) 151 sta. finish rdwy;
- (24) 73 monuments complete in place.

State will furnish corru. metal pipe and perf. metal pipe underdrains.

KERN CO., Cal.—Valley Paving Co., P. O. Box 1349, Fresno, at \$8297.50 submitted low bid to District Engineer, State Highway Commission, Fresno, to apply retread surface treatment to 2-mi. existing pavement between 6.2-mi. and 10.4-mi. east of Bakersfield, involving:

- (1) 125 tons emul. asph. road oil;
- (2) 1630 tons screenings.

Complete bids follow:
 (A) Valley Paving Co., Fresno \$ 8,297.50
 (B) Granite Constr. Co., Watsonville 9,224.50
 (C) Oilfields Trucking Co., Taft 12,812.50

Unit bids follow:

	(A)	(B)	(C)
(1)	\$24.00	\$26.20	\$21.00
(2)	3.25	3.65	6.25

SONOMA CO., Cal.—Until September 27, 2 p. m., bids will be received by State Highway Commission, Sacramento, to grade and surface with crusher run base and bituminous treated crushed gravel or stone surfacing 0.9-mi. between Fairville and Shellville, involving:

- (1) 55 remove trees, size 1;
- (2) 70 do, size 2;
- (3) 59,200 cu. yds. rdwy. excav., unclass.;
- (4) 260,000 sta. yds. overhaul;
- (5) 330 cu. yds. struc. excav.;
- (6) 4950 tons cru. run base;
- (7) 1800 tons cru. gravel or stone (bit. tr. surf.);
- (8) 95 tons cut-back asph.;
- (9) 60 bbls. heavy fuel oil;
- (10) 130 tons screenings;
- (11) 265 cu. yds. class A Portland cem. conc. (struc.);
- (12) 24,000 lbs. bar reinf. steel (struc.);
- (13) 108 lin. ft. 8-in. corru. metal pipe;
- (14) 146 lin. ft. 18-in. do;
- (15) 250 lin. ft. 30-in. do;
- (16) 3 spillway assemblies complete in place;
- (17) 3 concrete head walls move and reset;
- (18) 1.7-mi. exist. property fence move and reset;
- (19) 4 16-ft. tubular steel gates complete in place;
- (20) 5 14-ft. do;
- (21) 1000M gal. water;
- (22) 16 culvert markers complete in place;
- (23) 4170 lin. ft. lam. timber guard rail;
- (24) 50 sta. finish rdwy.;
- (25) 12 monuments complete in place.

GILA CO., Ariz.—All-Arizona Engineering & Construction Co. at \$48,462 submitted low bid to U. S. Bureau of Public Roads, Phoenix, for 5.247-mi. grading Section A, Route 11, Payson-Colcord Mt. National Forest Highway, Tonto National Forest.

Leo Frost, Phoenix, second low at \$53,019; H. J. Hagen, third low at \$56,681.

TULARE CO., Cal.—Stewart & Nuss, Inc., 410 Thorne Ave., Fresno, at \$6078 submitted low bid to District Engineer, State Highway Commission, Fresno, to apply a bituminous seal coat to the shoulders on each side of the existing pavement over 46-mi. between the southerly boundary and Kingsburg, involve:

- (1) 270 tons cut-back asph. in place;
(2) 1500 tons sand in place.

Complete bids follow:

(A) Stewart & Nuss, Fresno\$6078
(B) Granite Constr. Co.,

Watsonville 7806

(C) Valley Paving Co., Fresno 8850

Unit bids follow:

	(A)	(B)	(C)
(1)	\$13.90	\$17.80	\$20.00
(2)	1.55	2.00	2.30

UKIAH, Mendocino Co., Cal.—County Supervisors reject bid of J. A. Barton, Mendocino (one bid submitted) and order work to be done by day labor, to:

Surface 3.3 miles road between Noyo and Willitts, involving 8000 cu. yds. crushed or broken rock surface.

Re-align 600 ft. Hardy Creek-Hockport road, involving 5000 cu. yds. unclassified excavation.

YOLO CO., Cal.—Until Sept. 27, 2 P. M., bids will be received by State Highway Commission, Sacramento, to apply bituminous surface treatment over 3.9 mi. between Davis Wye and Willow Slough and in Butte Co. over 4 mi. between 0.75 mi. north of Rock Creek and 0.1 mil south of Pine Creek, involving:

- (1) 4050 tons coarse rock and screenings, Loc. 1;
(2) 4550 tons do, Loc 2;
(3) 115 tons emul. asph. road oil. type A., Loc. 1;
(4) 136 tons do, Loc. 2;
(5) 126 tons do, type B, Loc. 1;
(6) 150 tons do, Loc. 2;

ORANGE CO., Cal.—Until Sept. 27, 2 P. M., bids will be received by State Highway Commission, Sacramento, to grade and pave with asphaltic concrete 1 mi. in Anaheim between Sycamore St. and Romney Drive, involving:

- (1) 21 sta. clear and grub right-of-way;
(2) 5600 cu. yds. rdwy. excav., unclass;
(3) 6000 mi. yds. overhaul;
(4) 350 cu. yds. struc. excav.;
(5) 1110 cu. yds. conc. remove from exist. pave., curbs, sidewalks, driveways and structures;
(6) 12,500 sq. yds. sub-grade for pave;
(7) 16,330 sq. yds. asph. paint binder
(8) 7800 tons asph. conc.;
(9) 180 lin. ft. 24-in. corr. metal pipe;
(10) 470 cu. yds. class A Port. cem. conc. (curbs, gutters, sidewalks and driveways);
(11) 65 cu. yds. do (struc.);
(12) 4600 lbs. bar reinf. steel (struc.);
(13) 20,000 lbs. misc. iron and steel (struc.);
(14) 21 sta. finish rdwy.

LOS ANGELES, Cal.—Grifftr Co., 502 L. A. Railway Bldg., Los Angeles, at \$32,285.88 submitted low bid to County Supervisors to improve Siawson Ave. and Alameda St.

Oswald Bros., Second low at \$32,744.56.

RIVERSIDE CO., Cal.—Until Sept. 27, 2 P. M., bids will be received by State Highway Commission, Sacramento, to treat with fuel oil 19.6 mi. between 4 mi. east of Messa and Shavers Summit, involving:

- (1) 8500 bbls. heavy fuel oil (roadbed);
(2) 120 bbls. heavy fuel (oil tr. surf. material in stockpiles);

LOS ANGELES CO., Cal.—Alex. B. Chalmers and Max Winters Jr., Los Angeles, at \$12,801.50 submitted low bid to District Engineer, State Highway Commission, Los Angeles, to apply bituminous surface treatment over 1.8 mi. between Vasquez Rock Road and 2 mi. easterly and to grade and surface with waterbound macadam base and bituminous macadam surface about 0.2 mi.

H. E. Cox & Sons, Pasadena, second low at \$14,687.50; Thos. C. Rogers third low at \$18,285.75.

SONOMA CO., Cal.—Until Sept. 11, 2 P. M., bids will be received by John H. Skeggs, District Engineer, State Highway Commission, Room 211, State Office Bldg., San Francisco, to apply (4.2) mi. bituminous surface treatment between Willow Brook and Haystack, involving:

- (1) 900 tons screenings;
(2) 45 tons emul. asph. road oil.

Specifications obtainable from above office. Certified check 10% required with bids.

REDDING, Shasta Co., Cal.—Poulos & McEwen, 2522 17th St., Sacramento, at \$7043.68 awarded contract by Joint Highway District No. 21 to grade from Sta. 7 plus 00 to 85 plus 80, Section No. 4, Redding-Mt. Lassen approach road, 2.27 miles, involving:

- (1) 1.985 acres clearing;
(2) 11,839 cu. yds. unclass. excav.;
(3) 130.4 cu. yds. do, struc.;
(4) 30,650 sta. yds. overhaul;
(5) 2.227 miles finish earth graded rd.;
(6) 90 lin. ft. 72-in. corr. metal pipe;
(7) 48 lin. ft. 8-in. do;
(8) 36 lin. ft. 18-in. do;
(9) 172 lin. ft. 24-in. do.

Complete bids follow:

Poulos & McEwen, Sacramento	\$ 7,043.68
Tiffany Constr. Co., San Jose	7,183.82
J. P. Brennan, Redding	10,049.40
Coates Constr. Co., Sacramento	10,756.25
Hemstreet & Bell, Marysville	12,427.25
J. R. Reeves, Sacramento.....	14,000.00
Tieslau Bros., Berkeley.....	15,659.72
	29

LOS ANGELES, Cal.—Alex. D. Chalmers and Max D. Winter, Jr., 29.5 Knox Ave., Los Angeles, at \$45,268 submitted low bid to Board of Public Works to improve Coldwater Canyon Drive between Mulholland Highway and Eden Court.

Second low bid submitted by J. L. McClain, Los Angeles, at \$46,608.

KINGS CO., Cal.—Stewart & Nuss, 410 Thorne Ave., Fresno, at \$9088.20 submitted low bid to District Engineer, State Highway Commission, Fresno, to apply retreat surface treatment to existing pavement over 2.7-mi. near Lemoore, involving:

- (1) 117 tons emul. asph. road oil;
(2) 1764 tons screenings.

Complete bids follow:

(A) Stewart & Nuss, Fresno	\$ 9,088.20
(B) Valley Paving & Con., Fresno	9,864.00

(4) 206 ft. 10-in. metal pipe culvert;
(5) 356 ft. 12-in. do;
(6) 192 ft. 18-in. do;
(7) 46 ft. 48-in. do;
(8) 22 concrete catchbasins, c. i. gratings;
(9) 33 cu. yds. reinf. conc. retaining wall;
(10) 250 lin. ft. 6-in. sanitary sewer;
(11) 1 lamphole.

Estimated cost, \$30,000. J. C. Oglesby, City Engineer.

Project will be taken up at Sept. 15 meeting, 8 P. M.

NEVADA STATE—Following contracts awarded by State Highway Commission, Carson City, for highway construction as follows:

LINCOLN CO.—U. B. Lee, 1059 Carpenter St., San Leandro, at \$25,539.84 for oiling between the junction of the Alamo-Delmar Road and Caliente, Rt. 7, Sec. B-2, 13.13 miles.

LYON CO.—Jack Casson, 319 Warren St., Hayward, at \$20,034.07 for oiling 9.99 mi. between 12 mi. and 2 mi. west of Lahontan.

MINERAL CO.—J. C. Compton, McMinville, Ore., and Balsalt Rock Co., Napa, at \$50,628.42 to oil 22.22 mi. between Dutch Creew and Schurz.

LYON CO.—Balt Rock Co., Napa, and J. C. Compton, McMinville, Ore., at \$29,256.36 to oil 12.94 mi. between 2 mi. east of Mound House and 9 mi. east of Dayton.

ELKO CO.—N. M. Ball, 1889 Yosemite Road, Berkeley, at \$45,268.80 to construct cement concrete pavement within the City of Elko, between west city limits and 13th St.

ELKO CO., Nev.—Wheelwright Construction Co., Ogden, Utah, at \$12,284 awarded contract by State Highway Commission, Carson City, to construct overpass over the Western Pacific Railroad near Silver Zone, Rt. 1, Sec. G-2, 0.04 mi.

SAN FRANCISCO—J. B. Rogers, 110 Sutter St., at \$1.25 per ft. submitted low bid to Department of Public Works to bore test holes for foundations for the Laguna Honda Home. Only other bid submitted by Wm. Alingham at \$3.50 per ft.

SAN FRANCISCO—M. J. Lynch, 478 30th St., at \$960 submitted low bid to Department of Public Works to construct sidewalks on Onelda Ave. from Otsego to Delano, involving:

- (1) 6000 sq. ft. sidewalk.

Complete bids follow:

M. J. Lynch, \$16.....	\$ 960
M. Bertolino, \$185.....	1110
Eaton & Smith, \$24	1440

SAN FRANCISCO—Chas. L. Harney, 74 New Montgomery St., at \$4739.70 submitted low bid to Department of Public Works to improve Brunswick St. from Allison to Concord St., involving:

- (1) 3510 cu. yds. excav.....\$4738.50
(2) 120 cu. yds. embankment 1.20 (Lone bid submitted).

LOS ANGELES, Cal.—Until Sept. 19, 2 P. M., bids will be received by S. V. Cortelyou, District Engineer, State Highway Commission, 808 State Office Bldg., Los Angeles, to treat with fuel oil 14.5 mi. shoulders, gutters and dykes on Ridge Route Alternate between Castaic and Piru Gorge, involving 1105 sq. yds. scarifying.

mixing oil and finish and 5000 bbls. heavy fuel oil in place.

LOS ANGELES, Cal.—Alex. D. Chalmers and Max Winter Jr., 2925 Knox Ave., Los Angeles, at \$45,268 submitted low bid to Board of Public Works to improve Coldwater Canyon Drive between Mulholland Highway and Edan Court.

J. L. McClain, Los Angeles, second low at \$46,608.

KANE CO., Utah—Until Sept. 13, 2 P. M., bids will be received by State Road Commission, Salt Lake City, to construct 8.615 mi. gravel surfaced Rd. between Mt. Carmel Junction and Glendale, involving 76,500 cu. yds. unclass. excav. and 42,500 tons gravel surface and sub-base. Specifications obtainable from above office on deposit of \$2. Proposal guarantee 5%.
29

TULARE CO., Cal.—Until Sept. 26, 2 P. M., bids will be received by C. H. Sweetser, District Engineer, U. S. Bureau of Public Works, 461 Market St., San Francisco, to grade sec. C, General Grant-Sequoia Park Approach Road, Sequoia National Forest, involving:

- (1) 30 acres clearing;
- (2) 196,300 cu. yds. unclass. excav.;
- (3) 1200 cu. yds. unclass. excav., struc.;
- (4) 1600 c. yds. overhaul;
- (5) 238,000 sta. yds. overhaul;
- (6) 3,367 mi. finish earth graded road;
- (7) 915 cu. yds. masonry;
- (8) 8 cu. yds. concrete;
- (9) 130 lbs. reinf. steel;
- (10) 2676 lin. ft. corru. metal pipe;
- (11) 14 right-of-way monuments;
- (12) 1000 lin. ft. stone guard rail;
- (13) 1670 cu. yds. hand laid rock embankment;

Specifications obtainable from above office on deposit of \$10, certified check payable to Regional Fiscal Agent, U. S. Forest Service.

OAKLAND, Alameda Co., Cal.—Lee J. Immel, 1051 Evelyn Ave., Berkeley, at \$6106 awarded contract by City Port Commission for surfacing at the Municipal Airport, Oakland. Complete bids published August 30.

SEATTLE, Wash.—S. F. Doolittle Bros., Woodinville, Wash., at \$22,287 submitted low bid to U. S. Bureau of Public Roads for improving 3.69 miles of the Stillaguamish river in Snohomish county. Followings bids received:

S. F. Doolittle Bros., Woodinville	\$22,287

Colonial Bldg. Co., Spokane.....	25,242
Fred. G. Redmo, Yakima.....	41,325

Bids under advisement.

ARIZONA STATE.—Until 2 P. M., Sept. 18, bids will be received by the State Highway Commission, Phoenix, for bridge construction on the Globe-Showlow Highway, E-99-E. The work which is located at the crossing of Salt River approximately 43 miles northeast of Globe, consists of the construction of a steel arch bridge with approach spans and the grading and draining of about one-half mile of adjacent roadway, and is to be completed on or before Feb. 15, 1934, involving:

- 37,000 cu. yds. rdwy. excav.;
- 500 cu. yds. drainage excav.;
- 420 cu. yds. struc. excav.;
- 500 cu. yds. borrow excav.;
- 2,000 cu. yds. slides and overbreakage;
- 80,300 sta. yds. earthwork overhaul;
- 812 cu. yds. Class A concrete;
- 9 cu. yds. Class B concrete;
- 72,000 lbs. reinf. steel;
- 520,400 lbs. struc. steel;
- 110 lin. ft. corru. metal pipe, 2 sizes;
- 1,670 lin. ft. cable road guard;

16 right of way markers;
ALTERNATE

1,670 lin. ft. steel plate road guard and other incidental items.

Proposal guarantee, 5%. Labor lists shall be obtained from the Office Manager of the Gila County Re-employment Committee, Harold Gribble, at Globe, Ariz.

PASADENA, Cal.—Until 11 A. M., Sept. 19, bids will be received by city directors to furnish three spillway gates for Pine Canyon Dam. Schedule I: 3 spillway gates each consisting of struc. and plate steel drum, weighing approx. 428 tons; 3 sets cast steel hinged anchors, cast stock cover plates and misc. castings, approx. 77 tons; formed spring brass water seals and bronze bushings, approx. 9,400 lbs.; forged steel hinge pins and bushings, approx. 9200 lbs., and bolts and cat screws, approx. 6200 lbs.

Schedule II: three 30-in. automatic angle needle control valves, hydraulically operated by pilot valve connected to float.

Schedule III: three mechanisms for automatic spillway gates operation, consisting of sheaves, sheave pins and yokes, bronze tiller rope, float, floor stands and other misc. material, all weighing approx. 17,000 lbs.

Samuel B. Morris, Water Superintendent and Chief Engineer.

SAN FRANCISCO.—U. S. Forest Service awarded contract to J. D. Adams for 100 grader blades, 8 ft., 50 do, 10-ft., in two sections, 100 do, 12-ft., in two sections, and Solano Iron Works, Berkeley at \$1,354 awarded contract for 370 cutting edges for trailbuilders for various tractors. The complete bids published Aug. 30.

SEATTLE, Wash.—Lynch Bros., Pioneer Bldg., Seattle, at \$68,415 for core drilling; Rumsey & Co., Medical Arts Bldg., Seattle, at \$19,000 for test pits; and D. Nygren, Lloyd Bldg., Seattle, at \$2650 for trench excavation submitted low bids to Columbia Basin Commission, Spokane, for 21,000 ft. core drilling and examination at dam site in connection with Grand Coulee Project. Bids were taken on schedules as follows:

- (1) core drilling;
- (2) test pits;
- (3) open trench.

Bids were received as follows:

- (A) Diamond Drill Co., Spokane.
- (B) Lynch Bros., Seattle.
- (C) Winston Bros. Co., Seattle.
- (D) *Sullivan Mach. Co., Spokane.
- (E) Clifton Applegate Co., Spokane.
- (F) Diamond Drill Constr. Co., Spokane.

(G) Stoner & Klnney, Seattle.
(H) Chris Yonlick, Seattle.
(I) D. Nygren, Seattle.
(J) Rumsey & Co., Seattle.

(G)		22,040	3,280
(H)		54,500	6,835
(I)		34,600	2,650
(J)		19,000	4,125

*Offered a combined bid of \$138,580 for all three contracts.

LOS ANGELES, Cal.—Griffith Co., L. A. Railway Bldg., awarded contract by harbor department on August 30, at \$49,130, for paving miscellaneous streets, transit shed floors and wharf decks; Specification No. 918.

MODOC COUNTY, Cal.—Until Sept. 19, 2 P. M., bids will be received by U. S. Bureau of Public Roads, 461 Market Street, San Francisco, C. H.

Sweetser, District Engineer, to grade Section B, Rt. 11, the Lava Beds National Forest Highway, Modoc National Forest, involving:

- (1) 40,300 cu. yds. unclass. excav.;
- (2) 340 cu. yds. unclass. excav., struc.
- (3) 77,650 cu. yds. unclass. excav., borrow;
- (4) 20,500 sta. yds. overhaul;
- (5) 11,597 ml. finish earth graded rd.
- (6) 16,000 cu. yd. ml. haul borrow;
- (7) 115 cu. yds. concrete;
- (8) 4550 lbs. reinf. steel;
- (9) 1834 lin. ft. corru. metal pipe;
- (10) 42 right of way monuments;
- (11) 15,900 lin. ft. remove and re-set fence.

Specifications obtainable from above office on deposit of \$10, returnable; certified check payable to Regional Fiscal Agent, U. S. Forest Service.

September 1, 1933

GLENN, PLACER & COLUSA COS., Cal.—E. E. Hilliard, 1355 43rd St., Sacramento, at \$9142.55 submitted low bid to District Engineer, Marysville, to apply 14.2-mi. bituminous surface treatment, involving:

- (1) 44 tons asph. road oil, Loc. A;
- (2) 525 tons screenings, do
- (3) 75 tons asph. road oil, Loc. B;
- (4) 890 tons screenings, do;
- (5) 40 tons asph. road oil, Loc. C;
- (6) 450 tons screenings, do.

Complete bids follow:

(A) E. F. Hilliard,	Sacramento	\$ 9,142.55
(B) A. Teichert & Son,	Sacramento	10,508.75
	(A)	(B)
(1)	\$17.30	\$21.50
(2)	3.15	3.45

SAN FRANCISCO.—Western Pipe & Steel Co., 44 Market St., at \$48,604.65 submitted low bid to Public Utilities Commission to construct Early Intake Tail Race Pipe Line (H.H.W.S.) Contract No. 145. Complete bids follow:

- (A) Western Pipe & Steel Co., \$48,604.65.
 (B) W. A. Kettlewell, \$57,017.00.
- Quantities and unit bids follow:
- 1) 855 ft. furnish and lay 60-in. steel pipe 5/16-in. plate;
 - 2) 230 ft. do 3/8-in. plate;
 - 3) 1000 sq. ft. mortar covering on steel pipe;
 - 4) 13,000 sq. ft. fela wrapping on do;
 - 5) 1 expansion joint;
 - 6) 2 manholes;
 - 7) 300 lbs. steel saddle nozzles;
 - 8) 1000 lbs. steel frames and covers for valve and manhole boxes;
 - 9) 200 lbs. steel bolts, nuts, washers
 - 10) connection to power house (lump sum);
 - 11) connection in tunnel (lump sum);
 - 12) construct standpipe (lump sum);
 - 13) 100 lin. ft. overflow pipe from standpipe;
 - 14) 300 lbs. misc. steel work;
 - 15) 300 lbs. install fittings furnished by city;
 - 16) 10,000 lbs. install valves (do);
 - 17) 1000 lbs. install misc. metal work (do);
 - 18) 1300 cu. yds. common excav., east of Sta. 2+45;
 - 19) 300 cu. yds. rock excav., do;
 - 20) 200 cu. yds. common excav. west of St. 2+45;
 - 21) 500 cu. yds. rock excav. do;
 - 22) remove conc. bukhead in tunnel (lump sum);
 - 23) 330 cu. yds. concrete, class A;
 - 24) 25 cu. yds. conc. class C;
 - 25) 35,000 lbs. reinf. steel;
 - 26) 250 lin. ft. dowel holes in exist. concrete;
 - 27) 20 bbls. extra cement;
 - 28) 3 MFBM wood construction;
 - 29) 2000 lbs. corru. sheet metal work;

2.655-MI. GRADING — TRINITY CO., CALIF.

TRINITY CO., Cal.—Granfield, Farrar & Carlin, 67 Hoff St., San Francisco, at \$27,607.50 (Pro. B) submitted low bid to and recommended for award of contract by U. S. Bureau of Public Roads, San Francisco, for grading 2.655 mi. Sections A and C, Rt. 5, Douglas City-Peanut National Forest Highway, Trinity National Forest, involving:

- (1) 11 acres clearing;
- (2) 63,800 cu. yds. unclass. excav.;
- (3) 840 cu. yds. unclass. excav., struc. (alt.);
- (4) 910 cu. yds. da (alt. using timber)
- (5) 114,000 sta. yds. overhaul;
- (6) 2.655 mi. finish earth graded road
- (7) 4 MFBM timber cribbing (alt. c. m. p.);
- (8) 8 MFBM do (alt. using timber);
- (9) 28 cu. yds. class A conc.;
- (10) 74 cu. yds. class B do (alt. c.m.p.)
- (11) 52 cu. yds. do, alt. using timber);
- (12) 2400 lbs. reinf. atee (alt. c.m.p.)
- (13) 2340 lbs. do (alt. using timber);
- (14) 86 cu. yds. cem. rubble masonry;

- (15) 526 lin. ft. 18-in. corru. metal pipe;
 - (16) 212 lin. ft. 24-in. do;
 - (17) 260 lin. ft. 60-in. do (alt.)
 - (18) 70 lin. ft. 18-in. corru. irrig. pipe
 - (19) 310 cu. yds. handlaid riprap (alt. c.m.p.);
 - (20) 322 cu. yds. do (alt. using timber);
 - (21) 30 right-of-way monuments;
 - (22) 260 lin. ft. 4.5x4.5-ft. lam. tim. (alt.);
 - (23) remove and dispose exlat. bridge (l. s.);
- Complets bids follow, alt. A & B:
- (A) Granfield, Farrar & Carlin, San Francisco, \$29,877.10; \$27,607.30.
 (B) Poulou & McEwan, Sacto., \$29,188.70; \$30,069.60.

TIMBER BRIDGE — EL DORADO COUNTY

EL DORADO COUNTY, Cal.—E. T. Lesure, 87 Ross Circle, Oakland, at \$5,143 submitted low bid to District Engineer, State Highway Commission, Sacramento, to construct a timber bridge across Greenwood Creek twelve miles northwest of Placerville, consisting of four 19-foot spans on frame bents and roadway approaches to be graded and surfaced with selected material, involving:

- (1) clear and grub (lump sum);
- (2) 1300 cu. yds. rdwy. excav.;
- (3) 400 sta. yds. overhaul;
- (4) 85 cu. yds. struc. excav.;
- (5) 550 cu. yds. sel. surf. material;
- (6) 25 cu. yds. Class B Port. cement concrete;
- (7) 26 MFBM dense select all-heart struc. grade redwood timber;

- (8) 5 MFBM select all-heart struc. grade redwood timber;
- (9) 12 cu. yds. rubble masonry;
- (10) 75 cu. yds. light riprap;
- (11) 0.4 miles move and reset property fence;
- (12) 1 existing bridge to be removed and disposed of;
- (13) 9 sta. finish roadway;
- (14) 8 monuments complete in place.

Complete bids follow:

(A) E. T. Lesure, Oakland.....\$5,143.00
 (B) M. A. Jenkins, Sacto..... 5,810.00
 (C) L. C. Seidel, Oakland..... 6,867.00

Second Day's Openings Bring Total Highway Contracts to \$2,300,000

SACRAMENTO, Sept. 14.—Another million dollars was added to the contracts pending award today when bids were received by the State Highway Commission on 13 additional construction jobs. The total of low bidders, according to preliminary figures, is \$1,077,430. Yesterday's total was \$1,220,000, making a total for the two days of approximately \$2,300,000. Proposals are to be received today on 15 more contracts, the largest schedule of the three days, and should account for about \$2,000,000 worth of work, according to the highway department estimates for the 41 jobs involved.

Following is a list of low bidders on each contract opened today.

IMPERIAL COUNTY: 10.1 mi. surface between El Centro and Calixico, R. E. Hazard Construction Co., San Diego, \$36,997.

IMPERIAL COUNTY: 25.6 mi. construct borders between northerly boundary and Trifolium Canal, Oswald Bros., Los Angeles, \$71,000.

LOS ANGELES COUNTY: 5.1 mi. grade and pave between Santa Clara River and Castaic School, Griffith Construction Co., Los Angeles, \$101,803.

LOS ANGELES COUNTY: 6 n.i. grade and pave between Foothill Blvd. and Alosta Ave., Oswald Bros., \$32,338.

MADERA COUNTY: Construct timber bridge across Ash Slough, F. O. Bohnett, Camobell, \$32,951.

MARIN AND SONOMA COUNTIES: Repair timber approach to bridge across Petaluma Creek, Alfred H. Vogt, San Francisco, \$20,957.

NAPA COUNTY: 8.2 miles surfacing between easterly boundary and Napa Wye and between Napa Wye and southerly boundary, J. C. Compton, McMinnville, Ore., \$42,044.

ORANGE AND LOS ANGELES COUNTIES: 31 miles oil treat shoulders, Kovacevich & Price, Los Angeles, \$24,511.

PLACER COUNTY: 5.2 miles grade and pave, T. M. Morgan Paving Co., Los Angeles, \$234,057.

PLUMAS COUNTY: Construct steel arch span across North Fork Feather River, Lynch-Cannon Engineering Co., Los Angeles, \$23,251.

RIVERSIDE COUNTY: 9.2 miles grade and surface between Black Butte and Blythe, Walter Trapke, San Diego, \$47,670.

SAN LUIS OBISPO, MONTEREY & SAN BENITO COUNTIES: 17.2 miles oil treatment of shoulders, L. S. Brisco, Arroyo Grande, \$20,682.

SOLANO & NAPA COUNTIES: 10.3 miles grade between Carquinez bridge and Cordelia, Granfield, Farrar & Carlin, San Francisco, \$383,769.

Following is the low bidder in each contract opened yesterday:

KERN COUNTY: 2.1 miles grade and pave with asphalt concrete between Pierce Road and Tank Farm, Union Paving Company, San Francisco, \$97,061.

IMPERIAL COUNTY: 6.9 miles construct oil treated crushed stone borders, V. R. Dennis Co., San Diego, \$21,520.

SANTA BARBARA COUNTY: 0.8 mile grade and pave, United Concrete Pipe Corp., Los Angeles, \$63,367.

MONO COUNTY: 3.7 miles grade and surface, Hemstreet & Bell, Marysville, \$46,137.

SANTA CRUZ COUNTY: 0.8 mile grade, Union Paving Co., San Francisco, \$67,467.

IMPERIAL COUNTY: 23.7 miles pave with asphaltic concrete, V. R. Dennis Co., San Diego, \$214,690.

BUTTE COUNTY: Construct concrete bridge, F. Amoroso & Sons, San Francisco, \$59,930.

SHASTA COUNTY: 9.1 miles grade and surface, Frederickson & Watson, Oakland, \$186,243.

LOS ANGELES COUNTY: 3.8 miles grade and pave with Portland cement concrete, Oswald Bros., Los Angeles, \$144,668.

MENDOCINO COUNTY: Construct steel bridge, A. T. Howe, Santa Rosa, \$26,428.

MENDOCINO AND SONOMA COUNTIES: 13.9 miles surface, Basich Bros., Torrance, \$115,405.

MARIPOSA COUNTY: 15.1 miles surface, Frederickson & Watson, Oakland, \$146,094.

MONTEREY COUNTY: 7.4 miles bituminous surface treatment, Granite Construction Co., Watsonville, \$31,086.

COAST PERMITS EXCEED LAST AUGUST TOTAL

California Cities Report Figures Higher Than In July

Coast building permit totals in August were about 30 per cent higher than those for the corresponding month a year ago, according to reports from a hundred principal cities in the western states as compiled by DAILY PACIFIC BUILDER.

The total for the coast in August from reporting cities is \$5,845,602, compared with \$4,376,358 from the same group of cities for August, 1932.

The July total for the same group was \$6,290,699.

Permits in the principal municipalities of the state of California for August amounted to \$4,775,389, compared with \$4,740,124 in July and \$3,716,808 in August last year.

The following cities reported totals over \$100,000 for the month:

Berkeley	\$ 105,391
Beverly Hills	153,030
Glendale	102,225
Long Beach	577,755
Los Angeles	1,564,166
Oakland	221,110
Pasadena	131,539
Sacramento	104,391
San Diego	247,396
San Francisco	544,224
San Marino	146,425
Portland	259,130
Salt Lake City	152,270
Seattle	336,695

STATE BASIC CODE HEARING IS HELD HERE

Many Groups Protest Construction Industry Regulation Before Commission

The California construction industry Monday made its first attempt to complete a basic code of fair practices to qualify under the State Recovery Act.

A hundred representatives of groups from all branches of the trade and from every section of the state attended the public hearing on the proposed code sponsored by the State Builders' Exchange, Ltd. The session was held in the Corporation Commission quarters at the State Building, San Francisco, and was conducted by Deputy Commissioner A. Michel.

W. H. George, president of the San Francisco Builders' Exchange, appeared as spokesman for the sponsors of the code.

Commissioner Michel ruled that the state code must be considered apart from the national construction code, which is now before the NRA. He held that state authorities could take no notice of the Federal government proceedings until the national code actually had been adopted and signed by the President. At that time it will supersede any provisions of the state code with which there may be a conflict.

The commissioner also ruled that the state basic code would not include any reference to minimum wages or hours of labor for building craftsmen, except the general provisions relating to collective bargaining which are part of the state law. Hours, wages and working conditions are to be determined by each branch of the industry in the supplemental codes that will be filed by the several divisions.

Protests from many groups were filed with the commission prior to the hearing and spokesmen for the protestants were present. The objections were taken up in detail during the afternoon session and tentative agreements were reached on a number of controversial points. These will involve redrafting of some of the sections to make them generally acceptable and the proposal of new sections by some groups from which the commission will prepare provisions to be written into the final code draft.

Following is the status of the code provisions at the conclusion of the hearing:

(1) Accepted. Defines branches of industry affected.

(2) Deleted. Fixes Minimum wages.

(3) Deleted. Fixes hours.

(4) Accepted. Prohibits child labor.

(5) Deleted. Refers wage scales to boards of arbitration.

(6) To Be Redrafted. Creates administrative body.

(7) (a), (b) and (c) Accepted. Quoting collective bargaining provisions of state law.

(7) (d) Deleted. Permits open shop operation.

(e) Deleted. Deals with hiring and promotion of craftsmen.

(8) Accepted. Includes office employes in benefits of code.

(9) (a) Deleted. Requires supervision by architect or engineer of contracts.

(b) Deleted. Requires owner to specify type of contract.

(c) To be redrafted. Permitting owner to select any bidder from those submitting proposals.

(d) To Be redrafted. Similar to (c) applying to sub-contracts.

(e), (f) and (g) To be redrafted. Provides protection of contractors from bid peddling.

(h) Deleted. Prohibiting unsolicited bids.

(i) Deleted. Requiring owners to give evidence of financial standing.

(j) To be redrafted. Establishing methods of making payments on contracts.

(10) Deleted. Requiring contractors to abide by local trade conditions.

(11) Accepted. Requiring contractors to figure a "reasonable" overhead and profit in their bids.

(12) Accepted. Requiring contractors to figure their own labor in bids.

(13) Deleted. Prohibiting material men from selling to anyone outside the trade.

(14) Deleted. Establishing uniform prices for building materials.

(15) Accepted. Contractors to be governed by local building and sanitary codes.

(16) Accepted. Prohibiting defamation of competitors.

(17) Accepted. Prohibiting special inducements to obtain business.

(18) Accepted. Prohibiting special credit terms.

(19) Deleted. Prohibiting materialmen from quoting lump sum prices on orders.

(20) Accepted. Prohibiting labor contracts.

(21) Accepted. Including speculative builders under definition of general contractor.

(22) Deleted. Covered by State License Law.

(23), (24) and (25) Consideration deferred. Relating to proposed administration by State Builders' Exchange and local exchanges.

MORE STATE CODES FILED BY INDUSTRY

Plasterers, Electrical Contractors Propose Competitive Agreements

Additional CRA codes on file with the Commissioner of Corporations here yesterday included those of the Electrical Contractors' Association of Northern California, the California Conference of Master Plasterers, and the Lighting Fixture Association of Northern California.

Hearing on the lighting fixture code has been set for September 19 at Sacramento. Date for hearing of the other codes is expected to be set within a few days.

The Electrical Contractors' code, affecting two hundred firms, stipulates a maximum average of 30 hours per week for any three-month period, except that 40 hours may be permitted in one week, but not more than a total of 390 hours for the period.

Rates of pay are proposed as follows: Inside electrical workers, \$1.33 per hour; linemen, \$1.33 per hour; underground constructors, \$1.33 per hour; splicers, \$1.65 per hour; hangers, \$1.33 per hour; helpers, 50 cents per hour.

The Lighting Fixture Association code, affecting 23 firms in the Sacramento and San Joaquin Valleys, is designed "to rehabilitate the lighting fixture industry in the section, to increase employment and purchasing power."

The code proposes a 35-hour, six-day week. Minimum rates of pay are set at 35 cents per hour for helpers and 50 cents per hour for skilled builders.

Other codes affecting the building industry which have been scheduled for hearing include:

California Reinforcing Steel Institute, State Building, San Francisco, 10 a. m., September 18.

General Contractors' Association of Long Beach, Los Angeles, September 18.

A code was filed yesterday at Los Angeles by the Independent Truck Owners' Association, affecting 50,000 employes throughout the state and contemplating putting 10,000 additional employes to work. Under the terms of the code, the association would establish drivers' relief stations, with parking space, lodging and restaurants, in seven cities.

ATTACK GATE BRIDGE CEMENT SPECIFICATION

Pacific Portland Company
Protests Substitution Pro-
posed by Directors

Golden Gate Bridge District directors heard charges yesterday that use of high silica cement in the bridge piers, said to be contemplated by the bridge management, endangered the foundation construction.

Letters to the board from counsel for the Pacific Portland Cement Company were made public and Charles A. Ruckles, attorney for the same company, appeared before the directors to press his company's charges.

On September 1, Mr. Ruckles wrote to George H. Harlan, attorney for the bridge directors, as follows:

"A vigorous effort is being made by the engineering staff and at least one director to induce the Pacific Coast Aggregates, sub-contractors on the pier work, to break their contract with Pacific Portland Cement Co. and to use a type of cement never passed on as Portland cement or shown to have passed the requirements set up by the bridge district engineers."

To this Mr. Harlan replied in part last Monday to the Pacific Portland cement Co.:

"Do you contend you have a contract with the bridge district? If so, I'm astonished to learn of it."

This prompted another letter from the Pacific Portland firm, which read in part:

"The Pacific Portland Co. is surprised at your (Mr. Harlan's) attitude. We understand you are conversant with the whole situation and have advised Pacific Bridge Co. to substitute high silica cement for Portland cement. We believe you realize high silica cement is manufactured exclusively by the Santa Cruz Portland Cement Co., of which George T. Cameron is president.

"The Pacific Portland Co. is going to fight to preserve its rights against any and all comers."

James A. Keller, vice-president

NEW BID ON FEDERAL BLDG.

New bids will be asked for construction of the San Francisco Federal building, it was reliably reported here yesterday after the announcement in Washington that the Public Works Administration was studying a new list of Federal office building projects.

Bids were received for the San Francisco building on February 28. The low bid was submitted by N. P. Severin Company, Chicago, at \$2,548,000. This bid was withdrawn when it had not been accepted within 60 days.

Other low bids were those of Great Lakes Construction Co., \$2,597,952; Jacobsen Construction Co., \$2,675,000; George Wagner, \$2,690,000.

Arthur Brown, Jr., is the architect.

of the Pacific Portland Co., pointed out that chapter IV of the contract provided that "no director, official or agent of the district is personally interested in this contract or the compensation to be paid."

Mr. Cameron's position with the Santa Cruz company and the bridge district would invalidate the contract, Mr. Keller pointed out.

The company said that high silica cement had been rejected as inadequate for the San Francisco-Oakland bay bridge because it disintegrated under water.

The company charged that the substitution of cement might endanger the whole bridge. It asserted that the government refused to use the same type of cement on Boulder Dam and, leveling its attack on Mr. Cameron, the company said he was president of and held a large financial interest in the Santa Cruz Portland Cement Co.

Cameron Statement

Mr. Cameron, who was present at the meeting, did not reply to the attack before noon adjournment was taken. He authorized this statement for the press:

"The selection of cement for the Golden Gate bridge was entirely in the hands of bridge engineers, who made thorough investigations and ordered the cement where they deemed best."

PAYROLLS OF STATE GAIN, REPORT SHOWS

Labor Commissioner Survey
Reports Increase in Em-
ployes and Earnings

Statewide gains in construction industry employment are reported for the month of August by State Labor Commissioner Frank C. MacDonald.

The average increase in number of employes was 9.1 per cent over the July total, according to reports of 176 firms. The San Francisco-Alameda area led the state at large with a reported gain of 13.5 per cent. A gain of 10 per cent was registered in Los Angeles and 2.4 per cent for the portion of the state outside the two metropolitan districts.

Compared with August, 1932, the increase in the state average was 8.5 per cent; San Francisco, Alameda, 11.4 per cent; Los Angeles, 2.7 per cent; remainder of state, 15.3 per cent.

Average per capita weekly earnings were up 1.6 per cent on an average for the state compared with July and in the local area increased 9.2 per cent.

PALO ALTO NAMED TO FEDERAL BOARD

Frederick Hall Fowler, 221 Kingsley Ave., Palo Alto, has been appointed by Secretary of Interior Ickes as a member of the technical board of review, with headquarters in Washington. To this board will be referred engineering projects which have been adversely reported upon by state boards.

Fowler received his degree in civil engineering at Stanford in 1905.

In San Francisco

A welcoming room...an enterprising chef...a Union Square location (and that says volumes if you know your San Francisco) ...These are among the Plaza features that will brighten the days of your visit here † †
